

# GEPI GENDER EQUITY POLICY INSTITUTE

- The below data was pulled together analyzing 2022 CDC data.
- GEPI has an ongoing research program on reproductive health outcomes in the United States post-Dobbs. You can see their published reports [here](#).
- GEPI continues to monitor the CDC and other public data for updates and anticipates there will be sufficient data on enough states available in late 2024 to publish an update to their [anchor report](#) (originally released in Jan 2023) early next year.

**Table 1. Maternal mortality, Texas and the U.S., 2022**

State	Maternal mortality (maternal deaths per 100,000)
U.S.	22.3
Texas	28.5

**Table 2. Percentage change in maternal mortality rate, by race/ethnicity, Texas and the U.S., 2019 - 2022**

Maternal mortality, 2019-2022 – percentage change

State	Legal Status (2022)	All Black White Latina			
U.S.		11%	12%	6%	33%
Texas	Banned (9/21*)	56%	38%	95%	30%

**Table 3. Comparison of Black and White maternal mortality, Texas and the U.S., 2022**

Maternal mortality (maternal deaths per 100,000)

State	Black	White	Black/White Mortality Ratio
U.S.	49.0	18.8	2.6
Texas	43.6	39.1	1.1
