Directors may receive stock equivalent units for their annual equity grant and if they elect to defer their cash retainers into stock equivalent units. Stock equivalent units are only payable as a distribution of whole shares of our common stock upon a director's termination of service, disability or death. The stock equivalent units fluctuate in value as the value of our common stock fluctuates. As of December 31, 2023, the number of stock equivalent units owned by current non-employee directors were as follows:
