Editor's Note: The purpose of the Yearbook of Experts is to provide bona fide interview sources to working members of the news media. Great care is taken in the review and selection of sources for inclusion. Although all contacts have expressed interest in being available for interview, we do not guarantee the availability of any given participant for any given interview, nor is a warranty offered that every listed contact will be appropriate for a reader's particular purpose. Quotes are provided to show acceptance of the Yearbook of Experts by individuals who work in the news media, but should not be interpreted as endorsements by the named organizations. "America's Favorite Newsroom Resource" is based on tens of thousands of Yearbooks requested by journalists.

Welcome to the First issue of the 43rd volume of the Yearbook of Experts -- now in a printed version to accompany the online version, ExpertClick.com. This book is based on the live information provided by our member experts and groups, directly from the online database. Each expert has the ability to log in and update their information instantly, 24 hours a day.

You can always search the database at ExpertClick.com for the most up-to-date information, but this book puts the information at your fingertips. Also, you can download new and revised Adobe PDF editions as they become available.

You may be reading this online from the Adobe PDF version, or you may be reading a printed edition. The content is the same, but when you read the book as the Adobe PDF from a Web enabled computer, you can click on links to take you directly to the experts' Web pages and see enhanced content.

Bonus for registered journalists: Contact our experts via e-mail with our InterviewNet.com system.

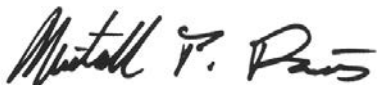

This Yearbook has five sections:

- 1) Introduction;
- 2) Topic Index, when viewed on your computer, these link directly to the profiles;
- 3) Profile Section, with descriptions of experts linked to their Yearbook.com sites;
- 4) Geographic Index, so you can find sources in your area;
- 5) Participant Index, to quickly find Participants.

AspirEDU provides a software solution called Dropout Detective, that identifies students that are most at risk of dropping out of or failing online and hybrid courses. Dropout Detective integrates with learning management systems and analyzes student performance and behavior across all courses in which they may be enrolled. In a very similar manner to the way your personal credit score is calculated, we assign a single Risk Index Score to each student. We then present an easy-to-read dashboard to the school so that student outreach and support can be quickly prioritized and delivered.

Polly Franks

- Crime Victim Advocate

- Child Safety Expert

804-564-9196

polly_franks@yahoo.com

Polly Franks has served as an advocate for victims of violent crime, particularly childhood sexual abuse since 1995. Her commitment to this cause stems from her experience as the mother of two children who were victimized by a former neighbor and family friend who turned out to be a convicted serial predator from another state. During his crime spree between 1982 to 1998, this predator was linked to a minimum of 286 incidents of sexual crimes. Although she is in a wheelchair, Polly became a licensed private investigator for the sole purpose of bringing this predator to justice.

He is now in prison for life.

Since that time, she has testified before Congress and lobbied on Capitol Hill for tougher sex offender laws, such as the nationwide Amber Alert bill and the Adam Walsh Child Protection Act. Her story was published in Good Housekeeping magazine. Polly has been interviewed by the Today Show, Dateline NBC, 20/20, Court TV, the John Walsh Show, ABC World News Tonight, CNN/HLN, the Montel Williams Show, Nancy Grace and Fox News. In addition, she has given numerous interviews for national radio programs, as well as newspaper and magazine articles. She has shared her story to audiences throughout the country.

In 2006, Polly created the Franks Foundation, a nonprofit organization dedicated to protecting America's children from sexual predators. Since that time, the Franks Foundation has been expanded and renamed "It's Not Your Fault." (www.itsnotyourfault.us)

In 2017, her story was published in a nonfiction book "Devil at My Door." (www.devilatmydoor.com)

Polly is a graduate of Bluefield College. She is the very proud mother of three grown daughters, one grandchild, a menagerie of animals (her four-legged children) and a host of "honorary" sons and daughters.

MEGAN'S HOUSE
Lowell, MA United States

Tim Grover has an amazing story of a father's loss and love. It's the story of Megan's House. The nation's opioid epidemic is at an all-time high with countless people dying daily. Tim became the founder and 'father' of Megan's House in Lowell, MA, based on his personal tragedy of losing his daughter Megan to drug addiction in 2014. Tim had decided to create a long-term (the key to lasting sobriety) recovery home by building it himself. He closed on the property that is now known as Megan's House on the day of Megan's funeral. Megan was Tim's inspiration to purchase a building and make it a home to provide therapeutic treatment and life skills to young women suffering from addiction. His experience in witnessing his daughter go through other rehabilitation programs led him to change the current philosophy of treatment centers to one of success.

The Paxtial Arts, is a newly developed peaceful self-defense formula devoid of striking, kicking, weapons or combat of any kind. With decades of development, the Paxtial Arts is not a style of Martial Arts, but rather a new category of defense developed to provide a passive solution towards aggressive physical contact. Perfect for non-violent law enforcement, bully-prevention, self-protection, and security. A trained Paxtial Artist can continuously collapse a human structure with a feathered touch applied and within certain windows of timing, proper angle, and positions. There is no striking or restraining, only a collapsing of your opponent until he or she tires, may be reasoned with, or until others can offer assistance by helping to diffuse the situation. Orrin Hudson was watching the news one night in 2000 when he saw a story about seven employees shot, execution style for \$2,000 in the cash register. That's when he realized evil prevails when good people do nothing. He sold his business and founded Be Someone to teach something positive to inner city kids: the focus, discipline and patience required by the game of chess. As a former law enforcement officer Orrin believes that prevention is better than detention, and the new currency on the planet is KASH with a K: K for Knowledge, A for Attitude, S for Skills, and H for Habits. KASH is KING. Once you get it, no one can take it away. Since then, he's helped over 20,000 kids develop the practical skills and techniques to overcome obstacles in life, illustrated through the best and most intellectual visual aid: the chessboard. This timely heartfelt novel captures the unique atmosphere of the late 1980s and early 1990s in Boston, when the aftershocks of court-ordered busing to public schools lingered on, integration of the all-white housing projects had begun, and the murder rate had reached record-breaking figures. Murphy's hope in writing the novel is that it be used as

MATTHEW WEISS - AUTHOR OF 'WE DON'T WANT YOU, UNCLE SAM'
Washington, DC United States
https://www.unclesambook.org/

The all-volunteer force that has served our country well for more than 50 years is at a critical inflection point. Today, recruiters are struggling to bring enough Zoomers into the armed services. Mismatched fundamental ideals, divergent beliefs about the workplace, and other sociocultural influences have contributed to the United States military scrambling to get a grasp on how to appeal to Gen Z.

