QUESTIONS PRESENTED

1. Did California's Supreme Court and Chief Justice Cantil-Sakauye commit Misprision of Treason, Subversion, Seditious Conspiracy, and try to Overthrow the Judicial Branch when they intentionally violated the Supremacy Clause by refusing with scienter to apply binding U.S. Supreme Court precedent from *Yulee v. State Bar*¹ to nearly identical issues in *Missud v. State Bar of California* S226199 & A141459?
2. Were the narrowly-tailored Florida Bar regulations on Yulee's speech more or less restrictive than the California Bar's regulation over Missud's speech that's used to inform the public how judge\$ are targeting them for financial predation?
3. Is regulating a Florida attorney's speech regarding solicitation of campaign funds more intrusive of the 1st Amendment than the California Bar's stripping Missud of his Bar license for having exposed judicial racketeering?
4. Does disbaring 5+ year federal informant Missud "promote confidence" in the legal profession & justice system as in *Yulee*, or is that a simple means to conceal judicial corruption which is endemic in state & federal courts where judge\$ abuse 'absolute judicial immunity' to sell decisions to friends, corporations, and other special interests?
5. Will John Robert\$ admit that he already Denied Reviewing 10 criminally-proven Writs because each proved to criminal standards that judge\$ like him routinely sell their orders to special interests in what are acts of treason against the United States and its 319,000,000 real, flesh-and-blood, non-corporate People? ²

LIST OF PARTIES

All interested parties do not appear on the cover's caption. Well over 100 state & federal judge\$ who already sold decisions, rigged hearings, railroaded actions, or otherwise scuttled a case, appeal, or writ should now be terrified of going to prison for at least Honest Services Fraud, 18 USC §201 Corruption, §1962 Racketeering, and §2381 Treason & Overthrow of Government.³

319 Million Americans who've had their constitutionally-mandated neutral judiciary commandeered by corporation\$, \$pecial intere\$t\$ & corrupt judge\$ want their "government of and by the people" back, and are hence interested parties too.

RULE 29.6 CORPORATE DISCLOSURE STATEMENT/CERTIFICATE OF INTERESTED ENTITIES

All State and federal judge\$ are financially-interested in this Writ. That's the problem. Judge\$ are \$elling decision\$, order\$, and ruling\$ because 'absolute judicial immunity' made most of them absolutely judicially corrupt.

INDEX OF APPENDICES

All the orders, rulings, transcripts, and other concrete evidence permanently registered in and for: Bar Court Trial 12-O-10026, Bar Court Review of the same, California Supreme Court Writ of S222905 and this related S226199, were already forwarded to the FBI and DOJ's Criminal Division. Many of the documents are already uploaded to the web at several sites including:

<http://www.sanfranciscosuperiorcourtfraud.com/-tate-bar-racketeering.html> and <http://www.judgesforsale.org/cal.--upreme-court.html>. A supersite will easily be created whereat every transcript will be posted to fully expose the California Bar's criminally-proven racketeering, it's equally as corrupt Supervising Supreme Court, and each and every judge who participated in sedition and high crimes.

Just like at the Bar's website where corrupt Bar and Supreme Court judge defamed Missud with their fraudulent Decision & Order of Missud's Involuntary Disbarment, Missud will expose every judge's corruption, racketeering, and much higher state & federal crimes to guarantee their reputations are destroyed, they are financially devastated, and then at least die in prison for subversion, sedition, and misprision of treason if not sentenced to capital punishment under 18 USC §2381.

319 million Americans and consumer protection agencies already have access to all the same documents that this corporate-bought, ultra-conservative, *Citizen\$-United*, Koch-Brother\$ controlled U.S. Supreme Court will consider if granting Petition for Review.⁴ Attached hereto, referenced in, and in support of this Opening Brief are FRE Rule-803 documents and records which aren't subject to casual dismissal or intentional ignorance of for any reason. They must be acknowledged and considered for their substantive content. Failure to follow FRE-803 will cause Chief Justice Robert\$ to be convicted of high-crimes including treason and undermining American democracy which he swore to uphold.

⁴ It won't happen. Chances are that Johnny Robert\$ won't even docket this Writ like that of S222905 because it was also criminally-proven when filed. That's why duplicate copies of this Writ of S226199 were concurrently sent to the DOJ's Criminal Division. That way, when SCOTUS denies the docketing of this Writ, it will corroborate that John Robert\$ is a traitor deserving of the death penalty.

Robert now has to explain why California's Supreme Court failed to apply binding *Yulee* holdings in S226199 which showcases how California's Member-run Bar and Bar Court judge orchestrate a variety of RICO Scheme to assist their own Bar Member who steal from the public and 38 Million Californians.

APPENDIX A contains the one-and-only page of the California Supreme Court's 5/13/15, 2-part Order in S226199 which Denies: (1) Writ of Mandate which should have legally forced Appeals Division-IV to apply controlling SCOTUS law from *Yulee* in Appeal A141459; and (2) Stay of 18 USC §1513(e) Retaliatory Sanctions crafted to chill Missud's speech and bury brazen judicial racketeering.

APPENDIX B contains Division-IV's illegal Refusal to apply *Yulee* in A141459. The judges feigned that jurisdiction had passed when in fact an intervening and superseding change in law called *Yulee* was published by the U.S. Supreme Court. *Yulee* holdings were timely brought to Division-IV's attention, but the judge nevertheless ignored SCOTUS law. Their Refusal was very unconstitutional and in stark violation of the Supremacy Clause.

APPENDIX C contains the official 749-page Bar Court transcript proving how California's Member-run Bar feigns to be a consumer protection agency but is actually a phucking racketeering organization having only its own Member's financial interests in mind. Actually, to save paper, why don't you get the official hearsay-exempt transcript which is forever registered in 9th Circuit 15-80079 #8-1 on 8/5/15.⁵ Therein you'll glean the hundreds of lies that Bar Court judge ignored to rig my Involuntary Disbarment. Really phucking sad, isn't it?

