RE: Public Information Act Request of April 22, 2024, Reference # R021154-042224

Dear Mr./Ms. Lewis,

Loudoun County has received your public information request dated April 22, 2024.

The responsive records from the Office of Elections and Voter Registration can be downloaded from "My Requests Center". There is no further fee for these records.

As I stated in my earlier email, we are requesting an extension of time to June 7, 2024, to allow the Sheriff's Office to review and compile email and other correspondence responsive documents. Please let me know if you approve of the extension.

Sincerely,

Jennifer Grimmell
Deputy Clerk/FOIA Officer

To monitor the progress or update this request please log into the [Public Records Center](#)

Subject: [EXTERNAL] ***IMPORTANT UPDATE: MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's Fiscal Irresponsibility

*Fellow Conservative Republican Patriots,

The below text message came from Henry Eickelberg last night to my personal text. I provide it here for context. Please read the text immediately below, between the two hash marks.

Here is my personal comment: Mr. Eickelberg's message is an astonishing betrayal of the constitutions of the United States of America and Virginia he claims to support, just by virtue of supporting a candidate who seems to have little respect for the law based on publicly available information. These five elected constitutional officers supposedly support candidate Paul Lott who should not be anywhere near political office of any kind. Bewildering and deeply offensive.

Additionally, read again below the publicly available information about Paul Lott, warning us of who he is, in Scott's email, and carefully consider whether you trust Paul Lott to run a business like the LCRC, pay the business taxes owed by the LCRC, or use the money donations of our hard earned tax dollars for their intended purposes like Scott Pio does.

Mr. Eickelberg offers no proof to substantiate his claims against Scott Pio (just like Mr. Lott) while Scott offers proof points to substantiate his claims, nor did he answer the three questions asked in public, which he refused to answer. Instead he trash talked Scott Pio. Now we see why.

The below photo and accompanying narrative by Mr. Eickelberg insinuating that it commands authority, is pathetic, and will only convince weak-minded voters to side with his rhetoric. Are you that weak?

Fellow voters and Republican Patriots, please stay strong and stand for Conservative Republican values. Stay strong as Trump Republicans while we **take back the LCRC** and "right the ship" under Scott Pio's leadership. Is he perfect? No, are you? Meanwhile, **We, the People** are sick of the immature factions of whining RINOs disrupting public meetings, partly because they lost their elections or want to support Paul Lott who does not have the character to hold any public office in my view.

If these candidates who lost and the constitutional officers would have investigated our grievances about what we have been disclosing publicly exposing the corrupt, out-of-control electoral process, they would realize how the candidates' elections in Virginia were rigged by the establishment political class. They have no room to complain about lost elections.

Lastly, Sheriff Mike Chapman declined to investigate our very thorough criminal complaint in October of 2022 (giving no reason for declining), regarding Loudoun County elections not following the constitution, and holding the Sheriff accountable to **We, the People**; so Mike has first-handly denied us our constitutional rights after he promised he would act. We have informed several other of the five constitutional officers pictured below also, and all fell on deaf ears. The People have a constitutional right to air grievances against tyrannical government, and the right to redress our complaints. For three-plus years, our complaints have only become ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothing whining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek
Member, speaking on my own behalf,
Loudoun County Republican Committeeman
(202) 957-8454

VA-LOUDOUN-24-0395-A-000001

*Not supported or endorsed by Scott Pio, this is my own opinion, and a damn good one.

#

Hi, it's Henry Eickelberg, Loudoun Treasurer.

I and the other four Republican Constitutional Officers need you to vote for PAUL LOTT for Loudoun GOP (LCRC) Chair.

The current chair, Scott Pio, has failed us, our fellow candidates, and our party. We lost races we should have won.

Please VOTE THIS SATURDAY at 20098 Ashbrook Place between 10am - 2pm for PAUL LOTT. It will only take 5 minutes. You do not have to be an LCRC member - just a Loudoun voter.

READ our message at: henry4va.com

**YOUR LOUDOUN REPUBLICAN
CONSTITUTIONAL OFFICERS
NEED YOU TO VOTE**

PAUL LOTT

FOR LCRC CHAIRMAN

**SATURDAY, MARCH 16 - 10:00 AM TO 2:00 PM
20098 ASHBROOK PLACE, ASHBURN, VA**

PAID FOR BY HENRY EICKELBERG

Subject: Paul Lott's Financial History

To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

VA-LOUDOUN-24-0395-A-000002

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise council from the person who would be supporting me the most.

□

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody. BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, its important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRCs budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and reasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent**, \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to SchoolBoogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501C3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had it's coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GOPDataCenter is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GOPDataCenter as a Hard Democrat** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Scott Pio

Where was all the outrage when Pio allowed a BLM activist, VAXsupporting, Riot supporting, and Democrat donating (after allowed to join LCRC)individual to not only join LCRC but to also be head of the Outreach committee?What about donations being made to a Democrats "nonprofit" from the discountcards? This person was in the Democrat primary in 2023 in Dulles. It's funnyhow no one spoke up then.

1. If the LCRC is nothing more than a "social club" for 70 year old, grey haired, wealthy, white, RINO Republicans,then it is not worthy of my time or anybody else's time.
2. If the LCRC is nothing more than "controlled opposition" for LoudounDemocrats, then it is not worthy of my time or anybody else's time.
3. It is insane to think that the LCRCwill be made "better" by electing a lifelong **hard Democrat** to lead it, who is also a **deadbeatdad, a wife abuser, andhabitually financially insolvent**.
4. Republicans have never gotten more than15% to 20% of the black vote in **any** electionin the past 53 years. This is a well documented fact, and one that I willnot labor any further.
5. BLM and AntiFa are overwhelmingly madeup of young, brainwashed, single, leftist, white men and women, who never had afather figure in their lives, and are using these groups to give them purposeand meaning in their lives,
6. I voted for Scott today and brought 2of my friends with me who also voted for Scott.
7. I did NOT see many Democrats at thepolling location today. I didn't see a single "Coexist" bumper sticker inthe parking lot. Nor did I see any morbidly obese, single, white womenwith purple hair. These both bode well for Scott.
8. Loudoun County Democrats havedefinitely engaged in election fraud in the past and they will definitelycontinue to do it in the future.
9. If we do not modify our RepublicanPrimary process to keep Democrats from choosing our **Republican** candidates then we are short sighted,self deluded, cowardly, or all 3, and Democrats will definitely continue to do it.
10. If Republicans do not stop fightingagainst each other and start fighting the Democrats, like the TyrannosaurusRex, we will be **EXTINCT**.

On Friday, March 15th, 2024 at 7:29 PM, Matt Chwalowski <chwalowski@hotmail.com> wrote:

A couple of quick points:

I have been watching some RINOs on the Executive Team overthe past two years who are afraid of their own shadows and water everythingdown.

The only measure of LCRC success/failure are electionresults.

We had three winnable races for BOS and SB each in 2023.

We should have won the Delegate race against the architectof the school debacle that made Loudoun famous.

It was a leadership-preventable failure.

Sure, nobody is perfect, but I draw a line when peoplerefuse to learn from their mistakes and concentrate their energies onconvincing me of their point of view instead of listening.

Democrats run LCDC according to best practices and theywin elections with 360-degree mediocrities (I have 25 years of businessconsulting experience to Fortune 500 companies) and I see their professionalismand excellent execution. We operate like we are an 1850 pre-industrialcompany. I am frustrated that we are so incompetent withcandidates. And this is not going to change.

LCRC is what members want it to be; the last two years weacted as a social club and we will be one for the next two years. The majorityrules. However, let's not pretend that we are something else or that weachieve different results in the next two years. So far, we have beenmaking Loudoun Democrats very happy.

Lastly, Sheriff Mike Chapman declined to investigate ourvery thorough criminal complaint in October of 2022 (giving no reason fordeclining), regarding Loudoun County elections not following theconstitution, and holding the Sheriff accountable to **We, the People**, so Mike hasfirst-handly denied us our constitutional rights after he promised hewould act. We have informed several other of the five constitutional officerspictured below also, and all fell on deaf ears. The People have anconstitutional right to air grievances against tyrannical government, and theright to redress our complaints. For three-plus years, our complaints have onlybecome ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothingwhining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek

Hi, it's Henry Eickelberg, Loudoun Treasurer.

I and the other four Republican Constitutional Officers need you to vote forPAUL LOTT for Loudoun GOP (LCRC) Chair.

The current chair, Scott Pio, has failed us, our fellow candidates, and ourparty. We lost races we should have won.

Please VOTE THIS SATURDAY at 20098 Ashbrook Place between 10am - 2pm for PAUL LOTT. Itwill only take 5 minutes. You do not have to be an LCRC member - just a Loudounvoter.

 Subject: Paul Lott's Financial History
 To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise counsel from the person who would be supporting me the most.

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, it's important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRC's budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and reasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent** \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to SchoolBoogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501c3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had its coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GPDataCenter is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GPDataCenter as a Hard Democrat.** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Subject: [EXTERNAL] [EBLIST] Risk Management

Dear EB Members,

The subject of Liability for injury in or around precincts needs clarification. To that end today I spoke with an attorney in a county government. The attorney's statements were as follows:

1. In **county or city owned buildings**, the locality has liability insurance for those buildings. Check with your Risk Management Dept.
2. It is important that the signage directing the voters to the correct entrance be placed correctly, so that the voters follow the proper path, steps, doors. If the signage is incorrectly placed there could be liability.
3. Lighting must adequately light the walkway. Check the lighting in the dark.
4. Snow and Ice must be removed and treated so that the walking and parking surfaces are not slick. Be in touch with the local snow removal groups.
5. Be mindful of the inside floors during inclement weather.

6. For **privately owned buildings**, check that the owners have liability insurance. In less affluent polling places, the EB may need to provide a one day "event" policy. For instance, a small church may be unable to afford to pay for an "event" policy. These polling places may withdraw their building without the "event" policy. A one day policy is not expensive and much less costly than paying for an injury or relocating the polling place.

These statements confirm that we all should check with our own county attorneys and Risk Management to confirm what our locality's attorneys and Risk management have in place and what needs to be instituted.

Glad that the question was asked now so that we all can get answers before we wish we had asked,

Free, fair, safe, and legal elections,

Clara Belle Wheeler
Albemarle County

Subject: Re: ***IMPORTANT UPDATE:MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's FiscalResponsibility

Where was all the outrage when Pio allowed a BLM activist, VAXsupporting, Riot supporting, and Democrat donating (after allowed to join LCRC)individual to not only join LCRC but to also be head of the Outreach committee?What about donations being made to a Democrats "nonprofit" from the discountcards? This person was in the Democrat primary in 2023 in Dulles. It's funnyhow no one spoke up then.

1. If the LCRC is nothing more than a "social club" for 70 year old, grey haired, wealthy, white, RINO Republicans, then it is not worthy of my time or anybody else's time.
2. If the LCRC is nothing more than "controlled opposition" for Loudoun Democrats, then it is not worthy of my time or anybody else's time.
3. It is insane to think that the LCRC will be made "better" by electing a lifelong **hard Democrat** to lead it, who is also a **deadbeat dad**, a **wife abuser**, and **habitually financially insolvent**.
4. Republicans have never gotten more than 15% to 20% of the black vote in **any** election in the past 53 years. This is a well documented fact, and one that I will not belabor any further.
5. BLM and AntiFa are overwhelmingly made up of young, brainwashed, single, leftist, white men and women, who never had a father figure in their lives, and are using these groups to give them purpose and meaning in their lives.
6. I voted for Scott today and brought 2 of my friends with me who also voted for Scott.
7. I did NOT see many Democrats at the polling location today. I didn't see a single "Coexist" bumper sticker in the parking lot. Nor did I see any morbidly obese, single, white women with purple hair. These both bode well for Scott.
8. Loudoun County Democrats have definitely engaged in election fraud in the past and they will definitely continue to do it in the future.

VA-LOUDOUN-24-0395-A-000012

9. If we do not modify our RepublicanPrimary process to keep Democrats from choosing our **Republican** candidates then we are short sighted,self deluded, cowardly, or all 3, and Democrats will definitely continue to do it.

10. If Republicans do not stop fightingagainst each other and start fighting the Democrats, like the TyrannosaurusRex, we will be **EXTINCT**.

A couple of quick points:

I have been watching some RINOs on the Executive Team overthe past two years who are afraid of their own shadows and water everythingdown.

The only measure of LCRC success/failure are electionresults.

We had three winnable races for BOS and SB each in 2023.

We should have won the Delegate race against the architectof the school debacle that made Loudoun famous.

It was a leadership-preventable failure.

Sure, nobody is perfect, but I draw a line when peoplerefuse to learn from their mistakes and concentrate their energies onconvincing me of their point of view instead of listening.

Democrats run LCDC according to best practices and theywin elections with 360-degree mediocrities (I have 25 years of businessconsulting experience to Fortune 500 companies) and I see their professionalismand excellent execution. We operate like we are an 1850 pre-industrialcompany. I am frustrated that we are so incompetent withcandidates. And this is not going to change.

LCRC is what members want it to be; the last two years weacted as a social club and we will be one for the next two years. The majorityrules. However, let's not pretend that we are something else or that weachieve different results in the next two years. So far, we have beenmaking Loudoun Democrats very happy.

Subject: ***IMPORTANT UPDATE:MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's FiscalIrresponsibility

*Fellow Conservative Republican Patriots,

The below text message came from Henry Eickelberg last nightto my personal text. I provide it here for context. Please read the textimmediately below, between the two hash marks.

Here is my personal comment: Mr. Eickelberg's message is anastonishing betrayal of the constitutions of theUnited States of America and Virginia he claims to support,just by virtue of supporting a candidate who seems to have little respect forthe law based on publicly available information. These five electedconstitutional officers supposedly support candidate Paul Lott who should notbe anywhere near political office of any kind. Bewildering and deeplyoffensive.

Additionally, read again below the publicly availableinformation about Paul Lott, warning us of who he is, in Scott's email, andcarefully consider whether you trust Paul Lott to run a business like the LCRC, pay the business taxes owed by the LCRC, or use the money donations of our hardearned tax dollars for their intended purposes like Scott Pio does.

Mr. Eickelberg offers no proof to substantiate his claimsagainst Scott Pio (just like Mr. Lott) while Scott offers proof points to substantiatehis claims, nor did he answer the three questions asked in public, which herefused to answer. Instead he trash talked Scott Pio. Now we see why.

VA-LOUDOUN-24-0395-A-000013

The below photo and accompanying narrative by Mr. Eickelbergin sinuating that it commands authority, is pathetic, and will only convince weak-minded voters to side with his rhetoric. Are you that weak?

Fellow voters and Republican Patriots, please stay strong and stand for Conservative Republican values. Stay strong as Trump Republicans while we **take back the LCRC** and "right the ship" under Scott Pio's leadership. Is he perfect? No, are you? Meanwhile, **We, the People** are sick of the immature factions of whining RINOs disrupting public meetings, partly because they lost their elections or want to support Paul Lott who does not have the character to hold any public office in my view.

If these candidates who lost and the constitutional officers would have investigated our grievances about what we have been disclosing publicly exposing the corrupt, out-of-control electoral process, they would realize how the candidates' elections in Virginia were rigged by the establishment political class. They have no room to complain about lost elections.

Lastly, Sheriff Mike Chapman declined to investigate our very thorough criminal complaint in October of 2022 (giving no reason for declining), regarding Loudoun County elections not following the constitution, and holding the Sheriff accountable to **We, the People** so Mike has first-handly denied us our constitutional rights after he promised he would act. We have informed several other of the five constitutional officers pictured below also, and all fell on deaf ears. The People have a constitutional right to air grievances against tyrannical government, and their right to redress our complaints. For three-plus years, our complaints have only become ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothing whining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek

Member, speaking on my own behalf,

Loudoun County Republican Committeeman

Subject: Paul Lott's Financial History
To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise counsel from the person who would be supporting me the most.

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, it is important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRC's budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and reasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

VA-LOUDOUN-24-0395-A-000014

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent** \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to SchoolBoogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501C3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had its coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GOP Data Center is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GOP Data Center as a Hard Democrat.** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Where was all the outrage when Pio allowed a BLM activist, VAX supporting, Riot supporting, and Democrat donating (after allowed to join LCRC) individual to not only join LCRC but to also be head of the Outreach committee? What about donations being made to a Democrats "nonprofit" from the discount cards? This person was in the Democrat primary in 2023 in Dulles. It's funny how no one spoke up then.

Matt Chwalowski,

Does not speak on behalf of the LCRC MAGA Caucus. These are clearly not our sentiments. Our positions are issued publicly during committee meetings.

Thank you.

-Marc

On Friday, March 15th, 2024 at 7:29 PM, Matt Chwalowski <chwalowski@hotmail.com> wrote:

A couple of quick points:

I have been watching some RINOs on the Executive Team over the past two years who are afraid of their own shadows and water everything down.

The only measure of LCRC success/failure are election results.

We had three winnable races for BOS and SB each in 2023.

We should have won the Delegate race against the architect of the school debacle that made Loudoun famous.

It was a leadership-preventable failure.

Sure, nobody is perfect, but I draw a line when people refuse to learn from their mistakes and concentrate their energies on convincing me of their point of view instead of listening.

Democrats run LCDC according to best practices and they win elections with 360-degree mediocrities (I have 25 years of business consulting experience to Fortune 500 companies) and I see their professionalism and excellent execution. We operate like we are an 1850 pre-industrial company. I am frustrated that we are so incompetent with candidates. And this is not going to change.

LCRC is what members want it to be; the last two years we acted as a social club and we will be one for the next two years. The majority rules. However, let's not pretend that we are something else other than what we achieve different results in the next two years. So far, we have been making Loudoun Democrats very happy.

Subject: ***IMPORTANT UPDATE: MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's Fiscal Irresponsibility

*Fellow Conservative Republican Patriots,

The below text message came from Henry Eickelberg last night to my personal text. I provide it here for context. Please read the text immediately below, between the two hash marks.

Here is my personal comment: Mr. Eickelberg's message is an astonishing betrayal of the constitutions of the United States of America and Virginia he claims to support, just by virtue of supporting a candidate who seems to have little respect for the law based on publicly available information. These five elected constitutional officers supposedly support candidate Paul Lott who should not be anywhere near political office of any kind. Bewildering and deeply offensive.

Additionally, read again below the publicly available information about Paul Lott, warning us of who he is, in Scott's email, and carefully consider whether you trust Paul Lott to run a business like the LCRC, pay the business taxes owed by the LCRC, or use the money donations of your hard earned tax dollars for their intended purposes like Scott Pio does.

Mr. Eickelberg offers no proof to substantiate his claims against Scott Pio (just like Mr. Lott) while Scott offers proof points to substantiate his claims, nor did he answer the three questions asked in public, which he refused to answer. Instead he trash talked Scott Pio. Now we see why.

The below photo and accompanying narrative by Mr. Eickelberg insinuating that it commands authority, is pathetic, and will only convince weak-minded voters to side with his rhetoric. Are you that weak?

Fellow voters and Republican Patriots, please stay strong and stand for Conservative Republican values. Stay strong as Trump Republicans while **wake back the LCRC** and "right the ship" under Scott Pio's leadership. Is he perfect? No, are you? Meanwhile, **We, the People** are sick of the immature factions of whining RINOs disrupting public meetings, partly because they lost their elections or want to support Paul Lott who does not have the character to hold any public office in my view.

If these candidates who lost and the constitutional officers would have investigated our grievances about what we have been disclosing publicly exposing the corrupt, out-of-control electoral process, they would realize how the candidates' elections in Virginia were rigged by the establishment political class. They have no room to complain about lost elections.

Lastly, Sheriff Mike Chapman declined to investigate our very thorough criminal complaint in October of 2022 (giving no reason for declining), regarding Loudoun County elections not following the constitution, and holding the Sheriff accountable to **We, the People** so Mike has first-handly denied our constitutional rights after he promised he would act. We have informed several other of the five constitutional officers pictured below also, and all fell on deaf ears. The People have a constitutional right to air grievances against tyrannical government, and the right to redress our complaints. For three-plus years, our complaints have only become ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothing whining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek
Member, speaking on my own behalf,
Loudoun County Republican Committeeman
(202) 957-8454

*Not supported or endorsed by Scott Pio, this is my own opinion, and a damn good one.

