RECCE OBJECTIVES

- Confirm JAF requirements
- Gather data on the state of the road IOT define the feasibility, scope of work and ROM of costing and work flow.
- Confirm the capacity and capability of JAF Engr and local contractors (aggregate, rental of Heavy Eqpt and construction)
- Establish liaisons (with JAF, potential contractors & provider)
- Investigate
- Force Protection estimate for Engr work

Pre-Engr (TAV) Recce Composition (6)

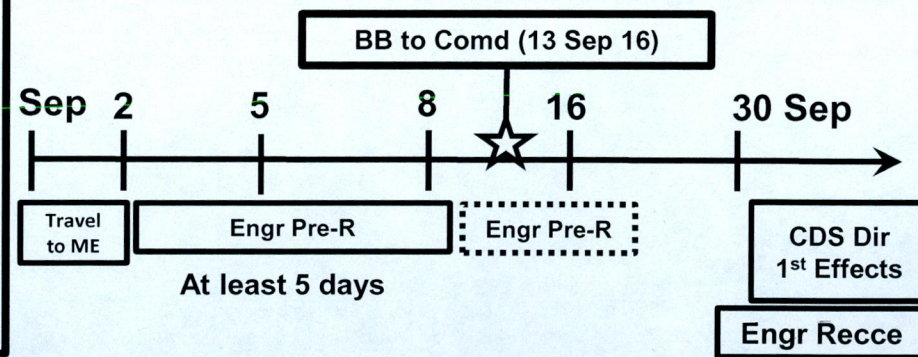

- Maj T.W. (Lead, CJOC HQ J Engr)
- 2 x Hor Constr SMEs (CFJOSG 1 ESU)
- 1 x CE Supt SME (CFJOSG 1 ESU)
- 1 x Hy Eqpt SME (CFJOSG 1 ESU)
- 1 x Survey Tech (CFJOSG 1 ESU)

CTAT Support

- Force protection Coordination
- Movement
- Linguistic / Liaison
- Log O (contracting assessment, reach back J4 contracts)

CONCERNS / ISSUES

- Threats & Hazards
- Local contracting capacity & capability

TAC AVN TO&E

Problem Statement (JFACC / 1 Wing) - Sustain a combat capable Tac Avn Det in support of Op IMPACT, be postured to sustain second deployed location (Africa TBC), while minimizing impact to its FP&R and YFR allocation

MACRO RCAF MRP

MICRO RCAF OP IMPACT OPTION

Background

- Initial CONOPs -
- 1x Line of Task (LOT) daily

Current Ops Tempo

- Average mission duration (longest)
- Weekly flying rate of aircraft
- Mission: Troop/VIP transport (primary)
 - Deliberate Ops: Secondary for casevac standby and

Assumptions

- 12/7 Flying Ops: 1x 8 hr LOT (2x CH146)
- Tac Avn Det [core] leadership will deploy for 6 - 8 months
- 1 Wing will fill ATF HQ A5/OSE and Los
- Enable sustainment until 31 Dec 17

Manning

- Unit establishment can only FG / Sustain 2 x Rotos with a 77 pers TO&E (reconstitution period)
- Short rotos (90 days) permit same pers to redeploy for a 2nd 90 day roto within 12 months

Advantages

- Indefinitely sustainable (incl simultaneous deployments)
- Reduced risk to execute YFR allocation (unit flexibility)
- Reduces DAG RED risk / Reduces Repat Risk
- Optimized TO&E/reduced requirements for augmentation (no HLTAs)

