EER Schedule 9 - Lobbying

Docket No. E002/GR-24-320

November 1, 2024

Lobbying expenses are recorded to FERC account 426.4, Expenditures for Civic, Political, and Related Activities. Because this FERC account is treated as below-the-line expense, there are no lobbying expenses included in current rates, nor our rate request.

NSPM Company and Xcel Energy Service Company

Vol 3 IV. 3. Employee Compensation for Lobbying Activities

Required Information

Page 1 of 2

Employee Labor Costs for Lobbying Activities

In compliance with ALJ Finding 557 in Docket No. E002/GR-10-971, this schedule includes a report of the total compensation for employees engaged in lobbying, with an explanation of the costs included and excluded in the rate request.

This schedule shows the total salary budgeted for 2025 for employees engaged in lobbying and other civic and political type activities. This includes employees whose compensation is, in part, included in this rate request.

Employee labor costs are budgeted within a department by level of position based on the average salary for that position. The department labor costs are then allocated between lobbying and non- lobbying activities at an aggregated level and reported in total for each department. Labor costs are also not uniquely identified in the budget specific to just legislative lobbying. FERC account 426.4 includes lobbying and other civic and political type activities. Using this budgeting process, the approximate percentage of time spent by each of the employees performing lobbying and other civic and political type activities is shown in this schedule. This is the percentage that is budgeted below the line.

Using this budgeting process, this schedule also shows the amount included in above the line FERC account 920 for 2025.

Regulatory Assets, Liabilities, Deferred Debits, Deferred Credits

The attached schedules report the Company's Regulatory Assets, Regulatory Liabilities, Deferred Debits and Deferred Credits in FERC Accounts 182.2, 182.3, 254, 186, and 253, respectively, as of December 31, 2022, December 31, 2023, and June 30, 2024. Along with a description of each item, the schedules also provide references to the guidance the Company has relied on in the establishment of the deferred balances.

These schedules are provided in accordance with The Findings of Fact, Conclusions of Law and Order in Docket G002/GR-09-1153 (December 6, 2010), Ordering Paragraph 9, which states:

In all future rate case filings, Xcel shall disclose if the utility has elected a rate recovery method alternative to a Federal *[sic]* Accounting Standards Board pronouncement in reliance on Statement of Financial Accounting Standards No. 71.

Each of these Accounts results from the application of ASC 980 *Regulated Operations* (formerly FAS 71) for accounting purposes. These Accounts have been applied for financial and reporting purposes, as described in the attached schedules. The effect of the application of ASC 980 *Regulated Operations* to the books and records of the Company results in recognized expense in the income statement being equal to the amounts that are recovered for those specific items in rates for the same period. In general, to the extent that more expense is deferred in a period than is currently recognized, it reflects a situation in which less is being recovered in rates than what would have otherwise been recognized in expense without the application of ASC 980 *Regulated Operations*. The result is a regulatory asset which will be recovered from ratepayers in the future. Conversely, to the extent that less expense is deferred in a period than is currently recognized, it reflects a situation in which more is being recovered in rates. The result is a regulatory liability which will be returned to ratepayers in the future.

**NSP-Minnesota
Regulatory Assets Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Asset and Evidence of Regulatory Approval
RA-01	1408001, 1155001	North Dakota Environmental Cleanup	PU-15-514 PU-18-156	182.3	4,212,041	3,140,114	2,514,320	<p>The balance represents the North Dakota jurisdictional share of the Fargo Manufactured Gas Plant (MGP) remediation costs. Under the Tax Cuts and Jobs Act (TCJA) settlement agreement (Docket PU-18-156), NSPM will amortize \$1.25M deferred costs per year in exchange for retaining the TCJA savings beginning January 1, 2018. In fourth quarter 2019, the ND share of the gain on the Wescott asset sale was used to partially offset the remediation costs of the Fargo MGP site.</p> <p>In conjunction with the recently filed ND gas rate case, NSPM suspended the expensing of \$1.25 million per year as set forth in the Settlement Agreement in Case No. PU-18-156, effective November 1, 2021. Effective with final rate implementation on December 1, 2022 in the recent ND Gas Rate case, \$1.25 million MGP remediation amortization will be recovered via the Cost of Gas (COG) Rider until the remaining balance is fully amortized.</p>
RA-02	1405001	Net of Tax AFUDC in Plant Adjustments	N/A	182.3	112,466,576	127,073,599	131,577,137	This account represents the amount required by FAS 109/ASC 740 associated with the calculation of deferred income taxes and the amount of rate recovery of those taxes for Allowance for Funds Used During Construction (AFUDC) equity. The balance will increase when more AFUDC equity is incurred versus AFUDC equity reversing through book depreciation. The balance will decrease when the opposite occurs.
RA-03	1405006	Deferred Tax Collected in in Excess of Current Tax Accrual Levels-FAS 109 (ASC 740)	N/A	182.3	875,151	713,132	713,132	This account shall be used to record the FAS 109 required amount associated with the calculation of excess accumulated deferred income tax. Excess accumulated deferred income taxes are a result of the lowering of income tax rates over time and the IRS requirement to maintain historical tax rates on previously provided for deferred taxes. Reduction to the balance is a function of turn-around of these historical differences and will be reduced over time.
RA-04	1418006	South Dakota Ratemaking Differences	F-3382, F-3422	182.3	3,160,250	2,903,250	2,805,250	South Dakota allows additional AFUDC at a gross-of-tax level for short-term Construction Work in Progress (CWIP). The amount is added to Plant in Service to ensure that South Dakota ratepayers pay for the cost of capital related to charges on short-term CWIP and is amortized over the remaining lives of the plant. The amount of AFUDC on short-term CWIP is determined by multiplying the gross-of-tax AFUDC rate by the average short-term CWIP. These entries are recorded quarterly.
RA-05	1401001	Asset Retirement Recovery-Electric	RM07-7-000, Order #631, TAB 8	182.3	2,648,697,229	2,752,497,126	2,854,399,688	This account is used to recognize the differences between period costs associated with asset retirement obligations for financial reporting under ASC 360 and the cost recovery allowed by the various commissions. The balance consists of the accumulated accretion and depreciation calculated at the implementation of ASC 360 and the monthly accretion and depreciation from implementation to the current month.
RA-06	1401001	Asset Retirement Recovery-Gas	Docket # RM07-7-000, Order #631, TAB 8	182.3	16,378,189	19,336,305	20,597,331	
RA-07	1401001	Asset Retirement Recovery-Common	Docket # RM07-7-000, Order #631, TAB 8	182.3	404,942	430,659	651,488	
RA-08	1153006, 1406006	Sherco 3 Deferred Depreciation	12-961, 13-868, 15-826	182.3	6,037,556	5,534,427	5,282,862	In November 2011, Sherco Unit 3 suffered a catastrophic failure. Repairs and reassembly continued through Summer 2013. In the 2013 MN Electric rate case, the Minnesota Public Utilities Commission (MPUC) approved deferred accounting for Sherco Unit 3's 2013 depreciation expense. NSPM began amortizing the amounts deferred over 21 years beginning in 2014.

Regulatory Assets Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Asset and Evidence of Regulatory Approval
RA-09	1164001, 1420001	PI EPU Cancellation	13-868 PU-20-441 EL22-017	182.2	45,680,140	41,785,436	39,823,751	In 2009, the MPUC granted NSPM a Certificate of Need (CON) for an Extended Power Uprate (EPU) project at the Prairie Island (PI) nuclear generating plant. The total estimated cost of the EPU was \$294 million of which approximately \$78.9 million has been incurred, including AFUDC of approximately \$12.8 million. Subsequently, NSPM filed a resource plan update and a change of circumstances (COC) filing notifying the MPUC that there were changes in the size, timing and cost estimates for this project, revisions to economic and project design analysis and changes due to the estimated impact of revised scheduled outages. The information indicated further reduction to the estimated benefit of the uprate project. As a result, NSPM concluded that further investment in this project would not benefit customers. In February 2013, the MPUC issued an order terminating the CON for the PI EPU project. In its 2014 MN Electric rate case, NSPM received recovery of approximately \$59 million of deferred costs plus a debt-only return of 2.24 percent, to be recovered over 20.3 years. In November 2015, the FERC approved a request under FERC Docket ER15-698 to allocate approximately \$12 million of the deferred costs and a debt-only return to NSPW under the Interchange Agreement beginning on January 1, 2016 and continuing for 18.3 years. Per settlement reached in Docket PU-20-441, recovery of North Dakota's share of the PI EPU project costs was approved with amortization beginning on January 5, 2021. Per settlement reached in Docket EL 22-017, recovery of South Dakota's share of the PI EPU project costs was approved with amortization beginning on January 1, 2023.
RA-10	1311011, 1311016	Theoretical Depreciation Reserve Surplus	17-147	182.3	228,626,659	219,716,839	215,262,593	As a result of the order in the 2013 MN Electric rate case, NSPM was required to amortize a theoretical reserve surplus of approximately \$261M over 8 years and reduce customer bills accordingly. Since this is a deviation from the remaining life method of depreciation expense preferred by the FERC and is solely a state ratemaking tool, NSPM is required to record it as a regulatory asset. A three-year amortization of the remaining balance at December 31, 2013 (utilizing a 50/30/20 method) was approved as part of the 2014 MN Electric rate case. As of 12/31/2016, the theoretical reserve has been fully recognized. Per the MPUC's order in February 2018 in Docket 17-147, the balance will be amortized over the average remaining lives of the assets that set it up beginning in 2017 (generally 5-50 years).
RA-11	1413001	Unrealized Gains on Decommissioning Trust	RM07-7-000, Order #631, TAB 8	182.3	210,564,009	210,564,009	210,564,009	This account will be debited to recognize the deferred tax (FAS 109) associated with the change in the unrealized gain for the qualified decommissioning balance.
RA-12	1413001	Unrealized Gains on Decommissioning Trust - Contra	N/A	182.3	(210,564,009)	(210,564,009)	(210,564,009)	
RA-13	1154006, 1407001	Power Contract Valuation Adjustment	N/A	182.3	42,091,888	28,259,881	25,199,484	Balance represents the remaining balance of long-term purchased power contracts for which the election has been made for the normal purchase normal sale (NPNS) exception under DIG C20. Prior to 2006, these contracts were marked-to-market, but since making the NPNS election, have been amortized on a straight-line basis over the life of the contract.