APPENDIX D is just the below hypertext link to the Member-run Racketeering California Bar's website and Member details for 5-year Federal Informant Missud who was disbarred by Chief Justice Cantil-Sakauye on March 18th 2015 for having cooperated with federal authorities to bust corrupt judge like her:

2. FBI INVESTIGATIONS OF CORRUPT OFFICIALS AND JUDGES

A. In 1984, the FBI's Operation Greylord nabbed 92 felons including 17 corrupt Cook County Chicago judges who were taking Hobbs Act cash to line their own pockets. That sting led to others called Lambat, Lantern, Silver Shovel, etc.⁷

B. In 2009, the FBI exposed two self-interested Presiding Judges named Conohan & Ciavarella who stripped juveniles of due process, and then falsely-imprisoned them for cash kickbacks from corporations in which they had financial ties.⁸

C. In 2014, the US DOJ exposed massive civil rights violations in Ferguson MO and produced a scathing report detailing how officials and judges considered African Americans as 2nd class citizens not entitled to fundamental rights.⁹

D. In this 2015 Operation Greylord-II, the FBI & DOJ will round-up more judges than all other FBI stings *combined* in the history of these United States. I'll be surprised if less than 90% of all state & federal judges aren't rounded-up for some form of corruption and/or racketeering. That's how badly "absolute judicial immunity" infected and infested our absolutely corrupt judicial system.

OPINIONS BELOW

IN THE SUPREME COURT OF THE UNITED STATES PETITION FOR A WRIT FOR CERTIORARI, Petitioner respectfully prays that a Writ of Certiorari issue to review the judgment below.

A. The California Supreme Court's [CSC] May 13, 2013 "Denial of Writ of Mandate" and brazen refusal to force a lower state court to apply the Supremacy Clause and binding precedent in *Yulee v. Florida Bar* is attached as Exhibit A.

B. The 1st District Court of Appeal Division-IV's May 8, 2015 Order refusing to follow the law of the land appears in [Appendix B](#) to this Petition. It's the most brazen violation of Constitutional Law ever recorded in these United States.

JOHN ROBERT YOU PHUKING PRICK- If you don't acknowledge that California's ultra-corrupt Supreme Court, Court of Appeal, and Member-run State Bar are racketeering organizations with only their own Member's financial and criminal interests in mind, then you'll swing from a noose as punishment for Treason, Sedition, and Overthrowing Government under 18 USC §2381.

JURISDICTION

This Court's Jurisdiction comes under 28 USC §1257(a). California's Supreme Court finally & illegally Denied Writ of Mandate requiring that this U.S. Supreme Court's binding *Yulee* precedent be lawfully applied to criminally-proven appeal A141459 on May 13, 2015. It's been less than 90 days since California's Supreme Court violated the Supremacy Clause so this Writ is ripe & timely.

CONSTITUTION AND STATUTORY PROVISIONS INVOLVED

As *this Supreme Court explained* in a recent opinion regarding the Hobbs Act: "[a]t common law, extortion was an offense committed by a public official who took 'by color of his office' money that was not due to him for the performance of his official duties. . . . Extortion by the public official was the rough equivalent of what we would now describe as 'taking a bribe.'" *Evans v. United States*, 504 U.S. 255 (1992).

To show a prima-facie violation of the Hobbs Act under this holding, "the Government need only show that a public official obtained a payment to which he was not entitled, knowing that the payment was made in return for official acts." 1st, 5th, 14th Amendment Rights to Redress Grievances, Due Process, Equal Protection, Fairness, Court Access, etc. Whether in federal or state court, where an individual is facing deprivation of life, liberty, or property, procedural due process mandates that he or she is entitled to adequate notice, a hearing, *and a neutral judge.*

"no person shall be deprived of life, liberty, or property, without due process of law; no state shall ... deny to any person within its jurisdiction the equal protection of the laws."

This \$COTU\$ Petition for Writ and under-lying Review and Trial prove beyond any shadow of doubt that the C\$C and Bar Court judge\$ are rigging di\$barments to prevent exposure of statewide judicial racketeering and the financial targeting of a potential 38 Million Californians.

18 USC §1513(e); Retaliating Against an Informant:

"Whoever knowingly, with the intent to retaliate, takes any action harmful to any person, including interference with the lawful employment or livelihood of any person, for providing to a law enforcement officer any truthful information relating to the commission or possible commission of any Federal offense, shall be fined under this title or imprisoned not over 10 yrs, or both."

To try and cover-up their crimes: the Member-run Bar; Bar Court judge\$ McElroy, Armendariz, Purcell, Remke, and Honn; and the C\$C's Chief Thief Cantil-\$akauye first rigged my Trial, then put me "Involuntary Disbarment," and finally \$truck me from the Roll of Licensed Attorneys. They brazenly interfered with my lawful employment and livelihood because I exposed their statewide crimes to federal authorities. For that they'll each get convicted, sentenced, and then sent to state and/or federal prison.

California PC §136.1(a/b/c), 139, 140; Dissuading a Witness or Victim from Testifying About or Reporting Crimes

Basically, all subsections of PC §§136.1-140 prohibit dissuading a witness or victim of a crime from testifying in court, or reporting crimes to law enforcement. The Member-run State Bar has done everything possible to prevent me from exposing how state and federal judges ignore all facts and laws to craft corporate-favoring orders, or otherwise rule in favor of special interests. They even railroaded my disbarment on March 18th 2015 so I can't help the public expose how they are also being financially preyed upon by corrupt Members and corrupt Members turned equally as corrupt judges.

INTRODUCTION

This pleading contains hypertext links allowing 3rd parties getting it electronically to access web information. Law enforcement, syndicated media, consumer protection agencies, and thousands of lowly non-corporate citizens who've been preyed upon by corporate 'citizens' already received it by electronic means, and are similarly considering the same Questions Presented that will be ignored by SCOTUS to cover-up the open & notorious judicial corruption.

