Complex requests are further divided into medium, large, and extra-large sub-tracks based upon request size. Simple track requests typically require the least amount of time to process. Our complex requests in the medium processing track are currently averaging 1,230 days, large processing track are currently averaging approximately 2,010 days, and extra-large processing track are currently averaging 2,370 days for processing.

Your request is currently in the complex request large processing track, and the estimated date of completion for your request is November 2028. If your request is considered a complex track, considering reducing the scope of your request may accelerate the process as it could potentially place your request in a quicker processing track. This may also reduce any search and duplication costs, if applicable, and allow for a more timely receipt of your information. If you wish to discuss reducing the scope of your request, please indicate so and a representative will be in contact.
