July 12 mtg with DEQ

Stormwater permit has been issued.

Title V air permit renewal denial contested case

Indefinite stay until LUCS is resolved. Aug 1 pre-hearing conference.

LUCS remand status

Zenith appealed to Oregon Supreme Court. Waiting on decision as to whether they accept review.

Aug/Sept

If no review, then back to City for findings. Oct/Nov

DEQ information sharing relevant to findings

DEQ details on permit renewal - different pieces of renewal permit.

Applied to increase throughput of crude oil.

Reporting throughput and onloading to tankers, not offloading trains.

Diesel and renewable diesel volumes.

Inspection reports - asphalt to crude to renewable.

Emergency response group - presentation showing crude movement

Notice to construct - change from fixed roof to floating roof (high vapor products)

Draft permit

Change from SIC code - asphalt refinery to liquid storage and transport

renewable is small compared to crude volumes

Difference toxicity between crude and diesel.

Settlement talks?

Zenith discussion - LUCS denial or agree to conditions

Riverkeeper still may appeal

Policy 6.48 - necessary to serve region, crude oil not necessary

crude more dangerous than refined products?

Air permit split - deny and reapply, or condition approval with limits on crude

Was is enforcement of conditions?

DEQ challenging situation - permit violation if conditions are not met (part of permit)

Can City issue LUCS with conditions?

Withdraw permit, resubmit with conditions/limits incorporated into application, issue LUCS, permit has limits incorporated.
