c. ATF-I. The requested inspections of the slat revealed no cracks and no damaged rivets. Based on observations, engineering expects Airbus to release the slat for 50 flight cycles, allowing 005 to fly until it returns to Canada. The new flap is ready in Trenton to go on CFC 4002 (C117 SUS) leaving 24 Nov and arriving in theatre 25 Nov. Plan is to remove current flap on 25 Nov and be ready to install the new one early on 26 Nov. Expecting 005 to be mission ready 28 Nov 16.

d. CTAT-J.

(1) ASUVs from the car rental company, Europ Car, will only be able to deliver ASUVs for 20 Dec 16. To mitigate this situation. CTAT-J will use [redacted] from the embassy. In total, CTAT-J will receive [redacted] from the embassy and [redacted] from Op PROTEUS to support Engr Tac Recce. CTAT-J Log O anticipates having the ASUVs 3-4 Jan 17; and

(2) CTAT-J received [redacted] from JTF-I. However, [redacted] were improperly programmed. CTAT-J signaller submitted a ticket to resolve this issue to JTF-I and to receive direction on how to program the [redacted]. As a result, only [redacted] will be available for Engr Tac Recce to track their movements.

e. Role 2. Ongoing challenge with military generator reliability for North American power of critical Role 2 operational equipment. Interim solution in place to bring another military generator while contract is being put in place for civilian generator rental and maintenance.

(a) LCol [redacted] and Maj [redacted] will likely break the various tower projects into four proposals focused on capabilities: power, defensive works, search lights and accommodations. With the requirements to connect with local service providers and the level of fidelity needed for the tower projects, it is not likely that delivery will take place during the current Fiscal Year. The second defensive stores proposal will need to be submitted to spend the remainder of the \$4.4M budget. To that end, the CTAT-J Lead completed proposal JOR16015 on 3 Dec 16 (2<sup>nd</sup> def stores proposal) and will submit it on 4 Dec 16. It is imperative that this is endorsed quickly and submitted to GAC IOT ensure procurement and delivery NLT 31 Mar 17; and

(b) One of the Op PROTEUS [redacted] Repairs are not expected to be completed within the next 48-72hrs.

(2) Next 24 hours.

(a) The Engr Recce TAV will analyse the data gained on 3 Dec 16;

(b) CTAT-J Lead will contact LCol [redacted] to set up a meeting to cover defensive works options for the tower infrastructure project;

(c) CTAT-J Lead will try and arrange with Col [redacted] and Col [redacted] to discuss future proposals;

(d) The IOC +90 three year plan will be finalized on 4 Dec 16; and

(e) The Log O will confirm the exact requirements for visas on 4 Dec 16.
