- (3) CTAT-J was notified that the entitlement for monthly clothing allowance and an up-front funding of clothing for this mission was directed in error. The monthly allowance will cease and recovery of money already paid out will commence; and
- (4) Interpreters have been requested by the Engr TAV to assist at the border. The D CDA stated that the person responsible for maintaining the list of vetted interpreters is on compassionate leave. CTAT-J will inquire if English speaking JAF officers are available, but this will likely not be a viable option for the entire duration of the deployment. It is recommended that an interpreter is force generated from CANADA to support the Engr TAV.

d. ATF-I.

- (1) Air-Air Refuelling Det will not be able to conduct missions for next two days (17 and 18 Nov) as aircraft is unserviceable. It is anticipated the aircraft will be serviceable 19 Nov; and
- (2) Tac Avn Det reported that H146467 requires a blade replacement and is expected to be unserviceable for the next 2 days. The blades have been installed but calibration and a test flight is required before the aircraft is serviceable. Three serviceable aircraft are available to meet the expected missions.