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Asset and Evidence of Regulatory Approval
RA-20	1160076, 1415081	South Dakota Transmission Cost Recovery Rider	EL 23-026	182.3	0	479,531	385,578	The South Dakota Transmission Cost Recovery (TCR) rider allows the recovery of the costs associated with certain transmission projects.
RA-21	1160076, 1415081	North Dakota Renewable Energy Rider	PU-23-312	182.3	0	0	62,318	The North Dakota Renewable Energy Rider (RER) is designed to recover costs associated with eligible renewable energy projects. Eligible projects must be at least partially located in ND and must have been granted an Advanced Determination of Prudence (ADP).
RA-22	1160021, 1415031	South Dakota Infrastructure Rider	EL 23-025	182.3	(0)	628,756	396,815	The South Dakota Infrastructure rider allows the recovery of specifically evaluated and discrete costs for capital projects. The rider includes costs/credits related to terminated biomass contracts and PTCs.
RA-23	1160016, 1415026	Gas Utility Infrastructure Cost Rider	23-457	182.3	42,398,245	36,633,097	30,692,936	The Gas Utility Infrastructure Cost (GUIC) rider includes recovery on incremental O&M and capital-related revenue requirements for project costs incurred to comply with gas pipeline safety programs.
RA-24	1151031, 1402016	Benefit Cost Recovery Deficit (Pension Costs)	N/A	182.3	(57,284)	(8,336,724)	(12,424,606)	This account is used to track the costs associated with SFAS 158 (ASC 715-10-05) (Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans). The costs include qualified pension, nonqualified pension, and retiree medical expenses calculated in accordance with SFAS 87 (ASC 715-10-05) and SFAS 106 (ASC 715-10), which are recovered in rates in each of the applicable jurisdictions for these legal entities. There is no evidence that regulatory treatment would change and no evidence that there will be a SFAS 88 (ASC 715-30) curtailment/settlement. Therefore, under SFAS 71 (ASC 980-10-05) paragraph 9, it is probable that an asset exists related to these costs.
RA-25	1151001, 1151006, 1151011, 1151021, 1402001, 1402006, 1402011	Benefit Cost Recovery Deficit (FAS 158)	N/A	182.3	343,710,341	347,174,325	342,689,829

RA-26	1160006, 1415006	Costs to Relocate Facilities Underground	99-799, 04-1663	182.3	1,163,172	590,073	325,564	This account contains the unpaid balance due under the Minnesota retail electric jurisdiction City Requested Facility Surcharge (CRFS) program. Cities that request facilities in excess of NSP's standard installation (most often underground rather than overhead facilities) must pay the incremental cost of the special installation as a Contribution in Aid of Construction (CIAC). The CRFS program allows after-the-fact collection of the incremental costs directly from impacted customers. Recovery periods are generally 36 months or less.
RA-27	1160002, 1410001	Mankato/Cannon Falls Lease Normalization	N/A	182.3	26,649,217	20,761,607	19,275,047	This account is used to track the straight-lining of lease payments for power purchase agreements (PPAs) required under GAAP (FTB 85-3) versus what we actually pay in capacity payments. The Mankato Energy Center and Cannon Falls are currently included in the normalization.
RA-28	1159001, 1414001	Deferred Nuclear Outage Costs	07-1489, PU-07-774, EL07-035	182.3	42,488,351	62,183,208	55,259,274	Nuclear refueling outage costs are being deferred and amortized over the expected period between outages (generally 18-24 months).
RA-29	1163001, 1419001	Transmission Formula Rates	N/A	182.3	15,094,962	16,406,087	19,066,248	This account is used for transmission formula rate true-ups that are booked throughout the year and then amortized over the period the rates are in effect. Transmission formula rates for Att O, GG, and MM are based on budgeted information and at the end of a year; the estimated costs are compared to actual costs resulting in a true-up.
RA-30	1160091, 1415094	Minnesota Electric Vehicle Tariff	15-111, 17-817, 18-643, 19-186, 21-630	182.3	2,019,109	882,068	441,850	NSPM offers an electric vehicle service tariff to owners of electric vehicles. The tariff offers discounts for off-peak battery charging. In conjunction with the recent MN Electric rate case filed on October 25, 2021, three year amortization of \$2.6 million commenced January 1, 2022 (January 2022-December 2024).
RA-31	1415092	Load Flexibility Tracker	M-21-101 CI-17-401	182.3	(0)	50,013	(0)	The Commission authorized deferred accounting treatment for the Peak Flex Credit Rider Pilot program to begin in 2022. This is an incentive pilot program applicable for three years that allows non-residential customers who agree to participate to control demand to a predetermined level. Bill credits and customer services are allowed to be deferred.
RA-32	1415046, 1160046	Minnesota Deferred Gas Property Tax - 2022	21-678	182.3	0	24,841	24,841	As part of the 2021 MN gas rate case settlement, NSPM implemented a symmetrical true-up of actual property taxes. If the property tax expense is lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the property tax expense is higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds (e.g., processed annual sales refunds, capital refunds etc).

**NSP-Minnesota
Regulatory Assets Schedule**

RA-33	1415046, 1160046	Minnesota Deferred Gas Property Tax - 2023	21-678	182.3	0	2,071,777	1,183,910	If the property tax expense is lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the property tax expense is higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds (e.g., processed annual sales refunds, capital refunds etc.).
RA-34	1415046, 1160046	Minnesota Deferred Gas Property Tax - 2024	21-678	182.3	0	0	2,151,361	If the property tax expense is lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the property tax expense is higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds (e.g., processed annual sales refunds, capital refunds etc.).
RA-35	1415092	Minnesota LED Streetlighting Deferral	20-743, 21-630	182.3	223,347	120,020	60,010	Per the 2016 MN electric rate case settlement, NSPM removed from the rate case all revenue requirements related to capital additions for LED street lights, and deferred as a regulatory asset all such revenue requirements. No carrying cost will be accrued on the LED street lighting deferral. Finally, any LED street lighting revenues collected during the term of the settlement will be credited against the LED street lighting deferral. In conjunction with the recent MN Electric rate case filed on October 25, 2021, three year amortization of \$0.4 million commenced January 1, 2022 (January 2022-December 2024).
RA-36	1415092, 1160090	Minnesota Gas Decoupling - 2023	21-678	182.3	0	9,225,924	8,166,597	The Revenue Decoupling Mechanism (RDM) measures sales revenues against a baseline revenue per-customer by class, with over- or under- recoveries calculated and deferred each month. The annual result is credited or charged to customers through a \$ per therm factor applied to each individual customer's usage each month for twelve months as a separate line item on their bill.
RA-37	1160090	Minnesota Gas Decoupling - 2024	21-678	182.3	0	0	23,756,142	In conjunction with the recent MN Gas rate case filed on November 1, 2022, the RDM was effective upon implementation of final rates on August 1, 2023.
RA-38	1160090, 1415092	2021 Minnesota Sales True-up	21-630	182.3	53,453,436	(0)	(0)	The MN electric rate case settlement provides for a sales true-up mechanism whereby the actual sales for non-decoupled classes in MN (demand small commercial and industrial, large commercial and industrial, public street and highway lighting, other sales to public authority and interdepartmental) will be true-up to 2016 weather-normalized actual sales plus a growth rate specified for each year in the settlement. As of January 1, 2020, the sales true-up mechanism was expanded to include all customer classes (effectively replacing the revenue decoupling mechanism). The sales true-up for all customer classes was extended to 2021 as part of the 2021 Stay Out Docket. Pursuant to the MPUC's order, the surcharge recovery period was increased from 12 months to 21 months for the demand class. The 2021 sales true-up began being refunded/surcharged to customers in April 2022. Remaining portion was rolled into the 2023 Sales TU.

Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-01	2072001	Conservation & Energy Management Program Costs Minnesota Electric	23-145	254	(37,966,336)	(20,872,821)	(60,371,600)	Northern States Power Minnesota (NSPM) is required to spend a percentage of gross electric operating revenues on energy conservation programs that result in a net reduction of energy use. The expenditures to run the electric Conservation Improvement Programs (CIP) are deferred to this account. The expenditures are amortized monthly as recovery is made from customers. Balances in the regulatory asset account reflects the amount of CIP expenditures that have not yet been recovered from customers. Balances in the regulatory liability account reflects the amount of CIP expenditures that have been over-recovered from customers. Under the incentive mechanism, NSPM's performance incentive is based on a percent of net benefits (to the customer) achieved. The performance incentive is calculated quarterly based on updated information. The incentive amount is originally recorded to FERC 186. When the total incentive amount is approved by the commission, the balance will be trued-up and reclassified from FERC 186 to this account.
RL-02	2072001	Conservation & Energy Management Program Costs Minnesota Natural Gas	23-146	254	(3,645,231)	(5,586,755)	(6,751,270)	NSPM is required to spend a percentage of gross natural gas operating revenues on energy conservation programs that result in a net reduction of energy use. The expenditures to run the natural gas Conservation Improvement Programs (CIP) are deferred to this account. The expenditures are amortized monthly as recovery is made from customers. Balances in the regulatory asset account reflects the amount of CIP expenditures that have not yet been recovered from customers. Balances in the regulatory liability account reflects the amount of CIP expenditures that have been over-recovered from customers. Under the incentive mechanism, NSPM's performance incentive is based on a percent of net benefits (to the customer) achieved. The performance incentive is calculated quarterly based on updated information. The incentive amount is originally recorded to FERC 186. When the total incentive amount is approved by the commission, the balance will be trued-up and reclassified from FERC 186 to this account.
RL-03	2072001	Conservation & Energy Management Program Costs South Dakota Electric	EL 24-016	254	(24,974)	(55,627)	(65,725)	NSPM's Demand Side Management (DSM) program in South Dakota is similar to the DSM program in Minnesota. Conservation programs are approved by the South Dakota Public Utilities Commission (SDPUC). The SDPUC set program limits at 110% of the approved budget amount. NSPM is required to submit a filing annually starting May 1, 2013. The expenditures are deferred to this account and are recovered through an annual cost adjustment rider. The expenditures are expensed monthly as recovery is made from customers. The balance in the account reflects the CIP expenditures not recovered from customers.
RL-04	2339001, 2339006	ITC Gross Up to Pretax Rate Levels-FAS 109 (ASC 740)	N/A	254	(6,307,033)	(5,777,665)	(5,505,193)	This account is used to record the FAS 109 required amount associated with the deferred Investment Tax Credit (ITC) balance. Reduction of this balance is a function of the amortization of ITC and follows the reversal of those amounts over time.
RL-05	2332001, 2332006, 2332007	Deferred Tax Collected in in Excess of Current Tax Accrual Levels-FAS 109 (ASC 740)	N/A	254	(1,182,970,621)	(1,142,649,679)	(1,118,836,988)	This account shall be used to record the FAS 109 required amount associated with the calculation of excess accumulated deferred income tax. Excess accumulated deferred income taxes are a result of the lowering of income tax rates over time and the IRS requirement to maintain historical tax rates on previously provided for deferred taxes. Reduction to the balance is a function of turn-around of these historical differences and will be reduced over time.
RL-06	2339011	North Dakota ITC	N/A	254	(10,393,072)	(7,228,288)	(9,491,933)	This account is used to record the reserve for potential refunds to customers of a deferred tax asset related to North Dakota Wind Farm projects.

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-07	1401006	Unrealized Gains on Decommissioning Trust	RM07-7-000, Order #631, TAB 8	254	(654,184,034)	(834,530,557)	(924,878,706)	The purpose of this account is to net the nuclear decommissioning tax regulatory asset with the nuclear decommissioning unrealized gain/loss in order to properly present the Asset Retirement Obligation (ARO) asset on the balance sheet for GAAP purposes.
RL-08	2344006	Pre-ARO Decommissioning (Accumulated Depreciation-Pre ARO Nuclear)	N/A	254	(1,949,399,030)	(2,027,614,634)	(2,080,273,024)	This account was established to record the difference in period costs associated with decommissioning as recorded for rate-making purposes and as recorded for financial reporting under Statement of Financial Accounting Standard No. 143, "Accounting for Asset Retirement Obligations" (SFAS No. 143, ASC 410). The balance in the account consists of the regulatory approved nuclear decommissioning costs accumulated prior to the implementation of SFAS No. 143 and the ongoing monthly regulatory accrual.
RL-09	2082001	Department of Energy Settlement Payments	21-815	254	(6,599)	(12,273,507)	(3,063,356)	The balance in this account represents a settlement with the Department of Energy. The money is deposited in a special interest bearing account at Wells Fargo pending refund to customers.
RL-10	2341001	Nuclear Decommissioning-Adjust to Market Qualified	N/A	254	(501,730,122)	(523,422,423)	(523,422,423)	Record unrealized gains on investments in the external qualified funds held in trust with BNY Mellon Bank.
RL-11	2341001	Nuclear Decommissioning-Adjust to Market Qualified - Contra	N/A	254	501,730,122	523,422,423	523,422,423	
RL-12	2073001	Derivatives & Hedging - Retail Electric & Gas	N/A	254	(55,993,584)	(15,773,269)	(62,523,748)	Xcel Energy enters into derivative instruments to manage variability of future cash flows from changes in commodity prices in its electric and natural gas operations, which mitigates commodity price risk on behalf of electric and natural gas customers. Changes in fair value of derivative instruments are reflected as a regulatory asset or liability if there is a commission approved regulatory recovery mechanism in place. This balance represents the regulatory offset for commodity electric hedging derivatives that are in an asset position.
RL-13	2075006, 2342076 2342077	Deferred Electric Commodity Costs - MN 2023	N/A	254	0	(126,274,697)	(74,321,374)	Represents the over-collection of fuel costs allocated to the NSPM retail jurisdiction. When one of the retail jurisdictions is over collected, the amounts are recorded as a decrease to revenue and as a regulatory liability on the balance sheet.
RL-14	2075006, 2342076 2342077	Deferred Electric Commodity Costs - MN 2024	N/A	254	0	0	(68,702,122)	
RL-15	2075006, 2342076	Deferred Electric Commodity Costs - ND	N/A	254	(4,110,448)	(3,034,178)	(4,518,752)	
RL-16	2075006, 2342076	Deferred Electric Commodity Costs - SD	N/A	254	(8,126,367)	(4,964,519)	(4,804,317)	

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-17	2342071, 2080056	South Dakota Transmission Cost Recovery Rider	EL 23-026	254	(378,527)	0	0	The South Dakota Transmission Cost Recovery (TCR) rider allows the recovery of the costs associated with certain transmission projects.
RL-18	2342051, 2080041	Minnesota Renewable Energy Standard Rider	23-545	254	(0)	(1,382,901)	(12,970,786)	The RES rider is designed to recover the Minnesota jurisdictional share of eligible investments and expenses related to the acquisition or ownership of electric resources to meet the requirements of the Renewable Energy Standard statute.
RL-19	2342071, 2080056	Minnesota Transmission Cost Recovery Rider	23-467	254	(4,147,905)	(1,075,338)	(14,268,610)	The Minnesota Transmission Cost Recovery (TCR) rider allows the recovery of the costs associated with certain transmission projects.
RL-20	2080022	South Dakota Infrastructure Rider	EL 23-025	254	(2,162,111)	(0)	(0)	The South Dakota Infrastructure rider allows the recovery of specifically evaluated and discrete costs for capital projects. The rider includes costs/credits related to terminated biomass contracts and PTCs.
RL-21	2342066, 2080051	Minnesota Gas State Energy Policy Rider	20-323 21-151	254	(68,752)	0	0	The Gas State Energy Policy (SEP) rider is designed to recover costs associated with the State of Minnesota Reliability Administrator, the Sustainable Building Guidelines Program and cast iron pipe replacement. In the recent MN gas rate case, all projects previously included in this rider have been moved to base rates, therefore the rider rate has been set to zero. The remaining balance will be refunded with the interim rate refund in August 2023.
RL-22	2340001, 2078001	Electric Low Income Discount Program	04-1956, 13-868, 15-826, 17-629, G-999	254	(11,603,746)	(9,531,829)	(11,399,393)	NSPM offers low income discounts on electric utility service.
RL-23	2340001, 2078001	Gas Low Income Discount Program	06-1429, 09-1153, 16-493	254	(4,019,665)	(2,585,519)	(2,191,035)	NSPM offers low income discounts on gas utility service.
RL-24	2080012 2342036	Power Purchase Agreement	N/A	254	(532,056)	(532,056)	(532,056)	The balance represents amounts due to customers upon payment of the receivable related to the contract between NSPM and Lac Courte Oreilles Band of Lake Superior Chippewa Indians dated February 1, 1984 (30 year agreement). In December 2011, an agreement was reached with Lac Courte in Amendment #2 to the power sales contract for a 10-year repayment plan.
RL-25	2079001	North Dakota Asset and Non-Asset Based Margin Sharing	PU-10-657	254	(7,571,341)	(4,543,586)	(4,681,854)	The balance in this account represents asset based and non-asset based margin sharing in the State of North Dakota. Margins are shared through the FCA.

