## **Media Advisory – Crescent Earthquakes**

The Oklahoma Corporation Commission's Oil and Gas Conservation Division (OGCD) is implementing a plan in response to today's earthquakes in Crescent area. The plan calls for changes to oil and gas wastewater disposal wells in the area that dispose into the Arbuckle formation.

The plan calls for the 4 disposal wells within 3 miles of the earthquake activity to stop operations ("shut in").\*\* Volume reductions for other disposal wells in the area are being formulated and will be announced tomorrow (Friday, November 20).

The disposal wells specified for shut-in are:

**Operator: Devon Energy**  
**Wells: Vonda SWD 1-6**  
**Adkisson 1-33 SWD**  
**Fuxa 25-19-4 SWD**

**Operator: Stephens Energy**  
**Well: Kittenbrink 1-36 SWD**

**\*\*map attached**