IFP status is concurrently requested. Petitioner Missud has been a Qui-Tam whistle blower, Federal Informant, and California Private Attorney General for over five years. In that time, most judges & courts like Robert & SCOTUS have needlessly increased Missud's costs of litigation and otherwise made prosecuting all cases, appeals, and writs very expensive in hopes of derailing his exposure of judicial felonies.¹⁰ Hopefully this time Robert agrees and realizes that Missud "provided to law enforcement information relating to the commission of a Federal offense- namely judge's racketeering; truthfully informed federal authorities of crimes- namely judicial corruption; that "a significant benefit has been conferred on the general public" -namely knowledge that hearings and cases are rigged for

¹⁰ As a matter of documented fact, Robert increased costs of litigation 11 times in 11 criminally-proven Writs to prevent exposure of rampant judicial racketeering. the Special Interest; and that the necessity and financial burden of private enforcement are such as to make the [granting of IFP status] appropriate” [Id].

BRIEF-ISH STATEMENT OF THE CASE

This is an ultra-simple, crystal-clear case of brazen official & judicial corruption which I exposed as a federal mole. Then as my reward for cooperating with federal authorities, California’s Supreme Court disbarred me. In fact, I testified at a Hearing before 9th Circuit Magistrate Judge Peter Shaw just last week on August 4th 2015 regarding the very issues sought to be reviewed in this Writ.

The 9th Circuit & Shaw held that Hearing to determine whether they should reciprocate California’s disbarment in the District & Circuit Courts. The issues are identical. My 90-minute sworn testimony is supposed to already be uploaded to the Circuit Court’s own website, but for some reason has so far been illegally censored: <http://www.ca9.uscourts.gov/media/>. Why is that?

In a nutshell, California’s Bar and Supreme Court are lying they ‘regulated’ my Bar license by revoked it because I’m a danger to the public. However, the truth is that my license was revoked because I use it to ferret-out corrupt judges whom are more ubiquitous than water in California these days thanks to ‘absolute judicial immunity’ that corrupted the judges absolutely.

What I simply demand from John Roberts is that he force California’s Supreme & Appellate Courts to apply controlling law found in *Yulee*, per the Supremacy Clause, and to S226199 & A141459. The holding in *Yulee* is that state Bars like Florida’s & California’s have compelling interests in regulating Bar Members and their 1st amendment speech to “promote confidence” in the legal profession & system. However, when Bars ‘regulate’ whistle-blowing Members by stripping them of their licenses to prevent them from exposing other corrupt Members & judges, then that’s an extreme violation of the 1st amendment, illegal racketeering act, and destroys all confidence in the ultra-corrupt legal profession & system. The public now needs to know that the legal system is rigged against them by corrupt Self-interested Member & judge.

This is the easiest Writ for Certiorari that has ever been submitted to and docketed by the U.S. Supreme Court and Scott Harris.

John Robert's easy review of this criminally-proven Writ of S226199 can simply begin by basically reading pleadings and FRE-803 evidence already filed in 9th Circuit 15-80079, including the 749-page Bar Court Transcript catching 3 of the Bar's 4 star witnesses in lie. That Transcript forever-memorializes how Bar Court Judge Armendariz ignored: their crystal-clear impeachment while under oath; and hundreds more official government & court documents, orders, and transcripts proving Judicial Corruption to criminal standards.

Said Judicial Corruption can best be explained by detailing the following Judicial Racketeering: A. Civil Court judge's deal-making; B. Bar Trial-rigging to prevent exposure of Civil Court judge's deal-making; C. Appellate Court rubber-stamping of the Bar's Trial-rigging to prevent exposure of rampant judicial corruption; and D. California Supreme Court Chief Justice Cantil-Sakauye's collusion with the Bar's Trial-rigging and Appellate Court's rubber-stamping to prevent exposure of Civil Court judge's deal-making, -and going so far as to violating the Supremacy Clause and essentially telling John Robert to go phuk himself with his *Yulee* holdings.

A. Judge's Deal-Making, Corruption, and Racketeering

Judge in every court division hide behind "absolute judicial immunity" to favor friend, deep pocket, the well-connected, corporation & special interest. Judge ignore facts, lie about not getting pleadings, twist law, and then feign that 'mistakes' were made while performing "judicial functions." However, those supposed judicial functions never include subversion, sedition, undermining the rule of law, rigging hearings, and/or railroading cases. All those are intentional acts of treason and overthrow of government since cases ought to be decided by *neutral* judges, or better still- disinterested juries of ordinary citizens, who per the Constitution are entitled to a government of and by themselves- "the people."

1. **Civil Court** judge\$ love their Hobb\$ Act bribes. 18 USC §201 Corruption runs rampant in the Law in Motion Department. Before neutral juries get any cases, judge\$ make back-door deals to scuttle cases or send them into a black-hole called Alternative Dispute Resolution. Other judge\$ love to lie that services of Summons and Complaints are defective to increase plaintiffs' costs if they have less clout & money than defendants. Judge\$ entertain frivolous Motions to Strike basing their tenuous decisions on razor-thin corporate arguments. Deep pocket\$' Demurrers are granted despite laws and facts proving that claims are lawful and properly supported. Another favorite judicial ruse is to say that concrete evidence doesn't support claims and therefore cases must be dismissed. Judge\$ love saying they didn't get courtesy copies of pleadings to kick the can down the road by months and increase litigation costs by thousands. Where city, county, or state agencies are named, judge\$ always side with their employers and feign that claims hadn't first been served on government entities to rid themselves of even the most criminally of proven cases. Law in Motion Departments should actually be called Three Ring Circuses because that's where Circu\$ Ma\$ter\$/Judge\$ perform their magic act\$ (of sedition).

2. Judge\$ also love **Alternative Dispute Resolution** and orchestrating Federal Arbitration Act Racketeering with retired colleague\$. Active Civil Court judge\$, force litigants into secretive quasi-judicial arbitration whether or not jurisdiction exists. Corporations contemplating fraud in their contracts of adhesion even get judge\$ to rig ADR where litigants are made to sign confidentiality agreement\$. Judge\$ don't care if litigants ever agreed to arbitrate as required under FAA §2. They'll lie that a party did, or claim an agreement is valid even though officially void. If a corrupt judge want\$ to rig an arbitration before retired friend\$, then that's what happen\$. Once at the NAF, JAM\$, AAA, or ADR \$ervice\$, repeat-bu\$ine\$\$, deep-pocket\$ like bank\$, insurance companie\$, hospital\$, and lender\$ get retired judge\$ to skew award\$ in their favor. Private litigants never win because retired judge\$ only 'earn' their grossly-inflated wages if they routinely rig

award\$ for the repeat-bu\$ine\$\$ entities which pay them off to rig results. Those Award\$ are then always confirmed by the same active judge\$ who rigged ADR to begin with. The active judge\$ blindly affirm the fraud because they also \$seek to make enormou\$ \$um\$ of money by rigging arbitration\$ once retired and leaching pensions from the same taxpayers they set-up at arbitration.