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-26	2079001	South Dakota Asset and Non-Asset Based Margin Sharing	EL11-019, EL12-046	254	(2,470,661)	(851,326)	(1,247,038)	The balance in this account represents asset based and non-asset based margin sharing in the State of South Dakota. Margins are shared through the FCA.
RL-27	2079001	South Dakota Production Tax Credit Sharing	EL11-019, EL12-046	254	(3,400,918)	(0)	(0)	The balance in this account represents federal production tax credits (PTC) associated with wind generation allocated to South Dakota. PTCs were credited to customers through the FCA through April 2023, and credited through the SD Infrastructure Rider beginning May 2023, as a result of the recent SD electric rate case.
RL-28	2081001	Minnesota Service Quality Program	19-261	254	(750,000)	(1,775,000)	(1,846,500)	The MPUC has established required service quality standards for various customer services. NSPM is required to compensate the customers impacted when these standards are not satisfied.
RL-29	2080061, 2080006	Windsorce Tracker	01-1479, 12-961, 10-971, 13-868	254	(3,643,080)	(5,844,623)	(5,590,062)	This account tracks the difference between expenses incurred and revenues received for the Windsorce program.
RL-30	2080061, 2080006	Renewable*Connect Flex	23-143	254	0	(451,846)	(570,475)	This account tracks the difference between expenses incurred and revenues received for the R*C Flex program which transitioned from windsorce in Q4 2023.
RL-31	2345001, 2083001	Transmission Formula Rates	N/A	254	(14,480,131)	(17,325,630)	(17,371,300)	Represents the amount that will be returned to customers in the true-up factor under transmission formula rates.
RL-32	2080001	Minnesota Net Operating Loss Tracker	21-630	254	0	(6,034,314)	(10,806,366)	The NOL Agreement is between NSPM and the DOC for the rate making treatment of net operating losses (NOL). Under the NOL agreement, NSPM tracks actual NOL generation and utilization compared to utilization assumed in base rates. If actual utilization is greater than assumed in base rates, the Company will return to customers the revenue requirement impact of the increased utilization. Increased utilization of the NOL deferred tax asset occurs when the Minnesota retail electric jurisdiction has higher positive taxable income than assumed in base rates. This agreement is a one way true-up mechanism. If NSPM incurs greater generation or lower utilization, the Company can not surcharge customers.
RL-33	2080056, 2342071	North Dakota Renewable Energy Rider (RER)	PU-23-312	254	(1,173,806)	(548,014)	0	The North Dakota Renewable Energy Rider (RER) is designed to recover costs associated with eligible renewable energy projects. Eligible projects must be at least partially located in ND and must have been granted an Advanced Determination of Prudence (ADP).
RL-34	2342051	North Dakota Renewable Energy Rider - PTC Levelization	PU-23-312	254	(18,513,156)	(27,375,115)	(33,059,393)	In February 2020, the NDPSR approved a Production Tax Credit (PTC) levelization mechanism; under this new mechanism, PTCs will be returned to customers in the RER over the 25-year life of a wind project instead of in the first 10 years when the credits are received. The balance in this account represents the difference between the ND jurisdictional allocation of PTCs generated and the PTCs that have been included in the RER.

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-35	2080012, 2342076	2022 Minnesota Electric Sales True-up	21-630	254	(21,505,674)	0	0	NSP-MN received approval to continue a sales true-up mechanism as part of its 2022 - 2024 multi-year rate case (Docket No. E002/GR-21-630), which was initially approved by the Commission in 2020 as part of the Company's True-up Petition. Under the mechanism, authorized base revenues in each year of the case are the baseline revenues from which to measure the sales true-up.
RL-36	2080012, 2342076	2023 Minnesota Electric Sales True-up	21-630	254	0	(30,891,232)	(1,835,478)	NSP-MN received approval to continue a sales true-up mechanism as part of its 2022 - 2024 multi-year rate case (Docket No. E002/GR-21-630), which was initially approved by the Commission in 2020 as part of the Company's True-up Petition. Under the mechanism, authorized base revenues in each year of the case are the baseline revenues from which to measure the sales true-up. The 2023 sales true-up liability is currently being refunded to customers over 12 month period June 2024 through May 2025.
RL-37	2080012, 2342076	2021 Minnesota Electric Deferred Property Tax	21-630	254	(11,350,128)	0	0	If the property tax expense is lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the property tax expense is higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds (e.g., processed annual sales refunds, capital refunds etc.).
RL-38	2080012, 2342076	2022 Minnesota Electric Deferred Property Tax	21-630	254	(13,956,266)	(11,398,313)	(0)	
RL-39	2080012, 2342076	2023 Minnesota Electric Deferred Property Tax	21-630	254	0	(15,085,743)	(21,152,331)	
RL-40	2080012, 2342076	2024 Minnesota Electric Deferred Property Tax	21-630	254	0	0	(5,313,917)	
RL-41	2079001	South Dakota Property Tax Collected in the Fuel Clause Adjustment	EL14-058	254	(261,949)	(1,378,659)	(856,613)	As part of the settlement agreement in NSPM's 2014 retail rate case in South Dakota, the language in the Fuel Clause Rider was modified to allow for the collection of ad valorem taxes as permitted by SDCL §49-34A-25. NSPM will annually calculate the difference between the amount of property taxes forecast for current calendar-year and the amount included in base rates, plus a true-up for prior year actual property tax recorded compared to that year's forecast, and include 1/12th of this difference with the monthly fuel clause calculations.
RL-42	2332008, 2080062	Nonplant Excess ADIT - Electric	N/A	254	(21,820,158)	(17,555,199)	(16,052,370)	The TCJA was passed in December 2017 lowering the federal tax rate from 35% to 21%. Accordingly, NSPM's deferred tax assets and deferred tax liabilities were restated to the new 21% rate. A portion of the total rate change will be returned through rates and is therefore on NSPM's books as a regulatory liability, including a gross-up.
RL-43	2332008, 2080062	Nonplant Excess ADIT - Gas	N/A	254	(1,366,649)	(1,145,118)	(1,066,990)	The TCJA was passed in December 2017 lowering the federal tax rate from 35% to 21%. Accordingly, NSPM's deferred tax assets and deferred tax liabilities were restated to the new 21% rate. A portion of the total rate change will be returned through rates and is therefore on NSPM's books as a regulatory liability, including a gross-up.

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-44	2342066	MN Credit Card Fee Tracker - Electric	21-630	254	0	0	(2,753,489)	Beginning in 2024, if credit card fees are lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the credit care fees are higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds.
RL-45	2342021, 2080023	MN Credit Card Fee Tracker - Gas	21-678	254	0	0	(705,034)	Beginning in 2024, if credit card fees are lower than the baseline amount in a given year, NSPM will propose a refund to take place the following year. If the credit care fees are higher than the baseline amount, NSPM will defer the difference as a regulatory asset and net against other future rate case related refunds.
RL-46	2080023, 2342021	Land Sales	N/A	254	0	0	(5,995,744)	Gains on Deferred Land Sales refunded back to customers outside of the FCA related to MN, ND, and SD.
RL-47	2080056	North Dakota Transmission Cost Recovery Rider	PU-23-315	254	(563,879)	(46,257)	(16,389)	The North Dakota TCR rider is intended to recover the North Dakota jurisdictional revenue requirements of electric transmission projects that support the growth of wind energy on the NSP system. Under-recovered balances are recorded as a regulatory asset and over-recovered balances are recorded as a regulatory liability.
RL-48	2080023 2342021	Inver Hills Gain Sharing	EL 22-017	254	(235,000)	0	0	Three storage tanks, related facilities and land at Inver Hills Plant were sold to Flint Hills. SD share of the gain was recorded in August 2022 and will be included in the interim rate refund recorded in 2023 as part of the SD rate case EL22-017. MN share of the gain was credited to customers in 2018 as the MPUC allowed NSPM to keep a portion of the gain and required the remainder of the gain to be shared with MN customers. ND share of gain on the sale of fuel storage tanks to Flint Hills was refunded to customers in 2019 as part of the multi-faceted customer refund.
RL-49	2074001, 2335001	North Dakota Electric Earnings Sharing	PU-18-200, PU-18-112, PU-18-118, PU-18-155	254	(13,707,480)	(14,541,425)	(14,541,425)	In August 2021, the ND Public Service Commission (NDPSC) approved our ND electric rate case Settlement. The Parties agreed to establish an earnings-sharing mechanism. The earnings-sharing mechanism will include a weather-normalized earnings threshold of 9.75 percent ROE in recognition of, among other things, the Jurisdictional Reporting Reform implemented by this Settlement. In the event the Company's annual weather-normalized earnings exceed 9.75 percent, the Company will refund to customers 100 percent of the weather-normalized revenue contributing to earnings in excess of 9.75 percent as calculated in the Company's jurisdictional annual reports filed with the Commission. This earnings-sharing mechanism will be in effect for all calendar years prior to the Company's next rate case test year, unless a future settlement or Commission Order determines otherwise.