#

Hi, it's Henry Eickelberg, Loudoun Treasurer.

VA-LOUDOUN-24-0395-A-000018

I and the other four Republican Constitutional Officers need you to vote for PAUL LOTT for Loudoun GOP (LCRC) Chair.

The current chair, Scott Pio, has failed us, our fellow candidates, and our party. We lost races we should have won.

Please VOTE THIS SATURDAY at 20098 Ashbrook Place between 10am - 2pm for PAUL LOTT. It will only take 5 minutes. You do not have to be an LCRC member - just a Loudoun voter.

Subject: Paul Lott's Financial History

To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise counsel from the person who would be supporting me the most.

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, it's important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRC's budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and unreasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent** \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to SchoolBoogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501c3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had its coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GOP Data Center is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GOP Data Center as a Hard Democrat.** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Scott Pio

Where was all the outrage when Pio allowed a BLM activist, VAXsupporting, Riot supporting, and Democrat donating (after allowed to join LCRC)individual to not only join LCRC but to also be head of the Outreach committee?What about donations being made to a Democrats "nonprofit" from the discountcards? This person was in the Democrat primary in 2023 in Dulles. It's funnyhow no one spoke up then.

On Friday, March 15th, 2024 at 7:29 PM, Matt Chwalowski <chwalowski@hotmail.com> wrote:

A couple of quick points:

I have been watching some RINOs on the Executive Team over the past two years who are afraid of their own shadows and water everything down.

The only measure of LCRC success/failure are election results.

We had three winnable races for BOS and SB each in 2023.

We should have won the Delegate race against the architect of the school debacle that made Loudoun famous.

It was a leadership-preventable failure.

Sure, nobody is perfect, but I draw a line when people refuse to learn from their mistakes and concentrate their energies on convincing me of their point of view instead of listening.

Democrats run LCDC according to best practices and they win elections with 360-degree mediocrities (I have 25 years of business consulting experience to Fortune 500 companies) and I see their professionalism and excellent execution. We operate like we are an 1850 pre-industrial company. I am frustrated that we are so incompetent with candidates. And this is not going to change.

LCRC is what members want it to be; the last two years we acted as a social club and we will be one for the next two years. The majority rules. However, let's not pretend that we are something else or that we achieve different results in the next two years. So far, we have been making Loudoun Democrats very happy.

Subject: ***IMPORTANT UPDATE: MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's Fiscal Irresponsibility

*Fellow Conservative Republican Patriots,

The below text message came from Henry Eickelberg last night to my personal text. I provide it here for context. Please read the text immediately below, between the two hash marks.

Here is my personal comment: Mr. Eickelberg's message is an astonishing betrayal of the constitutions of the United States of America and Virginia he claims to support, just by virtue of supporting a candidate who seems to have little respect for the law based on publicly available information. These five elected constitutional officers supposedly support candidate Paul Lott who should not be anywhere near political office of any kind. Bewildering and deeply offensive.

Additionally, read again below the publicly available information about Paul Lott, warning us of who he is, in Scott's email, and carefully consider whether you trust Paul Lott to run a business like the LCRC, pay the business taxes owed by the LCRC, or use the money donations of our hard earned tax dollars for their intended purposes like Scott Pio does.

Mr. Eickelberg offers no proof to substantiate his claims against Scott Pio (just like Mr. Lott) while Scott offers proof points to substantiate his claims, nor did he answer the three questions asked in public, which he refused to answer. Instead he trash talked Scott Pio. Now we see why.

The below photo and accompanying narrative by Mr. Eickelberg insinuating that it commands authority, is pathetic, and will only convince weak-minded voters to side with his rhetoric. Are you that weak?

Fellow voters and Republican Patriots, please stay strong and stand for Conservative Republican values. Stay strong as Trump Republicans while **we take back the LCRC** and "right the ship" under Scott Pio's leadership. Is he perfect? No, are you? Meanwhile, **We, the People** are sick of the immature factions of whining RINOs disrupting public meetings, partly because they lost their elections or want to support Paul Lott who does not have the character to hold any public office in my view.

If these candidates who lost and the constitutional officers would have investigated our grievances about what we have been disclosing publicly exposing the corrupt, out-of-control electoral process, they would realize how the candidates' elections in Virginia were rigged by the establishment political class. They have no room to complain about lost elections.

Lastly, Sheriff Mike Chapman declined to investigate our very thorough criminal complaint in October of 2022 (giving no reason for declining), regarding Loudoun County elections not following the reconstitution, and holding the Sheriff accountable to **We, the People** so Mike has first-handly denied our constitutional rights after he promised he would act. We have informed several other of the five constitutional officers pictured below also, and all fell on deaf ears. The People have a constitutional right to air grievances against tyrannical government, and the right to redress our complaints. For three-plus years, our complaints have only become ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothing whining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek
Member, speaking on my own behalf,
Loudoun County Republican Committeeman
(202) 957-8454

*Not supported or endorsed by Scott Pio, this is my own opinion, and a damn good one.

VA-LOUDOUN-24-0395-A-000022

Hi, it's Henry Eickelberg, Loudoun Treasurer.

I and the other four Republican Constitutional Officers need you to vote for PAUL LOTT for Loudoun GOP (LCRC) Chair.

The current chair, Scott Pio, has failed us, our fellow candidates, and our party. We lost races we should have won.

Please VOTE THIS SATURDAY at 20098 Ashbrook Place between 10am - 2pm for PAUL LOTT. It will only take 5 minutes. You do not have to be an LCRC member - just a Loudoun voter.

Subject: Paul Lott's Financial History

To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise counsel from the person who would be supporting me the most.

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, it's important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRC's budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and reasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent** \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to School Boogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501c3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had its coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GOP Data Center is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GOP Data Center as a Hard Democrat.** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Scott Pio

Subject: Re: ***IMPORTANT UPDATE:MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's FiscalIrresponsibility

Where was all the outrage when Pio allowed a BLM activist, VAXsupporting, Riot supporting, and Democrat donating (after allowed to join LCRC)individual to not only join LCRC but to also be head of the Outreach committee?What about donations being made to a Democrats "nonprofit" from the discountcards? This person was in the Democrat primary in 2023 in Dulles. It's funnyhow no one spoke up then.

Regards,

Scott Mineo

Matt Chwalowski,

Does not speak on behalf of the LCRC MAGACaucus. These are clearly not our sentiments. Our positions are issued publicly during committee meetings.

Thank you.

-Marc

On Friday, March 15th, 2024 at 7:29 PM, Matt Chwalowski <chwalowski@hotmail.com> wrote:

A couple of quick points:

I have been watching some RINOs on the Executive Team over the past two years who are afraid of their own shadows and water everything down.

The only measure of LCRC success/failure are election results.

We had three winnable races for BOS and SB each in 2023.

We should have won the Delegate race against the architect of the school debacle that made Loudoun famous.

It was a leadership-preventable failure.

Sure, nobody is perfect, but I draw a line when people refuse to learn from their mistakes and concentrate their energies on convincing me of their point of view instead of listening.

Democrats run LCDC according to best practices and they win elections with 360-degree mediocrities (I have 25 years of business consulting experience to Fortune 500 companies) and I see their professionalism and excellent execution. We operate like we are an 1850 pre-industrial company. I am frustrated that we are so incompetent with candidates. And this is not going to change.

LCRC is what members want it to be; the last two years we acted as a social club and we will be one for the next two years. The majority rules. However, let's not pretend that we are something else or that we achieve different results in the next two years. So far, we have been making Loudoun Democrats very happy.

Subject: ***IMPORTANT UPDATE: MUST READ BEFORE YOU VOTE: Incumbent LCRC Chair vs. Paul Lott's Fiscal Irresponsibility

*Fellow Conservative Republican Patriots,

The below text message came from Henry Eickelberg last night to my personal text. I provide it here for context. Please read the text immediately below, between the two hash marks.

Here is my personal comment: Mr. Eickelberg's message is an astonishing betrayal of the constitutions of the United States of America and Virginia he claims to support, just by virtue of supporting a candidate who seems to have little respect for the law based on publicly available information. These five elected constitutional officers supposedly support candidate Paul Lott who should not be anywhere near political office of any kind. Bewildering and deeply offensive.

Additionally, read again below the publicly available information about Paul Lott, warning us of who he is, in Scott's email, and carefully consider whether you trust Paul Lott to run a business like the LCRC, pay the business taxes owed by the LCRC, or use the money donations of our hard-earned tax dollars for their intended purposes like Scott Pio does.

Mr. Eickelberg offers no proof to substantiate his claims against Scott Pio (just like Mr. Lott) while Scott offers proof points to substantiate his claims, nor did he answer the three questions asked in public, which he refused to answer. Instead he trash talked Scott Pio. Now we see why.

The below photo and accompanying narrative by Mr. Eickelberg insinuating that it commands authority, is pathetic, and will only convince weak-minded voters to side with his rhetoric. Are you that weak?

Fellow voters and Republican Patriots, please stay strong and stand for Conservative Republican values. Stay strong as Trump Republicans while we **take back the LCRC** and "right the ship" under Scott Pio's leadership. Is he perfect? No, are you? Meanwhile, **We, the People** are sick of the immature factions of whining RINOs disrupting public meetings, partly because they lost their elections or want to support Paul Lott who does not have the character to hold any public office in my view.

If these candidates who lost and the constitutional officers would have investigated our grievances about what we have been disclosing publicly exposing the corrupt, out-of-control electoral process, they would realize how the candidates' elections in Virginia were rigged by the establishment political class. They have no room to complain about lost elections.

Lastly, Sheriff Mike Chapman declined to investigate our very thorough criminal complaint in October of 2022 (giving no reason for declining), regarding Loudoun County elections not following the constitution, and holding the Sheriff accountable to **We, the People**, so Mike has first-handly denied us our constitutional rights after he promised he would act. We have informed several other of the five constitutional officers pictured below also, and all fell on deaf ears. The People have a constitutional right to air grievances against tyrannical government, and there is no redress of our complaints. For three-plus years, our complaints have only become ridiculed and dismissed.

Like Trump, we are taking back the LCRC back from do-nothing whining RINOs, under the leadership of Scott Pio, going Red.

Thomas Kasperek
Member, speaking on my own behalf,
Loudoun County Republican Committeeman
(202) 957-8454

*Not supported or endorsed by Scott Pio, this is my own opinion, and a damn good one.

#

Hi, it's Henry Eickelberg, Loudoun Treasurer.

I and the other four Republican Constitutional Officers need you to vote for PAUL LOTT for Loudoun GOP (LCRC) Chair.

The current chair, Scott Pio, has failed us, our fellow candidates, and our party. We lost races we should have won.

Please VOTE THIS SATURDAY at 20098 Ashbrook Place between 10am - 2pm for PAUL LOTT. It will only take 5 minutes. You do not have to be an LCRC member - just a Loudoun voter.

Subject: Paul Lott's Financial History
To: <tomkasperek@gmail.com>

Conservatives,

A couple days ago, Paul put out an email that speaks about his multiple domestic disputes against his third wife, Crystal Lott. He seemingly blames me for sharing some sort of personal information about his third divorce with his three children. He goes into detail about multiple calls to the police and domestic disputes. While I am friends with Crystal Lott on Facebook, both Paul and her have shared about their domestic disputes and divorce publicly online. **It wasn't a secret.**

It is NOT my intention to step into his family business, his 10 kids and three failed marriages. It is NOT my intention to speak about his domestics, his DUI from 2017 or the private family matters that have no bearing on him being able to professionally conduct business at the LCRC. **I do believe going through a divorce at the same time your Chairman of the LCRC would be extremely time consuming.** If I were running for public office, I would have certainly sought wise counsel from the person who would be supporting me the most.

I also believe the LCRC should NOT be put in the middle of a divorce like two parents fighting for custody BUT Paul's family should NEVER EVER be attacked.

All parents get defensive when their families get involved. I believe Paul, Crystal and their three children should be left to figure out their divorce and custody personally, NOT publicly. **Crystal and their three children deserve our respect, protection, and support in these trying times.** Divorces take a lot of time, energy, tears, heartbreak and life changes which we should leave for Paul and Crystal to navigate by themselves.

Without bringing family into things, I do believe Paul has a poor history of financial issues that should be shared. In managing 100s of thousands of dollars, it is important to know the person driving the boat won't steer it into bad financial waters.

I share this begrudgingly. Airing someone's dirty laundry is inappropriate without cause. With his history and preparing to manage the LCRC's budget, I believe this information is pertinent and should be shown to the voter.

Paul Lott's Civil Case History

1. Lott's 1st Bankruptcy.

On November 22nd, 2011 the U.S. Bankruptcy Court for the Eastern District of Virginia approved his bankruptcy petition and discharged his reported debt in an unknown amount. See the attached.

2. Lott's Alexandria General District Court Civil Case GV16002212-00

On May 2nd, 2016 Kettler Management Inc. filed a civil suit against him and his family for failure to pay \$461.50 in past due rent, \$160.50 late fee, \$160.50 in future rent, \$80.00 in court costs and reasonable attorney fees, for their failure to pay past due rent and their failure to vacate leased rental property. On May 17th, 2016 the court approved Kettler Management Inc's request that the case be dismissed. It is unknown if he paid the debt to Kettler Management, Inc. See the attached.

3. Lott's Fairfax County General District Court Civil Case GV19022267-00

On August 26, 2019 **Ahmad Mahoozi filed a civil suit against him for failure to pay \$2000.00 in past due rent** \$480.00 late fee, \$8.00 in court costs, and \$900.00 in attorney fees (later increased to \$1700.00), for his failure to pay past due rent and his failure to vacate leased rental property. The case went to trial on September 27th, 2019 when the court found in favor of Mahoozi and directed Lott to vacate the premises and pay Mahoozi \$1640.00 plus \$58.00 in court costs and \$1400 in attorney fees. It is unknown if he paid the judgment to Mahoozi. See the attached.

4. Lott's 2nd Bankruptcy.

On August 31st, 2020 the U.S. Bankruptcy Court for the Eastern District of Virginia disapproved his bankruptcy petition and dismissed his request for relief from an unknown amount of debt. See the attached.

5. Lott's Federal Tax Lien and Federal Tax Lien Release.

On November 3rd, 2020 the Internal Revenue Service filed a tax lien of \$544,903.51 against him at the Prince William County land records office for unpaid federal income taxes for years 2001 through 2010 originally assessed on September 8th, 2011. See the attached.

6. Lott's Fairfax County Circuit Court Civil Case CL-2020-07473.

Capital Credit Incorporated sued him in Travis County District Court, Texas and was awarded a total judgment of \$76,322.57 against him on February 6th, 2020. Capital Credit Incorporated then filed a civil suit against him on May 26th, 2020 to answer debtor interrogatories and to provide financial documents pertaining to SchoolBoogy Corporation, a company he incorporated in Virginia. On June 17th, 2022 the court dismissed Capital Credit Incorporated's action without prejudice (which means that the plaintiff may resume the civil action at a future date). The case was flagged as a "Bankruptcy Stay" however it is unknown why the court took this action. See the attached.

7. Lott Arrested for failure to pay child support

Fairfax County Police issues a warrant for the arrest on Jan. 2019. For failure to pay child support, on 01/08/2019, an officer filed an arrest report for Paul Lott. See the attached.

2. Lott's National Society for Advancement of Black Americans 501C3 Status is REVOKED

in 2023, A 501c3 which Paul was the PRESIDENT of, had its coveted status REVOKED due to failure to file 990 forms. See the attached.

8. Questionable party affiliation

GOP Data Center is the RNC database used by local and state units to verify voter history and party affiliation. **Paul Lott is presently listed within GOP Data Center as a Hard Democrat.** The LCRC has zero control over RNC data and how it represents individuals. See the attached.

9. Lott raised only \$5,000 for his delegate race.

He underperformed the entire county both in dollars and votes. When the LCRC needs to raise a minimum \$500,000.00 over the next 2 years, raising this sort of money isn't easy or pretty.

Conclusions should be made about someone's ability to manage a budget, pay bills on time and not bring the LCRC into delinquency.

You should ask yourself a single question.

If the Loudoun County Republican Committee is expected to raise 6-7 figures to compete with socialist democrats, then is Paul Lott the person you want managing that money?

The individual leading the Republican Party in Loudoun County may be subject to extensive background examinations by the opposing party. This information can and may likely be used by liberal Dems and their social media constituents against Mr. Lott, the Loudoun County Republican Committee, our candidates and our elected officials. Do we want someone with this long history of factual background problems potentially creating an adverse political and social media environment for our party, our candidates and our elected officials? Every year is an election year in Loudoun County and we cannot take this risk.

Any REGISTERED VOTER can vote in the Chairman's election. You do not have to be a member to cast a ballot.

I would be grateful for your vote on March 16th at 10AM - 2PM 2024 at 20098 Ashbrook Place, Ashburn, VA.

Subject: [EXTERNAL] Re: [EBLIST] Ordering Ballots for Elections

Dear Fellow Electoral Board Members,

None of us can predict the exact number of voters or how many ballots they will need for the March primaries. As has been written, there are many variables.

On Election Day November 2021, many localities **RAN OUT OF BALLOTS**, some as early as **10 AM. Not Pretty.**

As two members of a previous SBE said in unison.
"Paper is cheap, Lawyers are expensive".

For those of you never having seen an Election Day during which the voters are told "Sorry, you must wait while we try to figure out how to get more ballots", consider yourselves lucky or smart because your locality did order enough ballots.

By ordering 100% of the total number of registered voters, both active and inactive, you might be lucky. Since we have no way of knowing which voter will vote in which of the two party races nor how many Same Day Registration and Voting voters will appear, 100% of the total number of registered voters might be insufficient if more than 50% of the voters in that precinct or locality vote in the same party election. As we should ask, "100% of what?".

So, to quote Dirty Harry, "Do you feel lucky, Sucker?"

Hope we all make the right choice and have left over ballots,

Clara Belle Wheeler, MD
Vice Chairman, Albemarle County Electoral Board

CAUTION: This message originated outside the County of Albemarle email system. DO NOT CLICK on links or open attachments unless you are sure the content is safe.

There will be unused ballots because we are now in the era of precinct specific ballots, provisional ballots for same day registration, address changes, high absentee ballot requests, absentee ballots not received because voter moved or forgot they were on the list, and early voting.

No one has addressed the REAL Nightmare coming in March!!!

Precinct and party specific ballots!!! There has never been a primary held with these restrictions.... I'm willing to bet Independent registration has doubled since 2020.

For those of us who have experience with the changes of election law since 2020, costs and responsibilities have multiplied tremendously

On Dec 29, 2023, at 5:14 PM, Lannis Selz <lannisselz@gmail.com> wrote:

Good discussion. It certainly is a high-consequence event if poor planning results in running out of ballots; developments like Same Day Registration have made the historical numbers and experience less trustworthy.

However, in things like the multiple primary elections coming up, where we have never experienced turnouts over 15 or 20% in many districts, simply ordering 100% of the number of registered voters in ballots is going to result in an awful lot of wasted paper, which still has to be handled and accounted for.

Each EB has to balance risk/cost for themselves, since (like the captain of a ship) they are the ones responsible if the vessel runs aground!

Ms. Worssam,

Thank you for sharing your insights into the cost of election ballots and the potential wastes of excess. Clearly research and good planning is needed to assure sufficient quantities, balanced with good stewardship.

Allow me to introduce myself to the members of this forum.

My name is Paul Kitchen.... I am a newly appointed member of the Floyd County Electoral Board. This is the first communication I have received from this list since my appointment. I get the impression that this is a place that board members can share ideas and learn from one another. Is there a user's guide or set of rules for this forum? Is there a moderator?

I will be attending Boot Camp in February and the VEBA meeting in March. I look forward to meeting you and learning from you.

Best regards,

Paul M. Kitchen, Incoming Electoral Board Memeber

Happy New Year Electoral Boards of Virginia.

How many of you have added up the number of unused ballots that get put in envelope # 5 from each of your polling places and sent to the Clerk's of the Court office to never be seen again?

Well, I did just that and I was surprised to learn that we were going to be shredding 6519 ballots at a cost of \$1629.75 of Dinwiddie County taxpayers dollars. This is a shame.

