34A	Tissue from knife #2		
35A	Stain from bath towel #1	From bathroom	
36A-36B	stains from bath towel #2	↓	

Additional Comments:

Hoping to find suspect blood on items belonging suspect, or victim's blood on his clothing. All stains phone tested (+)

To decide if an item should go PCR or RFLP:

- PCR: -Very few sperm
-Dilute blood or small stain (less than 0.5 cm²)
-Hairs, cigarette butts, penile swabs, etc.

- RFLP:- Many sperm (based on slide)
-Large semen or blood stain on garment.
-No suspect rape cases or homicides