With a diverse research background in academia and the private and public sectors, I am committed to disseminating to the public evidence-based information on innovative, lifestyle, and other environmental interventions to enhance quality of life. These tools include cutting-edge psychosocial and biosocial tools to improve health, parenting, educational attainment, job security, income, and productive civic participation, especially in low-income, marginalized, and vulnerable ethnic groups.

CONGRESS OF RACIAL EQUALITY -- CORE

New York, NY United States
<http://www.core-online.org>

Founded in 1942, CORE is the third oldest and one of the 'Big Four' civil rights groups in the United States. From the protests against 'Jim Crow' laws of the 40's to the 'Sit-ins' of the 50's and the 'Freedom Rides' of the 60's; through the cries for 'Self-Determination' in the 70's and 'Equal Opportunity' in the 80's to the struggle for community development in the 90's, CORE has championed true equality for all people. As the 'shock troops' and pioneers of the civil rights movement, CORE has paved the way for the nation to follow. As we approach the end of the 20th century, CORE has turned its focus to preparing minorities for the technical and skills demands of the new millennium.

**PRESTON COLEMAN -- POLITICAL
SATIRIST**

Oxford, MD United States

https://prestoncoleman.com

I don't take most things seriously. Religion, politics, economy? bah! Who needs 'em? But satire - SATIRE- that, I take very seriously. Reviewers are calling me the King of Satire; they have my leave to do so. Offended? Good! That's what satire is for. No sacred cows here - just premium ground beef, well done. 'The gods, too, are fond of a joke.' - Aristotle Dr. Preston Coleman is a Professor of Communication at Chesapeake College in Maryland. An expert on how charisma can be 'manufactured,' he has a well-documented theory on why someone like Donald Trump can be virtually worshiped by some and reviled by others. He's also a veteran satirist whose work had been making people laugh for nearly three decades. Given the present political climate, let's just say that Dr. Coleman, his wife Suzanne, and their two dogs live somewhere in the Eastern half of the United States.

REV. DR. ROBERT L. GRAM -- AUTHOR OF CHRIST AND COVID-19, MEDITATIONS FOR PEACE IN TIMES OF TURMOIL
Red Hook, NY United States
<https://www.stjohnsreformed.org/>

I wrote the following for parishioners and friends of St. John' Reformed Church in Red Hook, New York. The church hired me as interim pastor last October when their full time minister underwent serious surgery, entailing several months of recuperation. The pastor' medical complications prolonged my tenure which should have ended in March. Covid-19 exploded in our area by then. We suspended worship in the sanctuary, and I started preaching on YouTube. Because of the virus, pastors couldn't perform tasks like home and hospital visitation. I felt the need to do more in light of this sudden and startling tragedy. Thus the writing of meditations compensated for the pastoral roles Covid-19 had stolen. I retired from full time ministry in 2017. Some pastors end their careers publishing sermons, prayers, or meditations.

RICK PRIBELL, BIBLICAL EXPERT AND AUTHOR

Fort Lauderdale, FL United States

<https://www.imaginegodbooks.com>

Born and raised in a Jewish family from central Florida, Rick Pribell came to accept Jesus as the Messiah, which went against everything he was ever taught. It was on a business trip to the Caribbean island of Trinidad where he met his wife, Joyce, from a Hindu-Christian family of East Indian descent. Pribell realized that people everywhere have the same basic emotions and desires, those that mirror God's image. This realization, he believes is the bedrock for developing a personal relationship with God. His new book, *Imagine God*, chronicles his personal journey and message in an easy-to-understand way that is both simple and scripturally sound. Following his life-threatening heart attack and subsequent quadruple bypass surgery, Pribell has come to accept that our lives here on earth are only temporary.

TERI CARDEN -- REVIEW MY ASSOCIATION MANAGEMENT SYSTEM
Nashville, TN United States
www.ReviewMyAMS.com

Q: Why ReviewMyAMS.com? Association Management System (AMS) is one of the most important investments an association has to make. As humans, we highly value the opinions of our family, friends, and peers. With these two things in mind, it's time for association executives to have a voice about how their AMS performs with regards to customer service, ease of use, reliability, and customization. It's time for a place where executives can speak openly and honestly about their experiences with their AMS. It's time for end users to have a collective voice in an incredibly competitive market.

Tampa, FL United States

Martin Lowy, a veteran banker, attorney and entrepreneur, is unabashedly pro-American. But he also believes that global trade is a win-win system for all nations, even though some Americans need help in order to cope with global competition, and that people who live elsewhere deserve our respect?and even assistance when warranted. Lowy uses both his indefatigable research on new developments and his 50 years of experience investigating frauds, advising boards of directors, negotiating contracts and managing companies to bring his readers a unique blend that makes his writing relevant and timely, yet timeless. His first book, High Rollers (a history of the savings and loan debacle), was a New York Times Notable Book of 1991 and was cited by the Supreme Court as an authority on the subject. Lowy' other books include Debt Spiral, and new for 2019 Capitalism for Democrats

DON TRUMBULL is an author and a former air carrier president and director of operations. Following a ten-year mission exploring the vulnerability of our U.S. air carriers/supply chains to the catastrophic threat of solar flare/electromagnetic pulse, in 2019 his broader findings inspired a civilian countermeasure system called the SAFE STATE Project. An achievable on-site defense for individuals, communities, and states, the SAFE STATE countermeasure is a low-cost/high-confidence solution to surviving catastrophic events that can destroy America.

WAS THE KENT STATE SHOOTING CASE SOLVED? New Claims of Order to Fire Spur Controversy. Gordon (Four Dead in Ohio), believes claims made in Kent State: An American Tragedy, that McManus gave an order to fire do not begin to explain why men in another unit, which had already shouldered their rifles, fired at least 67 shots directly at Kent State students.

George H. Hassanzadeh

Author of *First Comes the Mosque,*
Shia Global Ambitions: A New World Order

A wide-ranging critique examines Islam, its dominance in Iran, and the threat it poses to the world. Author Hassanzadeh grew up in Iran in a Shiite family and has experienced what he considers its despotic indoctrination firsthand. The principal point of his intriguing study is that Islam only disingenuously presents itself as a religion in the traditional sense of the word, and is better understood as a “a set of harsh and punitive laws made by Arabs solely to crush others.”

Hassanzadeh traverses an impressively broad stretch of historical and theological terrain in order to demonstrate this, beginning with the very genesis of the Muslim faith, the life and times of Muhammad, limning his transition from a “street preacher in Mecca to the emperor of the sword.” Hassanzadeh’s command of the historical and theological materials is notable; his nuanced disentanglement of the Shiite and Sunni Muslim traditions is especially illuminating.