Did you all know there is legislation in the Virginia Election Law Code book 24.2-612, 24.2-642 (C) and 24.2-646.1, and an authorization from the State Board of Election Policy 2008-005. There is an Authorization to Reproduce Ballots form that must be completed and signed when ballots are reproduced that is available in the forms warehouse (ELECT_646.1).

The State Board grants approval to any locality which uses optical scan ballots at one or more precincts, including central absentee precinct, to use the optical scan ballot or printed reproductions of the optical scan ballot in lieu of the official paper ballot. All copies shall be made and accounted for according to instructions provided by the State Board of Elections.

So maybe you all will keep this in mind when you are approving the ballots you will need in your upcoming elections.

The registrar in Dinwiddie County says we cannot make copies because the paper will not feed through the optical scanning machine. **My question is, what does one do with those ballots that were mailed back after being emailed to**

VA-LOUDOUN-24-0395-A-000030

the military or anyone else who requests a ballot during absentee voting. They are hand counted!

In the coming years, Let's think really hard about how are spending taxpayer dollars.

Carolyn Worssam

Secretary

Dinwiddie County Electoral Board

Carolyn V. Worssam

Good discussion. It certainly is a high-consequence event if poor planning results in running out of ballots; developments like Same Day Registration have made the historical numbers and experience less trustworthy.

However, in things like the multiple primary elections coming up, where we have never experienced turnouts over 15 or 20% in many districts, simply ordering 100% of the number of registered voters in ballots is going to result in an awful lot of wasted paper, which still has to be handled and accounted for.

Each EB has to balance risk/cost for themselves, since (like the captain of a ship) they are the ones responsible if the vessel runs aground!

Thank you for sharing your insights into the cost of election ballots and the potential wastes of excess. Clearly research and good planning is needed to assure sufficient quantities, balanced with good stewardship.

Allow me to introduce myself to the members of this forum.

My name is Paul Kitchen.... I am a newly appointed member of the Floyd County Electoral Board. This is the first communication I have received from this list since my appointment. I get the impression that this is a place that board members can share ideas and learn from one another. Is there a user's guide or set of rules for this forum? Is there a moderator?

I will be attending Boot Camp in February and the VEBA meeting in March. I look forward to meeting you and learning from you.

Best regards,

Paul M. Kitchen, Incoming Electoral Board Memeber
Floyd County, Virginia Electoral Board

Subject: [EBLIST] Ordering Ballots for Elections

Happy New Year Electoral Boards of Virginia.

How many of you have added up the number of unused ballots that get put in envelope # 5 from each of your polling places and sent to the Clerk's of the Court office to never be seen again?

Well, I did just that and I was surprised to learn that we were going to be shredding 6519 ballots at a cost of \$1629.75 of Dinwiddie County taxpayers dollars. This is a shame.

Did you all know there is legislation in the Virginia Election Law Code book 24.2-612, 24.2-642 (C) and 24.2-646.1, and an authorization from the State Board of Election Policy 2008-005. There is an Authorization to Reproduce Ballots form that must be completed and signed when ballots are reproduced that is available in the forms warehouse (ELECT_646.1).

The State Board grants approval to any locality which uses optical scan ballots at one or more precincts, including central absentee precinct, to use the optical scan ballot or printed reproductions of the optical scan ballot in lieu of the official paper ballot. All copies shall be made and accounted for according to instructions provided by the State Board of Elections.

So maybe you all will keep this in mind when you are approving the ballots you will need in your upcoming elections.

The registrar in Dinwiddie County says we cannot make copies because the paper will not feed through the optical scanning machine. **My question is, what does one do with those ballots that were mailed back after being emailed to the military or anyone else who requests a ballot during absentee voting. They are hand counted!**

VA-LOUDOUN-24-0395-A-000033

In the coming years, Let's think really hard about how are spending taxpayer dollars.

Carolyn Worssam

Secretary

Dinwiddie County Electoral Board

Subject: [EXTERNAL] Re: [EBLIST] Risk Management

Thank you for this information. As this will affect all localities, I think it would be a good idea for possibly the EB's to come up with a standard letter for all localities to send to their privately owned precincts regarding the need for the insurance as well as determining which precincts currently have an "event policy" and which do not.

After that, my guess is that possibly if all localities worked together there could be a financial advantage to going together to purchase a "small" event policy. I plan to meet with our county attorney in regards to the county owned precincts, but I feel certain, there are many smaller localities that will need to purchase policies for those that are not county/city owned.

I would appreciate everyone's thoughts on this.

On Tue, Apr 9, 2024 at 8:08 PM Clara Belle Wheeler <00000131d4ca0cb7-dmarc-request@listlva.lib.va.us> wrote:

Dear EB Members,

The subject of Liability for injury in or around precincts needs clarification. To that end today I spoke with an attorney in a county government. The attorney's statements were as follows:

1. In **county or city owned buildings**, the locality has liability insurance for those buildings. Check with your Risk Management Dept.
2. It is important that the signage directing the voters to the correct entrance be placed correctly, so that the voters follow the proper path, steps, doors. If the signage is incorrectly placed there could be liability.
3. Lighting must adequately light the walkway. Check the lighting in the dark.
4. Snow and Ice must be removed and treated so that the walking and parking surfaces are not slick. Be in touch with the local snow removal groups.
5. Be mindful of the inside floors during inclement weather.

6. For **privately owned buildings**, check that the owners have liability insurance. In less affluent polling places, the EB may need to provide a one day "event" policy. For instance, a small church may be unable to afford to pay for an "event" policy. These polling places may withdraw their building without the "event" policy. A one day policy is not expensive and much less costly than paying for an injury or relocating the polling place.

These statements confirm that we all should check with our own county attorneys and Risk Management to confirm what our locality's attorneys and Risk management have in place and what needs to be instituted.

Glad that the question was asked now so that we all can get answers before we wish we had asked,

Free, fair, safe, and legal elections,

Clara Belle Wheeler
Albemarle County

Richard, thank you for the information. I have to say that I am a little disappointed that you are equating what's in this movie to Loudoun County. Notably. We are HAND COUNTING entire races in Loudoun that are coming out clean! We are doing MORE than ANY other place in Virginia and perhaps the nation. We are working diligently to keep the rolls clean as well, tracking removals monthly and doing more than required by the law.

We are currently doing an updated study on the % of registrants to eligible voter-aged citizens, due to our recent meeting with Scott and Tom. We have heard the requests for machine validation, transparency and eligibility and have taken swift and meaningful action.

There IS a PLAN currently in place in Loudoun. I appreciate your hard work on this, if you'd like to make more of a difference please encourage other counties to follow and please go to the general assembly and ask for changes to the law. Thank you. Sincerely, Kristen

Calling All Patriots Who Care About Clean Elections Enough To Take Action Now!!!

Date: Thursday, Feb. 15, 2024

Time: 6:00 food, 7:00-9:00p movie plays

Location: Zion Springs Bed & Breakfast, the Main Barn.

Let My People Go is a modern-day deliverance story rooted in biblical themes and archetypes. The film focuses on the bondage of the American people by a wholly infiltrated and weaponized U.S. government, directly and indirectly influenced by CCP and Marxist forces. The film presents the first form of slavery which is achieved using proprietary black boxes and software, where swamp candidates are selected rather than elected. Massive ballot harvesting operations provide the paper trail to cover up the greatest crime in our nation's history — the removal of Donald John Trump.

The second form of slavery focuses on the real-life consequences of the Americans who gathered and protested the theft of their votes on November 3rd — The January Sixers — that now languish in prison.

The film ends with a compelling call to action called "Gideon's 300," for all citizens who care about holding onto their rights and freedoms to have free and fair elections, with specific examples of what you can do!

Following this 2-hour movie will be a meeting to discuss a specific plan of action for Loudoun County and the Commonwealth to clean up our elections in time for 2024.

"Let My People Go" (trailer here and below <https://letmypeoplego.movie/>). This is MUST SEE information about our election infrastructure and the depth of tyranny presented in order to understand the full scope of the issues and the forces behind the corrupt rigging our elections in Virginia and the Commonwealth. We will plan next steps, actions you can take now as citizens to help us save our elections.

We will have some of the most talented, experienced, and committed Patriots doing a serious planning session following the meeting: (<https://www.zionspringscatering.com/>). We might have to have campfires and community at the same time!

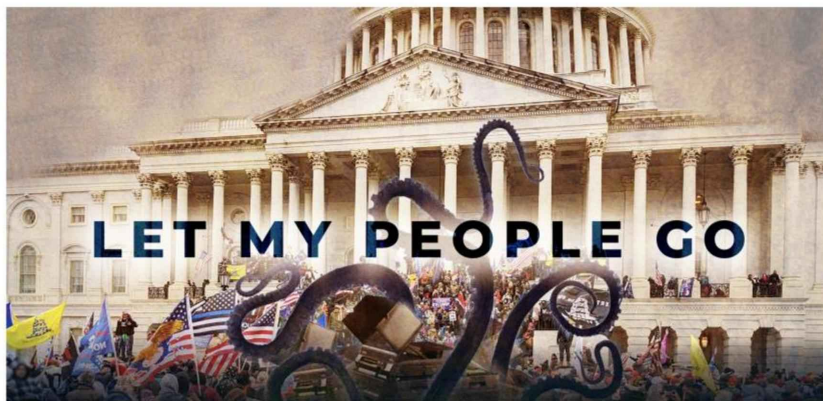

We will have some food, beer and wine, and show the documentary on a large screen and then engaging in serious discussion. Invite your friends, even those you do not like. It's game time and we need everyone to be aware of what is going on with elections. Bring your favorite cigar or brand of whiskey for the fireside planning session.

See attached for a PDF flyer you can print and send to your most trusted people. Elected or appointed election officers welcome.

Kristen,

I appreciate your comments and belief that Loudoun is unique among all voting system entities in the USA. I don't think you understand that in spite of your efforts at the fringes the core is still corrupt. The LC Office of Elections has outsourced all major components of the election system to non transparent 3rd parties, including foreign owned. They even unilaterally outsourced the printing and mailing of absentee ballots to a 3rd party, initially in Seattle, WA against the opposition of **everyone** who spoke at the Electoral Board meeting.

What about all of our private information that went to China via the election officer/poll watcher management system Konnech-PollChief? Who authorized that purchase and implementation?

There is no testing company in the USA that meets all the Federal testing requirements. How about that.

The list is too long to go into here and we have discussed more of those items in our meeting with Tom, Scott and JR.

I am pleased that you are looking into voter registration. Are you looking at the process and procedures for all 4 components? Is the Registrars office doing all 4 before an individual is registered?

1. Verification of citizenship
2. Verification of identity
3. Verification of residence
4. Verification of eligibility

If not, the voter rolls are compromised.

I recognize running an election system is a hard job. But, in light of all the issues with the system, you can be a hero and say the citizens have lost trust in the system. In fact, the citizens don't even get a receipt of how their vote was recorded after it is put into a scanner which if you buy a pack of gum in a grocery store you do. We believe that Loudoun County should be done with electronic scanning/tabulation. We need to go to a hand count of paper ballots by the citizens because the system is inoperable, unverifiable. In fact, per the Constitution of Virginia Article II, Section 3 it states "Secrecy in casting votes shall be maintained, except as provision may be made for assistance to handicapped voters, but the ballot box or voting machine shall be kept in public view and shall not be opened, nor the ballots canvassed nor the votes counted, in **secret**." Which is exactly what the scanner does, counts the vote in secret.

I really encourage you to come see us Thursday night and learn what you don't know because it has been hidden from you or obscured.

Best regards, Richard

Hello,

When my daughter requested her GOP ballot today, "Bill" looked at her and asked her "are you sure you want that one?" My daughter is a new voter, and brought this up during our dinner tonight. I asked if he had been asking the other voters in line ahead of her that, and she said no. The older gentleman behind her was also not asked that question.

Thankfully, my daughter is strong in her convictions but (since I am an election volunteer also) I wanted to get clarification on your position if it is appropriate for volunteers to ask certain voters to confirm their ballot choice and not the other voters in line. I can confirm that my wife and I were also not asked if we were "sure" about voting republican. With the issues surrounding elections, I urge Loudoun County and its volunteers to take this seriously. Thank you for your time and attention to this matter.

Subject: [EXTERNAL] RE: Scott gets rebuked by members

Bad, poor, ill thought out, and poorlytimed messaging is definitely a problem.

But I don't blame it all on that. Like I said, Virginia and Loudoun Democrats cheat and put their thumbs on the scales just enough to tip elections when they need to. I don't think that they cheat dumbly, but I think they cheat just enough to "win" if that's what's required.

Despite Democrats and leftists screaming "electiondenier" from the rooftops, it is a proven fact that Trump won the 2020 election and Democrats stole his re-election, primarily through the use of fraudulent "mailin ballots".

<https://www.theepochtimes.com/epochtv/ballot-fraud-study-finds-trump-almost-certainly-won-in-2020-facts-matter-5586584>

Sadly I think that many Republicans don't have a desire to fight hard and win. Many seem content to be "cordial losers", as long as it means that nobody calls them bad names like, "racist", "bigot", "homophobe", "white supremacist", "far right", "election denier", "anti vax", "Christiannationalist", or whatever new libelous term that they choose to slander us with.

There are MANY Republicans who don't have much fight in them. John McCain, Mitt Romney, Ronna McDaniel, Liz Cheney, Lisa Murkowski, Susan Collins, Mitch McConnell, etc. are all examples.

There is nobody on the planet better at getting Republicans beaten than Ronna McDaniel. I personally believe that she was compromised from DAY ONE by accepting George Soros money.

In any event, as good as she is at getting Republicans beaten many believe that her next job will be with the DNC... :-|

Subject: Re: Scott gets rebuked by members

Time and again, even as recently as the 2023 election, Democrats have managed to communicate their message better than the GOP, often setting the narrative about us. While it's awesome to see groups like the NRCC drop some powerful ads in September just before an election, by that point, it's usually too late. Starting to shape the Democrats' image should begin in the primary season because messaging needs to be constant and relentless, like an unending rhythm. As we head into the General Election, that's when we should start honing in on more specific targets. This straightforward strategy is something the NRCC, RNC, and GOP seem to consistently miss or neglect.

I concur with much of what you said Matt.

Scott only won by 37 votes. That is definitely not a ringing endorsement.

My view however is that we should NEVER put a **lifelong hard Democrat** in charge of the LCRC. That would literally be cutting our noses off to spite our faces.

Mr. Lott was NEVER an option for me. I REFUSE to vote for a life long hard Democrat, who is also a BLM racist, a deadbeat dad, and serially financially insolvent. I am sure that he likely also supports anti white bigotry, BLM, AntiFa, baby murder, sodomy, racier riots, illegal immigration, feminism, deficit spending, and who knows what else. For me Mr. Lott was just NEVER an option.

Frankly I think Mr. Lott was sent by the Democrats as a takeover attempt of the LCRC. Thank God that takeover attempt failed.

I am not in LCRC leadership. That said, I respectfully submit the following to Scott Pio and the rest of the LCRC Leadership:

Rather than being a social club for old rich white people, and recruiting a vaccine pushing, BLM riot supporting, black bigot as a "minority outreach representative", we should do the following:

1. Get Republicans elected to high office NO MATTER WHAT IT TAKES. If we can't get Republicans elected at a time when we have a historically unpopular Democrat President, then we frankly NEVER can.
2. Get serious about rooting out election fraud. Including getting rid of **early voting, mail in voting, drop box voting**, and purge ALL **dead people, illegal immigrants, and felons** from the voter rolls.
3. Modify our Republican Primary process so that ONLY registered Republicans can participate. We can do this by moving to a Caucus Primary or verifying Republican party member before allowing the person to vote.

How many decades will Virginia Republicans allow Democrats to choose their candidates?!?! They have **FLOODED** our Primaries in coordinated and targeted fashion to obliterate good solid Republican office holders, be sure that they don't make it out of the Primary, and that the person who does make it out of our Primary is MUCH easier for the Democrat to defeat in the General Election. How long will we let them do that to us?!?!

Subject: Scott gets rebuked by members

Scott:

Let me express a sentiment on many people's minds. LCRC is two tribes (MAGA and social club) – and it is your perhaps unintended creation of the last two years – and this is not healthy. You should figure out to create one LCRC and not ignore the current situation.

Your self-congratulatory email from last night shows that you do not get it.

Half of the members rejected you.

You were an incumbent for 720 days, you have been in everyone's face, high name recognition and you almost lost to a "random, not-so-perfect" guy who has been campaigning for 19 days.

You engaged all the establishment LCRC people to get their support and you still eked out only a measly "victory". What do you plan to do to make LCRC one happy family?

Members were not voting for your opponent; they were voting against your management style and your ideas.

This result means a hollow track record. Half of the people do not value your contributions.

You do not have a mandate. You know it. You are facing a distracting civil war over anything you bring up unless you address your issues with members.

I was your supporter until two things happened:

- Your actions about candidates as revealed at the last business meeting. I see why half of the people lost trust in you.
- When I realized that your priority is to build useless LCRC machinery rather than elect GOP candidates. You leverage 650 members to benefit you alone long-term. Your sob story that you are doing it for your kids without focusing on candidates is just a ruse for little people. You went like 10X more combative and negative against Paul than against any Democrat over the past two years.

I am law-and-order respectful of authority Republican – when I stand up, you should pay attention. There is

VA-LOUDOUN-24-0395-A-000050

simmering anger about LCRC's direction: winning elections versus building party machinery with no purpose.

I did not realize the extent to which you lacked political instincts until I wrote my 30-page Election Guide about the 2023 clown-show campaign. Your election-related actions were ignorant and neglectful. It takes some life experience to understand voters.

The delusional "Turn Loudoun Red" not backed by action is empty rhetoric and a shell game, not professional and calm management.

Your LCRC management belongs to the Harvard Business School test case to learn how NOT to manage an organization. You are an overanxious micromanager. You make Loudoun Democrats happy.

Not listening to people, and telling them what to think; leaders show humility and self-reflection.

What is the plan for LCRC? To represent the interest of the 50%?

Sure, you can "put lipstick on a pig" charade and a "listening tour" that does nothing. How do you deal with 50% of members who reject your direction? The easiest for you might be to come up with a communist-like "loyalty pledge" and retain sycophants only within LCRC.

I do not see evidence that you understand the Warren Buffet concept of "doing what is important". You want us to do 135 things and keep the no-result-producing LCRC machinery in business.

Half of the LCRC members agree with what I wrote above. It would be helpful if you put LCRC first.

Disclaimer: This is 100% opinion.

Scott,

The RPV and the RNC are strictly prohibited from carrying the messaging or getting in front of it. Having had several hard conversations with them, it is their belief that ONLY the candidates are allowed to carry the messaging. As such, you should NEVER expect the RPV or RNC to message on behalf of Republicans. It is a HARD NO from their leadership.

I on the other hand do NOT accept that premise. The Republican Party should be getting their weight in front of messaging. As such, the local unit will carry it.

Subject: Scott gets rebuked by members

Scott:

Let me express a sentiment on many people's minds. LCRC is two tribes (MAGA and social club) – and it is your perhaps unintended creation of the last two years – and this is not healthy. You should figure out to create one LCRC and not ignore the current situation.

Your self-congratulatory email from last night shows that you do not get it.

Half of the members rejected you.

You were an incumbent for 720 days, you have been in everyone's face, high name recognition and you almost lost to a "random, not-so-perfect" guy who has been campaigning for 19 days.

You engaged all the establishment LCRC people to get their support and you still eked out only a measly "victory".

What do you plan to do to make LCRC one happy family?

Members were not voting for your opponent; they were voting against your management style and your ideas.

This result means a hollow track record. Half of the people do not value your contributions.

You do not have a mandate. You know it. You are facing a distracting civil war over anything you bring up unless you address your issues with members.

I was your supporter until two things happened:

- Your actions about candidates as revealed at the last business meeting. I see why half of the people lost trust in you.
- When I realized that your priority is to build useless LCRC machinery rather than

elect GOP candidates. You leverage 650 members to benefit you alone long-term. Your sob story that you are doing it for your kids without focusing on candidates is just a ruse for little people. You went like 10X more combative and negative against Paul than against any Democrat over the past two years. I am law-and-order respectful of authority Republican – when I stand up, you should pay attention. There is simmering anger about LCRC's direction: winning elections versus building party machinery with no purpose.