**NSP-Minnesota
Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-50	2342077	Sherco 3 replacement costs	N/A	254	0	0	(11,027,633)	<p>In 2018 NSPM and SMMPA reached a settlement with GE related to the 2011 incident and NSPM proposed to refund the GE settlement back to customers through the FCA. The insurance providers continued their litigation against GE and the jury found NSPM 48% at fault. In January 2019 the DOC recommended that NSPM refund \$20M of previously recorded purchased power costs to its customers based on the jury's apportionment of fault. The DOC subsequently agreed with the OAG to withhold a decision pending the outcome of an appeal. In February 2020, the Court of Appeals denied AEGIS's appeal and reaffirmed the judgement in favor of GE. AEGIS further appealed to the Minnesota Supreme Court in April 2020 and their petition for further review was denied. The Department submitted Direct Testimony in the contested case in June 2023.</p> <p>ALJ report received April 24, 2024. The ALJ found that we failed to operate and maintain Sherco Unit 3 in a reasonable and prudent matter consistent with good utility practices. The ALJ found the energy replacement costs from November 2011 to October 2013 were not reasonably and prudently incurred and should be reimbursed to ratepayers in proportion to Xcel Energy's fault in the event. The ALJ found the negligence to be the same as the jury: GE was 52% at fault and Xcel Energy was at 48% fault.</p> <p>A reserve was recorded in 2024 for Sherco costs as a result of the ALJ report.</p>
RL-51	2080023, 2342021	Minnesota Incentive Compensation Refund	23-468	254	(3,309,150)	(1,694,041)	(3,203,075)	The MPUC has limited the recoverability of Annual Incentive Program (AIP) and requires a refund when the amount included in base rates exceeds the amount actually paid. The balance represents amounts to be returned to customers.
RL-52	2080012	Over recovered Purchased Gas Costs - ND	13-600	254	0	(2,541,181)	(448,720)	The account represents the cumulative over recovery of purchased gas costs from the customers for the current year. NSPM files the new purchase gas adjustment (PGA) recovery factor with the MPUC by September each year for the current deferral period, which runs from July of the previous year to June of the current year.
RL-53	2342076	MN Gas Rate Case Deferral	09-1153	254	(2,118,603)	(1,053,937)	(521,603)	<p>In the 2009 MN Gas rate case, NSPM was ordered to amortize rate case expenses over a four-year period and to defer amounts recovered for rate case expense after the four year amortization period to offset the revenue requirement in its next rate case. The balance in this account reflects the deferral of rate case expenses recovered in rates from January 2014 through December 2021 less a three-year amortization commencing January 1, 2022</p> <p>In the MN gas rate case filed November 1, 2021, NSPM proposed to incorporate the regulatory liability balance into a three-year amortization over the MYRP period. Amortization commenced January 1, 2022.</p>
RL-54	2342076	MN Gas Rate Case Deferral - 2021	21-678	254	(125,251)	0	0	Costs relate to 2021 Minnesota gas rate case filed November 1, 2021. NSPM proposed to incorporate the rate case cost balance into a three-year amortization period. Amortization commenced January 1, 2022.

Regulatory Liabilities Schedule**

ID	SAP	Account/Mechanism Description	Docket Number	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Regulatory Liability and Evidence of Regulatory Approval
RL-55	2080012	Northern Natural Gas (NNG) Refund	20-633 PU-21-087	254	0	(554,234)	(548,649)	Refund as a result of NNG's rate case filed last year, which went into effect May 1, 2023. NNG is refunding the difference in rates between those filed and those from the final case settlement.
RL-56	2080012	Residential Payment Plan Credit Program	20-760	254	(1,756,489)	0	0	In December 2020 during the MPUC deliberations for the MN electric stayout, NSPM committed to funding 100% (\$17.5M) of its proposed Residential Payment Plan Credit Program. Further, if any portion of the funds are not used to pay for the cost of the program, NSPM committed the remaining funds to be used to fund similar programs, at the Commission's direction. In their order points, the MPUC accepted our commitment. Written order approved in April 2021, with enrollment/refunds beginning in May 2021.
RL-57	2080061	Renewable*Connect Classic	19-196	254	(1,025,977)	(1,125,197)	(1,162,472)	The Renewable*Connect program is a renewable energy program that customers can elect to participate in. By participating in Renewable*Connect customers will receive a Renewable*Connect charge on their bill that replaces the fuel clause charge. The balance represents the difference between Renewable*Connect revenues and expenses.
RL-58	2080061	Renewable*Connect Government	19-186	254	(99,281)	(83,982)	(31,216)	The Renewable*Connect Government program is a renewable energy program created for the government agencies to enroll in. By participating in Renewable*Connect Government agencies will receive a Renewable*Connect charge on their bill that replaces the fuel clause charge. The balance represents the difference between Renewable*Connect Government revenues and expenses. The Government program for Renewable*Connect began in May 2017.
RL-59	2080012	2022 Capital True-up	21-630	254	0	(13,579,811)	(0)	The capital true up is a one way mechanism that requires customer refunds when capital-related revenue requirements are less than the amounts assumed in illustrative schedules approved in the rate case.
RL-60	2342076 2080012	2023 Capital True-up	21-630	254	0	(23,700,000)	(21,414,300)	The capital true up is a one way mechanism that requires customer refunds when capital-related revenue requirements are less than the amounts assumed in illustrative schedules approved in the rate case.
RL-61	2080012	Minnesota Winter Storm Uri Refund	N/A	254	0	(394,425)	(0)	Minnesota sales tax refund related to Winter Storm Uri which was returned to customers as a one time credit.
TOTAL REGULATORY LIABILITIES					(4,081,245,116)	(4,423,262,046)	(4,649,290,423)	

**NSP-Minnesota
Deferred Debits Schedule**

ID	SAP	Account/Mechanism Description	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Deferred Debit
DD-01	1403016, 1152016	DD-NSPMN Elect Incentive	186	21,329,837	22,952,517	26,111,330	This account contains earned but unapproved CIP incentives. The balance will be transferred to a regulatory asset once the amount has been approved by the Commission.
DD-02	1403016, 1152016	DD-NSPMN Gas Incentive	186	3,631,461	2,633,533	3,052,627	This account contains earned but unapproved CIP incentives. The balance will be transferred to a regulatory asset once the amount has been approved by the Commission.
DD-03	1473021	Long Term State Income Tax Receivable	186	218	818	103	This account is used to record NSPM's long-term state income taxes receivable resulting from known state audit adjustments.
DD-04	1404001, 1473091	Def. Tax Credit & Interest	186	3,284,817	52,416	(0)	This account is used to record NSPM's asset on interest related to prior year federal and state income tax refunds. These adjustments have not yet been approved by the Commission.
DD-05	1473101	Contracts Receivable	186	(0)	532,056	532,056	This account is used to record the receivable due to NSPM from the contract between NSP and Lac Courte Oreilles Band of Lake Superior Chippewa Indians dated February 1, 1984 (30 year agreement). In December 2011, an agreement was reached with Lac Courte in Amendment #2 to the power sales contract for a 10-year repayment plan. Contract terminated as of December 2021.
DD-06	1476406	Debt Issuance Expense	186	(0)	393	(0)	This account is used as a clearing account for debt issuance cost payments. The payments remain in this account until debt is issued and an invoice that identifies the debt issue associated with the cost is paid. Once identified, the costs are transferred to the appropriate account and amortized. Balances are reclassified to various debt issuances.
DD-07	1416001, 1161001	Rate Case Expenses - ND 2024 Gas	186	0	387,460	392,303	Costs relate to 2024 North Dakota gas rate case filed December 2023. NSPM proposed recovery of \$1.4M of rate case expense and a 3-year amortization period, commencing January 1, 2024.
DD-08	1416001, 1161001	Rate Case Expenses - MN 2024 Gas	186	0	726,175	1,027,500	Costs relate to 2024 North Dakota gas rate case filed December 2023. NSPM proposed recovery of \$3.1M of rate case expense and a 3-year amortization period, commencing January 1, 2024.
DD-09	1416001, 1161001	Rate Case Expenses - MN 2025 Electric	186	0	0	2,447	Costs related to future MN electric rate case that will be included in the 2025 TY rate case.
DD-10	1416001, 1161001	Rate Case Expenses - MN 2021 Electric	186	355,304	831,685	443,847	Costs relate to 2021 Minnesota electric rate case filed October 25, 2021. NSPM proposed to incorporate the rate case cost balance into a three-year amortization period. Amortization commenced January 1, 2022.
DD-11	1416001, 1161001	Rate Case Expenses - ND 2021 Gas	186	474,129	112,208	0	Costs relate to 2021 North Dakota gas rate case filed September 1, 2021. Amortization period is a 5-yr period beginning in Q4 2022.
DD-12	1416001, 1161002	Rate Case Expenses - ND 2020 Electric	186	382,303	22,899	(0)	Costs associated with the settlement of the 2013 North Dakota electric rate case (resource treatment framework and demand allocator study). Per settlement reached in Docket PU-20-441, the resource treatment framework costs were written off to expense, and the demand allocator study costs were approved for recovery with a 3.5 year amortization period.