In addition, he’s finely attuned to religious hypocrisy, the ostentatious expression of virtue that conceals the practice of vice. The author meticulously exposes the duplicity of the corrupt ruling clerical class in Iran. The author contends that Islam is “inherently violent,” prone to the tyrannical domination of its members from its inception. Hassanzadeh also dissects the catastrophe of the Islamic Revolution in Iran in 1979, and the unfortunate shift from Reza Shah’s modernist reforms to Sharia law’s blinkered prohibitions.

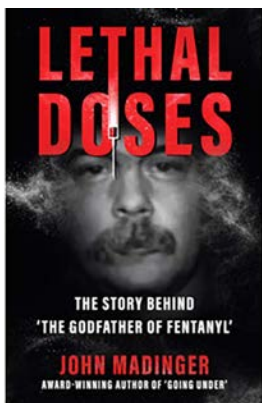

The book concludes with a somber warning regarding the imperialist aspirations of Islam, whose advocates wish to export its authoritarian agenda to the Western world: “Once Shari’a, the core of Arab totalitarianism, is put into practice in any nation, its rules and regulations bind that nation to a caliphate system of government that takes away individual freedom and independence and replaces it with a powerful and often tyrannical Arab cleric ‘as caliph for all.’”

Are You Ready? It Is About the Future — Yours.

The Survival Center now offers a DVD series to help you be prepared

It is obvious to many that some serious and life style-altering things are happening politically, economically, geologically and environmentally. How you prepare for these changes will determine your future well-being. Yes, it is about the future — yours. Are you ready?

It is our individual responsibility to get ready and be prepared to be on our own for extended periods of time. We have already seen that no group is standing by to come and “save” us. Look outside the box.

Since the early 1970s, Richard Mankamyer — “Uncle Richard” — author, preparedness trainer, general manager and regular talk show guest from The Survival Center, of McKenna, Washington, has been helping people prepare for most any emergency that may come their way.

“We have the knowledge and experience to help you prepare,” Mankamyer says.

The Survival Center, America’s Premier Preparedness Center, carries a complete selection of emergency supplies including survival kits, disaster preparedness supplies, MRE’s, long term storage food, medical kits, water filters and underground shelters, to name a few. The Survival Center’s Web site — www.SurvivalCenter.com — is a wealth of information and offers thousands of products to help you prepare.

Based on decades of experience, the Survival Center has written what has come to be recognized as the industry standard book, “Basic Preparedness,” and has now produced a 6-hour (3-DVD) Home Study Course around the extensive subject of preparedness. Whether you are a beginner or expert, this Home Study Course has something for you.

As Mankamyer says, “Preparedness is a lot like insurance, you have to have it before the need arises.”

Many environmental issues are best addressed by people taking action in their own communities and regions, not by large, national entities. However, localized or newly formed groups often need help to achieve their goals. That's where ORI comes in. We maintain a network of ORI Partners, connecting them with resources and services to help them maximize their impact, expand their capacity and weather unanticipated setbacks. DANNY QUINTANA -- OCEANS & SPACE EXPLORATIONS, ENVIRONMENTALISM

Salt Lake City, UT United States
ghsmp.org

Space & Ocean Exploration: The Alternative to the Military Industrial Complex by Danny Quintana is a policy alternative to reduce defense spending without increasing unemployment. It is common knowledge the United States spends more money on defense than the next 20 nations combined. Clearly, much of the spending is hidden from public scrutiny in other agencies and re-labeled under other priorities. The true size of the U.S. defense budget was about 931 billion for 2013. My goals is to redirect U.S. military spending to explore space and oceans while specifically trying to establish strict protections for the world's great fisheries.

ANDY LOPEZ

THE INVISIBLE GARDENER

INVISIBLEGARDENER.COM

What are you putting in your soil? How are you dealing with garden pests and diseases? Conventional horticulture assaults the earth with pesticides and chemicals, sucking essential nutrients from the soil with each harvest. Organic gardening offers a healthier, more productive, and more sustainable alternative.

Andy Lopez, a.k.a. the Invisible Gardener, reveals how to work in partnership with your garden while consuming less energy and producing fewer greenhouse gases. Under Andy's expert tutelage, you'll discover:

- Importance of Having a Living Soil
- Tree Care, Law of Cause & Effect, Control Bark Beetles & Other Pests & Diseases
- Disease Control with Refractometer Brix Readings
- What is Brix is & How to Use in Garden
- Compost & Mulch, Why & How to Use It
- Pest control, Greater Stress Means Greater Pest
- Organic Lawn Care & Weed Control
- Natural Spraying Methods
- Reduce Garden Water Needs
- Role of Mycelium & How to Help It
- What is Rock Dust & How to Use It

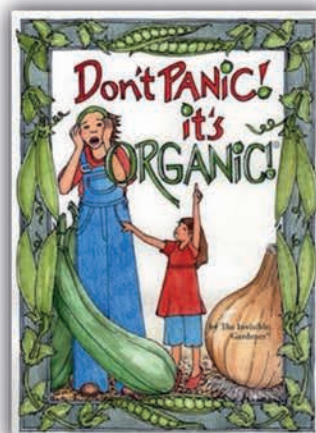

Andy proves conventional agriculture wrong by proving organic practices and heirloom seed use can actually increase harvests. Even if organic and conventional growing methods had the same results, which would you prefer: dead soil killed by chemical overuse, or live soil rich in mineral and micro-biological organisms?

A real gardener knows the answer instinctively. ***Don't Panic Go Organic***—you'll never regret it.

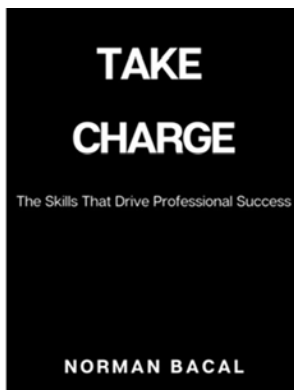

BANISH THE PESTICIDES & CHEMICAL FERTILIZERS FROM YOUR GARDEN.

VICTORIA CAPITAL MANAGEMENT, INC.

Charleston, SC United States
www.vcm.us.com

Building wealth for retirement and beyond is a daunting challenge. Two important components determine the amount of savings available allowing you to enjoy your new life in retirement: how much you save and how much you earn on that savings. The first step in that plan should be the decision to engage a registered investment advisor (RIA) to help navigate the numerous investments available today. Reaching the second step involves partnering with an investment professional with experience and proven skills. Victoria Capital Management, Inc. (VCM) has been an independent RIA since October of 2000. The firm has no ties to banks, brokers or insurance companies. The two key investment professionals have over 78 years of combined investment experience and have successfully weathered three major bear markets.