I did not realize the extent to which you lacked political instincts until I wrote my 30-page Election Guide about the 2023 clown-show campaign. Your election-related actions were ignorant and neglectful. It takes some life experience to understand voters.

The delusional "Turn Loudoun Red" not backed by action is empty rhetoric and a shell game, not professional and calm management. Your LCRC management belongs to the Harvard Business School test case to learn how NOT to manage an organization. You are an overanxious micromanager. You make Loudoun Democrats happy.

Not listening to people, and telling them what to think; leaders show humility and self-reflection.

What is the plan for LCRC? To represent the interest of the 50%? Sure, you can "put lipstick on a pig" charade and a "listening tour" that does nothing. How do you deal with 50% of members who reject your direction? The easiest for you might be to come up with a communist-like "loyalty pledge" and retain sycophants only within LCRC.

I do not see evidence that you understand the Warren Buffet concept of "doing what is important". You want us to do 135 things and keep the no-result-producing LCRC machinery in business.

Half of the LCRC members agree with what I wrote above. It would be helpful if you put LCRC first.

Disclaimer: This is 100% opinion.

Subject: [EXTERNAL] Your Requested Action on Election Bills

Dear Shelley,

I wanted to let you know that I have followed up on our discussion at the 10th CD Convention this past Saturday with a request that the Governor veto the bills that came to him from the recent Reconvened Session of the Virginia General Assembly. While I can't predict what the final action will be, I have concerns over HB 904, SB 300, and SB 196. Action must be complete by 11:59pm on the night of May 17th, so we should learn then or shortly before what final action is taken.

Thank you for flagging these for me, and thank you for your work on the Loudoun County Elector Board as vice chairman.

RICHARD L. ANDERSON

Shelley Oberlander
Vice-Chairman Loudoun County Electoral Board

★ VIRGINIA ★
DEPARTMENT *of* ELECTIONS

Official ELECT Advisory

DATE: March 4, 2024

SUBJECT: Willfully Damaged Ballots

WHY THIS IS NEEDED: The Department of Elections has received inquiries from general registrars requesting guidance on what actions to take in a precinct when a voter *willfully* damages their ballot, so it is no longer machine readable, and requests that their ballot be hand counted.

HOW THIS AFFECTS YOU: Under Virginia Code [§24.2-103](#), the Department “shall supervise and coordinate the work of the county and city electoral boards and of the registrars to obtain **uniformity in their practices** and proceedings and legality and **purity in all elections.**” Virginia Code establishes that electronic voting systems, defined in [§24.2-101](#) as an electronic voting and counting machine, must be used in the Commonwealth. [1VAC20-60-40](#) establishes that a ballot is cast when the voter inserts his or her ballot into the optical/digital scanner or through the direction of the curbside voter to the officer of election. In the event that a machine is inoperable, officers of elections should comply with [§24.2-642 \(B\)](#). Voters do not have the authority to request that their ballot be hand counted as an alternative to utilizing electronic voting or counting machines.

ACTION ITEMS: If a ballot is rendered unreadable, the Officer of Election should follow the procedures to spoil and reissue the ballot as found in ELECT’s [Election Day Guide for Officers of Election](#) and provide the voter the suspected reason for rejection by the machine. For example, if the ballot was rejected for being folded or crumpled, the officer shall inform the voter of the reason and instruct them to not repeat the same actions on the reissued ballot.

If the voter intentionally renders the ballot unreadable a second time in violation of the officer’s instructions, the officer of election shall reissue the ballot and inform the voter that the ballot will not be hand counted and that any further intentional destruction will result in contacting law enforcement.

If the voter intentionally renders their ballot unreadable a third time, officers of election should inform the general registrar and call law enforcement. Pursuant to [§24.2-1009](#) of the Code of Virginia, any person who willfully, fraudulently, or wrongfully tampers with any part of any ballot container, voting or registration equipment, **records**, or **documents** which are used in any way in the elections process is **guilty of a Class 5 felony**. Any further decisions to reissue additional ballots shall be made by the general registrar, after discussion with their local electoral board.

If a locality has received information or suspects that a coordinated effort to damage ballots to force a hand count is underway, they should prepare accordingly with additional ballots and step-by-step instructions for the officers of election to follow in their precincts.

From: Shelley.Oberlander@loudoun.gov <Shelley.Oberlander@loudoun.gov>
Sent: Tuesday, January 09, 2024 1:55 PM EST
To: Judy Brown <judy.brown@loudoun.gov>; Elaine Mesmer <Elaine.Mesmer@loudoun.gov>
Subject: Corrections to Dec.14, 2023 Minutes

These are my recommended corrections to the Dec. 14, 2024 minutes:

1. End of Judy's report, Tammy Alexander paragraph, done/not down.
...holding another candidate paperwork in our area as she has done in the past....

2. Under Ricky's Report:

In Field Manager/Rover paragraph... (I thought Chair Kalina, also asked for the Electoral Board to be included in the future election debriefings of Rovers, Trainers, etc.)

3. Under Ricky's Report:

Vice Chair Oberlander ...said since there is extra money for the Presidential Primary, she recommended the Election Office purchase:

1. more voting booths (4 Quad stations) and add them to the precincts that are requesting them. She observed Voters waiting to get to a voting booth on Election Day and had seen this request from several Chiefs in the Incident Reports.

2. Based on her observations from Election Day, she also recommended the purchase of stand alone signs or stands for Curbside Voting and Handicap Parking spaces, so they can be used on asphalt or concrete, where there is no dirt/grass to insert the current signs

3. and the purchase of yellow reflective caution vests for the Election Officers to wear for their safety while doing curbside voting and

4. for more signage be purchased with the Precinct name and number to better identify the polling locations to the voters on Election Day, especially in localities where there is more than one Precinct located in the same building.....

5. (keep sentence the same as already in minutes)...She also asked if staff could investigate the ADA call button....

She asked that these recommendations be noted in the minutes.

3. V. b. Planning calendar for 2024 Elections

Motion 1: In an effort not to disenfranchise a segment of Loudoun County voters and to provide equal access of early satellite voting throughout the county, I motion that all 3 Satellite locations be opened for the same days and hours of business for Voting in the 2024 Election cycle.

Motion 2: I further move that all the Early Vote satellite hours and days open for voting match the Western Loudoun Early Vote satellite location which are currently the 2 Saturdays before the Election as required by law in VA Code 24.2-701.1(B).

4. V. c. November 2023 Batch Comparison RLA

Vice Chair Oberlander wanted to thank....

...and noted thatit involved a full hand count of the ballots in the race and showed the results of the voting machine scanners were accurate and the election results were accurate, as well.

Subject: [EXTERNAL] Pre-Litigation Notice — Fix Election Problems in Loudoun County, Virginia

Kristen,

As Republican Chair for the Loudoun County Electoral Board, and in agreement with the attached pre-litigation notice to the Virginia Commissioner of Elections, the citizens of Loudoun County hereby put the Loudoun Board on notice to take immediate, measurable action to maintain accurate and current voter registration rolls. (See attached)

Pursuant to the provision of lawfully accurate, verifiable, and certifiable state and federal elections in Loudoun County, this notice also includes the General Registrar's office, Judy Brown and Richard Keech. These actions are urgently needed prior to the 2023 elections in Loudoun County, Commonwealth of Virginia, as required by federal law.

Source of Data:

Per the attached letter dated August 8, 2023, sent to the Commissioner of Elections, Loudoun County is named as being in violation of Section 8 of the NVRA, and U.S.C. 52 §20501(b)(4). By comparing publicly available voter registration records obtained by the US Census Bureau's survey of citizens of voting age (2017-2021), Loudoun County has more registered voters than adult citizens over the age of 18.

Eligible Voters on the List, Impossibly High:

For example, Loudoun County is listed as failing to meet its list maintenance obligations, having greater than 100% voter registration (113.5%). In other words, there are more registered voters than eligible voters in Loudoun County. These voter registrations are abnormally, and impossibly, high.

Noncitizen Voter Removals:

As you are aware, there is no process for removing noncitizen voters from the rolls. We have seen some noncitizens being removed, but there is no verifiable means for the citizens to validate the number of voters being removed, regardless of reason. The responsibility under the NVRA is on Loudoun County officials, shared with the state. The removal of an extremely small number of noncitizens to date from the rolls moving forward is unacceptable and federal law makes removal mandatory. This notice includes that the Loudoun County Electoral Board follow the law in removing noncitizen ineligible voters from the rolls prior to the 2023 elections, and beyond.

Lawful State and Federal Elections Upcoming:

As the local electoral governing body, the responsibility is on the Loudoun County Electoral Board to maintain and oversee the voter list maintenance activities, with oversight provided by the State Board of Elections. The citizens of Loudoun County will not allow you to "pass the buck" of responsibility to conduct elections that do not disenfranchise voters. It is unlawful to maintain inaccurate voter rolls, because there is no way to meet federal and state election laws with regard to accuracy, verifiability, and auditability of elections. The Loudoun County Electoral Board has lost the confidence of the majority of voters, and has lost total control over verifiable election results for 2023 state and federal elections.

FOIA:

We request all documents from all meetings, phone calls, written notes, journals, emails, operational plans, related rules, regulations, and requirements to carry out the responsibility of your office to conduct free, fair, and transparent elections. Further requested is any communication with the Commissioner of Elections regarding this letter and the matter it presents. Included in this FOIA request is any discussion of how the state intends or addresses the removal of noncitizens on the state and county voter rolls. We request all documented plans for removal of these illegal voters in writing, including citizen oversight of the plan, on removal of all noncitizens from Loudoun County voter rolls.

VA-LOUDOUN-24-0395-A-000132

Upcoming Election Certifications:

Each month, an unverifiable, small number of adjustments to the voter rolls have been presented by the General Registrar. The voter rolls are therefore uncertifiable moving forward because they are inaccurate. Loudoun County election officials are hereby put on notice that certifying upcoming elections in 2023 and beyond, unless the voter rolls are verifiably clean, will show intent by Loudoun officials, including the Electoral Board and the General Registrar's office the intent to violate federal and state law.

According to federal law the Loudoun County Electoral Board must "ensure that voter registration records in the State are accurate and are updated regularly," a process which must include making a "reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters." 52 U.S.C. §21083(a) (4). Therefore there is no way to certify the results, and if Loudoun officials move ahead to certify, this serves as a pre-litigation notice to hold you responsible and accountable.

Sincerely,
Thomas Kasperek on behalf of the
Citizens of Loudoun County, Commonwealth of Virginia

Holtzman Vogel

HOLTZMAN VOGEL BARAN TORCHINSKY & JOSEFIAK PLLC

August 8, 2023

Susan Beals
Commissioner of Elections
Virginia Department of Elections
Washington Building
1100 Bank Street, First Floor
Richmond, VA 23219

Dear Ms. Beals:

As you are aware, the National Voter Registration Act (“NVRA”) requires States to maintain an accurate and current voter registration roll for elections for federal office. Based on our analysis, 101 Virginia counties and cities¹ are in violation of Section 8 of the NVRA. By comparing publicly available voter registration records with the U.S. Census Bureau’s 2017-2021 American Community Survey of citizen voting age population, we have determined that 43 counties and cities—Accomack, Albemarle, Arlington, Bedford, Charles City County, Chesterfield, Clarke, Craig, Culpeper, Fairfax, Fauquier, Frederick, Goochland, Hanover, Henrico, Highland, Isle of Wight, James City County, King and Queen, King George, King William, Lancaster, Loudoun, Louisa, Mathews, Nelson, New Kent, Northampton, Northumberland, Orange, Powhatan, Prince William, Rappahannock, Spotsylvania, Stafford, Surry, Warren, Alexandria City, Emporia City, Fairfax City, Falls Church City, Poquoson City, and Suffolk City—have more registered voters than adult citizens over the age of 18. Furthermore, we have identified 58 counties and cities that have voter registration rates that exceed 90 percent of adult citizens over the age of 18, a figure that far eclipses the voter registration rate nationwide in recent elections. This evidence demonstrates that counties and cities are not conducting appropriate list maintenance to ensure that the voter registration roll is accurate and current, as required by federal law.

Congress enacted the NVRA “to protect the integrity of the electoral process.” 52 U.S.C. §20501(b)(3). Specifically, it enacted Section 8 “to ensure that accurate and current voter registration rolls are maintained.” 52 U.S.C. §20501(b)(4). Retaining voter rolls bloated with ineligible voters harms the electoral process, heightens the risk of electoral fraud, and undermines public confidence in elections. After all, “[c]onfidence in the integrity of our electoral processes is essential to the functioning of our participatory democracy.” *Purvell v. Gonzalez*, 549 U.S. 1, 4 (2006) (per curiam). Section 8 of the NVRA obligates States to “conduct a general program that makes a reasonable effort to remove the names of ineligible voters from the official lists of eligible voters” due to death or change of residence. 52 U.S.C. §20507(a)(4). And as the U.S. Supreme Court has recently confirmed, “federal law makes this removal mandatory.” *Husted v. A. Philip Randolph Institute*, 138 S. Ct. 1833, 1842 (2018).

This letter provides statutory notice that Carolyn Kirkland, Donn Smith, and Kim Hines, acting as registered Virginia voters with a substantial interest in secure elections, will bring a

¹ As you are aware, the Commonwealth of Virginia is divided into 95 counties and 38 independent cities, which are considered county-equivalents for census purposes.

lawsuit against you and, if appropriate, against the counties and cities named in this letter, if you fail to take specific actions to correct these violations of Section 8 within the 90-day timeframe specified in federal law. Furthermore, while we hope to avoid litigation, we nonetheless formally request that the Virginia Department of Elections and the 101 counties and cities named in this letter, to the extent that they maintain separate records, take steps to preserve documents as required by Section 8(i) of the NVRA. 52 U.S.C. §20507(i)(1)-(2).

As the Commissioner of the Virginia Department of Elections, you are responsible for coordinating the required statewide list maintenance under the NVRA. The NVRA requires each State to “designate a State officer or employee as the chief State election official to be responsible for coordination of State responsibilities under” the law. 52 U.S.C. §20509. Virginia law designates the Commissioner of Elections as “the chief state election officer responsible for the coordination of state responsibilities under the National Voter Registration Act.” Va. Code §24.2-404.1. This letter explains how we concluded that Virginia and the 101 named counties and cities are violating Section 8 of the NVRA, and the curative steps needed to bring the State into compliance with the law and avoid litigation.

I. The NVRA Protects Election Integrity by Requiring Reasonable Efforts Be Made to Maintain Accurate and Current Lists of Registered Voters.

Virginia’s voter registration list maintenance program must be “uniform, non-discriminatory, and in compliance with the Voting Rights Act.” 52 U.S.C. §20507(b)(1). Section 8 requires that States “remove the names of ineligible voters from the official lists of eligible voters by reason of (A) the death of the registrant; or (B) a change in the residence of the registrant” to outside of his or her current voting jurisdiction. 52 U.S.C. §20507(4)(A)-(B).

Additionally, the Help America Vote Act (“HAVA”) mandates that States adopt computerized statewide voter registration lists and maintain them “on a regular basis” in accordance with the NVRA. 52 U.S.C. §21083(a)(2)(A). States must “ensure that voter registration records in the State are accurate and are updated regularly,” a process which must include making a “reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.” 52 U.S.C. §21083(a)(4). HAVA’s list maintenance mandates include coordination with “State agency records on death” and “State agency records on felony status” to facilitate the removal of individuals who are deceased or rendered ineligible under State law due to felony conviction. 52 U.S.C. §21083(a)(2)(A)(ii)(I)-(II).

As the chief election official for Virginia, the responsibility rests with you to coordinate and oversee the list maintenance activities of county and city election officials. *See, e.g., Scott v. Schedler*, 771 F.3d 831, 839 (5th Cir. 2014) (noting that “the NVRA’s centralization of responsibility counsels against . . . buck passing”); *U.S. v. Missouri*, 535 F.3d 844, 850 (8th Cir. 2008) (noting that a State or chief election official “may not delegate the responsibility to conduct a general program to a local official and thereby avoid responsibility if such a program is not reasonably conducted”); *see also, e.g.,* Va. Code §§24.2-114, 24.2-404(A)(4), 24.2-404.3, 24.2-408 through -410.2 (setting forth requirements for the Virginia Department of Elections and registrars to conduct voting list maintenance activities).

II. 43 Virginia Counties and Cities Have More Registered Voters Than Voting-Eligible Citizens, and 58 Others Have Suspiciously High Rates of Voter Registration.

Based on data gathered from the U.S. Census Bureau's 2017-2021 American Community Survey and the most up-to-date count of registered voters available from the Virginia Department of Elections, Virginia is failing to meet its list maintenance obligations. Comparing the registered voter count to the 2017-2021 American Community Survey reveals that the following 43 counties and cities have greater than 100% voter registration: Accomack (104.1%), Albemarle (102.3%), Arlington (106.3%), Bedford (101.9%), Charles City County (101.6%), Chesterfield (104.6%), Clarke (106.6%), Craig (104.8%), Culpeper (100.3%), Fairfax (107.4%), Fauquier (107.3%), Frederick (104.2%), Goochland (108.8%), Hanover (104.9%), Henrico (102.5%), Highland (100.1%), Isle of Wight (105.2%), James City County (107.0%), King and Queen (100.1%), King George (100.8%), King William (105.0%), Lancaster (103.2%), Loudoun (113.5%), Louisa (102.4%), Mathews (103.9%), Nelson (100.1%), New Kent (108.8%), Northampton (105.4%), Northumberland (104.3%), Orange (102.8%), Powhatan (101.1%), Prince William (106.1%), Rappahannock (106.3%), Spotsylvania (105.5%), Stafford (105.2%), Surry (107.3%), Warren (101.2%), Alexandria City (104.1%), Emporia City (100.6%), Fairfax City (113.0%), Falls Church City (109.6%), Poquoson City (102.0%), and Suffolk City (103.6%).

In other words, there are more registered voters than eligible voters. This plainly shows that voter registration records are not being maintained. Meanwhile, 58 other jurisdictions across the State have more than 90% (in some cases, approaching 100%) of their citizen voting-age populations registered to vote: Alleghany (91.3%), Amelia (99.6%), Amherst (92.2%), Appomattox (98.9%), Augusta (90.6%), Bath (94.5%), Botetourt (98.6%), Campbell (95.5%), Caroline (99.1%), Carroll (91.4%), Charlotte (94.8%), Cumberland (96.3%), Dinwiddie (95.9%), Essex (97.8%), Floyd (96.0%), Fluvanna (98.6%), Franklin (92.0%), Giles (91.9%), Gloucester (99.7%), Greene (98.7%), Halifax (93.5%), Henry (90.6%), Madison (97.0%), Mecklenburg (95.7%), Middlesex (98.2%), Page (91.4%), Pittsylvania (93.4%), Roanoke (99.0%), Rockingham (91.9%), Russell (92.4%), Scott (92.4%), Shenandoah (96.7%), Southampton (91.9%), Washington (90.1%), Westmoreland (99.0%), Wythe (93.4%), York (99.0%), Bristol City (91.9%), Charlottesville City (96.2%), Chesapeake City (98.4%), Colonial Heights City (96.8%), Danville City (90.4%), Franklin City (98.5%), Fredericksburg City (95.0%), Hampton City (96.3%), Hopewell City (94.7%), Lynchburg City (92.5%), Manassas City (95.7%), Martinsville City (93.8%), Newport News City (92.6%), Petersburg City (94.7%), Portsmouth City (93.7%), Richmond City (91.6%), Roanoke City (90.7%), Staunton City (91.3%), Virginia Beach City (97.5%), Waynesboro City (94.8%), Winchester City (93.9%).

