

TINA KOTEK
GOVERNOR

August 8, 2023

Dear District Attorneys and Community Corrections Directors,

Thank you for your service to keeping our communities safe.

I am encouraging you to directly contact my office when someone who has received a commutation and is on supervision violates the conditions of release in a manner that warrants revocation of their commutation. Supporting information and a revocation recommendation should be directed to Nicole Townsend, Director of Extradition Services / IAD Administrator / Executive Clemency Coordinator at nicole.townsend@oregon.gov.

I review each revocation request individually, based on the facts of each case and with an aim of keeping our communities safe. If I believe someone is violating their conditions of release or supervision and revocation is warranted, I will not hesitate to use my authority and discretion as Governor to revoke their commutation.

Again, I am grateful for the hard work that you and your employees engage in everyday to ensure that our communities are kept safe. I look forward to further collaboration with you.

Thank you for your attention to this matter.

Sincerely,

Governor Tina Kotek
