

## OVERVIEW

The study was conducted for CNN via web and telephone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. SSRS is an independent research company. Surveys were obtained **July 22-23, 2024** with a representative sample of n=**1,631** registered voters. All respondents previously participated in a CNN poll in either April or June of 2024 and identified themselves as registered voters. The margin of sampling error for total respondents is +/- **3.0** at the 95% confidence level. The design effect is **1.48**. More information about SSRS can be obtained by visiting [www.ssrs.com](http://www.ssrs.com).

## **EMBARGOED FOR RELEASE: Wednesday, July 24 at 12:00 p.m.**

### NOTE ABOUT RESULTS

Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. For more information about other trend data included in this topline, please see the “More on Methodology” section at the end of this document.

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (\*).

### NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of registered voters in the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

FV1. We'd like to get your overall opinion of some people and groups in the news. For each, please indicate if you have a favorable or unfavorable opinion of these people or groups - or if you have never heard of them. [ITEMS ASKED IN RANDOM ORDER]

Aug. 3-Sept. 7, 2021	51%	49%	*
Aug. 3-Sept. 7, 2021 (RV)	52%	48%	*
March 14-17, 2019	78%	17%	6%
March 14-17, 2019 (RV)	79%	15%	6%

QUESTION WORDING: Do you think Republicans have a better chance of winning the presidency in [2024/2020] if Donald Trump is the party's nominee, or do they have a better chance of winning with someone else as the party's nominee?

CNN/ORC TRENDS FOR COMPARISON

	Better chance with Donald Trump	Better chance with someone else	No opinion
2015 Dec 17-21 (RV)	46%	50%	4%
2015 Aug 13-16	38%	58%	4%
2015 Aug 13-16 (RV)	38%	58%	4%

\*\*QUESTION WORDING: Do you think Republicans have a better chance of winning the presidency in 2016 if Donald Trump is the party's nominee or do they have a better chance of winning with someone else as the party's nominee?

Q8. Suppose that the presidential election were being held today and you had to choose between (Donald Trump as the Republican Party's candidate) and (Kamala Harris as the Democratic Party's candidate). For whom would you be more likely to vote?

Q9. If the presidential election were being held today and you had to choose between (Kamala Harris as the Democratic Party's candidate), and (Donald Trump, as the Republican Party's candidate), as of today, do you lean more toward: [ITEMS ASKED IN RANDOM ORDER & RESPONSES 1-2 ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF; "OTHER" ALWAYS LAST]

Q8/Q9 COMBO TABLE

	Kamala Harris	Donald Trump	Other	Do not plan to vote	No opinion
July 22-23, 2024 (RV)	46%	49%	3%	2%	0%
June 28-30, 2024 (RV)^	45%	47%	5%	3%	0%

^ QUESTION WORDING: Now, suppose that (Donald Trump were the Republican Party's candidate) and (Kamala Harris were the Democratic Party's candidate) in the election for president. For whom would you be more likely to vote?

(Those who are registered to vote and would vote for Harris, n=777)

P2H. Is that more a vote FOR Kamala Harris or more a vote AGAINST Donald Trump?

	Vote for Harris	Vote against Trump	No opinion
July 22-23, 2024	50%	50%	0%

COMPARE TO:

	Vote for Biden	Vote against Trump	No opinion
June 28-30, 2024	37%	63%	0%
January 25-30, 2024	32%	68%	0%
Aug. 25-31, 2023	36%	64%	0%

(Those who are registered to vote and would vote for Trump, n=778)

P2TH. Is that more a vote FOR Donald Trump or more a vote AGAINST Kamala Harris?

	Vote for Trump	Vote against Harris	No opinion
July 22-23, 2024	74%	26%	*

COMPARE TO:

	Vote for Trump	Vote against Biden	No opinion
June 28-30, 2024	66%	34%	0%
January 25-30, 2024	60%	40%	0%
Aug. 25-31, 2023	62%	37%	*

Q10. Which comes closer to your view? [RESPONSES RANDOMIZED; "NEITHER OF THE ABOVE" ALWAYS LAST]

	Any Democratic nominee for president would be a better choice than Donald Trump	Donald Trump would be a better choice for president than any Democratic nominee	Neither of the above	No opinion
July 22-23, 2024 (RV)	43%	40%	17%	0%
Aug. 25-31, 2023 (RV)^	44%	38%	17%	*

^ QUESTION WORDING: Which comes closer to your view about Donald Trump?

(Democrats/Democratic-leaning independents who are registered to vote, n=758)

Q11.If Kamala Harris becomes the Democratic nominee for president, how important is it to you, personally, that she selects a vice presidential nominee who [INSERT ITEM]? [ITEMS ARE ASKED IN RANDOM ORDER]

July 22-23, 2024 (RV)	Extremely important	Very important	Somewhat important	Not at all important	No opinion
Has experience as an executive in government	25%	32%	34%	9%	0%
Is a man	11%	12%	22%	54%	0%
Has proven appeal to swing voters	40%	32%	22%	6%	0%
Brings ideological balance to the Democratic ticket	28%	35%	27%	9%	*

## MORE ON METHODOLOGY

A total of n=1,631 registered voters were surveyed via web and phone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. All respondents previously participated in a CNN poll in either April or June of 2024 and identified themselves as registered voters. Surveys were conducted in English and Spanish.

Results for the full sample have a margin of sampling error of +/- 2.95 percentage points.

Among the entire sample, **30%** described themselves as Democrats, **34%** described themselves as Republicans, and **36%** described themselves as independents or members of another party.

Sample weights for this study were based on the weights for the original studies from which the sample was derived (the April and June polls), adjusted for non-response to the current study. Weighting for the original polls reflected the U.S. adult population based on Census figures for gender, race, Hispanic Nativity, age, education, region of country, population density, civic engagement, and Pew Research Center's NPORS figures for religious affiliation and frequency of internet use. The sample was also weighted for party identification in detail (leaners broken out) and collapsed crossed by self-reported political ideology, self-reported voter registration, race by education. The benchmarks for party identification crosses were taken from earlier CNN national polling conducted by SSRS via web and phone, which implemented a full probability design via Address-Based Sampling (ABS).

Surveys were conducted among a representative sample of U.S. registered voters. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**NOTE ON TRENDS**

All included trend points were based on surveys conducted using probability-based sampling methods. Some surveys included as trend points in this document were conducted using different methodologies, or with different combinations of sponsors. Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. Here are more details on the methodology behind each CNN poll conducted by SSRS using other methods.

Address-Based Sampling	Probability Panel: Web + Phone	Probability Panel: Web only	Probability Panel: SMS only
August 3-September 7, 2021	November 1-4, 2021	March 25-26, 2019	February 25-26, 2022