RICK KAPLAN -- PREMIER RIVER CRUISES

Los Angeles, CA United States
<http://www.premierrivercruises.com>

If you're like me, you're reading the 'About Premier' section of our Premier River Cruises site to get a feel for who we are and how we'll help you find the best information about river cruising, great river cruise values, and ultimately to experience a perfect river cruise vacation - right? Okay. But, before we tell you why Premier is the best company for you to buy from, let's discuss a few things YOU should know about, things that we've learned over 25+ years of selling cruises. First, travel agents don't actually create your travel experience although a bad one can sure screw it up quickly. Second, every travel agent in the universe cannot possibly be an expert on every cruise line, every ship, every tour company, every hotel, and each destination ? nope, just not possible!

For too many years, I was on the road for up to ten months a year. I'm naturally curious so I look for fascinating and unusual stories and people and delight in writing about them, whether they live next door (figuratively) or across an ocean.

MICHAEL B. BUTLER, AUTHOR OF 'ROUND THE WORLD & ACROSS RUSSIA IN 21 DAYS, 30 YEARS LATER.'

Los Angeles, CA United States
www.MichaelButlerBooks.com

The ?1st Annual Around the World Air Rally? was the first western or civilian group of general aviation aircraft to circumnavigate while crossing the entire landmass of Russia, but that is only part of the story. Our group was under protection of one of the highest officials, Vice President Ruskoi, in an effort to create updated cultural and business ties between old enemies and new friends. Five days in Moscow and across Siberia we carried the highest authority in our back pocket... but sometimes in some places that was not enough...

I swam from the beach across the open ocean to a tiny island called Catita with my parents, my 2 brothers, and one puppy when we lived in Venezuela! DANIEL MOSES -- HUMAN RESOURCES EXPERT

Columbia, SC United States
www.linkedin.com/pub/daniel-moses/91/8a5/725

In today's workplace, the issue of sexual harassment can come front and center no matter how hard an employer tries to keep it in the background. Yet, despite all of the attention this issue has received in recent years, its definition can still be unclear. What exactly is sexual harassment? Using current law, regulation, and relevant court precedent, Dr. Daniel Moses does an excellent job defining what sexual harassment is, how it can be prevented, and written policies that, if put in place, will protect an employer in the event sexual harassment takes place despite the best efforts to prevent it. Dr. Moses' book can certainly serve as a guide to those seeking practical solutions to this modern problem.

After leaving the financial world, he engaged in studies of quantum physics, Eastern mysticism, and philosophy. From these studies, he developed a ‘Theory of Everything’ which became the basis of his novels. After years of life in New York City, Michael now lives in the peaceful woods of Dutchess County with his wife and daughter. Some notable events and stories I've covered are Ferguson, Euromaidan in Kiev, Occupy Wall Street, the Unite the Right Rally in Charlottesville, and over a dozen different Trump rallies. The Hollywood book shows tourists how to find all kinds of sites not found on standard tours, including the real homes of today's biggest stars; hot spots where you have the best chances to see the stars; filming locations of popular or classic motion pictures and TV show; sites of scandals, murders, and suicides; castles in the Hollywood Hills; and sites that inspired songs. ASHLEIGH BRILLIANT ENTERPRISES: THE STORY OF OUR BUSINESS We began in San Francisco in 1967. I had been a college teacher, but I wanted to be a writer. In order to increase my chances of success, I decided (not all at once, but over a period of time) to concentrate on a kind of writing which nobody else was doing: very short expressions, which I eventually limited to a maximum of 17 words. I illustrated them myself, and at first called them 'Unpoemed Titles,' then 'Pot-Shots,' then eventually (when I realized the value of my name), 'Brilliant Thoughts.'

WESTWIND COMMUNICATIONS

A PUBLIC RELATIONS &
MARKETING FIRM THAT
GETS RESULTS

www.WestwindCos.com

Westwind Communications is a public relations and marketing firm whose philosophy is to place the best interests of its clients first. This is accomplished by establishing a monthly retainer fee for marketing services, negotiating the best rates for all radio, television, print and web ads and passing the savings on to the client.

Scott Lorenz, President of Westwind Communications utilizes the best available and most qualified free-lance talent on a job-by-job basis. Plugging in outside sub-contractor's ushers in creative energy, provides budgetary options, eliminates bureaucratic crawl and gets clients more involved in the day-to-day marketing or PR decisions. Clients work with senior individuals utilizing their vast experience from a wide-range of campaigns.

Tapping into the creative energy of their talent pool, Westwind encourages the tendency of individuals who are more productive in their own independent work environment while mixing and matching team members for max effectiveness on campaigns.

R. SCOTT LORENZ

Book Marketing Strategy: In a typical book marketing campaign, Westwind Communications targets book reviewers at magazines, newspapers and electronic media across the United States. Since our contacts in the media are exceptionally good, we have a high success rate with frequent placements. Westwind develops and nurtures relationships with writers, editors and producers so they trust us when we give them a story idea.

Book Publicity Challenges: To demonstrate the formidable task of promoting a book, at a recent conference the producers of the Today Show and Good Morning America said they each receive about 75 books EVERY DAY!!!! With those incredible numbers unless an author has a PR person working for them it is unlikely their book will ever cut through the clutter to get on the radar screen.

How to Navigate Crisis and Change with Sam Waltz

Need Help ? from a Global Leader in Reputation Management Issues & Crisis Management Change Management?

Sam Waltz,
(302) 777-7774,
SamWaltz@SamWaltz.com,
Greenville, DE 19807-2555.

Located in the Greater Philadelphia / Wilmington area, Sam Waltz is the "go-to guy" on issues of navigating...

- Reputation Management, what to do when the Reputational House is on fire?
- Issues – Crisis Management, how to navigate "heartache issues"?
- Change Management, how do you understand the dynamics of social and behavioral change?

Sam Waltz is an award-winning industry leader. He ran the campaign "Vindicating the 'Scapegoated' 1941 Pearl Harbor Commanders Adm. Kimmel and Gen. Short," which resulted in 3 votes in Congress;

He helped orchestrate the historic human-powered flight of the Gossamer Albatross across the English Channel;

He has counseled a number of organizations on the issue of Predatory Sexual Abuse by people in positions of trust;

Among other projects, he has worked on fatal plant explosions, ugly litigation, major environmental regulatory events, attempted extortion, tragic suicides of people in custody / residency, labor interruptions, leadership transitions, etc.