These voter registration rates are abnormally, or in the case of counties and cities with greater than 100% registration, impossibly, high. This constitutes strong evidence that Virginia's voter rolls are not being properly maintained. According to the U.S. Census Bureau, only 72.7% of the citizen voting-age population was registered nationwide in the November 2020 election. See U.S. Census Bureau, *Voting and Registration in the Election of November 2020, Table 4a, Reported Voting and Registration, for States: November 2020*, <https://perma.cc/7BUT-ZLDA>. Similarly, only 66.9% of the citizen voting-age population was registered nationwide in the November 2018 election. See U.S. Census Bureau, *Voting and Registration in the Election of November 2018, Table 4a, Reported Voting and Registration, for States: November 2018*,

<https://perma.cc/5WKB-E83G>; *see also* U.S. Census Bureau, *Historical Reported Voting Rates, Table A-3b, Reported Voting and Registration for Total and Citizen Voting-age Population by State: Congressional Elections 1974 to 2018*, <https://perma.cc/92QM-77M6>. The U.S. Census Bureau further reported that Virginia's statewide voter registration rates for the 2020 and 2018 elections were 76% and 72% of the citizen voting-age population, respectively. *Id.* Thus, these 101 counties and cities are significant outliers, touting voter registration rates 17 to 46 percentage points higher than the national figures from 2020 and 2018, and 14 to 41 percentage points above the State figures for the same period. Discrepancies on this scale almost certainly cannot be attributed to above-average voter participation, but instead point to deficient list maintenance.

Virginia's failure to provide accurate voter rolls violates federal law, jeopardizes the integrity of the upcoming 2024 federal election, and signals to voters that elections in Virginia are not being properly safeguarded.

III. Avoiding Litigation

The NVRA includes a private right of action, empowering any "person who is aggrieved by a violation" of the statute to bring a civil action in federal district court for declaratory or injunctive relief. 52 U.S.C. §20510(b)(1)-(2). If the violations we have identified are not corrected within 90 days of receipt of this letter, we will have no choice but to file a lawsuit. *See* 52 U.S.C. §20510(b)(2).

We hope to avoid litigation and would welcome immediate efforts by your office to bring Virginia into compliance with Section 8. We ask that you evaluate your current list maintenance procedures and protocols to identify the cause of the compliance failures discussed in this letter. We also ask that you modify your current list maintenance program to ensure that it is comprehensive, nondiscriminatory, and in compliance with federal law. Specifically, your list maintenance program must identify and remove the following categories of individuals from the official lists of eligible voters:

1. All persons who are ineligible to vote by reason of a change in residence;
2. Deceased individuals;
3. Persons who are presently incarcerated or have been convicted of a felony;
4. All other ineligible voters.

We also ask that you, and should they wish to respond separately, each named county and city, respond in writing within 45 days of the date of this letter. This response should fully describe the efforts, policies, and programs you are taking, or plan to undertake prior to the 2024 general election to bring Virginia into compliance with Section 8. This response should also note when you plan to begin and complete each specified measure and the results of any programs or activities you have already undertaken. We also ask you to advise us what policies are presently in place, or will be put in place, to ensure effective and routine coordination of list maintenance activities with the federal, State, county, and city entities outlined below. Finally, we seek a description of the specific steps you intend to take to ensure routine and effective list maintenance on a continuing basis beyond the 2024 election. In order to avoid litigation, we may seek certain reasonable assurances that you will affirmatively undertake these efforts, including the execution of a settlement agreement.

Should you refuse to comply with Section 8 and thus necessitate legal action, you should be aware that the NVRA authorizes courts to award “reasonable attorney fees, including litigation expenses, and costs” to the prevailing party. 52 U.S.C. §20510(c). Therefore, if litigation ensues, you risk bearing the financial burden of the full cost of the litigation.

IV. Preservation of Records

We further ask that you take steps to preserve certain records as required under the NVRA, should they be needed in the future or for possible litigation. 52 U.S.C. §20507(i). These documents and records include, but are not limited to:

1. A copy of the most recent voter registration database for the Commonwealth of Virginia and for each named county and city, including pertinent information on each voter (name, date of birth, home address, voter activity, and active or inactive status);
2. Internal communications and emails of the Virginia Department of Elections’ office, applicable county and city boards of elections, and any divisions, bureaus, offices, third party agents, and contractors relating to voter list maintenance;
3. All emails or other communications between the Virginia Department of Elections and county and city elections officials concerning their list maintenance activities, their duties to maintain accurate and current lists, and any consequences arising from a failure to do so;
4. All email or other communications between the Virginia Department of Elections and any State or federal offices and agencies, in which the Virginia Department of Elections seeks or obtains information about registered voters who have moved, been convicted and imprisoned, died, or are otherwise ineligible, for use in list maintenance activities; and
5. All email or other communications between the Virginia Department of Elections and any other State, as well as email and communications with the Interstate Voter Registration Cross-Check Program, the Electronic Registration Information Center, the American Association of Motor Vehicle Authorities, and the National Association for Public Health Statistics and Information Systems, regarding obtaining information about voters who are deceased or who have moved for use in list maintenance activities.

We look forward to working with you in a productive fashion to ensure the accuracy and currency of Virginia’s voter rolls and to protect the integrity of its voting process. While we hope to avoid litigation, if we do not receive the requested response, and if Virginia fails to take the necessary curative steps to resolve the issues identified in this letter, you will be subject to a lawsuit seeking declaratory and injunctive relief.

We look forward to your response.

Sincerely,

/s/ Jason Torchinsky

Subject: [EXTERNAL] Pre-Litigation Notice — Fix Election Problems in Loudoun County, Virginia

Kristen,

As Republican Chair for the Loudoun County Electoral Board, and in agreement with the attached pre-litigation notice to the Virginia Commissioner of Elections, the citizens of Loudoun County hereby put the Loudoun Board on notice to take immediate, measurable action to maintain accurate and current voter registration rolls. (See attached)

Pursuant to the provision of lawfully accurate, verifiable, and certifiable state and federal elections in Loudoun County, this notice also includes the General Registrar's office, Judy Brown and Richard Keech. These actions are urgently needed prior to the 2023 elections in Loudoun County, Commonwealth of Virginia, as required by federal law.

Source of Data:

Per the attached letter dated August 8, 2023, sent to the Commissioner of Elections, Loudoun County is named as being in violation of Section 8 of the NVRA, and U.S.C. 52 §20501(b)(4). By comparing publicly available voter registration records obtained by the US Census Bureau's survey of citizens of voting age (2017-2021), Loudoun County has more registered voters than adult citizens over the age of 18.

Eligible Voters on the List, Impossibly High:

For example, Loudoun County is listed as failing to meet its list maintenance obligations, having greater than 100% voter registration (113.5%). In other words, there are more registered voters than eligible voters in Loudoun County. These voter registrations are abnormally, and impossibly, high.

Noncitizen Voter Removals:

As you are aware, there is no process for removing noncitizen voters from the rolls. We have seen some noncitizens being removed, but there is no verifiable means for the citizens to validate the number of voters being removed, regardless of reason. The responsibility under the NVRA is on Loudoun County officials, shared with the state. The removal of an extremely small number of noncitizens to date from the rolls moving forward is unacceptable and federal law makes removal mandatory. This notice includes that the Loudoun County Electoral Board follow the law in removing noncitizen ineligible voters from the rolls prior to the 2023 elections, and beyond.

Lawful State and Federal Elections Upcoming:

As the local electoral governing body, the responsibility is on the Loudoun County Electoral Board to maintain and oversee the voter list maintenance activities, with oversight provided by the State Board of Elections. The citizens of Loudoun County will not allow you to "pass the buck" of responsibility to conduct elections that do not disenfranchise voters. It is unlawful to maintain inaccurate voter rolls, because there is no way to meet federal and state election laws with regard to accuracy, verifiability, and auditability of elections. The Loudoun County Electoral Board has lost the confidence of the majority of voters, and has lost total control over verifiable election results for 2023 state and federal elections.

FOIA:

We request all documents from all meetings, phone calls, written notes, journals, emails, operational plans, related rules, regulations, and requirements to carry out the responsibility of your office to conduct free, fair, and transparent elections. Further requested is any communication with the Commissioner of Elections regarding this letter and the matter it presents. Included in this FOIA request is any discussion of how the state intends or addresses the removal of noncitizens on the state and county voter rolls. We request all documented plans for removal of these illegal voters in writing, including citizen oversight of the plan, on removal of all noncitizens from Loudoun County voter rolls.

Upcoming Election Certifications:

Each month, an unverifiable, small number of adjustments to the voter rolls have been presented by the General Registrar. The voter rolls are therefore uncertifiable moving forward because they are inaccurate. Loudoun County election officials are hereby put on notice that certifying upcoming elections in 2023 and beyond, unless the voter rolls are verifiably clean, will show intent by Loudoun officials, including the Electoral Board and the General Registrar's office the intent to violate federal and state law.

According to federal law the Loudoun County Electoral Board must "ensure that voter registration records in the State are accurate and are updated regularly," a process which must include making a "reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters." 52 U.S.C. §21083(a)(4). Therefore there is no way to certify the results, and if Loudoun officials move ahead to certify, this serves as a pre-litigation notice to hold you responsible and accountable.

Sincerely,
Thomas Kasperek on behalf of the
Citizens of Loudoun County, Commonwealth of Virginia

Holtzman Vogel

HOLTZMAN VOGEL BARAN TORCHINSKY & JOSEFIAK PLLC

August 8, 2023

Susan Beals
Commissioner of Elections
Virginia Department of Elections
Washington Building
1100 Bank Street, First Floor
Richmond, VA 23219

Dear Ms. Beals:

As you are aware, the National Voter Registration Act (“NVRA”) requires States to maintain an accurate and current voter registration roll for elections for federal office. Based on our analysis, 101 Virginia counties and cities¹ are in violation of Section 8 of the NVRA. By comparing publicly available voter registration records with the U.S. Census Bureau’s 2017-2021 American Community Survey of citizen voting age population, we have determined that 43 counties and cities—Accomack, Albemarle, Arlington, Bedford, Charles City County, Chesterfield, Clarke, Craig, Culpeper, Fairfax, Fauquier, Frederick, Goochland, Hanover, Henrico, Highland, Isle of Wight, James City County, King and Queen, King George, King William, Lancaster, Loudoun, Louisa, Mathews, Nelson, New Kent, Northampton, Northumberland, Orange, Powhatan, Prince William, Rappahannock, Spotsylvania, Stafford, Surry, Warren, Alexandria City, Emporia City, Fairfax City, Falls Church City, Poquoson City, and Suffolk City—have more registered voters than adult citizens over the age of 18. Furthermore, we have identified 58 counties and cities that have voter registration rates that exceed 90 percent of adult citizens over the age of 18, a figure that far eclipses the voter registration rate nationwide in recent elections. This evidence demonstrates that counties and cities are not conducting appropriate list maintenance to ensure that the voter registration roll is accurate and current, as required by federal law.

Congress enacted the NVRA “to protect the integrity of the electoral process.” 52 U.S.C. §20501(b)(3). Specifically, it enacted Section 8 “to ensure that accurate and current voter registration rolls are maintained.” 52 U.S.C. §20501(b)(4). Retaining voter rolls bloated with ineligible voters harms the electoral process, heightens the risk of electoral fraud, and undermines public confidence in elections. After all, “[c]onfidence in the integrity of our electoral processes is essential to the functioning of our participatory democracy.” *Purvell v. Gonzalez*, 549 U.S. 1, 4 (2006) (per curiam). Section 8 of the NVRA obligates States to “conduct a general program that makes a reasonable effort to remove the names of ineligible voters from the official lists of eligible voters” due to death or change of residence. 52 U.S.C. §20507(a)(4). And as the U.S. Supreme Court has recently confirmed, “federal law makes this removal mandatory.” *Husted v. A. Philip Randolph Institute*, 138 S. Ct. 1833, 1842 (2018).

This letter provides statutory notice that Carolyn Kirkland, Donn Smith, and Kim Hines, acting as registered Virginia voters with a substantial interest in secure elections, will bring a

¹ As you are aware, the Commonwealth of Virginia is divided into 95 counties and 38 independent cities, which are considered county-equivalents for census purposes.

lawsuit against you and, if appropriate, against the counties and cities named in this letter, if you fail to take specific actions to correct these violations of Section 8 within the 90-day timeframe specified in federal law. Furthermore, while we hope to avoid litigation, we nonetheless formally request that the Virginia Department of Elections and the 101 counties and cities named in this letter, to the extent that they maintain separate records, take steps to preserve documents as required by Section 8(i) of the NVRA. 52 U.S.C. §20507(i)(1)-(2).

As the Commissioner of the Virginia Department of Elections, you are responsible for coordinating the required statewide list maintenance under the NVRA. The NVRA requires each State to “designate a State officer or employee as the chief State election official to be responsible for coordination of State responsibilities under” the law. 52 U.S.C. §20509. Virginia law designates the Commissioner of Elections as “the chief state election officer responsible for the coordination of state responsibilities under the National Voter Registration Act.” Va. Code §24.2-404.1. This letter explains how we concluded that Virginia and the 101 named counties and cities are violating Section 8 of the NVRA, and the curative steps needed to bring the State into compliance with the law and avoid litigation.

I. The NVRA Protects Election Integrity by Requiring Reasonable Efforts Be Made to Maintain Accurate and Current Lists of Registered Voters.

Virginia’s voter registration list maintenance program must be “uniform, non-discriminatory, and in compliance with the Voting Rights Act.” 52 U.S.C. §20507(b)(1). Section 8 requires that States “remove the names of ineligible voters from the official lists of eligible voters by reason of (A) the death of the registrant; or (B) a change in the residence of the registrant” to outside of his or her current voting jurisdiction. 52 U.S.C. §20507(4)(A)-(B).

Additionally, the Help America Vote Act (“HAVA”) mandates that States adopt computerized statewide voter registration lists and maintain them “on a regular basis” in accordance with the NVRA. 52 U.S.C. §21083(a)(2)(A). States must “ensure that voter registration records in the State are accurate and are updated regularly,” a process which must include making a “reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters.” 52 U.S.C. §21083(a)(4). HAVA’s list maintenance mandates include coordination with “State agency records on death” and “State agency records on felony status” to facilitate the removal of individuals who are deceased or rendered ineligible under State law due to felony conviction. 52 U.S.C. §21083(a)(2)(A)(ii)(I)-(II).

As the chief election official for Virginia, the responsibility rests with you to coordinate and oversee the list maintenance activities of county and city election officials. *See, e.g., Scott v. Schedler*, 771 F.3d 831, 839 (5th Cir. 2014) (noting that “the NVRA’s centralization of responsibility counsels against . . . buck passing”); *U.S. v. Missouri*, 535 F.3d 844, 850 (8th Cir. 2008) (noting that a State or chief election official “may not delegate the responsibility to conduct a general program to a local official and thereby avoid responsibility if such a program is not reasonably conducted”); *see also, e.g.,* Va. Code §§24.2-114, 24.2-404(A)(4), 24.2-404.3, 24.2-408 through -410.2 (setting forth requirements for the Virginia Department of Elections and registrars to conduct voting list maintenance activities).

II. 43 Virginia Counties and Cities Have More Registered Voters Than Voting-Eligible Citizens, and 58 Others Have Suspiciously High Rates of Voter Registration.

Based on data gathered from the U.S. Census Bureau's 2017-2021 American Community Survey and the most up-to-date count of registered voters available from the Virginia Department of Elections, Virginia is failing to meet its list maintenance obligations. Comparing the registered voter count to the 2017-2021 American Community Survey reveals that the following 43 counties and cities have greater than 100% voter registration: Accomack (104.1%), Albemarle (102.3%), Arlington (106.3%), Bedford (101.9%), Charles City County (101.6%), Chesterfield (104.6%), Clarke (106.6%), Craig (104.8%), Culpeper (100.3%), Fairfax (107.4%), Fauquier (107.3%), Frederick (104.2%), Goochland (108.8%), Hanover (104.9%), Henrico (102.5%), Highland (100.1%), Isle of Wight (105.2%), James City County (107.0%), King and Queen (100.1%), King George (100.8%), King William (105.0%), Lancaster (103.2%), Loudoun (113.5%), Louisa (102.4%), Mathews (103.9%), Nelson (100.1%), New Kent (108.8%), Northampton (105.4%), Northumberland (104.3%), Orange (102.8%), Powhatan (101.1%), Prince William (106.1%), Rappahannock (106.3%), Spotsylvania (105.5%), Stafford (105.2%), Surry (107.3%), Warren (101.2%), Alexandria City (104.1%), Emporia City (100.6%), Fairfax City (113.0%), Falls Church City (109.6%), Poquoson City (102.0%), and Suffolk City (103.6%).

In other words, there are more registered voters than eligible voters. This plainly shows that voter registration records are not being maintained. Meanwhile, 58 other jurisdictions across the State have more than 90% (in some cases, approaching 100%) of their citizen voting-age populations registered to vote: Alleghany (91.3%), Amelia (99.6%), Amherst (92.2%), Appomattox (98.9%), Augusta (90.6%), Bath (94.5%), Botetourt (98.6%), Campbell (95.5%), Caroline (99.1%), Carroll (91.4%), Charlotte (94.8%), Cumberland (96.3%), Dinwiddie (95.9%), Essex (97.8%), Floyd (96.0%), Fluvanna (98.6%), Franklin (92.0%), Giles (91.9%), Gloucester (99.7%), Greene (98.7%), Halifax (93.5%), Henry (90.6%), Madison (97.0%), Mecklenburg (95.7%), Middlesex (98.2%), Page (91.4%), Pittsylvania (93.4%), Roanoke (99.0%), Rockingham (91.9%), Russell (92.4%), Scott (92.4%), Shenandoah (96.7%), Southampton (91.9%), Washington (90.1%), Westmoreland (99.0%), Wythe (93.4%), York (99.0%), Bristol City (91.9%), Charlottesville City (96.2%), Chesapeake City (98.4%), Colonial Heights City (96.8%), Danville City (90.4%), Franklin City (98.5%), Fredericksburg City (95.0%), Hampton City (96.3%), Hopewell City (94.7%), Lynchburg City (92.5%), Manassas City (95.7%), Martinsville City (93.8%), Newport News City (92.6%), Petersburg City (94.7%), Portsmouth City (93.7%), Richmond City (91.6%), Roanoke City (90.7%), Staunton City (91.3%), Virginia Beach City (97.5%), Waynesboro City (94.8%), Winchester City (93.9%).

These voter registration rates are abnormally, or in the case of counties and cities with greater than 100% registration, impossibly, high. This constitutes strong evidence that Virginia's voter rolls are not being properly maintained. According to the U.S. Census Bureau, only 72.7% of the citizen voting-age population was registered nationwide in the November 2020 election. See U.S. Census Bureau, *Voting and Registration in the Election of November 2020, Table 4a, Reported Voting and Registration, for States: November 2020*, <https://perma.cc/7BUT-ZLDA>. Similarly, only 66.9% of the citizen voting-age population was registered nationwide in the November 2018 election. See U.S. Census Bureau, *Voting and Registration in the Election of November 2018, Table 4a, Reported Voting and Registration, for States: November 2018*,

<https://perma.cc/5WKB-E83G>; *see also* U.S. Census Bureau, *Historical Reported Voting Rates, Table A-3b, Reported Voting and Registration for Total and Citizen Voting-age Population by State: Congressional Elections 1974 to 2018*, <https://perma.cc/92QM-77M6>. The U.S. Census Bureau further reported that Virginia's statewide voter registration rates for the 2020 and 2018 elections were 76% and 72% of the citizen voting-age population, respectively. *Id.* Thus, these 101 counties and cities are significant outliers, touting voter registration rates 17 to 46 percentage points higher than the national figures from 2020 and 2018, and 14 to 41 percentage points above the State figures for the same period. Discrepancies on this scale almost certainly cannot be attributed to above-average voter participation, but instead point to deficient list maintenance.

Virginia's failure to provide accurate voter rolls violates federal law, jeopardizes the integrity of the upcoming 2024 federal election, and signals to voters that elections in Virginia are not being properly safeguarded.

III. Avoiding Litigation

The NVRA includes a private right of action, empowering any "person who is aggrieved by a violation" of the statute to bring a civil action in federal district court for declaratory or injunctive relief. 52 U.S.C. §20510(b)(1)-(2). If the violations we have identified are not corrected within 90 days of receipt of this letter, we will have no choice but to file a lawsuit. *See* 52 U.S.C. §20510(b)(2).

We hope to avoid litigation and would welcome immediate efforts by your office to bring Virginia into compliance with Section 8. We ask that you evaluate your current list maintenance procedures and protocols to identify the cause of the compliance failures discussed in this letter. We also ask that you modify your current list maintenance program to ensure that it is comprehensive, nondiscriminatory, and in compliance with federal law. Specifically, your list maintenance program must identify and remove the following categories of individuals from the official lists of eligible voters:

1. All persons who are ineligible to vote by reason of a change in residence;
2. Deceased individuals;
3. Persons who are presently incarcerated or have been convicted of a felony;
4. All other ineligible voters.