3. **Traffic Court** judge\$ never bite the hands that feed them. They know their Traffic Divisions are fully-funded by the color-of-law citations & fines they enforce. No matter what exculpatory evidence is brought to court, it\$ never enough because municipalities and Traffic Division\$ need the ca\$h to keep flowing. Otherwise the judge, bailiff, court staff, police, and other agents don't get paid and municipalities' coffer\$ don't get stuffed with ca\$h. That's exactly what happened in Bell-CA and Ferguson-MO until the federal DOJ put a stop to it by raiding Bell, and investigating Ferguson. Right now in the \$an Francisco \$uperior Court is a criminally-proven case of Ferguson on steroids awaiting Summary Disposition. Case CGC-15-545303 is docketed for Summary Judgment on October 26th 2015 and it already proves to criminal standards how San Francisco agencies target mostly minorities for illegal revenue-raising. The civil rights violations by the City by the Bay are orders of magnitude worse than in Ferguson.¹¹

4. **Family Court** judge\$ have the extra added benefit of sealed record\$. Tho\$ judge\$ hold hearing\$ in secret and never po\$t any decision\$. That means the wealthier parent can buy justice behind closed doors. If a vindictive mother of a minor child has family wealth, then \$he and her money-bags dad can strip the child's father of all parental rights despite Supreme Court precedent forbidding the same without full evidentiary hearings. If those closed-door deliberations were ever made public, then they would expose how a mother'\$ purchase of the Family Court judge with daddy's wealth stripped a father of all his rights. Thi\$ is an actual \$an Francisco \$uperior Court case- FDI-03-753770.

5. The worst of the worst are **Criminal Court** judge\$ who'll falsely-imprison mostly black & brown çitizens because their Criminal Division\$ are fully-funded by the bail\$, fine\$, restitution, and color-of-law plea 'deal\$' struck and enforced. Judge\$ & District Attorneys collude to pad Pre-Booking charges with offenses that weren't committed or can't be proved. That way, they boost the amount of bond\$ required to cover bail to procure inmates' freedom. A typical scenario can be just like this: A corrupt official conjures-up, contrives, and presses a false charge against a whistle-blowing çitizen to cover-up his own official crimes. Then, the Sheriff's Dept. takes the innocent çitizen to County Jail where a Pre-Booking Information sheet lists two additional crimes that also weren't committed. Rather than having to post a bond on just \$25,000 bail, the çitizen has to post a bond twice as large on \$50,000 bail. Then at arraignment, the last two bogus charges are dropped, but the County already collected on the \$5000 bond. That way, a cool \$2500 is instantly made by the criminal ju\$tice \$y\$tem, and a plea 'deal' can be extorted from the innocent victim of false-imprisonment.

Another favorite revenue-raising ru\$e which Criminal Court judge\$, DA's, and 'law enforcement' love to orchestrate is setting bail in excess of what's legally allowed. Under the Constitution's 8th Amendment that's called excessive bail. A typical scenario can be just like this: Three trumped-up charges having bails set by statute for a total of only \$36,000 can be inflated to \$50,000 so that an extra

premium is collected to buy-back a citizen's freedom. A 10% bond of that unconstitutional \$14K coverage is \$1400 from which the County siphons money for such things as hearings & related expenses, and thereby keeping the County's coffers stuffed with cash. Normally, inmates don't research bail schedules or know about 8th Amendment violations so don't know their incarceration was illegally procured. Inmates not having the money to bail-out or pad County coffers with have to spend time in prison because they can't pay extortion. As always, black & brown men are the favored targets of racist judges who fill jails to get paid bank.

Worse still is that judges and their Criminal Justice System will railroad trials to ultimately collect on the full color-of-law fine. For instance, if the County needs or wants a \$25,000 fine based in a trumped-up charge, then the judge will rig all hearings and case to guarantee the \$25k gets coughed-up after a speedy *and railroaded* trial. Judges, DA's, and even Public Defenders will extort pleas to collect cash or otherwise threaten that accused with (additional) jail-time if they don't capitulate to the revenue-raising extortion & exploitation. More often than not, it's Hispanics, black people, and lower socio-economic groups who are thusly victimized through these many money-grubbing schemes. People of color are truly that. They're all money-green in the eyes of the law.

Know that this week on August 10th 2015, Petitioner and 5-year federally-protected whistle-blower and mole Patrick Missud will attend another rigged interview with court-appointed Psychologist John Greene who's assisting corrupt judge Ryan to rig my Trial in C1502123. So far, Ryan's criminal activities are breathtaking. It's highly probable that every defendant who's appeared in her Dept. 30 will have their case overturned based in her crystal-clear judicial racketeering.

B. Bar Trial Rigging to Prevent Exposure of Civil Court Judge's Deal-Making

Quite simply, the Bar's Trial Judge Armendariz 1st rigged Trial 12-O-10026, and then Review Department judge Honn & Purcell closed-ranks and rubber-stamped her initial fraud. Nothing in Armendariz' Decision & Order of Missud's "Involuntary Disbarment" is true.