His peers elected him CEO / President of the industry's professional society, akin to an MD elected to head the AMA or an Attorney elected to head the ABA. Previously, he was a elected a Fellow PRSA. And he has earned the industry's highest honors.

One area he covers is "contemporary change movements," in terms of strategy and public opinion, in the historical context of the Civil Rights, Feminist, and Environmental Movements of the last half century.

Another is helping understand and examine the choices organizations and individuals have when they find themselves in the harsh spotlight of media.

Native of an East Central Illinois farm, Sam Waltz has been a Delawarean since 1975, when the statewide paper brought him to cover politics. As State Capitol Bureau Chief in his 20s, he covered a young Joe Biden in his 30s. He went on to a strategic senior career in External Affairs for the DuPont Company, and then founded his own consultancy in 1993 as DuPont went through global downsizing.

A Vietnam-era veteran of US Army CounterIntelligence 1967-70, he holds BS (1971) and MS (1973) degrees from the University of Illinois at Urbana, with PhD coursework (no degree) in Public Policy at the University of Delaware in the later 1970s. He is married, and the father of 3 young adults.

INTERNATIONAL PLATFORM ASSOCIATION
Georgetown, DC United States
www.InternationalPlatform.org

The International Platform Association (IPA) was founded in 1831 by American diplomat Daniel Webster (1782-1852) and educator Josiah Holbrook. (1788-1854). Holbrook was the principal founder of the Lyceum movement in 19th Century America. The original name for the IPA in 1831 was the American Lyceum Association. The Lyceum movement was a venue for lectures, debates, and musical, religious, entertainment, and educational presentations for adults. After the Civil War, many lyceums which had been devoted to science and manufacturing advances also opened their doors to vaudeville entertainers. In some ways, the Lyceums of the 19th Century were like C-SPAN today.

BEW WHITE -- SUBJECT OF BIOGRAPHY 'A SUMMER CLASSIC, THE BEW WHITE STORY'

Birmingham, AL United States
http://www.bewwhite.com/

About Bew White: Bew White III, is Chairman of the Board of Gabriella White and it's brands, Summer Classics, Gabby and Wendy Jane. He graduated from Auburn University in 1972 with a degree in textile engineering. The phrase 'outdoor living' had hardly been coined, as outdoor furniture was simply known as a table and chairs you would find on a basic patio deck. At just 28 years old, Mr. White left his job at his family-owned business, Avondale Mills, and started a sales representative company in 1978 called Vista Corporation, specializing in selling outdoor furniture. In 1987, Bew started multiple companies in an effort to expand from selling on the road to building a national brand.

DELMAS P. WOOD -- FDR TRIBUTE SPEAKER

Washington, DC United States

Proprietor of a Roosevelt memorabilia collection known as the FDR Living Museum, Wood happens to stand the same height as Roosevelt (6 feet, 2 inches). He also wears the same size hat (7 3/4) and nearly the same size shoes (Wood a 13, FDR a 12 1/2) -- points of similarity Wood seems happy to let folks know. Roosevelt worked in the insurance business, Wood likes to say, but eventually went onto other pursuits, such as saving the world from fascism. Wood, stayed in insurance in this Montgomery County town. Sandy Spring is where he grew up, where his first youthful attempt at public speaking was such an embarrassment that it appears to have marked his life from that day forward.

For over 20 years Tom Nardone has been inventing and creating the weirdest pumpkin carvings you have ever seen. He's also committed to making Halloween fun, simple, and creative. Each year his website holds one of the world's largest pumpkin carving contests and awards 30-40 designs with a prize. These designs are archived for everyone to see. The result is a site with over 300 Jack O Lantern ideas you can copy and use. Mr. Nardone made the rare cross-over from website to best-selling author. His books Extreme Pumpkins, Extreme Pumpkins 2, and Extreme Halloween were all nationwide best sellers. He's fun and fast talking, so Tom has also made a number of TV appearances. He's been on just about every morning talk show in America, including Live with Kelly 6 times. He's also been on late night TV, twice with Conan O'Brien. Tom is a fun guest.

CODY MCLAIN -- FOUNDED 3 MULTI-MILLION DOLLAR COMPANIES
Austin, TX United States
https://CodyMcLain.com

Hey there, I'm Cody. I think a lot, and in my spare time, I do things. At least, that's the simplistic version anyway. On this site, you'll find some of my ideas, some of my pictures, and the occasional book or two. I've been building companies since middle school. I was one of those kids who skipped college to build a business. During the past decade, I've built quite a few of them and have developed an inalienable sense to keep building more. At some point though, I realized I spent too much time building things and not enough time sharing how I built them. Here, my work covers a variety of topics. If it had a core though, a theme if you will - it'd be about achieving our goals, doing more with less and learning how to change the world with some big ideas.

“In fifty-two years of journalism, I never knew what it was like to travel on a campaign train or bus—until *Whistle-Stop Politics*. Reading it, I now feel as if I had had those experiences—the history, the drama, the proximity, the uncertainty, the photos, even the old cartoons. A great job by Edward Segal.”

—Bob Woodward, associate editor of *The Washington Post*
and author of fifteen No. 1 *New York Times* bestsellers

How campaigning by train shaped American politics, elections, journalism, and culture.

In *Whistle-Stop Politics*, author Edward Segal brings to life the pivotal role campaign trains once played in American elections with hundreds of stories about Theodore and Franklin Roosevelt, Harry Truman, Dwight Eisenhower, Ronald Reagan, and many other politicians.

Voters across America used to be able to get up-close-and-personal with candidates vying for their support. For nearly 200 years, whistle-stop campaigning, an American invention, enabled politicians of all stripes to connect directly with the public from the back of trains at depots and trackside rallies in the country's largest cities and smallest towns.

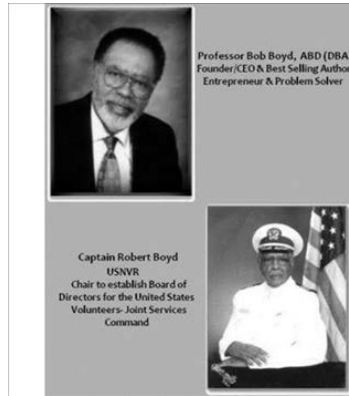

Today we can only “touch” our candidates on TV or in social media. The memories that the electric excitement of whistle-stop campaigning generated threaten to fade with the passing of each generation. Also fading are the vibrant, first-person stories documented by reporters who traveled with hundreds of whistle-stopping political candidates.

