

SAY YES TO HUDSON YARDS WEST

As residents, business owners, and community leaders, we are expressing our strong support for Hudson Yards West—the new development planned on top of the neglected Western Railyards.

It's easy to forget that just ten years ago, Hudson Yards did not exist. But five years after Hudson Yards opened on top of the Eastern Railyards, we know the incredible results of that investment in our community, which brought jobs, housing, and support for non-profit organizations and businesses, and greatly increased the safety of our neighborhood.

Today, we have a chance to continue to build on that progress by supporting Hudson Yards West, which will bring thousands of units of new housing, a massive green public park, major financial support for non-profit social service providers, and thousands of full-time jobs at a five-star resort and casino.

There is a lot of misinformation going around about this project. But here are the facts: This is a strong and realistic proposal. The developers, Related Companies, Oxford Properties and Wynn Resorts, have met with hundreds of community members and worked with us to update their plans based on our feedback. We encourage everyone to get the facts about Hudson Yards West and join the growing group of supporters who want to deliver big for our community.