1. In fact, even at five **Pre-Trial Conferences**, Armendariz was caught in blatant lie\$ already trying to scuttle the Trial. \$he and \$enior Bar Trial Coun\$el Denning\$ are recorded in four Pre-Trial Transcripts lying about not getting Missud's Pleadings which were verifiably mailed, emailed to their official government addresses, registered in two federal RICO cases, and automatically served on state DOJ defense attorneys-of-record in those cases.¹² Armendariz simply wanted to illegally ignore overwhelming evidence of judicial corruption concurrently filed with those positively served Pleadings. She even threatened to give Dennings immediate summary judgment on two occasions to quickly dispose of 12-O-10026 no que\$tion\$ asked. Worse still, on 1-22-13 Armendariz allowed the financial predation of a Contractor named Wong, -who attended that hearing to invoke Bar Court Rule 5.109 and tell her about three Bar Member\$' frivolous insurance-fraud, shake-down lawsuit that was fraudulently based in a \$50,000 damage estimate which never existed.¹³ Rather than protect Wong and the public from 3 corrupt Member\$' brazen fraud, Armendariz wa\$ dead-\$et on rigging my disbarment because I was exposing how the Member-run Bar is a criminal organization advancing only it\$ own corrupt Member\$' financial predation of the public.

2. The rigged **Bar Court Trial** lasted from April 15-19th 2013. Every official transcript, damning corporate admi\$\$ion, and self-authenticating government record was ignored by Armendariz. Three of four \$tar witne\$\$e\$ appearing for the Bar were even impeached on the stand while under oath.

Witne\$\$ #1 was none other than Civil Procedure Law Professor, Author, and Mental-Maven James Wag\$taffe. Jimmy couldn't explain how judge Woolard admitted not having jurisdiction over a litigant but then ordered him to cough-up \$56k to \$24 Billion All\$state In\$urance which rigged arbitration at ADR \$ervice\$ in case CGC-07-464022. Jimbo also couldn't explain how judge Woolard in a 2nd case CPF-10-510760, ignored that a 1st never-recorded agreement to arbitrate was

¹² C:12-3117, C:12-5468

¹³ Corrupt Bar Member\$ Rose Tsai, Timothy Nardell, and Houman Chitsaz wanted to shake Wong down

voided by a 2nd acknowledged instrument officially recorded on-title, to instead force that litigant into a rigged JAMS arbitration before her good friend and retired judge McDonald who was hand-picked to steal the victim's million-dollar condo.

Witness #2, Leonard Marquez testified that his client, the \$16B predatory loan originating DHI Corporation, was harassed by Missud because he discovered over 400 of its victimized families 1½ years before the Mortgage Meltdown that caused \$4 Trillion in real estate equity losses triggered in large-part by DHI's predatory lending. Armendariz ignored that Lenny brazenly violated *Tenderloin v. Sparks* when he knowingly scheduled an Ex-Parte Motion the day before Missud was to return from vacation. Marquez got judge Wick to illegally quash discovery which would have exposed more of DHI's predatory loans that caused the near financial collapse of the US Government's Freddie, Fannie, and Federal Reserve.

Witness #3 was Joel Odou who rigged case dismissal of C:11-3567 with District judge Chen. Joey also testified that DHI was harassed by Missud because he gathered hundreds of FTC, HUD, FBI, and SEC records proving to criminal standards that DHI originates predatory subprime loans and extorts consumers into taking them to boost its own corporate profits while knowingly fast-tracking home-buyers into bankruptcy & foreclosures. That's also what caused the overnight bankruptcy of Bear-Stearns, AIG, and Lehman Brothers. Joe wouldn't admit he illegally mischaracterized Nevada Presiding judge Gonzalez's corporate-bought Order to collect DHI's sanctions that were then domesticated in California by buying-off judge Giorgi. Gonzalez's Order specified that Mrs. Missud was exempt from judgment, but Odou lied in Sheriff lien paperwork that she was an additional judgment debtor. Liar Odou did that to financially retaliate against the Missuds, and prevent Mr. Missud's further exposure of DHI's nationwide racketeering which includes Hobbs Act purchase of judges like Gonzalez, Chen, Giorgi, Armendariz, Honn and Purcell.

The 5-day Trial Transcripts were so damning with those three witness impeachments (*and* on-record presentation of 5000+/- documents¹⁴ not subject to casual dismissal for any reason since all were self-authenticating California Rules of Evidence §§450 proof) that the Bar illegally withheld all 749 pages for 41 days. Missud immediately paid for and demanded the Transcripts that were quickly transcribed by May 21st 2013. However, the Member-run Bar, which specializes in fraud, leisurely produced them on July 1st 2013 concurrently with Armendariz' rigged D&O. That very, *very* tardy production prejudiced Missud's case because he could have detailed the 100+ lies Armendariz was caught in, -per the official Transcript's pages -which are suitable to impeach even judges like Armendariz.

Worse still, the Member-run Bar *whose Members don't want to be exposed as racketeers*, purposely withheld Transcript pp. 433-599 since they contained the most damning evidence catching Armendariz in lies and rigging her D&O. Missud had to federally-subpoena those pages directly from the Court Reporting Agency that was instructed by the Bar *to illegally withhold* the subpoenaed public records.

ATTENTION good-as-convicted-for-subversion John Robert: The "voluminous exhibits submitted with Petition of 12-9413" which: include the 749 pages of Bar Court Transcripts for rigged 12-O-10026; and were returned by you because they incriminated over 100 civil court judges, are now officially registered in 9th Circuit case 15-80079 for the world to see. Therein, Armendariz is caught in over 100 lies including giving 3 of the Bar's 4 star witnesses 'get out of jail free cards' for their perjury under oath. YOU John Robert will be EXECUTED FOR TREASON if YOU again ignore this FRE-803 self-authenticating evidence of Bar Court racketeering for a second time in Review of S226199.

¹⁴ The overwhelming proof included 60 civil court transcripts catching dozens of judges in lies in their own courtrooms. Said lies were as simple as: feigning non-receipt of federally tracked mail delivered directly to their chambers, flunking 1st grade math like $1386 = 4000$, ignoring FRE-803 evidence which must be acknowledged by law, admitting lack of jurisdiction and then ordering litigants over whom they have no power to cough-up tens of thousands of dollars to the judge's well-connected friend, and ignoring valid agreements but recognizing defunct ones to rig million-dollar arbitration frauds.