**NSP-Minnesota
Deferred Debits Schedule**

ID	SAP	Account/Mechanism Description	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Deferred Debit
DD-13	1416001, 1161002	Rate Case Expenses - SD 2015 Electric	186	113,169	(0)	(0)	Amounts represent costs for the 2014 rate case in excess of the recoverable amount, which could be deferred and used towards future rate case filings per the terms of the Settlement Agreement. SD Rate Case EL22-017 didn't include recovery of the 2014 SD Rate Case Costs and therefore were written off in 2023.
DD-14	1416001, 1161002	Rate Case Expenses - SD 2022 Electric	186	508,080	476,974	357,730	Costs relate to 2022 South Dakota electric rate case filed June 30, 2022. Amortization commenced January 1, 2023 per the filed SD Rate Case EL22-017 for a period of 36 months.
DD-15	1473081	FIN 48-LT Interest Rec	186	217,379	38,280	10,042	Interest receivable on disputed income tax items. This account was set-up to comply with FIN 48.
DD-16	1473116	Notes Receivable - 3rd Party	186	2,348,554	1,937,877	(0)	Balance represents University of North Dakota (UND) non-refundable CIAC that is being financed by NSPM as part of the minimum burn agreement signed January 11, 2019. UND is paying the CIAC over a 10-year period, ending March 31, 2029.
DD-17	1242041	Prepaid - Facility Fees	186	1,913,320	1,512,472	1,305,546	Prepaid Facility Fees are costs associated with an outside Credit Facility which each operating company and the Holding Company have entered into an agreement with lenders to provide back-up financing should it become necessary. The upfront fees associated with a Credit Facility are paid at the time of the issuance and then amortized over the life of the Credit Facility.
DD-18	1476451	JOA & RP Share MTM	186	17,925,214	10,502,369	13,783,461	Those Companies with a forward MTM position in the Prop Book (NSP and PSCO) record gains or losses related to the change in value of those positions on their financial statements. Costs represent the rate payer sharing with North Dakota and South Dakota for all unrealized mark to market on derivative trading in NSPM's Prop Book.
DD-19	1473116	Taygete Loan Receivable	186	6,000,000	633,889	883,804	Xcel Energy entered into a prop agreement with Taygete to purchase energy from their solar facility. Xcel agreed to fund the solar facility up to a capped amount. Repayment from Taygete is not expected within the next year.
TOTAL DEFERRED DEBITS				58,483,785	43,354,020	47,902,794	

**NSP-Minnesota
Deferred Credits Schedule**

ID	SAP	Account/Mechanism Description	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Deferred Credit
DC-01	2421036	Non Qualified Pension	253	(1,786,097)	(1,793,999)	(1,675,834.64)	Non-qualified plan that provides benefits above and beyond those in other retirement plans.
DC-02	2421026	Deferred Compensation	253	(9,913,010)	(11,579,608)	(12,231,789)	The total company liability related to the regular nonqualified deferred compensation plan. The balance represents the net of payments, contributions and accrued interest.
DC-03	2421031	Deferred Compensation-Wealth Op	253	(3,648,935)	(3,365,127)	(3,238,330)	The total company liability related to the Wealth-Op nonqualified deferred compensation plan. The balance represents the net of payments, contributions and accrued interest.
DC-04	2421021	FAS 112 (ASC 712)	253	(9,776,224)	(7,902,582)	(8,167,951)	Postemployment benefits provided to former or inactive employees after employment but prior to retirement.
DC-05	2421051	NMC LTI Units/Exec PSP LT	253	(502,049)	(725,479)	(449,978)	Long-term incentive obligation for NMC employees. The liability transferred to NSPM during Q3 2008 in conjunction with the transfer of the nuclear plant operating licenses to NSPM.
DC-06	2344001, 1281016, 1282011, 1311006	Pre-Funded AFUDC	253	(223,702,857)	(225,227,586)	(232,499,780)	In certain situations, regulators may provide for the utility to collect AFUDC from customers while a capital project is under construction as opposed to the standard AFUDC calculation where it is assumed that customers will compensate the utility for the cost of construction financing when that cost becomes part of depreciation expense and included in revenue requirements. To comply with FERC's plant instructions and to maintain proper rate base and revenue requirements in all jurisdictions, the pre-funded AFUDC recovered from customers is accumulated in a deferred liability account. Once the asset is in-service, the pre-funded AFUDC is amortized over the life of the asset.
DC-07	2444001	Long Term Environmental Remediation	253	(178,922)	(3,922)	(3,922)	Long-term environmental remediation. The portion of the estimated cost to remediate sites where past activities of NSPM or other parties have caused environmental contamination, that is expected to be paid more than one year from the date of the financial statements.
DC-08	2444001	Long Term Air and Water Quality Environmental Fees	253	(2,231,658)	(1,970,410)	(677,720)	The balance in this account represents estimates of environmental fees for air quality and water quality. Amounts in the adjustments column represent monthly short term classification adjustments. 2024 Q2: Adjustments: \$199k Environmental fee true-up
DC-09	2441001, 2246032	Renewable Resource Fund Obligation	253	(42,591,359)	(42,227,102)	(39,974,790)	The balance in this account represents the amount remaining to be spent in the renewable development fund.
DC-10	2441161	FIN 48 LT Fed Income Tax Payable (ASC 740)	253	(9,182,024)	(10,814,935)	(11,496,524.00)	This account is used to track permanent FIN 48 tax adjustments on long-term federal income tax to enable compliance with a FERC letter to all utilities in docket AI07-2-000, dated May 25, 2007.
DC-11	2441191	FIN 48 LT State Income Tax MN Perm (ASC 740)	253	(1,982,324)	(2,291,123)	(2,468,081)	This account is used to track permanent FIN 48 tax adjustments on long-term Minnesota state income tax to enable compliance with a FERC letter to all utilities in docket AI07-2-000, dated May 25, 2007.
DC-12	2441191	FIN 48 LT State Income Tax ND Perm (ASC 740)	253	(922)	(922)	(922)	This account is used to track permanent FIN 48 tax adjustments on long-term North Dakota state income tax to enable compliance with a FERC letter to all utilities in docket AI07-2-000, dated May 25, 2007.