We also ask that you, and should they wish to respond separately, each named county and city, respond in writing within 45 days of the date of this letter. This response should fully describe the efforts, policies, and programs you are taking, or plan to undertake prior to the 2024 general election to bring Virginia into compliance with Section 8. This response should also note when you plan to begin and complete each specified measure and the results of any programs or activities you have already undertaken. We also ask you to advise us what policies are presently in place, or will be put in place, to ensure effective and routine coordination of list maintenance activities with the federal, State, county, and city entities outlined below. Finally, we seek a description of the specific steps you intend to take to ensure routine and effective list maintenance on a continuing basis beyond the 2024 election. In order to avoid litigation, we may seek certain reasonable assurances that you will affirmatively undertake these efforts, including the execution of a settlement agreement.

Should you refuse to comply with Section 8 and thus necessitate legal action, you should be aware that the NVRA authorizes courts to award “reasonable attorney fees, including litigation expenses, and costs” to the prevailing party. 52 U.S.C. §20510(c). Therefore, if litigation ensues, you risk bearing the financial burden of the full cost of the litigation.

IV. Preservation of Records

We further ask that you take steps to preserve certain records as required under the NVRA, should they be needed in the future or for possible litigation. 52 U.S.C. §20507(i). These documents and records include, but are not limited to:

1. A copy of the most recent voter registration database for the Commonwealth of Virginia and for each named county and city, including pertinent information on each voter (name, date of birth, home address, voter activity, and active or inactive status);
2. Internal communications and emails of the Virginia Department of Elections’ office, applicable county and city boards of elections, and any divisions, bureaus, offices, third party agents, and contractors relating to voter list maintenance;
3. All emails or other communications between the Virginia Department of Elections and county and city elections officials concerning their list maintenance activities, their duties to maintain accurate and current lists, and any consequences arising from a failure to do so;
4. All email or other communications between the Virginia Department of Elections and any State or federal offices and agencies, in which the Virginia Department of Elections seeks or obtains information about registered voters who have moved, been convicted and imprisoned, died, or are otherwise ineligible, for use in list maintenance activities; and
5. All email or other communications between the Virginia Department of Elections and any other State, as well as email and communications with the Interstate Voter Registration Cross-Check Program, the Electronic Registration Information Center, the American Association of Motor Vehicle Authorities, and the National Association for Public Health Statistics and Information Systems, regarding obtaining information about voters who are deceased or who have moved for use in list maintenance activities.

We look forward to working with you in a productive fashion to ensure the accuracy and currency of Virginia’s voter rolls and to protect the integrity of its voting process. While we hope to avoid litigation, if we do not receive the requested response, and if Virginia fails to take the necessary curative steps to resolve the issues identified in this letter, you will be subject to a lawsuit seeking declaratory and injunctive relief.

We look forward to your response.

Sincerely,

/s/ Jason Torchinsky

Good morning Mrs. Grimmell,

I think someone might need remedial training. I have not received a response despite the wide distribution to everyone who has received FOIA training from the county. It's been over five days.

Thanks,

Chris Rohland

On Friday, January 19, 2024 at 09:30:41 AM EST, Christopher Rohland <bohdi12@yahoo.com> wrote:

Good Morning Electoral Board Chair Kalina,

I would like to call your attention to the publicly available document from the Loudoun County Electoral Board, on the county's website for the 17th of January, 2024. The link is below

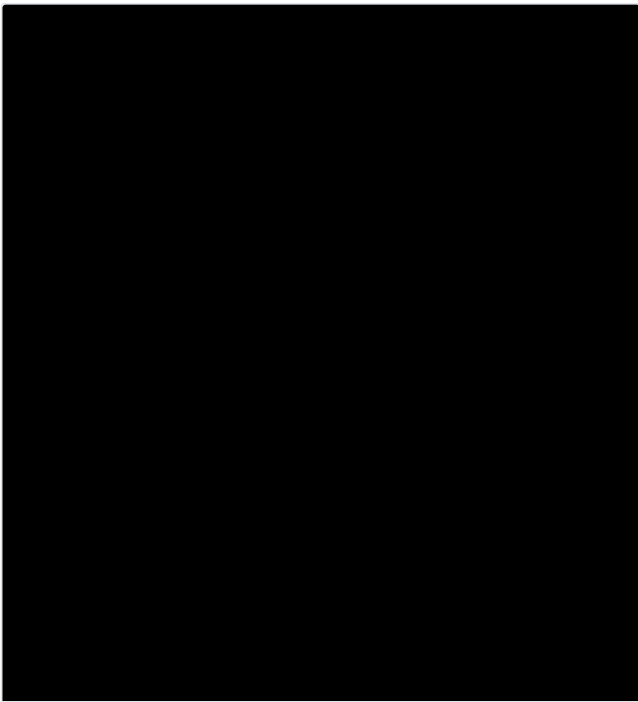

<https://onboard.loudoun.gov/board/3596>

However some people may not want to click on a hyperlink so they should go to www.loudoun.gov, scroll to the bottom of the page where the County Calendar is displayed, click the "View All" button, click on the 17th of January 2024, then click on the "More Details" link under the Elections and Voter Registration meeting, then click on the link for "Electoral Board Info & Documents" on the lower right, which will bring you to the link above. There you can select "View Agendas & Minutes" select 2024, select "Agendas", and then select the "01-17-24 LCEB Agenda Packet.pdf" and open this file.

This document is why I am writing to you today. On page 3 of 17, you will see the Loudoun County Electoral Board Meeting Minutes from December 14, 2023. Item IV Staff Reports, from General Registrar Mrs. Judy Brown, in the second paragraph states six people voted twice and are being turned over to the Sheriff's Office for investigation. I seem to recall Loudoun County Board of Supervisors Member Mr. Mike Turner stating on May 19th, 2022 at a Loudoun County Electoral Board Meeting that citizens concerned about issues related to election accuracy and compliance with HAVA are making "Heinous and hyper partisan nonsensical accusations about potential irregularities in our voting system is offensive, as a military officer it is offensive."

As you personally know due to your position on the Loudoun County Electoral Board, a Risk Limiting Audit was conducted in the county after the November 2023 General Election. The press release for this event is located on the Loudoun County Government website, under News & Announcements, posted on November 29, 2023. The link is here

[Loudoun Election Officials Complete Post-Election Audit](#)

Loudoun Election Officials Complete Post-Election Audit

The "risk-limiting" audit confirmed the accuracy of the county's voting system.

On this page it states "Post-election audits are one more way that we can illustrate to voters that our voting equipment and procedures used to count votes is working properly," said Loudoun County General Registrar Judy Brown. "The main issue we continue to see is that some voters do not completely fill in the bubble next to the name of their chosen candidate, which can lead to errors."

There appears to be a disconnect between Mr. Turner's statement and Mrs. Brown's statement. Both are government officials. Which one is accurate and true? Which source should citizens trust? More importantly, what actions are required to be taken?

Total Voter Turnout

46.48%

Voter Turnout by Type

The data above was recorded from the Loudoun County Elections Dashboard which has been reset for the start of today's early in person voting. The county currently does not have the capability to generate the historical data by a citizen because the Board of Supervisors would rather spend \$100K on a junket for a sister city initiative than providing a capability to help citizens stay informed about historical accuracy of elections.

You'll note that the total number of registered voters is 293,444 as of November 8, 2023. This number is important for a variety of reason, most importantly because it triggers requirements under the Help America Vote Act for accuracy, as you have been informed. The link to this website is here and current shows 295,948 registered voters

<https://www.loudoun.gov/5564/Loudoun-Elections-Dashboard>

These numbers are important because the maximum allowable system error rate in a valid, certifiable election is stringent—1/125,000 ballots in error according to the Help America Vote Act. (P.11). Electoral Board Members for the county are educated people. You know Virginia has specific requirements and security protocols that are in place that are supposed to be designed to catch and prevent this type of thing, but it clearly did not. This admission by your office is not something any local citizen has made publicly, it's a truth your board published.

When this admission is coupled with other documented and verifiable facts, such as the electronic pollbook vendor product that is responsible for catching and preventing this from happening, also allowed pollbooks to connect to an open, unsecured, public WIFI Access Point, suddenly citizens who you and other local government officials have smeared, suddenly look extremely credible. Now put Prince William County's recent public admissions about the 2020 results and a justification for a broader investigation by law enforcement clearly is warranted. When were the six people reported to the county Sherriff or the State Police exactly?

I know that since you are an educated board member, and you know that electronic pollbooks must pass both certification from the Election Assistance Commission, and the Virginia State Board of Elections before they can be used in any elections, that "testing" of this equipment, to prevent these types of things, are used to shut down any question of the accuracy of any election. Six people sneaking past the hardware and software security requirements and protocols meant to provide accurate elections clearly blows past that 1 in 125,000 errors does it not? Especially with a single ballot having no less than 17 contents, each duplicative selection being an error. This discovery should have resulted in automatic reporting to the Virginia State Board of Elections and should trigger the automatic decertification of the Electronic PollBook vendor for use in the state. Has the county Board of Elections notified the State Board of Elections yet? Why hasn't there been a press release about this story?

There are much broader implications at play here. The public isn't aware of the missing data in our voter turnout history for the county that is held by the state. The public isn't aware of possible data corruption that exists within the voter registration database managed by the state. Yet this information is what is being used in a spectacular failure and fashion to "prevent" elections from being compromised. If six people can be confirmed to have sailed

past this vendor in 2023, how many people got past them in 2020, 2021 and 2022? How can you expect citizens to have any confidence in your answers given the propensity for your office to allow purposefully inaccurate and incomplete reporting of recent events?

The county government (you & others - Mr. Turner et. all) owes the people (myself and others) an apology, and an independent audit before the 2024 General Election in Loudoun County. In accurate elections in Prince William County and Loudoun County disenfranchise citizens statewide. It's time to admit there is a problem and do something about it.

Consider this my FOIA request of your emails to any and all members of the Virginia State Board of Elections regarding the discovery of these voters for the time period of November 8 2023 through January 17, 2024. Please provide me an estimate of costs and if they shall exceed \$200. I understand you have five days to respond to this FOIA request. I also ask for all responsive records be placed on the county FOIA portal for electronic delivery to me. Leave all records in their original native electronic file format.

Thanks,

Chris Rohland

Subject: Re: [EXTERNAL] Six voters voting.....twice in the November 2023 General Elections

Thank you Chris, I have no such emails that are responsive to your FOIA request. I appreciate your patience. I cannot speak for anyone else, but if the email was not directed to them, they may not have read it in its entirety. For purposes of future requests, it may be a "best practice" to put FOIA in the subject line or first line of the email.

For purposes of clarification on the substance of the email: the 6 individuals did vote twice, but their vote did not count twice, because we caught it in the detailed CAP review process and rejected the 6 ballots. I apologize for the confusion. In other words, they "voted twice" by physically filling out 2 ballots, but did not actually vote twice by having two ballots counted. So perhaps the best wording would be that they "attempted to vote twice." As I understand it (not confirmed), most of the 6 were octogenarians, yet that may or may not have been a factor.

The matter has been turned over to the state police, which the Board determined would be the best body to review and investigate this matter.

I will have Judy clarify this important nuance, regarding the use of the phrased "voted twice," in her report at the next BOE meeting.

Subject: [EXTERNAL] TK Response to Scott Pio: ***DEMAND FOR ACTION OR RESIGNATION FORTHWITH: Loudoun County Election and Administrative Officials

Scott,

Happy New Year! We ring in the New Year with a hope that our political scene becomes a place of less contention and more productive governance of We, the People.

Thanks for your thoughtful response. I am disappointed, but not surprised, we have not heard from the electoral board, nor have we heard back from the registrar's office, further proof that our concerns are being ignored. Instead I get a response from you, which does not address the key concern: WE HAVE QUESTIONS. The 13 points that you reference are the tip of the iceberg.

It has been 2-1/2 long years of ignoring our pleas for public meetings to answer serious questions about the administration of Loudoun County federal and state elections since 2020. Now 2024 is upon us. Now we will provide a bit of publicly available information that ought to shock you into action.

Further, we expect that these election administration matters will NOT need to go to court. Our expectation is that our elected and appointed election officials will take responsibility, follow their oath of office, follow the law, or resign. We expect that Loudoun County elected officials will address the questions we have in a public forum and take responsibility to We, the People. Why should we have to go to court to force our elected officials to do the job they swore to uphold? They serve us, the very purpose of choosing leaders in elections, not the other way around. We are not paying the county's legal fees, nor will we put ourselves in civil court.

We trust you, Scott, to address these arguments by insisting our election officials prove to We, the People, that they are doing their job. Your support of them is laudable, but, we have been disrespected long enough. Before I get into how, a few definitions to mutually understand.

Fraud: *n.* /frôd/

"Fraud" is a term that has been used to lure us into making false accusations. We are not saying fraud or making accusations, instead we have questions.

On the other hand, here is what we are talking about, questions about the electoral administration of Loudoun County federal and state elections in 2020-2023 which reveal unexplainable irregularities and impossible election results, which lead us to believe there may be potential "election fraud," a much different term than criminal fraud as has been explained.

The Federal Department of Justice defines several areas of election fraud in order to prosecute them: These generally include election frauds that involve the necessary participation of public officers, notably election officials acting "under color of law," (black letter law) voting by non-citizens, fraudulently registering voters, or paying voters in violation of state law." [1]

We are not yet accusing anyone of "election fraud," but most of our important questions whether the law is being followed in 2020-2023 Loudoun County elections are still unanswered after 2-1/2 years. We do not need the court for this. We are crying out to our electoral officers to just do the job, or resign. We have called for an investigation with Sheriff Chapman, and he failed to investigate. Something must be done before the 2024

VA-LOUDOUN-24-0395-A-000155

elections to ensure that 2020-2023 election irregularities are not repeated.

Evidence: *n. /ɛv'ɪ-dəns/*

Factual information must be professionally examined before it can be deemed evidence admissible in court. So stop asking us for evidence. That is not what we have. We have factual data points in multiple streams of information that point in a particular direction, but without investigation or clarification is useless. Is that why no one will come forward to answer us? Our firm and unrelentless resolve is that we will continue to press forward for answers to our questions from our electoral officers — until we get them.

Having presented a position on fuzzy terms carelessly bantered about like fraud and evidence, which we reject, here is some important information we have questions about and PUT THE ONUS OF PROOF on electoral officials to answer. Here is some analysis, which a number of highly qualified analysts and data scientists have corroborated:

127	COUNTY	Loudoun
128		420,957
129	UNDER 18	117,447
130	ACS %	303,510
131	CITIZENS	176,946
132	VOTES	224,862
133	MORE OR LESS	(47,916)
134	TRUE CITIZEN %	42.0%
135	NON- CITIZENS	126,564

According to the US Census Bureau, there were 47,916 MORE ballots cast than legal voters who were eligible to vote for the 2020 presidential election.

According to our records, the Loudoun County General Registrar admitted there was a large number of registered voters PURGED from the Loudoun County rolls, AFTER the 2020 presidential election. Sent to their attention multiple times.

Figure 1: These official government published numbers do not add up for the Loudoun County 2020 federal election. The US Census Bureau numbers are cross-referenced with the Federal Election Commission's numbers.

Sample Questions: What does this USC vetted government data, (used by Loudoun County to justify federal funding requests and apportionment), suggest in terms of accuracy and validity of the 2020 elections in Loudoun County? What "black letter law" addresses the error rate and the validity of only US Citizens being eligible to vote in elections? (I included these federal and state laws, and federal case law examples in my last email.)

Consider this a FOIA. The county needs to provide, at its own cost, all records that prove the validity of the 2020 election data to the citizens of Loudoun County in the timeframe required by law. For example: all records showing the total numbers of who are the voters (LTWV) represented in the total number of cast votes (CVRs) versus the number of eligible voters (certified 2020 registered voter list) who voted in 2020 in Loudoun? All records that indicate the electronic vote tallies will be sourced from all ballot scanning devices, log files, TMs, with chain of custody. All records indicating who (election officers) specifically counted the approximately 71% of votes counted in the CAPs? Records responsive to this request will include all chain of custody documents, including ballot transfer signature pages including the records of all transferred ballot counts, and all records of which election officers and officials signed off on the certification of the vote counts of this election. Records produced, to be complete, will include responsible parties by name, title, phone, email, and direct manager's contact information. These are horrendous numbers, and Loudoun County government officials are responsible for answering to the citizens how these numbers are real. This is an example of our many, many questions.

The Loudoun County government, namely the Electoral Board, the General Registrar's Office, the Supervisor Board, the Sheriff's Office, and their managers are again **PUT ON NOTICE** to not certify any more elections until We, the People are satisfied that our electoral outcomes are accurate, provable, and certifiable. We demand that injunctive relief be granted by the newly elected Loudoun Commonwealth Attorney of the Sheriff against the use of all electronic vote tallies to certify any future elections until these irregularities in vote counts and the rejection of non-US Citizens votes are resolved. We demand all elections require the accuracy and provability of a hand count of the "official paper ballot" and verification of the authenticity of each and every vote cast is tallied for the voter's intended candidate, BEFORE any official results are to be certified by Loudoun and state election officials.

Please respond with a meeting date and location to meet with all the elected and appointed officials in order to publicly address these issues.

Happy New Year!

Sincerely,
Thomas Kasperek, on behalf of myself, a lawful citizen of Loudoun County, Commonwealth of Virginia, USA.

Tom,

At this moment, I think you should bring a lawsuit against the county if you have proof to any of your 13 issues addressed below which you find are problematic and you have proof for laws that have been broken.

Through the hard work of Kristen, Shelley, Ellen, Judy, Ricky and their staff, I fully support their work. I will personally not be asking any of them to resign from the work they do. All actions I had grievances with have been corrected. So unless I see more, which I can take action on, the work of the board and the staff have my complete endorsement.

If you wish to show me evidence of the 13 issues below, I will make sure we work with the office to correct them.

I will be waiting for you to show me evidence.

Scott Pio

Subject: ***DEMAND FOR ACTION OR RESIGNATION FORTHWITH: Loudoun County Election and Administrative Officials

Kristen,

The Loudoun County Electoral Board, General Registrar's office, Loudoun County Supervisor Board, and other county officials copied in this email, have not responded to our vehement request for public meetings. Collectively, you have missed the 30-day deadline as of Dec. 23, 2023. Requests for public review of serious valid grievances with no redress for the citizens you serve in public office have been ignored since Aug. 5, 2021. Collectively, you will be held responsible and accountable by We, the People.

Our goal in requesting the public meeting was to discuss and get your response to our significant research, reports, and investigative findings (mostly publicly available information) that call into question the electoral administration process in accordance to following the laws in Loudoun County. The opportunity was offered to you collectively to put to rest and valid concerns expressed over the last several years. We are once again ignored.

We have the right to demand you follow the law, and rightly question your authority in light of publicly available information that suggests unlawful conduct, unorganized record-keeping, and missing required information to document the electoral administration process. Under your leadership, elections are no longer transparent. There is a total loss of confidence in free and fair elections, the right from which all other civil rights emanate.

Here are issues that need to be further investigated and addressed:

For election years 2020—2023, Loudoun County election officials have NO PROOF that validates the following:

1. The number of registered voters in Loudoun County does not exceed the number of age-eligible citizens
2. The number of nonresident illegal alien voters registered to vote in elections, nor proof the voter rolls are void of noncitizen registrants who cast votes
3. Only lawfully registered voters cast a legal ballot to determine outcomes of elections
4. No mail-in voter fraud occurred that affected the outcomes of elections
5. Electronic voting systems have been tested and certified in accordance with the law
6. There was no collusion to intimidate election officers at the May 19, 2022 electoral board meeting
7. Missing information or conflicting responses to a number of FOIA requests, some that were uncovered through later FOIAs
8. No electronic voting systems are networked outside the Commonwealth of Virginia, and therefore potentially exposed to nefarious actors
9. No federal overreach into county elections, including federal agents in the voting centers disrupting the process
10. No data-sharing of Loudoun registered voter files with the DHS via Albert Sensors, in exchange for "network monitoring" in elections
11. No sharing of personal voter information via third-party NGOs across state lines, via ERIC, and now Melissa
12. No election workers' personal information was shared, via Konnech, now in possession of the Chinese, housed on Chinese servers
13. Risk-Limiting Audits yield conclusive results of the accuracy, provability, and certifiability of elections, but rather cover over potential voting irregularities.