3. The **Review Department** is an essential cog in the Bar's RICO machine. No rigged Trial is complete unless the Review Department's judge naturally agree with the Trial Court judge. Does anybody really believe there's any independent review in a court system which employs only 8 judges -all of whom work together all the time? Such was the case with rigged 12-O-10026. After Remke retired from the Bar's Review Dept. and Epstein recused, remaining judges Purcell & Honn were tasked with blindly affirming Armendariz' fraudulent D&O. They also ignored all the same documents that will get Armendariz a life sentence for Honest Service Fraud and as a co-conspirator in the Bar's racketeering. On October 1st 2014 the Bar racketeer supported: corporate predation of the masses; concealed judicial FAA racketeering, and suppressed proof that Civil Court judge routinely dismisses cases for the special interest -especially when they're government entities which pay judicial salaries & benefits as in CGC-15-545303.

C. Appellate Court Rubber-Stamping of the Bar's Trial Rigging

California's First District Court of Appeals Division-IV already rubber-stamped Bar Court Racketeering in A141459 and is poised to do the same in related A143554 & 144527.¹⁵ The judge's lucrative criminal organization will implode unless they cover for the Bar which in-turn give them cover in what's a fabulous example of 'I'll scratch your back if you scratch mine.' Federal Whistle Blowers who expose corrupt judges get targeted by the Bar for trumped-up investigations & disbarments. Likewise, Whistle Blowers who expose Bar RICO in civil courts get their cases summarily dismissed by corrupt judges who also impose sanctions to send the crystal-clear message that the self-interested Member-run Bar and former Member turned corrupt judge collude to insure that the legal [lethal] community targets the public at-will for any & all financial predation more sinister & nefarious than other white collar crimes committed by felons lurking around Wall Street.

1. **Appeal A141459:** Wow is the docket for this appeal amusing [See fn-15 supra]. On 5/5/14, I “Missud” filed a Request for Supersedeus simply asking Division-IV to force Superior Court judge Elfving to follow California Rules of Evidence §450 et seq., and acknowledge self-authenticating evidence including official court transcripts and USPS records. However, Div-IV didn’t compel corrupt judge Elfving to follow basic rules, but instead allowed the felon to continue rigging the case under appeal. I also asked that Elfving’s color-of-law retaliatory \$11,705 sanction be stayed pending resolution of the appeal, but since Div-IV wanted Elfving to railroad the appeal to begin with, that lawful request fell on deaf & dumb ear\$. Then on 5/12/14, I set-up the four Div-IV dolt\$ some more. I submitted official Civil & Bar Court transcripts catching lot\$ of dopey judge\$ in lie\$ as simple as feigning non-receipt of federally-tracked mail that was virtually pinned to their foreheads. However, Div-IV again refused to admit how nearly all absolutely judicially immune judge\$ are felon\$ since ab\$olute judicial immunity corrupt\$ ab\$olutely. On 5/19 I set-up Chief Thief Cantil-\$akauye of California’s corporate-bought \$upreme Court. I asked her to force Div-IV to follow its own CAR Rules, but \$he: refused because ‘the fix’ was long-since in; and wanted to railroad my disbarment for at least a year. On 10/8/14 the Member-run \$tate Bar wanted to dispose of Oral Argument in just 5 minutes. I protested because the Bar is involved in so much RICO that at least a month’s argument is needed to scratch the surface. Then on November 4th, I requested Div-IV to Augment the Record with yet more official proof that the lower case was rigged, but wouldn’t you know it, they punted on my legal request until they crafted a railroaded decision. On 12/24 I explained that Augmenting the Record was mandatory and not subject to judicial discretion because of a couple of little things called due process & equality. Neverthele\$\$, four Div-IV dolt\$ denied looking at transcripts catching Elfving lying about not getting pleadings to rig a related case. I guess that lying is commonplace in the \$uperior & Appellate court\$ and isn’t reason for pause to guarantee fundamental rights. Div-IV though did at least have the decency of

setting Oral Argument for January 13th 2015. *Remember this date!* Then on December 29th I Opposed the Member-run Bar's 18 USC 1513(e) \$17,568 Financial Retaliation against me for having spilled the beans to the feds who've been monitoring the Bar's self-destruction. On January 2nd, after drinking lots of water to rehydrate from the New-Year festivities, I requested a status update because Div-IV was dragging their collective feet. By January 5th I filed a Writ with Cantil-Sakauye to set her up regarding rigged Bar Court case 12-O-10026, and which was directly relevant to Div-IV's anticipated rigging of Appeal A141459. Then came January 9th when the corrupt Member-run Bar notified me that a guy named Gill would appear at the following week's Oral Argument. Fabulou\$! You know what else happened on January 9th? Judge Elfving had me illegally-arrested just five minutes after he rigged: more of the same case under review in this A141459; *and* a 2nd criminally-proven case featuring how San Francisco preys on minorities in the same way that Ferguson-MO did. No joke! Elfving rigged a Demurrer of the 2nd case asking a San Francisco defense attorney about his best strategy for rigging the next hearing with a Demurrer. That's at page-20 of the official court transcript for cases CGC-14-536981 & 537723. Just 10 minutes later at 10:45AM, I was handcuffed for exposing Elfving's subversion & financial predation of Hispanics and African Americans because he thinks they're 2nd class citizens not worthy of constitutional protections. While Sheriffs made sure I was falsely-imprisoned for 16 hours, a criminal court magistrate set my first arraignment date to coincide with that **January 13th 2015 Oral Argument** before Div-IV where I was to expose Elfving's rigging of all those hearing\$ for the ca\$e under review in A141459. All the stars lined-up that day for corrupt civil court judge Elfving who has lot\$ of friend\$ in the criminal court and Court of Appeal\$. How *lucky*. He should have bought a lottery ticket! At 3AM January 10th, I bailed-out with a \$4000 bond¹⁶ -twice the amount required to cover the County's egregiou\$ 8th Amendment excessive-bail violation\$. I slept-in on the day

¹⁶ Reduced from \$5000 with my "professional discount."