Filled with engaging anecdotes and striking images, *Whistle-Stop Politics* is your thrilling ride back into America's political past, opening new windows into the personalities and political campaigns that shaped our history.

The book is meticulously researched and written by Edward Segal, a former campaign manager, press secretary, and aide to Democratic and Republican presidential and congressional candidates. He is one of the few people to organize a modern-day whistle-stop campaign train tour. This marvelous collection of stories and rare photos is your time machine back to the lost art, soul, and excitement of this nearly forgotten form of political campaigning.

ARE YOU PREPARED TO WEATHER A DAMAGING BUSINESS CRISIS?

YOU WILL BE, WITH
CRISIS AHEAD,
EDWARD SEGAL'S
NEWEST BOOK

In today's business world, threats to organizations and their stakeholders — from cyber attacks to lawsuits — can strike at any time, without notice, and with devastating results. To help survive any crisis, it is important to have a comprehensive and strategic plan in place.

Noted crisis management and communication expert Edward Segal has created the essential primer to successfully manage any crisis. He has more than 30 years' experience managing a wide range of crisis situations for clients and employers, ranging from the arrest and firing of CEOs, allegations of sexual harassment, and hate crimes to bankruptcies, forged documents, and financial mismanagement.

"With real-time social media available to billions of people, a crisis is just one Tweet or YouTube video away. However, when something does occur that has potential to affect your reputation, 'no comment' is not a savvy response. Crisis Ahead prepares you for effectively managing threats to your business. It's your guide to the strategies and tactics of effective real-time communications. Read it so you will be ready when (not if) a crisis hits your organization."

David Meerman Scott, marketing strategist, entrepreneur, and bestselling author of 11 books including *The New Rules of Marketing and PR*

Segal is the author of *Crisis Ahead: 101 Ways to Prepare for and Bounce Back from Disasters, Scandals, and Other Emergencies*, where he shares dozens of best practices, strategies, tactics, and techniques to help businesses and organizations get ready for, respond to, and recover from even the toughest and most damaging crises. *Crisis Ahead* helps organizations assess their vulnerability to a crisis, their readiness to respond to one, and includes a customizable crisis management and communication plan.

This book is for CEOs, senior staff, corporate communication professionals, HR and legal teams, boards of directors, and front-line employees who need to know what to do in the moment: what levers to pull and what moves to make in real time when faced with a crisis, scandal, or disaster. It is written with the need for speed in mind.

It is not a matter of if a crisis will strike, but when. *Crisis Ahead* provides the advice, insights, and road map every company needs to prepare for the inevitable.

THOUGHT LEADING WOMEN

San Francisco, CA United States

Imagine a world where your concept of someone with profound ideas is a woman. Because when you think about it, most people who change the way we think -- experts on TV, scientists, economists, business gurus, and the like, are men. I develop talented, driven women (and a man or two, of course) in a variety of fields, who have big ideas no-one else has thought of, to be acknowledged as the undisputed go-to, leading authority in their area of expertise. Using my 3D Influencer™ process, we define their idea, develop it (usually in book form), and spread the word through branding, packaging and promotion, to make their big idea accessible to a wide audience. Catch a snippet of my thinking about this in my response to a Business Week article on personal branding, which they published:

EIMAN SHARMIN -- TEACHER OF PERSUASION SKILLS AND THEORY
Lake Worth, FL United States
www.EimanSharmin.com/

Whether we need to speak up, change a process, reject something, or assign responsibility, every day we are trying to get others to come around to our own way of thinking. But if we are going to persuade people, if we are going to get them to do what we want when we want them to do it, we must first understand who they are. While the potential combination of variables that make up our days and our beings is indeed infinite, the emotional core of our responses is not. Understanding these finite responses provides the key to understanding how to reach others and persuade them to think the way we desire.

(Beyond the Wall of Resistance) He advises leaders on ways to get people interested, engaged, and committed to making new projects a success. His opinion is sought by major media such as The Wall Street Journal, NBC Nightly News, Fortune, and many others. He just completed a survey to identify what senior leaders must do in order to lead change successfully.

Membership Organizations... *Prove the Real-Dollar ROI You Deliver!*

Ed Rigsbee helps Trade Associations & Professional Societies prove that membership in their organization is a good business decision!

Announcing a revolutionary breakthrough in qualitative focus group research to determine member return on investment in real-dollar numbers

The Rigsbee Member ROI Valuation Process™

www.rigsbee.com/association.htm

If your organization's Board of Directors is concerned with marketplace positioning, association branding, member retention, and member recruitment, then taking a sampling of your membership through Rigsbee's Proprietary ROI Valuation Process will allow your organization to identify the important member-only benefit strengths, weaknesses, threats and opportunities.

Ed Rigsbee, CSP

Today's potential association and society members are asking one simple question, *What's in it for me?* Trade associations and professional societies are better able to recruit and retain members when the association leadership can explain the true ROI of membership. Learn how to tell your prospective members just how much (\$\$\$) they can expect to receive from their financial and time investment.

Since 2000, Ed Rigsbee has been helping associations, societies, and chambers of commerce to prove to their members that "membership is a good business decision." He does this through helping the organizations to prove the yearly sustainable real-dollar ROI (return on investment) that they deliver to their members. Ed's qualitative research process delivers member-determined ROI numbers as opposed to staff-driven numbers. Members *believe* what they help to create. The only known source for this service in the country, Ed then helps your association to develop a better member recruitment brochure--one that will dazzle with brilliance (rather than baffle with bulk).

A member of the National Speakers Association since 1988, he received the Certified Speaking Professional certification in 2000. Ed is also a member of ASAE The Center for Association Leadership. He is the executive director of a 501(c)(3) non-profit public charity and the author of several books on partnering and strategic alliance development.

D. Kevin Berchelmann

Thought-leader, Expert Consultant,
Strategist, Executive Facilitator

D. Kevin Berchelmann, president, CEO and principal consultant, is a highly acclaimed strategist and thought leader in executive, management and organization performance.

Bottom line: Leadership is a learned skill, and management performance can change the course of any – ANY – organization. The key is in the "learning," and contrary to the plethora of trainers in this business, few can actually "develop" leaders successfully.

From executive teambuilding, strategy development and compensation, to individualized coaching, performance improvement and retention, Berchelmann has been incredibly successful in delivering results and measurable value in this critical environment.

These results most recently include:

- Management and leadership development for multiple levels of a Fortune 50 manufacturer;
- Executive and incentive compensation for a publicly traded construction company;
- Executive development and succession planning for a \$750M services firm;
- Strategy and HR advisor to several firms of various sizes, industries and markets.