Proper compliance with state and federal civil rights laws is a duty you swore to uphold. Our claim is that our civil rights are being violated by not following federal civil rights law by conducting inaccurate, unverifiable,

VA-LOUDOUN-24-0395-A-000158

non-transparent, uncertifiable elections.

We do not seek to overturn elections, we seek to follow the law:

VA-LOUDOUN-24-0395-A-000159

Kristen,

Please see my previous email for context.

The below email sent Dec. 2, 2023 at 2:54pm is still on the table, having thoughtfully considered your gracious invite for a personal meeting. I will forgo that gracious invite, as much as I would like to, for the public meeting I requested several days prior.

Importantly, the public needs to see and hear what questions we will ask regarding Loudoun County electoral administration concerns about following the law, and the answers provided by Loudoun County election officials, you all as servants to the needs of the public so we can learn why elections are in such disarray. Even local candidates for office, observing the chaos, have expressed confusion as to why things are the way they are. We have lost trust, and simply need to see the receipts.

On another note, and going back to clarify, I have not used the word fraud to describe Loudoun County elections, nor will I say there is no fraud, either. You have used that word, as well as your Vice-Chair, Shelley Oberlander, but we have been careful to avoid that word. To conclude: I will not say there is fraud, nor will I say there is no fraud, because we have not sufficiently looked into the matter, as per my vehement requests for an end-to-end compliance audit of the entire electoral process in Loudoun County elections. This must be resolved prior to the 2024 election season.

As you recall, the first time you used the word fraud goes back to the Loudoun County Electoral Board meeting of Aug. 5, 2021, when I FIRST RAISED THESE QUESTIONS, and was ignored for my request for an emergency meeting way back when. Remember?, and you responded with the question: "Are you accusing us of fraud?" My response was immediate and resolute, "Madam Chair, do not put words in my mouth, I did not use the word fraud." This exchange will be on the video record of that meeting. And Richard Ryan was there with me.

So here we are, over two years later, with the same proposal on the table for a public meeting to discuss the issues, with scores of UNANSWERED questions and FOIAs which require answers. I am certain that you are agreeable to finally getting this trust issue behind us and this gives Loudoun County election officials a chance to clear the air publicly.

I look forward to receiving from you a date and time for the public meeting.

Sincerely,

Thomas Kasperek

Kristen,

Thank you for your invite via text messages regarding the Risk Limiting Audits(RLA) for Chris Harnish's race done last week, the invite coming on short notice while the audit was in process. Sorry I could not attend, but for the reasons cited below, it is questionable whether I would have attended –even if I had the time.

This email is also being sent to the Chair of the Loudoun County Republican Committee, the Loudoun County Electoral Board, General Registrar, Deputy Registrar, Loudoun County Supervisor, Chair at large, and the Loudoun County Administrator, because their duties and responsibilities are germane to this topic of funding and conducting fair, transparent, valid, and certifiable elections in Loudoun County.

VA-LOUDOUN-24-0395-A-000160

Going back to my vehement request for a public meeting, that response will be handled as a separate matter, because of the complexity of the issues and the timeline of 30 days still ticking. Any of you elected officials can call an emergency public meeting any time, in a manner and time that does not violate any rules or laws, at the request of the public, and a public demand for redress of valid electoral administrative complaints, which have gone largely dismissed for over the past two years. It is time to meet. You stated publicly that you would meet, but you have not followed through on your commitment. More to come soon.

Risk Limiting Audits (RLA) Response

Over the past several years, election and party officials in Loudoun County have endorsed the validity of the Risk Limiting Audit (RLA). Based on our information, this is, at best, confusing and, at worst, an effort on the part of Loudoun County electoral officials to avoid compliance with federal and state election laws.

Before we expand the discussion, here is a quick question: Are the 2023 elections certified? If yes, then we have a violation of state law. If no, then we vehemently request to delay certification until the electoral board can further ascertain the accuracy and validity of the election. A local candidate for statewide office will likely back this request for a compliance audit, per the reasons below.

The Risk Limiting Audits recently conducted is political theatre and fall woefully short of proving the validity and accuracy of Loudoun County elections for reasons articulated below. Instead, a full compliance audit of the electoral administrative process is required for a credible result. That means the "official paper ballot" hand counts must be compared and reconciled with the certified electronic vote tallies and the computer log files and electronic versions of the votes cast. According to the law, these proof points must all match to claim that the elections are fair, transparent, accurate, and, therefore, valid.

A full compliance audit of the Loudoun County electoral administrative process is vehemently requested by the citizens and candidates for the year 2023 to bring local elections into compliance with federal and state law, including which specific officials have "certified" as true and accurate and those particular officials who have legal jurisdiction over 1) all components of the electronic voting systems (hardware, software, peripherals, source code, reporting databases, service agreements, implementation agreements) 2) third party contracts for absentee ballot printing, distribution, fulfillment, USPS fulfillment, 3) chain of custody documentation for all ballot transfers between CAPs and Election Offices, to Clerk of Courts offices and back, 4) all third party signed contracts for Risk Limiting Audits, FirstNet, and Albert vendor-providers. Under § 24.2-671.2, RLAs must be conducted **before a race has been certified** (Code of Virginia, § 24.2-671.2. Risk-limiting audits; <https://law.lis.virginia.gov/vacode/title24.2/chapter6/section24.2-671.2/>). Proper compliance with federal and state civil rights law (Voting Rights Act [1965]; 14th & 10th Amendments) requires following the electoral administrative process you swore a duty to uphold, which is in question by We, the People, and several local candidates running for office. The citizens of Loudoun County vehemently request a full compliance audit **BEFORE CERTIFICATION** and at the County's expense, to get a comprehensive reconciliation between;

- 1) comprehensive hand counting in all Loudoun County precincts of the "official paper ballot,"
- 2) reconciled with those voters who are legally registered voters on the current voter rolls contemporaneous with the dates of elections,
- 3) reconciled with the list of people who voted who may be non-compliant (noncitizens, for example) with election law,
- 4) reconciled with the number of ballots cast vs. the number of voters who voted, and,
- 5) reconciled with the electronic vote tallies (see requirements below).

In my view, the recent Risk Limiting Audits are political theatre and fall woefully short of proving the validity and accuracy of Loudoun County elections for reasons articulated below. Instead, a full compliance audit of the electoral administrative process is required for a credible result. That means the "official paper ballot" hand counts must be compared and reconciled with the certified electronic vote tallies and the computer log files and electronic versions of the votes cast. According to the law, these proof points must all match to claim that the elections are fair, transparent, accurate, and, therefore, valid.

A full compliance audit of the Loudoun County electoral administrative process is vehemently requested by the citizens and candidates for the year 2023, in accordance with federal and state law, including which specific officials have "certified" as true and accurate and those particular officials who have legal jurisdiction over 1) all components of the electronic voting systems (hardware, software, peripherals, source code, reporting databases, service agreements, implementation agreements) 2) third party contracts for absentee ballot printing, distribution, fulfillment, USPS fulfillment, 3) chain of custody documentation for all ballot transfers between CAPs and Election Offices, to Clerk of Courts offices and back, 4) all third party signed contracts for Risk Limiting Audits, FirstNet, and Albert vendor-providers.

- The Risk Limiting Audit cannot possibly account for the chain of custody of the "official paper

ballots,” which casts doubt that only legal ballots are being counted.

- The Risk Limiting Audit can not possibly account for the validity of the voter registration applications on file with the general registrar’s office on whether they are a qualified voter with US Citizenship or naturalization, proof that the registrant has presented valid identification to prove citizenship at the time of registration, which is a federal and state requirement for voter eligibility in compliance with the law. Currently, this is an impossible and, therefore, questionable process in accordance with state and federal voting laws.
- The Risk Limiting Audit can not possibly measure whether the “official paper ballot” is manufactured inside or outside the Loudoun County jurisdiction unless all required documentation and chain of custody of the procurement and fulfillment process is submitted for review to licensed/insured auditors, including mail-in “official paper ballots.”

In sum, several Loudoun County Republican Committeemen vehemently “request” a full compliance audit (end-to-end) of the entire voting process, including **which officials have signed off on a valid, provable, and certifiable result**, awarding the certified candidate the winner of the election to political office. The audit will include the signed certification documents, including poll chiefs, assistant poll chiefs, the electoral board, the general registrar, the deputy general registrar, the clerk of the circuit courts, and party officials.

Requirements:

1. End-to-end compliance review of voter registration rolls, e.g., requires a review of all voter registration application documents to validate proper identification of U.S. Citizen status, noncitizens, deceased citizens, fake addresses, commercial addresses, prison addresses, name variants, same voters with multiple voter I.D.s, and more potentially illegal registrations.
2. End-to-end compliance review potential voter violations based on questionable voters on the rolls, e.g., noncitizens,
3. End-to-end compliance review of total ballots cast compared to the number of voters who voted
4. End-to-end compliance review of the accuracy of the ballots, noting the error rate is 1/125,000 allowable, meaning Loudoun County cannot have more than three ballots in error total to meet the accuracy requirements of federal law (such as HAVA, NVRA, FISMA, 52 U.S.C., 18 U.S.C., but also VA Code 24.2, and the GREB).

End-to-end compliance means following the law:

1. Reconcile e-poll book electronic log file data, time-stamped, with chain-of-custody documentation and data provenance.
2. Reconcile routing equipment log file data, time-stamped, with chain-of-custody documentation and data provenance.
3. Reconcile all ballot scanners' electronic log files with chain-of-custody documentation and data provenance.
4. Examine all audited ballots forensically to ensure the ballots are not manufactured ballot from outside the chain of custody.
5. Reconcile the paper ballot counts with the date-stamped electronic vote tallies.

GENERAL NOTES:

1. We request a FOIA for all records documenting the "guidelines for direct observation by members of the public, representatives of the candidates involved in the R.L.A." (https://www.elections.virginia.gov/media/formswarehouse/risk-limiting-audit/2023-RLA-Manual_FINAL.pdf)
2. Under § 24.2-671.2, R.L.A.s must be conducted **before a race has been certified**. (Code of Virginia, § 24.2-671.2. Risk-limiting audits)
3. Verified Voting, former C.E.O. Phillip Clark, inventor of the Risk-Limiting Audit: (<https://www.stat.berkeley.edu/~stark/Preprints/vv-resign-19.pdf>). "Verified Voting is providing cover for bad actors (election officials and vendors) and inherently untrustworthy voting systems (poorly designed, inaccessible universal-use BMDs) by conducting "risk-limiting audits" of paper trails that cannot in principle be established to be trustworthy even if there were good laws and regulations for compliance audits." (<https://www.nationalmemo.com/top-election-expert-quits-verified-voting-organization-in-protest>) Mr. Clark states in his resignation letter that "overclaiming what applying R.L.A. [audit] procedures to an untrustworthy paper trail can accomplish...This is security theater, not election integrity." See attached for the letter of resignation of Phillip Clark as linked above.

Subject: Re: [EBLIST] [EXTERNAL] Re: [EBLIST] Ordering Ballots for Elections

Dear Mrs. Speiden,

Since this EBLIST service is supposed to reach all Electoral Board Members, I would hope that it reaches at least one member of each Electoral Board. If the members of each Board who do receive it would contact the other local Electoral Board members and ask each to contact you, then you will get the names of those EBMs who need to receive the emails.

No single Electoral Board Member may know everyone who is failing to receive the e-mails.

Thank you for your assistance in resolving this matter,

Clara Belle Wheeler, MD
Vice Chairman, Albemarle County Electoral Board

For primaries, we haven't done 100%. Usually turnout is lower. Each primary has to be considered in light of (1) the type of primary it is, (2) historical turnout for primaries, and (3) what may be going on in the larger political environment.

The main thing we have done in York County is to order enough ballots so that we don't have to spend any more time thinking "Did we order enough?" There are a lot of things about elections we can't control, but this is one of the things we *can*, and if we can take it off of the table as an area of concern, it is, as they say in the Harry Potter books, "Mischief managed."

In this case we're ordering 75% for each party. One of the reasons for this is that we don't know what's going to happen with the early contests like Iowa, NH, SC, and Nevada. Those contests could dictate turnout for our own. One of the things I noticed with the last presidential primary is that turnout was lower than I would have thought at the outset because voters are waiting to see who emerges.

For the voters who don't wait, prepare to get phone calls asking if they can "do over" their vote because their candidate dropped out. This isn't legal at this time, and I hope it never changes because of the sheer administrative difficulty involved in this. It may also jeopardize the secrecy of the ballot.

Happy 2024! We'll all have a few more wrinkles and gray hairs from the presidential election by the time we pass this day in 2025.

Subject: [EXTERNAL] Re: [EBLIST] Ordering Ballots for Elections

Good discussion. It certainly is a high-consequence event if poor planning results in running out of ballots; developments like Same Day Registration have made the historical numbers and experience less trustworthy.

However, in things like the multiple primary elections coming up, where we have never experienced turnouts over 15 or 20% in many districts, simply ordering 100% of the number of registered voters in ballots is going to result in an awful lot of wasted paper, which still has to be handled and accounted for.

Each EB has to balance risk/cost for themselves, since (like the captain of a ship) they are the ones responsible if the vessel runs aground!

Happy New Year Electoral Boards of Virginia.

How many of you have added up the number of unused ballots that get put in envelope # 5 from each of your polling places and sent to the Clerk's of the Court office to never be seen again?

Well, I did just that and I was surprised to learn that we were going to be shredding 6519 ballots at a cost of \$1629.75 of Dinwiddie County taxpayers dollars. This is a shame.

Did you all know there is legislation in the Virginia Election Law Code book 24.2-612, 24.2-642 (C) and 24.2-646.1, and an authorization from the State Board of Election Policy 2008-005. There is an Authorization to Reproduce Ballots form that must be completed and signed when ballots are reproduced that is available in the forms warehouse (ELECT_646.1).

The State Board grants approval to any locality which uses optical scan ballots at one or more precincts, including central absentee precinct, to use the optical scan ballot or printed reproductions of the optical scan ballot in lieu of the official paper ballot. All copies shall be made and accounted for according to instructions provided by the State Board of Elections.

So maybe you all will keep this in mind when you are approving the ballots you will need in your upcoming elections.

The registrar in Dinwiddie County says we cannot make copies because the paper will not feed through the optical scanning machine. **My question is, what does one do with those ballots that were mailed back after being emailed to the military or anyone else who requests a ballot during absentee voting. They are hand counted!**

In the coming years, Let's think really hard about how are spending taxpayer dollars.

I'm not referring to people recently appointed, I'm talking about those that have already served for a year. Those that were appointed in January of 2023.

If an EB member can't get their Registrar to do their job, what is the recourse?

Elect? What if Elect doesn't respond?

What does an EB member have to do??

Contact the Attorney General?

Rich, in addition to Walt's excellent answer...

The GR needs to request that the EB member get added to the EB list.
From our 12/8/23 guidance:

"Submit a JIRA ticket to add EB to EB List"

JoAnne did try to help the communication flow on 12/27/23 by asking for email addresses directly from the GR's on any new EB members. Joanne, was that for a VEBA held list?

There are quite a few steps for on-boarding and off-boarding EB members. Given that some were appointed in the last 1-2 weeks of the year, it is not likely that all the steps have been completed yet, in some cases.

Pretty sure you just helped me catch one step that I might have missed before my vacation last week. Thank you; I can now review that.

Best,

Patricia

For primaries, we haven't done 100%. Usually turnout is lower. Each primary has to be considered in light of (1) the type of primary it is, (2) historical turnout for primaries, and (3) what may be going on in the larger political environment.

The main thing we have done in York County is to order enough ballots so that we don't have to spend any more time thinking "Did we order enough?" There are a lot of things about elections we can't control, but this is one of the things we *can*, and if we can take it off of the table as an area of concern, it is, as they say in the Harry Potter books, "Mischief managed."

In this case we're ordering 75% for each party. One of the reasons for this is that we don't know what's going to happen with the early contests like Iowa, NH, SC, and Nevada. Those contests could dictate turnout for our own. One of the things I noticed with the last presidential primary is that turnout was lower than I would have thought at the outset because voters are waiting to see who emerges.

For the voters who don't wait, prepare to get phone calls asking if they can "do over" their vote because their candidate dropped out. This isn't legal at this time, and I hope it never changes because of the sheer administrative difficulty involved in this. It may also jeopardize the secrecy of the ballot.

Happy 2024! We'll all have a few more wrinkles and gray hairs from the presidential election by the time we pass this day in 2025.

Subject: [EXTERNAL] Re: [EBLIST] Ordering Ballots for Elections

Good discussion. It certainly is a high-consequence event if poor planning results in running out of ballots; developments like Same Day Registration have made the historical numbers and experience less trustworthy.

However, in things like the multiple primary elections coming up, where we have never experienced turnouts over 15 or 20% in many districts, simply ordering 100% of the number of registered voters in ballots is going to result in an awful lot of wasted paper, which still has to be handled and accounted for.

Each EB has to balance risk/cost for themselves, since (like the captain of a ship) they are the ones responsible if the vessel runs aground!

Subject: [EBLIST] Ordering Ballots for Elections

Happy New Year Electoral Boards of Virginia.

How many of you have added up the number of unused ballots that get put in envelope # 5 from each of your polling places and sent to the Clerk's of the Court office to never be seen again?

Well, I did just that and I was surprised to learn that we were going to be shredding 6519 ballots at a cost of \$1629.75 of Dinwiddie County taxpayers dollars. This is a shame.

Did you all know there is legislation in the Virginia Election Law Code book 24.2-612, 24.2-642 (C) and 24.2-646.1, and an authorization from the State Board of Election Policy 2008-005. There is an Authorization to Reproduce Ballots form that must be completed and signed when ballots are reproduced that is available in the forms warehouse (ELECT_646.1).

The State Board grants approval to any locality which uses optical scan ballots at one or more precincts, including central absentee precinct, to use the optical scan ballot or printed reproductions of the optical scan ballot in lieu of the official paper ballot. All copies shall be made and accounted for according to instructions provided by the State Board of Elections.

So maybe you all will keep this in mind when you are approving the ballots you will need in your upcoming elections.

The registrar in Dinwiddie County says we cannot make copies because the paper will not feed through the optical scanning machine. **My question is, what does one do with those ballots that were mailed back after being emailed to the military or anyone else who requests a ballot during absentee voting. They are hand counted!**

In the coming years, Let's think really hard about how are spending taxpayer dollars.

Subject: Re: [EXTERNAL] Six voters voting.....twice in the November 2023 General Elections

Thank you Chris, I have no such emails that are responsive to your FOIA request. I appreciate your patience. I cannot speak for anyone else, but if the email was not directed to them, they may not have read it in its entirety. For purposes of future requests, it may be a "best practice" to put FOIA in the subject line or first line of the email.

For purposes of clarification on the substance of the email: the 6 individuals did vote twice, but their vote did not count twice, because we caught it in the detailed CAP review process and rejected the 6 ballots. I apologize for the confusion. In other words, they "voted twice" by physically filling out 2 ballots, but did not actually vote twice by having two ballots counted. So perhaps the best wording would be that they "attempted to vote twice." As I understand it (not confirmed), most of the 6 were octogenarians, yet that may or may not have been a factor. The matter has been turned over to the state police, which the Board determined would be the best body to review and investigate this matter.

I will have Judy clarify this important nuance, regarding the use of the phrased "voted twice," in her report at the next BOE meeting.

Good Morning Electoral Board Chair Kalina,

I would like to call your attention to the publicly available document from the Loudoun County Electoral Board, on the county's website for the 17th of January, 2024. The link is below

<https://onboard.loudoun.gov/board/3596>

However some people may not want to click on a hyperlink so they should go to www.loudoun.gov, scroll to the bottom of the page where the County Calendar is displayed, click the "View All" button, click on the 17th of January 2024, then click on the "More Details" link under the Elections and Voter Registration meeting, then click on the link for "Electoral Board Info & Documents" on the lower right, which will bring you to the link above. There you can select "View Agendas & Minutes" select 2024, select "Agendas", and then select the "01-17-24 LCEB Agenda Packet.pdf" and open this file.