of my release, and on January 12th, quickly Motioned to delay San Francisco's Oral Argument since I suddenly had to simultaneously appear before Santa Clara's judge Ryan for the rigged criminal case that Elfving initiated to keep: me from attending Oral Argument in San Francisco where I was to expose him, and himself out of prison for sedition and rigging 3 case di\$mi\$\$al\$ on behalf of lot\$ of \$pecial intere\$t\$. By then, Div-IV: knew I was pissed; and figured they'd better cut me some slack after I bent over and coughed 3 times for no other reason that I exposed Elfving's \$ high-crime\$. Getting justice from Div-IV is harder than pulling your own teeth and performing your own open heart surgery. On January 14th, I tried Augmenting the Record with that self-authenticating January 9th transcript documenting Elfving's FIFTEEN phuking lie\$ including rigging a Demurrer with a defense attorney, but the Fab-Four refused that too. They did at least end up re-scheduling Oral Argument for January 27th. Then on the 23rd, the criminal organization also known as the Bar swapped Lee for Gill at Oral Argument. Extra-fabulous! Wouldn't you know it, Santa Clara's \$ Criminal Court *again* scheduled a superseding & intervening hearing to conflict with that 2nd re-scheduled Argument where I was to expose Elfving's high-crimes of overthrowing government by rigging cases in his non-neutral judicial branch & kangaroo court. All these phuks need to be gassed after convicted of treason. This time Div-IV tightened the screws. They told me tough-\$\$!t and we're going to make you come at the appointed date & time. On January 26th, I went to my rigged 1:30PM Santa Clara hearing which was *called last and dragged-on for hours*. I finally got home at 7PM and started prepping for the next day's Argument at the crack of dawn. I used the whole 10 minutes [600 seconds] that Div-IV generously gave me to expose rampant judicial RICO before they kicked me out of court. Lee didn't even fill-up two minutes of her allotted time. \$he must have had an epiphany: "Hear, \$ee, and \$peak no Evil" comes to mind. That very afternoon, I filed CGC-15-543711 -my \$100 Million civil rights action across the street in the \$uperior Court, and then served a courtesy copy on Div-IV that was \$o very in\$trumental in torpedoing two

Oral Arguments because they didn't want to admit that Superior Court underling\$ like Elfving are thief\$ & felon\$ who falsely-imprison Federal Informants after di\$mi\$\$ing criminally-proven cases detailing the financial predation of minorities who are but 2nd class citizens in our City by the Bay. These phuks need to be electrocuted after convicted of treason. On 2/2 & 3/16, I twice-requested more record-augmentation with transcripts from the railroaded criminal court case that Elfving trumped-up to conceal his judicial racketeering. Then on March 18th I got some really bad news from California's \$ Supreme Court. Tho\$e \$even ju\$stice\$ wanted me disbarred and to pay their RICO-operating Bar \$17,568 for having rigged my disbarment because I specialize in exposing dirty scumbag judge\$ like Elfving, Ryan, and Div-IV's Fab-Four. These phuks really need to be lethally injected after convicted of treason. In any case, I rubbed salt in Div-IV's already gaping wounds by filing a courtesy copy of my "Notice of Petition" of S222905 *which John Robert\$ illegally refused to docket after positive receipt 4 TIMES.* TAG- you're 'it' a\$\$hole. Then on March 19th, I did two things: (1) tried a 5th time to Augment the Record with undeniable concrete proof of judicial corruption but Div-IV didn't want to admit they were already caught neck-deep in a dozen judicial lie\$, and so dug their own graves even deeper and added nails to their own coffins; and (2) filed a courtesy copy of my Petition for En Banc Rehearing of Cantil-\$akauye's corrupt decision in S222905 to send her to prison until \$he'\$ dead. By March 30th, Div-IV cobddrafted another self-serving Order Affirming Elfving because by-then, they couldn't admit furthering his racketeering and made his crimes their own as co-conspirator\$. No sooner was the ink dry on that Order, that on April 1st I notified the 4 Div-IV dummies that I'd Petition Cantil-\$akauye with Review of their bonehead move to get her back on the hook for a 2nd time in 13 days, and to add another lifetime to her already lifelong prison sentence. Finally on April 16th, Div-IV told me they wouldn't publish their Order since they don't want anyone knowing that judge\$ all the way up to California's \$ Supreme Court rig hearings and railroad cases in violation of the most basic 229 Y-O

fundamental rights which created this Country. All these phuks desperately need to get convicted of treason.

2. Fully briefed **Appeal A143554** is also starting to get very entertaining [Revisit fn-15 supra]. On 11/20/14 I was granted IFP status partially based in the fact that judge Elfving under review already targeted me for \$20,000 in retaliatory sanctions because I exposed his corruption including rigging the case under review as well as the one in A141459. By 1/6/15, Div-IV received a copy of the November 21st 2014 transcript catching Elfving brazenly lying at page 3 that he didn't get 6 copies of my Opposition papers so he could instead rig the case on that same date. On 1/12, the Superior Court which employ\$ Elfving didn't waive its \$100 filing fee although the Appellate Court reviewing Elfving waived its own \$775 fee. The financial information was identical for both Fee Waivers and showed how Elfving stole \$20,000 two months prior, but that didn't matter to the Superior Court which wanted to financially retaliate some more to prevent my exposure of it\$ own corrupt judge. On 3/19 I filed my Petition for En Banc Reconsideration of Cantil-\$akauye'\$ 3/18 decision to interfere with my gainful employment as a Bar-licensed attorney, and because I'm a federally-protected Informant who's exposing judicial graft to federal authorities. On 3/25 I wanted to Augment the Record with more transcripts proving that Santa Clara's Civil & Criminal Court\$ were coordinating to make sure I couldn't expose Elfving's crime\$ in the appeal. By 4/3 I filed for reconsideration of the Superior Court'\$ denial of my prior Fee Waiver basing the request on the fact that increasing costs of litigation is a classic means to 18 USC §1512 Interfere with a Federal Informant. By 4/6, Div-IV was steadfast that they'd ignore any and all proof that Elfving is a crook. To drive that point home the day after I wa\$ coincidentally di\$barred, they demanded I pay the \$775 filing fee for related Appeal A144527 even though they granted Fee Waiver 4 months prior based on *better* financial information since I hadn't back-then been fined with over \$35,000 in \$anction\$ or di\$barred. *Twilight zone*. On 4/7 Div-IV ignored yet more transcripts and