Triangle Performance was recently named #9 on Houston's Fast 100 fastest growing, privately held companies.

A decorated 13-year Armed Forces veteran, Berchelmann has a corporate background which includes senior executive roles in human resources, operations and general management for multiple Fortune 1000 and privately held firms. Company profiles and industries include technology, manufacturing, professional services, construction, not for profit and biopharmaceutical. Additionally, he has extensive experience with investor-led, vendor-backed start-up and ongoing firms.

Berchelmann is a sought-after speaker, invited to present, "Contingency Retention: Keeping the Key Employee," at the Winning the War for Talent: Recruiting and Retaining Employees conference held in San Francisco, and "Motivation & Performance Incentives: Creating Star Performers," at the Customer Care Summit in Las Vegas. His presentation for the International Zinc Association, "Human Resources -- a Global Focus," was lauded as the best presentation during the five-day international executive event, Zinc College in Golden, Colo.

In today's sales world, there's no room for followers. But there's plenty of room for leaders. Competition is intense, and if you don't take a leadership role in producing results for your clients, someone else will. In "Lead, Sell, or Get Out of the Way," Ron Karr outlines a repeatable process based on the powerful idea that great sellers lead relationships in the same way that great leaders sell ideas.

No matter what you sell, you must communicate persuasively and effectively what it is you can offer clients.

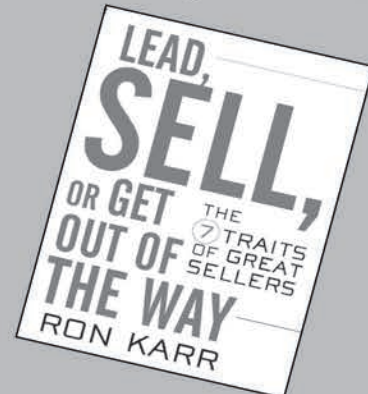

However, sales leaders do even more than that. They raise the bar by finding new opportunities and creating new levels of performance for their customers. They don't just sell products or services; they sell outcomes that transform a customer's world, and they assume personal responsibility for those outcomes.

This customer-focused mindset is the key to Karr's proven leadership selling process. Based on decades of research with companies of all sizes, Karr reveals what great sellers do and shows how anyone can implement the same powerful principles.

"Karr's book illustrates what we believe: that knowing your customers' needs is the single most important factor in building sales. Business starts with the sale. To make profitable sales, you need to understand your customer and create a timely value proposition. This book shows you how to do both."

LARRY TRACY -- FORMER SENIOR INTELLIGENCE BRIEFER TO THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF
Washington, DC United States

Some people are born leaders, blessed with the innate ability to motivate, inspire and lead. The rest of us require a system to achieve those same goals through the spoken word. That's what you'll find in this book-the proven S3P3 System that resulted in President Ronald Reagan describing Larry Tracy as 'An extraordinarily effective speaker.' He's a retired U.S. Army colonel, with many of his assignments focused on speaking and briefing. In one, he was the Senior Intelligence Briefer to the Chairman of the Joint Chiefs of Staff. The book cover says the S3P3 System is 'proven.' How can such a claim be made? Because if he was ineffective in that and other high-level assignments, he would have been fired. The S3P3 System worked for him, and it will work for you.

BARBARA HEMPHILL - PRODUCTIVITY CONSULTANT, WORK LIFE BALANCE
Raleigh, NC United States
www.productiveenvironment.com

Improving the quality of employee's lives is one of the best things a business can do for their employees and their business. Believe it or not, getting rid of physical and digital clutter is one of the more effective actions a business leader can take to categorically increase profits and improve the quality of the lives of their employees. Unquestionably, clutter is bad for business. It not only slows your employees down, it weighs them down. They are less productive than they would like to be, and as a result, less happy than they would like to be. Over time, this emotional baggage not only costs businesses a lot of money, but hurts employees in just about every way, physically, emotionally, and psychologically. They tend to feel tired, overwhelmed and constantly stressed out.

BEVERLY SMALLWOOD, PH.D.

EXPERT ON ANGER & OTHER EMOTIONAL CHALLENGES

Why has everybody gotten so mean? If rage were weather, we'd be smack in the middle of a Cat 5 hurricane!

The destructive winds of anger have whistled through the cracks in our families, sabotaged political civility, toppled our work teams, threatened our schools and workplaces, and even blown against the unity in our places of worship. Is there any hope for turning it around?

Psychologist Dr. Beverly Smallwood says yes. She brings four decades of experience working with unhealthy anger and other emotional problems in clinical, organizational, educational, and forensic settings. She's worked with thousands of individuals, couples, and families in her counseling office.

As an executive coach and seminar leader, she's helped organizational decision-makers deal with their own frustrations, address the undercurrents and explosions of anger in the workforce, and regain momentum after the challenges of burnout. Dr. Bev has interviewed hundreds of inmates in her prison work, listening to fascinating stories of the destructive path created by one angry choice at a time. Bev's the perfect expert to help your audience understand how and why an angry world seems to have gone crazy, while assuring them, they don't have to!

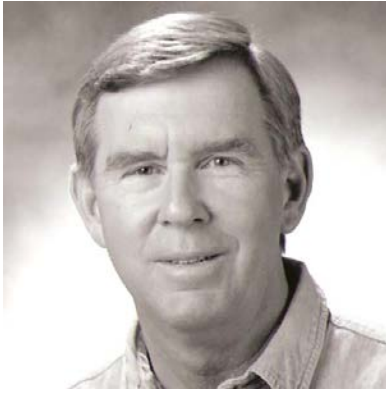

Dr. Bev's conversational and often playful style engages media audience members as they confront the surprising truths about anger and how to deal with it constructively. They will confront intriguing myths about anger, and the new information may significantly change their lives. Bev shares powerful and relatable examples that challenge audience members in more constructive directions. She talks about the release of forgiveness—what it is, what it's not, and how to do it. An interview with Dr. Beverly Smallwood equips the people journalists want to reach with practical tools and renewed hope for replacing silent or explosive rage with constructive communication, emotional peace, and a healthier body.

While her current focus is in the realm of anger because of her new book in preparation, Dr. Bev is a seasoned expert on the understanding of the psychological and emotional factors in play in any current news stories, family challenges, organizational problems, political battles, or acts of violence. Her range of experience from her unusually rich and lengthy career as a psychologist provides her with a personal library of knowledge and tools on all things psychological.

