DAG call - on w/ DOTUS + went to
conference w/ the

P - County is up in arms over the corruption

Scott Perry (VA) + Senator G.

Pat - Guy was nervous - some of the very
calling

205K votes - more than any law
voters - PD

- flooded the market w/ ballots

- 600K votes added

- 570K - for Biden

- few for me + lots of blanks

0332 - flooded the market - all at
- multiple states also

Jim Jordan: fighter - win like
3rd world country.

Detroit - look at districts in MI

- was nearly all but not
Wayne City (Detroit)

- Call dropped ... ~ 3 minutes

- We have thousands of people who went in
to vote + were told you already
voted by absentee ballot

- People are angry - blaming DOJ + for inaction

- Statistically - election night it was
a draw dead

- Somehow, overnight
the outcome changed
for all these ballots
showed up

- AZ, GA, PA ...

People won't have confidence in the
GA Senate race

GA, NV, AZ, MI - all corrupted
elections

People are complaining to him constantly

Thousands of people called their USADs + FISC

DOJ failing to respond to legitimate
complaints / reports of crimes

PA - 5M votes in the state
(possibly true?) - but 5.25M votes - clearly fraud

GA - tape that shows fraud, ^{election} ^{center} ^{uses}
- Rudy Freeman - Huckabee - closed
the facility + the case deal
w/ hidden ballots, under trees...
- networks magnified the tape +
saw them using the traps
repeatedly

"You guys may not be following the intended
the way I do"

Demot - then he "pull watches out

Don't even look at the alleged crimes
why - don't need to, it's obvious

FBI will always say nothing there
- leaders that oppose me, SAs support me

(11/11) - That whole thing, messy...
- need to be good then
- also upset

- I made some bad decisions on leadership
there, but it was being under an
FBI illegal investigation - special ops
should never have been covered
- You figure out what to do
w/ Biden - people will
criticize the DOJ if this not
investigated for real.

- GA Leg. is on our side - they want to bring
a case but the Gov won't let them

- Statistically impossible for me to lose
- Biden's had me at 100% on
election night - dropped to
32% in 4 or 5 hours - news, when

- DAG - will look at whether have ^{more} called
in PA than registered voters - should
be able to check on that quickly
but understood that no DOJ
could + won't snuff it's fingers
+ change the outcome of the
election, doesn't work that way
- P: "Don't expect you to do"

that, just say that the election was
was correct + leave the rest to me and
the R. Congressmen."

- (DOD) - Sir, we have done dozens
of mostly, hundreds of million
major allegations are not supported
by evid. developed.

- GA/PA/MI/NU.

- We are doing our jobs. Much of
the info you're getting is false.

- G MI - report says 68% error
rate - but reality is it was .0063%
error rate - less than 1 in 15K.

- OK fine - but what about the
others?

- PA Touch Screens - we intended on
both ends - no ballots or
couldn't even ID the envelope

- OK, what I didn't mention
that one - what about the
others?

- GA - looked at the tapes, interviewed the Ws,
no suitcases (OK - but they looked like that)
cutters left, no multiple scanning of ballots

- Double voting, dead people, Indians getting paid. Lots of fraud.

- AZ - I am not by 9K - clearly was paid
the real

- Judge keep saying - where is the DDT?
Why are they not filing in this case?

- DAS/USD - bc we are not
in a position based on the
evidence - we can only act on
the actual evidence developed

- Told him flat out that much of it
what he is getting is false, +/or
just not supported by the evidence
- we look at allegations but they don't pan out

- D - this is electioneering fraud

"We have an obligation to tell
people that this was an illegal,
corrupt election."

- People told me Jeff Clarke is great, I should put
him

- People want me to replace DDT's leadership in

(D) - fine, but wait until they get their position
- you should have the leadership you want

- You, Dick, should go to Fulton City
+ do a signature verification and
pull out how illegal it is. You'll find
hundreds of thousands

- More votes than voters

- I told him in WI they were carrying
the 2020 votes cast to 2016
registration #s - not a valid complaint

- "Nobody trusts the FBI" - need others to work this

- "I'd like to request" - Fulton City, GA

- check signatures

spirit years (miss) - not this year

- DAS request: we will take into account

- These people who saying that the
election isn't corrupt are corrupt

- Not much time left

- Asked for cell # - provided (he
had it anyway) - may have elected
officials w/ relevant info call

- Sen. Johnson has done great job
getting to bottom of things
- and that done in public,
unlike DOJ investigations

NV - forensic accounting shows we won
by 20k votes

Mark Umiker - NC SC Justice - veteran, scholar

"Ballot drops" changed the election

mtg w/ : Caf S, Wth Counsel (PC+PV), DAG RD, SE

12/29/20

votes stolen?

Mark Winton } P trusts this view - they by
John Eastman }

L CP will call him

Non-Responsive

Non-Responsive

3) Pd - election issue - admitted that we are badly at the election that certification > # of votes cast.

4) Orig. J. case - U.S. does not have standing, DOJ should talk to the Obama (attys who filed similar case)

Antonio D'Elia - NED to check his background w/ FBI+

- Co = Leonardo SpA - Pesare Facility
- purportedly under protection of G. agency in Italy
- sent letter on his co's standing
- claims involvement in vote changing in US 2020
- claims to coordinate w/ CIA officers in Embassy
 - Via Veneto - US Embassy, Roma
- US Aerospace Partners - the towards US subs.?
