I was, essentially forced out of my stellar 25 year St. Louis City police career, because, as a Defensive Tactics Instructor and owner of a Defensive Tactics Training Company, teaching to local and surrounding police officers and departments, I studied this incident and provided an evaluation of the incident, providing background, tactical evaluation, technique evaluation, relevant variables, case law, department training and proceeding police, medical, autopsy, prosecutorial misconduct, media misconduct and political misconduct. This was something I had done throughout my career, without pushback, but with this incident, I faced immediate backlash leading to a forced retirement.

Ep. 32 You'll be shocked to learn this, but it turns out the whole George Floyd story was a lie.

I am so disgusted that, now, all of a sudden, years after the facts on the George Floyd fraud murder case was available, showing beyond any doubt the officer did not kill George, the conservative media is suddenly interested in telling the truth. I was forced out of my police career for exposing these facts, which were available shortly after the autopsy was conducted, along with many other facts that proved his innocence. I have the evidence of when I found the evidence and who drove me out of my career. Hint..... BLM. When I say the SLMPD is and has been for years, the "BLM" PD, I have the proof of how the weaponized the department against truth and free speech....

██████████ Believe it or not, police don't have free speech rights, if they can twist and contort what you said and claim it could be detrimental to the function of the department. Despite never naming myself, my agency or the victim, I was told, my words could have started a riot and gotten officers hurt and property damaged, etc. Defending the Constitution and the rights guaranteed within meant nothing compared to their need to bend their knee to

██████████ Believe it or not, police don't have free speech rights, if they can twist and contort what you said and claim it could be detrimental to the function of the department. Despite never naming myself, my agency or the victim, I was told, my words could have started a riot and gotten officers hurt and property damaged, etc. Defending the Constitution and the rights guaranteed within meant nothing compared to their need to bend their knee to the woke, Marxist, useful idiots of BLM from within and from without the department. The BLM from within are who started the witch hunt against me. St. Louis is doomed. If you are invested in STL, I suggest you divest immediately and RUN!!!

██████████ And corrupt history will condemn the "White Flight," without ever revealing the plethora of justified reasons why it occurred, first, from city to county, then the county to rural Missouri. Again, Democrat policies create the problem, their solutions make it worse, then the blame game for their failures never ends....

██████████ And never, ever mentions how quickly minorities move out as fast and as soon as they can.... It doesn't fit the narrative, just like how black banks denied more black home loans, in minority neighborhoods, than white owned banks.....

As a DT instructor, I was forced into retirement by the St. Louis PD, because I pointed this out shortly after this happened. The SLMPD is now the "BLM" PD.

I was forced out of my job for pointing this out on social media and worst of all, many of my black fellow officers condemned me for following the facts of the case only months after it happened. Yes, these facts were publicly available long ago. Ask why they are bringing it back up now?