**NSP-Minnesota
Deferred Credits Schedule**

ID	SAP	Account/Mechanism Description	FERC Account	Balance as of 12/31/22	Balance as of 12/31/23	Balance as of 6/30/24	Description of Deferred Credit
DC-13	2441041	Deferred Revenue ITC Grant	253	(832,427)	(763,488)	(729,016)	This account is used to record Investment Tax Credits (ITCs) related to the American Reinvestment and Recovery Act of 2009. Because of the nature of the ITC, it was required that we follow Grant Accounting, which included setting up a deferred revenue account.
DC-14	2441131, 2441141	LT Federal Income Tax Payable	253	(1,224,464)	(730,614)	(730,620)	This account is used to record the long term federal income taxes payable resulting from known federal and state audit adjustments.
DC-15	2441211	Income Tax LT Interest Payable	253	(85,845)	(43,169)	(76,597)	This account is used to record the long-term state interest payable resulting from known federal and state audit adjustments.
DC-16	2441007	Legal & Regulatory Contingencies	253	(38,850)	(37,495)	(10,900)	Holds the receipts and expenses related to the Nuclear Waste Strategy Coalition. The Coalition was set up to lobby for the Nuclear Waste Storage Facility. Xcel Energy manages the fund.
DC-17	2246021, 2246011 ,	Customer Prepayments	253	(195,000)	(55,000)	(1,871,500)	The balance in this account represents various customer prepayments.
DC-18	2250001, 2441101	Deferred Revenue	253	(2,546,881)	(1,535,570)	(534,383)	This account is used to defer prepaid revenues that are amortized across the term of the negotiated contracts.
DC-19	2250006	Deferred Revenue - Facility Attachment Revenue	253	(0)	(0)	(1,479,827)	This account is used to record deferred revenue for facility attachments joint use contracts. The prepaid revenues are amortized over the period of the contracts as revenues are realized.
DC-20	2441036	Rail Car Lease Residual Value Deficit	253	(3,582,059)	(3,302,461)	(0)	Residual value guarantee on the NSPM rail car leases. The balance represents the accumulated liability on a rail car lease expiring in February 2024. The estimated amount of the residual payment is being accrued monthly over the life of the lease.
DC-21	2445001, 2441026	Deferred Rent	253	(6,315,806)	(5,557,909)	(5,178,961)	In June 2012, NSPM entered into an agreement to lease a new 9-story office building to be constructed at 401 Nicollet Mall in Minneapolis, Minnesota. The balance in these accounts represents the amortization of lease payments, tenant improvement allowance, non-capital tenant improvements, and Nicollet residences incentive.
DC-22	2245001 2441091	CapX2020 Promissory Notes	253	(70,868)	(1,192)	(0)	Under several of the CapX2020 Transmission Joint Venture project agreements, landowners were given the choice to elect to receive annual promissory notes for the land easements rather than receive an up-front payment. The promissory notes extend through September 2024. The balance in this account represents funds that NSPM has received from other CapX2020 Fargo joint venture owners for land easements that NSPM will make as CapX2020 Fargo project manager.
DC-23	2441091	Shared Network Upgrade	253	(936,746)	(879,686)	(851,155)	On January 7, 2019, MISO filed a Multi-Party Facilities Construction Agreement (MPFCA) entered into by NSP as the sole member of Dakota Range I LLC and Dakota Range II LLC and Otter Tail Power Company (OTP) for the purpose of facilitating the interconnection of Dakota Range I and II by constructing an interconnection facility and network upgrade. NSP was the interconnecting customer responsible for paying for the network upgrades. Merricourt Power Partners, a subsequent interconnecting customer, was determined by MISO to also benefit from the shared network upgrades and as such agreed to fund its proportionate share of the network upgrade costs. MISO assessed Merricourt a one-time charge in the amount of \$1,141,214; the funding (Schedule 26-B compensation) was distributed to NSP in August 2020 given that NSP was the interconnecting customer responsible for paying for the network upgrades for Dakota Range I & II. Under the MPFCA, as Transmission Owner, OTP elected to self-fund the project. Under self-funding, NSP is required to pay OTP over 240 consecutive monthly payments for the network upgrades. The 26-B compensation received from Merricourt was deferred and will be amortized consistent with NSP's payment obligation to OTP.
DC-24	2441121	Security Deposits	253	(1,500)	0	0	Security deposit related to a lease for the former Fargo MGP in Fargo. This is refundable upon termination of the lease agreement.
TOTAL DEFERRED CREDITS				(321,326,827)	(320,809,379)	(324,348,581)	

Docket No. E002/GR-24-320
Information Request No. DOC-128

Question:

Subject: Docket No. E002/GR-12-971 Order Point 47

In the initial filing of its next rate case, the Company shall expand upon the information filed under Minnesota Rules 7825.4000(b) and 7825.4100(B), including balance sheet and income statement reconciliations between its FERC Form 1 and its general ledger accounts, for each of the three most recent calendar years relative to the rate case test year. The schedules provided shall be produced in like manner as requested and illustrated in the Department's Information Request 128-Revised, marked in the record as Exhibit 163, DOC Attachment ACB-15. The Company shall also include explanations of the accounts that have large differences in amounts when compared between actuals and its test-year request (change of ± 10 percent or more).

Response:

Information responsive to Docket No. E002/GR-12-971 Order Point 47 is included in the following attachments:

Wholesale Customer Study

Purpose

With respect to the costs and revenues related to serving wholesale customers, the Company and the Department of Commerce agreed in Docket No. E002/GR-15-826 as follows:

The Company will provide as a compliance filing in future rate cases a wholesale customer study which shows all wholesale customers being served by the Company (including, but not limited to, full requirements, partial requirements, and market based wholesale customers), types of service being provided to each wholesale customer, costs and revenues associated with each wholesale customer, and a clear showing either that wholesale costs are allocated out of the retail rate case or that the revenues are included in the retail rate case, for all services provided to wholesale customers.¹

This study provides the required information. Information in this study will include the types of services being provided to wholesale customers and the treatment of revenues and margins associated with wholesale customer transactions. The study does not address wholesale transmission revenues, which revenues and associated costs are discussed in detail in the Direct Testimony of Company witness Mr. David Berklund.

All wholesale customers are provided services pursuant to bilateral agreements. These bilateral agreements define the scope of services for each wholesale customer, such as interfacing between the customer and the Midcontinent Independent System Operator, Inc. (MISO), including providing balancing services. Revenues from these customers are included in Other Revenues (e.g., for balancing services), and asset based margins for energy sales are passed through the fuel clause and removed from the cost of service. We also provide some non-asset based services to these customers (energy and capacity sales using financial instruments). Non-asset based margins (revenues less costs), as well as the fully-allocated costs of those activities, are removed from the cost of service.

Historic Wholesale Cost Assignment Method

¹ May 22, 2013 Issues List, Docket No. E002/GR-12-961.

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

Through the mid-1990s, the Company provided bundled cost-based “requirements” wholesale services to numerous municipal utilities connected to the NSP transmission system. Total municipal loads were in the hundreds of megawatts. Some wholesale municipal customers were full requirements customers and purchased all of their capacity and energy from the Company. Other municipal customers received “preference power” allocations from the Western Area Power Administration for a portion of their power supply needs and purchased partial requirements service from the Company for the remainder. However, during the 1970s through the 1990s, new municipal power agencies (such as Southern Minnesota Municipal Power Agency, Central Minnesota Municipal Power Agency, Minnesota Municipal Power Agency, etc.) were created to serve the power supply needs of these and other municipal customers, and most of the cost-based requirements wholesale sales agreements expired.

Previously, when municipal power loads were significant, costs were allocated to a wholesale municipal jurisdiction similar to the process used to allocate costs to the Company’s retail jurisdictions (Minnesota, North Dakota and South Dakota). Fixed production costs were allocated based on coincident peak demand, and variable production costs were allocated based on the energy allocator. This process also included the direct assignment of some costs to the Wholesale jurisdiction for services being directly provided to those customers (such as distribution transformation services).

In addition, the Company direct-assigned costs where possible or allocated customer accounting, customer information, and sales costs to the jurisdiction based on the number of customers. Similarly, administrative and general (A&G) costs were allocated or direct assigned as appropriate based on functional organization. Specifically, if A&G costs were incurred by the Energy Supply, Commercial Operations or Transmission organizations, they were allocated to retail and wholesale jurisdictions based on the jurisdictional demand allocator.

Changes in Wholesale Market and Test Year Wholesale Customers

As of 2012, the Company directly served only three traditional cost-based requirements wholesale customers: the City of Ada, City of Kasota, and Heartland Consumers Power District (HCPD) for the City of Lake Crystal. These customers comprised less than one-tenth of one percent of total Company demand and energy requirements. The rates and

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

services for sales to these customers were regulated by the Federal Energy Regulatory Commission (FERC) under tariffs or contracts on file with FERC. The contract rates were indexed to the Minnesota Commercial and Industrial (C&I) General Service Retail or Time of Day rates.

However, excess capacity and energy on a short to mid-term basis has increased competition and put downward pressure on pricing. Given the market dynamics, the Company's wholesale customers determined it was in their best interest to purchase energy on the open market rather than continuing service under cost based contracts. Where in the past, these customers mitigated energy cost volatility risk by entering into full requirements agreements with the Company, they now prefer to take on that risk themselves, given the current market environment. Therefore, the Company no longer has any cost-based requirements wholesale customers in the 2025 test year or the 2026 plan year.

Services Provided to Wholesale Customers in 2024

The Company provides services to wholesale customers through the execution of transactions that fall into three main categories: Asset Based Transactions, Non-Asset Based Transactions, and Other Wholesale Transactions.

Asset based transactions involve the sale of excess energy and capacity available from Company owned generation assets. Both costs and revenues associated with asset-based energy and capacity transactions are included in the unadjusted retail rate case cost of service, and all margins resulting from asset-based energy sales are excluded from the 2024 test year as they are returned to the ratepayers through the Fuel Clause Adjustment pursuant the Company's 2005 electric rate case (Docket No. E002/GR-05-1428).