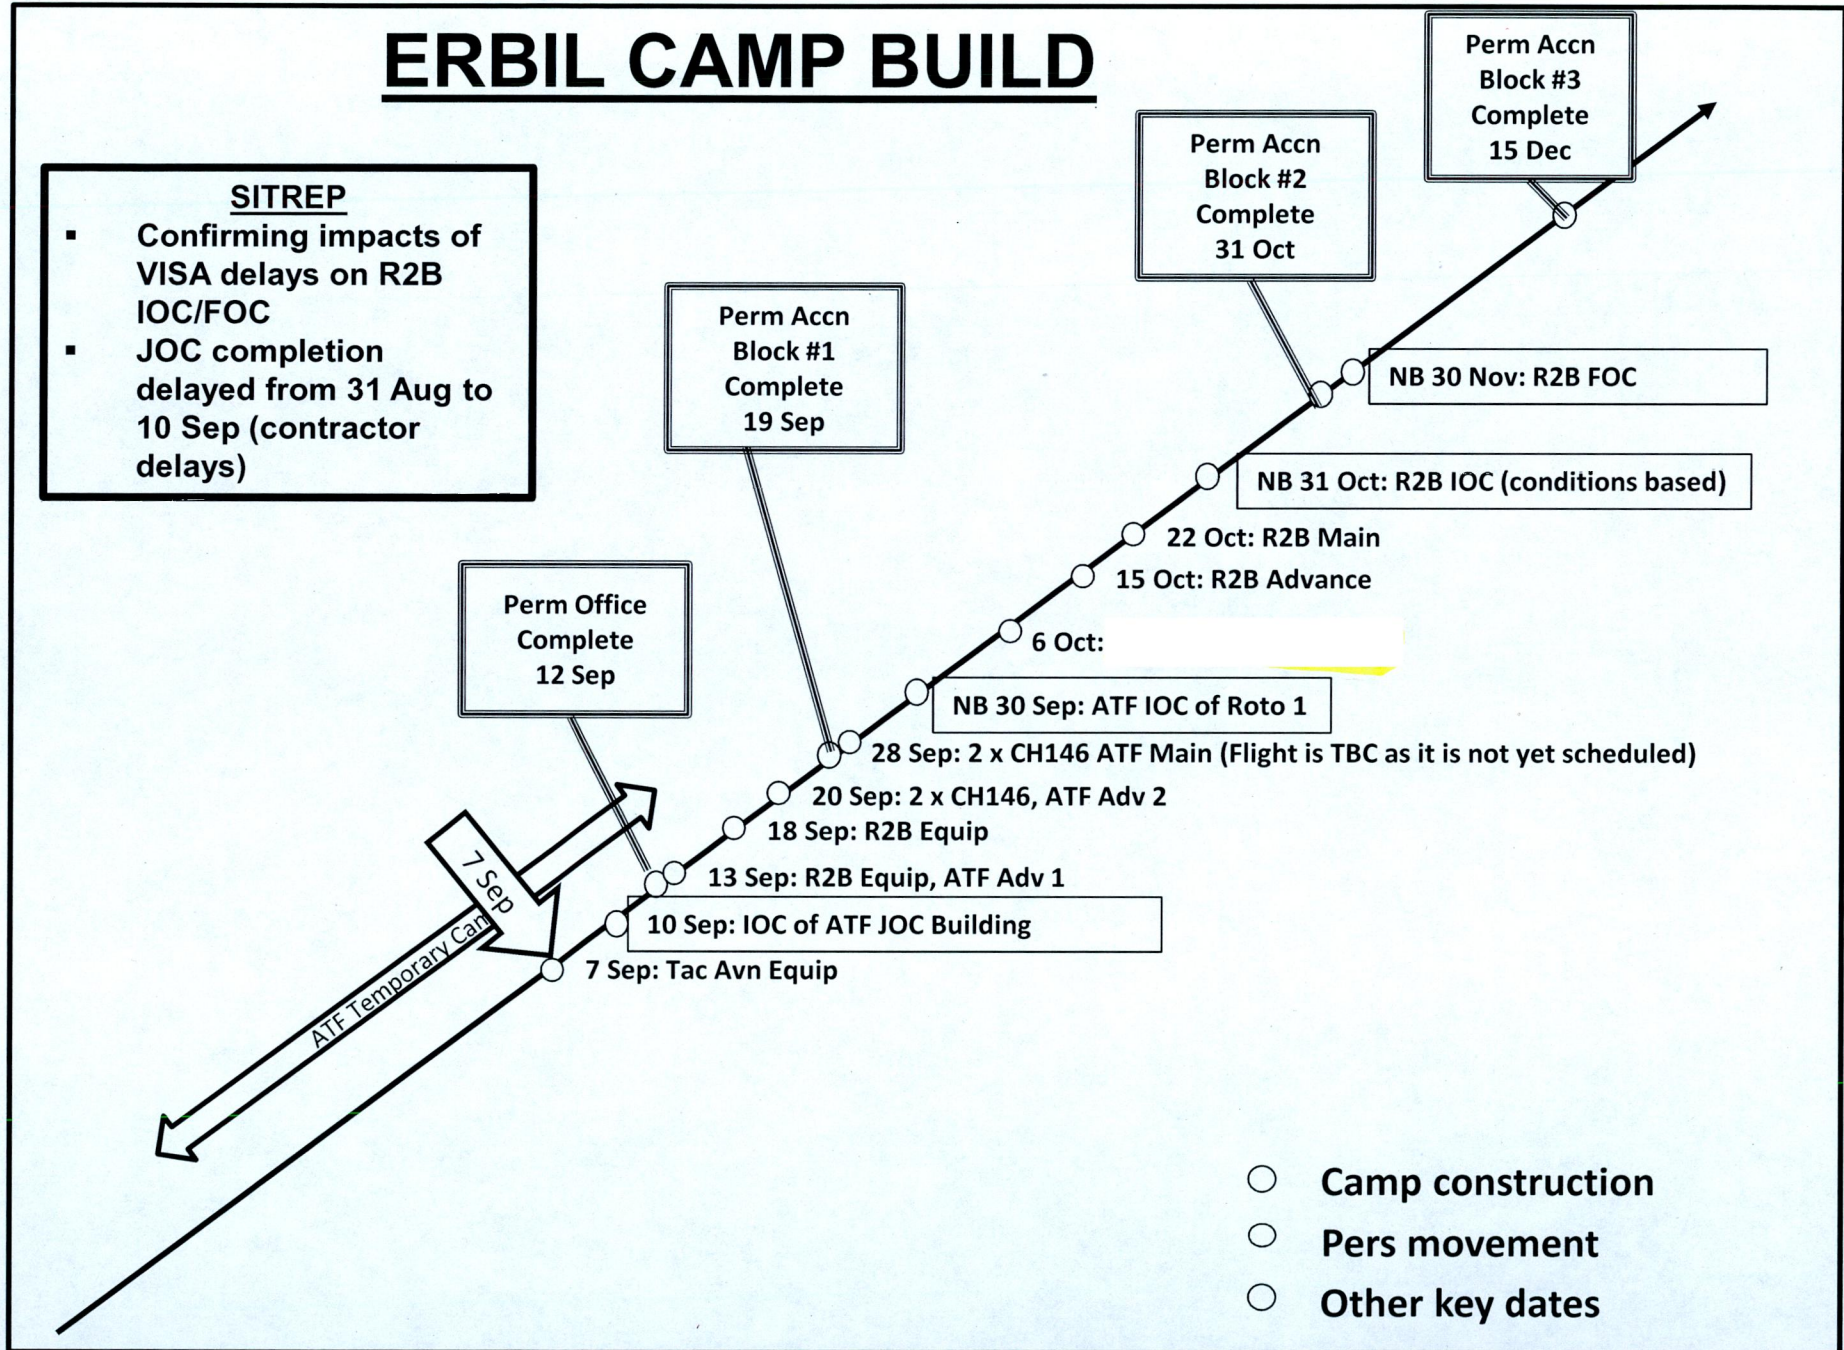

COMD CJOC RFIs - CONDITIONAL APPROVAL FOR 90 DAY TOURS AND 57 PERS TO&E

- If needed, time required to FG and surge back to 2 x Lines of Task for 24/7 operations
- Potential impacts to the capacity of deploying and sustaining a second Line of Operations in another theatre

ERBIL CAMP BUILD

SITREP

- Confirming impacts of VISA delays on R2B IOC/FOC
- JOC completion delayed from 31 Aug to 10 Sep (contractor delays)

MLT PLACEMAT – CONOP DELEGATION

DELEGATION CRITERIA

must be available and postured

PERSONNEL: At a minimum, every COMMS At a minimum there must be a

means of communication. This applies to the following: element and the ; and the

RESIDUAL RISK: If the Residual Risk of any scenario is assessed as the delegation of authority to

MEDICAL

- Medical Assets / Resources
 - Integral (TCCC for CP)
 - Facilities
 - Role 1 at UIII
 - Role 2 at BDSC
- C2
 - Reporting Chains
 - CJTF-OIR, RSO (JTF-I notified immediately)

COMMS PLAN

- at UIII during movt. Comms is maintained with
- P – Radio comms within convoy –
- A – Iridium Sat Phones
- C – Local Cell Phone Secure App (What's App)
- E – Blackberry

15-1

MLT DIR MACRO ASSESSMENT

Atmospherics
The security situation in Baghdad continues to be stable with the persistent armed presence by Iraqi Security Forces. There have been absolutely **NO (0)** situations or events that any member of the MLT has felt threatened. I firmly believe that the most likely threat to low-profile personal movements in BAGHDAD remains a "wrong place, wrong time" scenario

Pattern of Life
Iraqi pattern of life has been consistent since arrival in Baghdad. Citizens continue on with their daily affairs with the knowledge of the overt security presence and the elevated vigilance of the Iraqi Security Forces throughout Baghdad.

Trends
Procedures and movement continue to be strictly controlled through the use of permanent checkpoints of which vehicles require the appropriate documentation to transit through. This has remained constant.