This document is why I am writing to you today. On page 3 of 17, you will see the Loudoun County Electoral Board Meeting Minutes from December 14, 2023. Item IV Staff Reports, from General Registrar Mrs. Judy Brown, in the second paragraph states six people voted twice and are being turned over to the Sheriff's Office for investigation. I seem to recall Loudoun County Board of Supervisors Member Mr. Mike Turner stating on May 19th, 2022 at a Loudoun County Electoral Board Meeting that citizens concerned about issues related to election accuracy and compliance with HAVA are making "Heinous and hyper partisan nonsensical accusations about potential irregularities in our voting system is offensive, as a military officer it is offensive."

As you personally know due to your position on the Loudoun County Electoral Board, a Risk Limiting Audit was conducted in the county after the November 2023 General Election. The press release for this event is located on the Loudoun County Government website, under News & Announcements, posted on November 29, 2023. The link is here

[Loudoun Election Officials Complete Post-Election Audit](#)

Loudoun Election Officials Complete Post-Election Audit

The "risk-limiting" audit confirmed the accuracy of the county's voting system.

On this page it states "Post-election audits are one more way that we can illustrate to voters that our voting equipment and procedures used to count votes is working properly," said Loudoun County General Registrar Judy Brown. "The main issue we continue to see is that some voters do not completely fill in the bubble next to the name of their chosen candidate, which can lead to errors."

There appears to be a disconnect between Mr. Turner's statement and Mrs. Brown's statement. Both are government officials. Which one is accurate and true? Which source should citizens trust? More importantly, what actions are required to be taken?

<1705674242274blob.jpg>

The data above was recorded from the Loudoun County Elections Dashboard which has been reset for the start of today's early in person voting. The county currently does not have the capability to generate the historical data by a citizen because the Board of Supervisors would rather spend \$100K on a junket for a sister city initiative than providing a capability to help citizens stay informed about historical accuracy of elections.

You'll note that the total number of registered voters is 293,444 as of November 8, 2023. This number is important for a variety of reason, most importantly because it triggers requirements under the Help America Vote Act for accuracy, as you have been informed. The link to this website is here and current shows 295,948 registered voters

<https://www.loudoun.gov/5564/Loudoun-Elections-Dashboard>

These numbers are important because the maximum allowable system error rate in a valid, certifiable election is stringent—1/125,000 ballots in error according to the Help America Vote Act. (P.11). Electoral Board Members for the county are educated people. You know Virginia has specific requirements and security protocols that are in place that are supposed to be designed to catch and prevent this type of thing, but it clearly did not. This admission by your office is not something any local citizen has made publicly, it's a truth your board published.

When this admission is coupled with other documented and verifiable facts, such as the electronic pollbook vendor product that is responsible for catching and preventing this from happening, also allowed pollbooks to connect to an open, unsecured, public WIFI Access Point, suddenly citizens who you and other local government officials have smeared, suddenly look extremely credible. Now put Prince William County's recent public admissions about the 2020 results and a justification for a broader investigation by law enforcement clearly is warranted. When were the six people reported to the county Sherriff or the State Police exactly?

I know that since you are an educated board member, and you know that electronic pollbooks must pass both certification from the Election Assistance Commission, and the Virginia State Board of Elections before they can

VA-LOUDOUN-24-0395-A-000181

be used in any elections, that "testing" of this equipment, to prevent these types of things, are used to shut down any question of the accuracy of any election. Six people sneaking past the hardware and software security requirements and protocols meant to provide accurate elections clearly blows past that 1 in 125,000 errors does it not? Especially with a single ballot having no less than 17 contents, each duplicative selection being an error. This discovery should have resulted in automatic reporting to the Virginia State Board of Elections and should trigger the automatic decertification of the Electronic PollBook vendor for use in the state. Has the county Board of Elections notified the State Board of Elections yet? Why hasn't there been a press release about this story?

There are much broader implications at play here. The public isn't aware of the missing data in our voter turnout history for the county that is held by the state. The public isn't aware of possible data corruption that exists within the voter registration database managed by the state. Yet this information is what is being used in a spectacular failure and fashion to "prevent" elections from being compromised. If six people can be confirmed to have sailed past this vendor in 2023, how many people got past them in 2020, 2021 and 2022? How can you expect citizens to have any confidence in your answers given the propensity for your office to allow purposefully inaccurate and incomplete reporting of recent events?

The county government (you & others - Mr. Turner et. all) owes the people (myself and others) an apology, and an independent audit before the 2024 General Election in Loudoun County. In accurate elections in Prince William County and Loudoun County disenfranchise citizens statewide. It's time to admit there is a problem and do something about it.

Consider this my FOIA request of your emails to any and all members of the Virginia State Board of Elections regarding the discovery of these voters for the time period of November 8 2023 through January 17, 2024. Please provide me an estimate of costs and if they shall exceed \$200. I understand you have five days to respond to this FOIA request. I also ask for all responsive records be placed on the county FOIA portal for electronic delivery to me. Leave all records in their original native electronic file format.

Thanks,

Chris Rohland

Subject: Re: [EXTERNAL] Six voters voting.....twice in the November 2023 General Elections

Chris, I clarified with Judy that the following facts occurred with 6 people that voted a provisional ballot on Election Day who had already voted previously early or by mail. So 3 of them voted by absentee-mail and 3 of them voted in early in-person. The electronic poll-book, as you know, flagged those individuals and did not allow them to vote. Instead they were given a provisional ballot, which was rejected in the detailed provisional ballot review process. The same result is as I described it below, which is they tried to vote twice, but did not, and have been turned over to the state police for review. Thank you again. Kristen

Subject: Re: EV Info

Hi Samantha,

Thank you for correcting the EV numbers on the 2023 Year End report. The corrected pie chart I received is still not showing the corrected numbers. (Maybe you know why, but on my iPad the slide is a blank blue circle?)

In the Year End report presented at the December EB meeting, the Purcellville EV turnout numbers were underreported by about 700 and the other 2 EV satellite locations turnout numbers were over reported. Leesburg EV turnout numbers were also over reported. I think it is important for the corrected EV turnout numbers to be reported to the public and if any of the incorrect numbers were given by the office to the BOS, they should also be notified of the corrected numbers.

Can we please add the corrected EV Turnout slide to the agenda to be represented at the February 8th, 2024 Electoral Board meeting and included in the EB packet?

Thank you,
Shelley

Hello Shelley,

Thanks for your email. It appears as if for some reason the PowerPoint I sent you had older numbers. I am not sure how that happened. I might have sent you the wrong version of the file.

There is a difference of 4 between the numbers on the EV Recap and the total number of people who voted early. From what I remember, those people did not get checked in fully> We can clarify that with Ricky when he gets back.

Attached is the Early Voting Recap for November 2022 and 2021. Let me know if you need anything else!

The 2023 EV Recap shows 29,938 voters and the Year End Report shows 29,943. I'm pretty sure the difference of 5 is due to emergency voters on the Monday before election.

The 33,929 number you referenced was the total from the 2022 EV Recap.

See you tomorrow,
Ricky

Subject: Re: EV Site Total Info Needs To Be Corrected

Hi All,

The numbers in the power point slide for Early Voting Turnout for November 7, 2023 Election (page 9) still do not look correct.

The EV spreadsheet for November 2023 I received from Ricky has:
As of close of Early Voting November 4, 2023:

EV Site Total Numbers:
Leesburg: 18,235
Sterling: 4939
South Riding: 4753
Purcellville: 2011
With a Total of: 29,938

(I think these numbers from Ricky are correct or close because I have another document with the same numbers as he sent (but they are all off by 1..not sure why?)

The EV Site Numbers in the 2023 Year End Report are:

Leesburg: 19,762
Sterling: 6879
South Riding: 5973
Purcellville: 1,315

With a Total of: 29,943

(I don't think these EV site totals are correct and they don't add up to 29,943.....they add up to: 33,929).

Please verify the EV site totals from Ricky are correct and let me know what happened. The EV graphs and charts should be corrected on the 2023 Year End PowerPoint slides.

Thank you,
Shelley

Subject: [EXTERNAL] OFFICIAL ELECT ADVISORY - Willfully Damaged Ballots

<image.png>

OFFICIAL ELECT ADVISORY

DATE: March 4, 2024

VA-LOUDOUN-24-0395-A-000198

SUBJECT: Willfully Damaged Ballots

WHY THIS IS NEEDED: The Department of Elections has received inquiries from general registrars requesting guidance on what actions to take in a precinct when a voter willfully damages their ballot, so it is no longer machine readable, and requests that their ballot be hand counted.

HOW THIS AFFECTS YOU: Under Virginia Code [§24.2-103](#), the Department “shall supervise and coordinate the work of the county and city electoral boards and of the registrars to obtain **uniformity in their practices** and proceedings and legality and **purity in all elections.**” Virginia Code establishes that electronic voting systems, defined in [§24.2-101](#) as an electronic voting and counting machine, must be used in the Commonwealth. [1VAC20-60-40](#) establishes that a ballot is cast when the voter inserts his or her ballot into the optical/digital scanner or through the direction of the curbside voter to the officer of election. In the event that a machine is inoperable, officers of elections should comply with [§24.2-642 \(B\)](#). Voters do not have the authority to request that their ballot be hand counted as an alternative to utilizing electronic voting or counting machines.

ACTION ITEMS: If a ballot is rendered unreadable, the Officer of Election should follow the procedures to spoil and reissue the ballot as found in ELECT’s [Election Day Guide for Officers of Election](#) and provide the voter the suspected reason for rejection by the machine. For example, if the ballot was rejected for being folded or crumpled, the officer shall inform the voter of the reason and instruct them to not repeat the same actions on the reissued ballot.

If the voter intentionally renders the ballot unreadable a second time in violation of the officer’s instructions, the officer of election shall reissue the ballot and inform the voter that the ballot will not be hand counted and that any further intentional destruction will result in contacting law enforcement.

If the voter intentionally renders their ballot unreadable a third time, officers of election should inform the general registrar and call law enforcement. Pursuant to [§24.2-1009](#) of the Code of Virginia, any person who willfully, fraudulently, or wrongfully tampers with any part of any ballot container, voting or registration equipment, **records**, or **documents** which are used in any way in the elections process is **guilty of a Class 5 felony**. Any further decisions to reissue additional ballots shall be made by the general registrar, after discussion with their local electoral board.

If a locality has received information or suspects that a coordinated effort to damage ballots to force a hand count is underway, they should prepare accordingly with additional ballots and step-by-step instructions for the officers of election to follow in their precincts.

Subject: Re: Weekly Update - Week Ending 1-5-2024

I would like to send a letter to the Board of Supervisors, preferably from the entire Electoral Board, to accompany Judy's request for them to approve a new western Loudoun Early Voting location (the Loudoun Valley Community Center or Harmony Hall) that can accommodate weekday and Saturday early voting. If you'd like it to be from all of us, I can send the rough draft for you to look over.

Shelley Oberlander
Vice-Chairman Loudoun County Electoral Board

On Jan 9, 2024, at 3:46 PM, Oberlander, Shelley <Shelley.Oberlander@loudoun.gov> wrote:

1. Judy already posted the EV hours with the 2 Saturdays in the newspaper/on the website and sent them to ELECT on Dec. 29, 2023. (see Judy's email Dec.27, 2023.)

I think we need to be careful not to confuse voters by changing the already posted EV hours.

2. Judy's email from Jan. 5 said the 2 weekday hours at Carver were uncertain.

I spoke with her today and she said her contact with the County Administration and the Director of Parks and Recreation have now said they think they can give us 5 weekdays at Carver, which is amazing! I wish this had been provided when we asked earlier. However, Judy has not received anything in writing from them yet and the room they are providing is very small, 300 square feet, less than half the size of the Loudoun Valley Community Center room. (Also, does this Carver Center room already have the County Intranet connection?)

3. The Carver Center is not a viable western Loudoun EV location, with a 300 square foot room given reluctantly for weekday Early Voting and the parking problems and sidewalk campaigning problems. Before any EV hours are added for the Primary (if its not too late to add them) I think it's important to have a commitment from the BOS to (quickly) approve, in time for the June Primary, another EV location in western Loudoun that can include weekday and Saturday voting and has a room bigger than 300 square ft., better parking and more area to campaign, which at this point is the Loudoun Valley Community Center or Harmony Hall.

Shelley Oberlander
Vice-Chairman Loudoun County Electoral Board

On Jan 8, 2024, at 2:30 PM, Heald, Ellen <Ellen.Heald@loudoun.gov> wrote:

I am also open to discussion. If we can at least add 2 days of Early Voting to Carver, I feel it is important to add back the other hours to the 2 satellite locations, as staff is busy looking for a new location with weekday hours that will meet our requirements.

VA-LOUDOUN-24-0395-A-000202

Happy New Year!

Attached you will find the minutes from the December meeting. **Please take a moment to review so we can make any changes prior to publishing to the public.** The next Electoral Board meeting is on Wednesday, January 17, 2024, at 3 p.m. (following L&A testing of the early and mail equipment). **Please let Kristen or me know no later than Wednesday, January 10 if there are any items you wish to appear on the agenda** as we must publish to the public on Friday, January 12. So far, here is what we have for the agenda: Electoral Board reorganization, list maintenance update, Presidential Primary Update, Presidential Primary ballot order, and election officer appointments.

L&A testing of the equipment used for early voting and mail ballots will take place on Wednesday, January 17, 2024, beginning at 10 a.m. We would appreciate it if the board members **could arrive at least 15 minutes earlier** so that we have time to review the process, so everyone knows what is expected of them. We have improved upon the process and paperwork because of issues last year.

A draft item was submitted to the county for the BOS meeting on January 16, 2024, indicating the Electoral Board selected Loudoun Valley Community Center as the new early voting site. The final document needs to be submitted by close of business on Thursday, January 11. There is some confusion currently whether the Loudoun Valley Community Center has sufficient space available to accommodate our needs. I am working with County Administration on this. County Administration has indicated they will reach out to Fire & Rescue regarding the possibility of using Harmony Hall in Hamilton and to Kevin Lewis, LCPS, regarding the use of the building across from Harmony Middle School as these locations have more space to accommodate early voting. I continue to stress when talking to people the importance of selecting a site and moving forward on the agenda for the January 16 meeting to ensure we can have a new location in place in time for early voting prior to the June primary.

At Kristen's request, I reached out to Steve Torpy, Director of Parks and Recreation, to inquire about the ability to acquire space at the Carver Senior Center to offer at least 2 weekdays at Carver the last week in February. The possible space will be only about 300 square feet. We have requested Thursday, February 29 (12 noon – 7 pm) and Friday, March 1 (10 am – 5 pm). Again, we are uncertain if this will be possible.

If we can acquire two days at the Carver Senior Center, would you be willing to add the weekday hours back to Claude Moore and Dulles South? Please respond with YES or NO. Specify if we can offer Monday through Friday or only Thursday and Friday so we have clear direction. We need to communicate with Claude Moore and Dulles South soon as to whether we will require the space during the week, or they can use the room for other events. We also are trying to staff the early voting sites now to ensure we have plenty of assistance.

Have a great weekend. Enjoy the snow (if you get any) and/or stay dry if you get rain.

Hi Judy,

After looking at this more closely and being able to open the attachments, I think a request for Guidance from ELECT is needed on how to handle any incident should it occur.

I thought your email to us was saying that this new email was from the same person as the first letter (which recommended the Registrar's and EB's not to certify the election). The second email seems like a problem in Spottsylvania County and although it could be related, it appears unrelated to the first email from Tom. Letting ELECT know about these and talking to Nick would be a good start.

Shelley

Shelley Oberlander

Vice-Chairman Loudoun County Electoral Board

On Mar 2, 2024, at 6:39 PM, Brown, Judy <Judy.Brown@loudoun.gov> wrote:

Good evening,

We saw a total of 896 voters across all four sites today. Attached are the numbers at the early voting sites from Saturday to Saturday. This brings early voting turnout to 3,879 across all four sites for both primaries.

The attached email from Thomas Kasperek was sent to the vote@loudoun.gov email. We received email from a registrar indicating a group was pushing destroying ballots, so they had to be hand counted. Ariel was asked a question regarding this following one of her training classes just this week. We have not received any direction from ELECT currently. Here are some codes sections and administrative code references that are applicable:

Mutilating the ballot so that it has to be hand counted like that may be a violation of [§24.2-1009](#) (see below, emphasis is mine).

Any person who (i) steals or willfully, fraudulently, or wrongfully tampers with any part of any ballot container, voting or registration equipment, records, or documents, which are used in any way within the registration or election process, (ii) steals or willfully, fraudulently, or wrongfully tampers with the software used to prepare and operate voting equipment or the software or hardware used to collect and disseminate election returns, (iii) steals or willfully, fraudulently, or wrongfully tampers with an electronic activation device or electronic data storage medium of the type used to prepare, operate or back-up electronic voting equipment, (iv) willfully, fraudulently, or wrongfully intercepts, alters or disrupts the electronic transmission of election returns or the posting of returns on the Internet, (v) fraudulently makes any entry, deletion, or alteration to any item listed in (i), or (vi) aids, abets, or permits any other person to violate the provisions of clauses (i) through (v), shall be guilty of a Class 5 felony.

1VAC20-60-40. When ballot cast.

A. A voter, voting in person on election day or voting absentee in-person, has not voted until a permanent record of the voter's intent is preserved.

B. A permanent record is preserved by a voter (i) pressing the vote or cast button on a direct recording electronic machine, (ii) inserting an optical scan ballot into an electronic counter, or (iii) placing a paper ballot in an official ballot container.

C. A vote has not been cast by the voter unless and until the voter or an officer of election or assistant at the direction of and on behalf of the voter pursuant to [§ 24.2-649](#) of the Code of Virginia completes these actions to preserve a permanent record of the vote.

D. If any voter's ballot was not so cast by or at the direction of the voter, then the ballot cannot be cast by any officer of election or other person present. Notwithstanding the previous sentence, if a voter inserts a ballot into an optical scanner and departs prior to the ballot being returned by the scanner due to an undervote or overvote, the officer of election may cast the ballot for the absent voter.

E. An absentee voter who votes other than in person shall be deemed to have cast his ballot at the moment he personally delivers the ballot to the general registrar or electoral board or relinquishes control over the ballot to the U.S. Postal Service or other authorized carrier for returning the ballot as required by law.

Another VA Code section to consider is [§24.2-626](#). Our GREB handbook states the following:

VA-LOUDOUN-24-0395-A-000204

"All localities are required to use a voting system at every precinct and for all elections held in the county, the city, or any part of the county or city as per Virginia Code §24.2-626. While choosing a voting and counting system is at the discretion of the local electoral board, the systems chosen must be from the State Board of Elections' approved vendor and system list.

See you all tomorrow at 8:30 a.m.

Subject: Weekly Update - Week Ending 03/09/2024

Happy Saturday!

I believe the Election on Tuesday went well. There were a few hiccups that we will work on. We were out of the office by 10:30 p.m. on Election night. Everyone worked together to organize the election envelopes, so we were prepared for the canvass and for handing over custody of election materials to the Clerk's Office on Wednesday morning. The Canvass wrapped up on Thursday. Election results were posted on election night by precinct for election day, early, and mail voting.

The staff did a fantastic job processing and organizing the provisional ballots. The Election Officers did a better job as well. There was a total of 583 Provisional Ballots, 355 Republican and 228 Democratic.

Here are some of the issues found with provisional ballots:

Wrong side of the envelope used for either SDR or Non-SDR

Election Officer section signed but Show ID or complete ID Confirmation Statement not marked.

Missing Election Officer signatures

Didn't mark Felon question.

Wrong precinct or locality

Didn't provide SSN or full SSN.

Shown on the pollbook has having already voted.

Election officer mistake – should been allowed to vote on machine.

Voter requested manual count of ballot.

Mail absentee ballots – failed to provide ID in accordance with Federal requirements.

The Provisional Ballot meeting is scheduled for Monday, March 11, 2024, at 9:00 a.m. Please be prepared to give us time to enter the Provisional Ballot results and print the abstracts for your signatures as we will need to certify the election on Monday.