Dr. Smallwood is an experienced media resource, having been interviewed in such media outlets as MSNBC, CNN, FOX Business, New York Times, Chicago Tribune, USA Today, SELF Magazine, Cosmopolitan, and podcasts. Bev possesses both media skills and confidence as she works with journalists to achieve their goals.

Bev's the author of *This Wasn't Supposed to Happen to Me: 10 Make-or-Break Choices When Life Steals Your Dreams and Rocks Your World*. Her book in preparation is *All the Rage*.

To schedule an interview or media appearance, contact Dr. Beverly Smallwood at 601.264.0890 (O) or 601.408.0735 (M). Email her at Bev@DrBevSmallwood.com.

CANNABIS FOR SENIORS -- Seniors is the fastest growing demographic of pot users in the U.S. Cannabis, a once ill-perceived 'street drug', can be a valued asset to Senior wellness, especially when used in conjunction with other physician-recommended forms of therapy. In many cases using cannabis enables Seniors in reducing dependency on narcotic pain meds to avoid opioid addiction?which is becoming an epidemic. Cannabis is much more than a 'weed' Cannabinoids - chemicals in cannabis - interact synergistically with the endocannabinoid (EC) system in the body to help regulate pain, reduce inflammation, decrease stress, and speed recovery time, as well as elevate mood and optimism - all of which can increase Seniors' quality of life. Pot is becoming the 'pill alternative.'

Cynthia Shelby-Lane, M.D.

"Laughter is Good Medicine"

"Laughter is Good Medicine," says Cynthia Shelby-Lane, M.D., a doctor, speaker, comedienne and talk show host, who loves to laugh.

Do you know a doctor, who stops to save a life, then gets up on stage to make you laugh . . . at life . . . at yourself . . . and at herself?

Well, Shelby-Lane, M.D., is that kind of doctor. Known as "the ageless doctor," Shelby-Lane is a graduate of the University of Michigan Medical School. She trained as a surgeon at the University of Texas in Houston and committed herself to saving lives as an emergency physician in Detroit. She then re-invented herself and is now a board-certified, anti-aging specialist, keeping people young and healthy from the inside out.

Her practice, Elan Anti-Aging & Longevity Center, incorporates alternative and complementary therapies to promote optimal health and youthful aging. She also expanded her practice to the Internet as "THE Internet Doctor," answering questions for patients worldwide through a detailed Internet evaluation. The doctor is also a certified, professional health coach, helping people make difficult health and life choices and create changes for optimum health and wellness.

Seen on national radio and television, discussing issues such as anti-aging, heart disease, weight loss, stress reduction and cancer, Shelby-Lane speaks nationwide and is also a certified professional health coach. She tackles tough social issues through community work and took thousands of dollars worth of drugs and medical supplies to the victims of Katrina on a solo mission in 2005.

This graduate of Second City Comedy School in Chicago and student at UCLA Motion Picture

and Television Program produces TV shows and produces a "live" comedy show called, "Laugh Attack": Stopping the #1 Killer -- Heart Disease. Appearances on the Oprah Winfrey Show and featured articles in the *New York Times*, *Ebony* and *Jet* magazines and *Women's Health Style* magazine have given her expert status as the anti-aging and comedy doc.

She can cook, too. She's no Emeril or Rachel Ray, but Dr. Shelby-Lane is now the host of her new food show, "What's Cookin', Doc?"

Trading in her stethoscope for an apron, her food show features "food remedies and foods that heal." So, if "Laughter is Good Medicine," then "great food is the cure."

BETH ANN BLACKWOOD -- AUTHOR OF 'MOVING FORWARD LOOKING BACK'
Dallas, TX United States
<https://westwindbookmarketing.com/>

Moving Forward, Looking Back is essentially two stories in one: Beth Ann and Tom' meeting, marriage, and life together, and Beth Ann' experience during the first year after Tom' death. Each chapter begins in the present and then reveals some of the past, so that the full story of their lives together is formed by the end of the book. The reader sees them come together but also lose each other at the same time, creating a unique juxtaposition that doesn't come with a linear plot.

Massage is one of the oldest healing arts: Chinese records dating back 3,000 years document its use; the ancient Hindus, Persians and Egyptians applied forms of massage for many ailments; and Hippocrates wrote papers recommending the use of rubbing and friction for joint and circulatory problems. Today, the benefits of massage are varied and far-reaching. As an accepted part of many physical rehabilitation programs, massage therapy has also proven beneficial for many chronic conditions, including low back pain, arthritis, bursitis, fatigue, high blood pressure, diabetes, immunity suppression, infertility, smoking cessation, depression, and more. And, as many millions will attest, massage also helps relieve the stress and tension of everyday living that can lead to disease and illness.

SANJAY PRASAD MD-FACS, POST COVID PANDEMIC HEALTHCARE INFORMATION REFORMS
Washington, DC United States
<http://www.resettinghealthcare.com>

Post Covid Pandemic Healthcare information Reforms: What do you do when your doctor recommends surgery to you or to a loved one? Do you question their decision? The answer for the vast majority of Americans is no. Most of us have been trained to trust our physicians completely. After all, they're the experts. They should know best. In his new book, *Resetting Healthcare*, Dr. Sanjay Prasad examines the lack of transparency in surgical care and offers a solution to the problem: a new, innovative tool called SurgiQuality that connects patients with qualified surgeons, offering second and third opinions, and even suggesting more conservative, non-surgical solutions as appropriate. Dr. Prasad reveals that between 10-20 percent of all surgeries in the US are unnecessary, either because of misdiagnosis or because a more conservative therapy may have been just as or even more effective. The referral process is the heart of the problem

Using HBOT and a variety of safe and effective, alternative therapies, clinicians are actively treating and helping to heal underlying brain wounds that are ignored with current, passive 'watchful waiting' and drug-based Concussion protocols. And patients are able to quit taking most of their drugs. HBOT is proven to virtually eliminate thoughts of suicidal ideation.

McLean, VA United States

Daniel Moses is a Human Resources Consultant from Jacksonville, FL. In today's workplace, the issue of sexual harassment can come front and forward no matter how hard an employer tries to keep it in the background. Yet in all the exposure this issue has received in recent years, its definition can still be unclear. What exactly is sexual harassment? Using current law, regulation and relevant court precedent Dr. Daniel Moses does an excellent job defining what sexual harassment is, how it can be prevented, and written policies that when put in place, will protect an employer in the event sexual harassment takes place despite their best effort to prevent it. Dr. Moses' book can certainly serve as guide to those seeking practical solutions to this modern problem.

With his life out of control and his marriage in shambles, Sid turned to New Age Mysticism including embracing what Sid calls a personal spirit guide, whom later he viewed as a form of demonic oppression.