diamond-hard proof of Elfving's high-crimes and subversion, feigning that catching him in lies and rigging cases aren't relevant in the appeal which criminally-proves that Elfving lie and rig cases. *Outer Limits*. By 4/9 I filed an email to notify Div-IV that the FBI was monitoring their under-handed obfuscation of judicial racketeering spanning from Santa Clara to San Francisco, and extending from California's Superior to Supreme Court. *That's a lot of court & judge- even more than in Operation Greylord!* On April 16th Cantil-Sakauye and her buzzard of a feather filed for a Time Extension to kick the can down the road and figure out what to do next. They picked May 8th, -which was two weeks after Santa Clara's judge Ryan planned on rigging the April 27th hearing for the criminal case initiated by Elfving to cover-up his own judicial RICO. I immediately filed an Opposition to the TE pointing-out that Respondent's scum of attorneys had plenty of time to get their act together. Then on April 17th I filed my Reply Brief to Armendariz & Remke, and which details how Elfving: lied on 10/3/14 to dismiss the case under review; and then rigged the next 11/21/14 hearing further-lying about not getting pleadings and proof that Bar Court judge Armendariz & Remke partake in criminal acts like Honest Services Fraud. Note that I only had 20 days to Reply to Armendariz & Remke, which means that if Cantil-Sakauye got her TE, she'd get a 1st look at my Reply to prepare her own Respondents' Brief. Nifty eh? Sure enough, on 4/21 Div-IV assited Sakauye & friend and gave them their Extension even though a dozen attorneys are working on that RB and now know what's in my Reply. Does anybody really believe that self-interested Div-IV will do anything but railroad this 2nd appeal after ignoring all records and evidence of underling's, colleague's, and their own judicial corruption?

3. Nearly fully-briefed **Appeal A144527** is the latest train wreck. The judicial defendants filed a ridiculous Respondents' Brief on August 6th 2015 that sua-sponte proves they're deserving of capital punishment after conviction of the highest crimes that federal codes proscribe. My Reply will be filed probably on the

same day this U.S. Supreme Court (and federal DOJ & FBI) receives this Writ for lawful docketing which is anticipated on August 10th.

D. Chief Justice Cantil-Sakauye's Collusion to Commit More Racketeering

Cantil-Sakauye will soon get Petitioned to Review Div-IV's corrupt decisions to Affirm judicial racketeering in A143554 & A144527. She'll surely rig those as done with A141459. She already 18 USC §1513(e) Retaliated against me by stealing my Bar license and Sanctioning me with almost \$17,568 in S222905 – which Johnny Grand Pooh-Bah Robert didn't want to docket let alone review. That amount added to Elfving's Sanction, cost, and fee of \$12,075 already Affirmed in A141459, and \$5750+++ more featured in A143554/144527 bringing the total financial retaliation to over \$35,000 plus a quarter-million-dollar Bar license which could have been used to prosecute patents in the Silicon Valley at a high-tech firm happy to pay me over \$200,000 per year, plus benefits.

Cantil-Sakauye and the Member-run Bar *which She doesn't Supervise in violation of her duties*, interfered with my gainful employment since 2011 when I testified before the corrupt Bar's Governance in the Public Interest Task Force. Rather than protect the public and reign-in Member's financial predation of the public and my lowly targeted clients, She allowed over \$3 Million to be illegally funneled from my clients' pockets into corporate high-roller's pocket. I lost *substantial* contingency fees.

In all, Cantil-Sakauye's racketeering personally & conservatively cost me over \$3 Million. Cantil-Sakauye is also responsible for: over a million in losses to Plaintiffs in CGC-07-464022; at least another million for the financial target in CPF-10-510760; and over \$600,000 for Wong in CGC-09-494395. Worse still, Cantil-Sakauye is responsible for the destruction of: the rule of law, impartiality, due process, equality, and fairness which are now-absent in all of California's courts from the top-down. She eradicated democracy throughout the Golden State for 38 Million non-corporate naïve citizens who looked towards the courts as their last means of redressing grievances. Little did they know that the courts are in a

state of *undress* being run by emperors having no clothes. But you can't tell them that since they're omnipotent with that absolute judicial immunity which made them all absolutely corrupt.

Now how about telling Cantil-Sakauye to apply *Yulee* law in her Golden State. U.S. Supreme Court Chief Justice John Roberts needs to tell California Supreme Court Chief Justice Cantil-Sakauye that California's Bar can regulate Missud's license, but not steal it because he uses it to expose corrupt judges throughout California's ultra-corrupt courts. Stealing Missud's Bar license is neither regulation, nor does it instill confidence in the legal profession and system. Teachings and holdings in *Yulee* are all about protecting the public, not concealing judicial racketeering.

ONE REALLY GREAT REASON FOR GRANTING THIS PETITION

It proves that this Country's entire judicial system is rigged by all state and federal courts in all 50 states up to and including John Roberts' *Citizen-United*, corporate-bought, conservative-controlled, and Koch-Brother-run U.S. Supreme Court.

CONCLUSION

America's courts are owned by the special interests. These days, justice can only be bought and especially so with 'absolute judicial immunity' and particularly after *Citizen United* which buys only the WORST judges that money CAN buy. Roberts needs to finally admit that his judiciary is rotten to the core from coast-to-coast and all the way up to his Supreme Court.

VERIFICATION AND PLEADING LENGTH

I, Patrick Missud am the Pro-Per Petitioner in the above-entitled action. I'm also a five-year 18 USC §1513 Informant whose job is to set-up dopey judges all the way up to SCOTUS. I prepared the foregoing Petition and therefore know its

contents. The same is true of my own knowledge, except as to those matters that are therein alleged on information and belief, and as to those matters, I believe it to be true. This Petition conforms to pleading standards, contains 8747 words, and is written in 13 point type.

I declare under penalty of perjury under federal laws that the foregoing is true and correct. When called upon as a witness to get John Robert\$ impeached and then executed for Treason *and other Higher Crimes like Genocide which is featured in docketed Writ 14-10335*, I'll do so competently and with great pleasure. This declaration was executed in SF County, but Robert\$ will probably be executed elsewhere like in Leavenworth.
