Subject: Proposal for cooperation, Laboratorium Wiedzy Artur Bocuch, Kielce;
www.knowpress.pl

Dear Professor,

My name is Ph.D. Artur Borcuch. I work at the university and I run a company that combines the activities/areas of science and business (Knowledge Laboratory Artur Bocuch; www.know-press.eu)

I cooperate with European universities [i.e. Faculty of Applied Sciences in Nis, University "Union - Nikola Tesla" in Belgrade, University of Gjakova, University of Prizren, Kazakh National Pedagogical University named after Abay Kunanbayev, Daugavpils University, University of Roehampton, Yenilikci Adimlar Dernegi, Ural Federal University, Cyprus Science University]

As part of my activity, I carry out research projects and conduct surveys for clients.

The other element of the company's activity is cooperation with scientists and help with publishing their scientific articles.

In this regard, I would like to ask, would you be interested in collaboration on the publication of scientific articles by scientists who collaborate with me?

The cooperation would consist in publishing the scientists' articles in your journal.

The articles I receive from the authors are in Polish and English.

Of course, all articles would be peer-reviewed in accordance with the principles of scientific integrity in cooperation with you.

If you are interested in my offer, please contact me. We will then discuss possible details and financial conditions.

Yours faithfully

Artur Borcuch