Non-asset based transactions are those in which energy and/or capacity is purchased from a third party and resold for profit. Non-asset based transactions are undertaken as energy market opportunities to make revenue and are unrelated to meeting the needs of our retail customers. These transactions are included in the unadjusted retail rate case cost of service. However, the fully allocated costs of non-asset based trading activity are removed from the cost of service study, and all margins (revenues less costs) associated with these activities are also removed and retained by the Company.

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

The Other Wholesale Transaction category includes transactions related to MISO interfacing services, an energy services agreement with **[PROTECTED DATA BEGINS PROTECTED DATA ENDS]**, and the pass-through of MISO charges to the appropriate parties. The costs of these services are included in the cost of service, and all revenues are recorded as Other Revenue and are credited to retail customers through the cost of service.

Attachment A to this schedule provides a list of the types of services provided, and the ratemaking treatment for each type of service. Attachment B to this schedule provides a wholesale customer summary including all current agreements by customer and the expected revenues for the years 2024-2026.

Test Year Wholesale Transactions

During 2024, the Company expects to engage in wholesale transactions in the following categories: asset based energy sales, asset based capacity sales, non-asset based sales and other wholesale transactions including MISO interface and scheduling services, energy services agreements, and pass through charges. These transactions and their impact on the test year are discussed below.

Asset Based Energy Sales Transactions

Asset based energy sales margins are generated through the sale of available excess energy either directly into the Midcontinent Independent System Operator (MISO) market or to specific wholesale customers through bilateral agreements. Pricing of excess energy sales to MISO are based on prevailing locational marginal prices (LMP) that clear in the Day Ahead or Real Time markets. Pricing of transactions made directly by the Company to specific wholesale customers is based on the current marginal cost of generation at the time of the transaction, and the Company does not make a margin on these sales. Instead, the Company charges a scheduling fee for providing this service. Therefore, the margin on these sales is equal to the scheduling fee paid by the customer. Net margins earned on all asset based energy sales, including the scheduling fees, are returned to rate payers through the Fuel Clause Adjustment.

Table 1 below shows the asset based energy sales margins for 2023 and 2025. The revenues associated with these trades flow through to Other Electric Revenues in the income statement as shown in Workpapers Vol 4, Tab R4: "Other Revenues."

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

Table 1

Asset Based Energy Sales Transactions

State of Minnesota Jurisdiction	2023	2025 Budget
Revenues	\$244.6M	\$222.3M
COGS *	(\$232.4M)	(\$222.3M)
Margin	\$12.2M	\$0.0M

*COGS Information includes Revenue Sharing Thru the FCA

Asset Based Capacity Sales Transactions

Revenues for asset based capacity sales are included in the cost of service. These capacity sales revenues, labeled “OTHER MISC SERVICE REV)” and totaling \$685,302 are included in Other Electric Revenues in the income statement shown in Workpapers Vol 4, Tab R4.

Non-Asset Based Transactions

Non-asset based transactions are not included in the retail rate case: revenues and their associated fully allocated embedded costs are removed from the cost of service, and all margins are retained by the Company pursuant to the settlement in the Company’s 2011 rate case (Docket No. E002/GR-10-971) . These adjustments are discussed by Company witness Mr. Benjamin C. Halama in his Direct Testimony, Section V.A, Income Statement Revenues.

Other Wholesale Transactions

This category includes the three types of wholesale customer agreements not included in the asset based and non-asset based categories: MISO Interface/Scheduling, Energy Services Agreements, and Pass Through Charges (for a detailed explanation of each category, please see Attachment A to this schedule). In each case, revenues and costs associated with these transactions are included in the rate case, and no adjustment is made to the income statement or cost of service. As shown in Attachment B to this schedule, revenues from Other Wholesale Transactions are expected to be \$140,630 in 2025. These revenues flow into Other Operating Revenue shown in Workpapers Vol. 4, Tab R4, labeled “OTHER REVENUE .”

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

Conclusions

After reviewing the services anticipated to be provided to wholesale customers in 2024 and the transactions associated with those services, the Company concludes that the ratemaking treatment of these transactions is consistent with existing regulatory practices:

- Wholesale transaction costs and revenues are held above the line except with respect to non-asset based transactions
 - Non-asset based margins are adjusted out of the test year and retained by the Company
 - Non-asset based trading costs are adjusted out of the test year, reducing the revenue requirement
- Asset based energy sales margins are shared with rate payers through the Fuel Clause Adjustment
- Other Wholesale Transactions are included in the test year and offset revenue requirements

The Company does not recommend any changes to the treatment of wholesale customers or the revenues and costs associated with providing these services. In addition, the Company concludes that there are no adverse impacts on ratepayers as a result of providing these services or the ratemaking treatment of the associated transactions.

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

Deal Category	Deal Type	Scope of Services	Ratemaking Treatment
Energy	Asset Based Energy Sale	These Asset Based Energy deals are for the sale of energy generated by NSP's own assets. The quantity is scheduled by mutual agreement. NSP earns either a fixed monthly fee or per MWh scheduling fee over and above the cost of energy. The quantity is determined based upon forecasted volumes which may vary from actual usage.	Asset Based - Fuel Clause Adjustment 100% of the margins are returned to ratepayers through the Fuel Clause Adjustment
	Non-Asset Based Energy Sale	A Non-Asset Based Energy deal is for the sale of a specified quantity of MWh at a given price throughout the contract term. The energy sold to the counterparty is not generated by NSP's own assets. Instead NSP either (1) purchases a like product to back all or a part of the position and/or (2) purchases the requisite energy off the MISO market day ahead or in real time depending upon risk tolerance. Business Rules require that any purchase or sale of energy be offered to the NSP system first. If the system passes on the purchase or sale, it can then be assigned to the prop book.	Non-Asset Based - Margin Adjustment Margins are retained by the Company. Therefore, both the margins and the associated O&M costs are excluded from the test year
Capacity	Asset Based Capacity Sale	An Asset Based Capacity deal is for the sale of MISO Zonal Resource Credits ("ZRCs", which are fungible instruments that represent one MW of Unforced Capacity from a Planning Resource over a MISO planning year). For these deals, the capacity sold is provided by NSP's projected surplus assets.	Asset Based - No Adjustment Revenues are included as an offset to the revenue requirement. Associated fixed costs are included in the Cost of Service Study.
	Non-Asset Based Capacity Sale	A Non-Asset Based Capacity deal is for the sale of MISO ZRCs that are backed by the purchase of a like product. Business Rules require that any purchase or sale of capacity be offered to the NSP system first. If the system passes on the purchase or sale, it can then be assigned to the prop book	Non-Asset Based - Margin Adjustment Margins are retained by the Company. Therefore, both the margins and the costs are excluded from the test year
Other	MISO Interface/Scheduling	In a MISO Interface deal NSP provides services necessary for the counterparty to operate in the MISO market. Such services include Day Ahead load bids, FinScheds, Capacity reporting for MISO Module E, and others as specified in the individual contracts. Pricing is determined on a per MWh basis and may vary depending upon actual usage.	Other Wholesale Transactions - No Adjustment Revenues are included as an offset to the revenue requirement. Associated O&M costs are included in the Cost of Service Study.
	Energy Services Agreement	The Company currently has only one Energy Services Agreement in place. This deal governs the fee paid to NSP for the preservation of transmission reservations, which improves [PROTECTED DATA BEGINS PROTECTED DATA ENDS] ability to import and export power. The annual service fee payments are payable to NSP in advance of the service year.	Other Wholesale Transactions - No Adjustment Revenues are included as an offset to the revenue requirement. Associated O&M costs are included in the Cost of Service Study.
	MISO Pass Through	These pass-through arrangements specify that all MISO charges including transmission service, congestion AND loss, and ancillary services are a pass through. NSP earns no margin on such deals.	N/A There are no revenues or expenses requiring ratemaking treatment as these transactions are merely a pass through of MISO charges.

PUBLIC DOCUMENT
NOT-PUBLIC DATA HAS BEEN EXCISED

NSP Wholesale Customer Summary

as of July 23, 2024

Background information

Energy deals

Gen book sales A deal in the gen book energy column (i.e. NWEK partial requirements) is for the sale of energy that is generated by NSP's own assets. The quantity is scheduled by the counterparty for use as an intermediate/peaking resource. NSP earns either a fixed monthly fee or per MWh scheduling fee over and above the cost of energy. The margin for these deals is determined based upon forecasted volumes and may vary depending upon actual usage.

Prop book sales

A deal in the prop book energy column (i.e. Ada energy) is for the sale of a specified quantity of MWs at a given price throughout the contract term. The energy sold to the counterparty is not generated by NSP's own assets. Instead NSP either (1) purchases a like product to back the position (a bilateral deal) or (2) purchases the requisite energy off the MISO market (a market based deal).

Capacity deals

Gen book A deal in the gen book capacity column (i.e. Ada capacity) is for the sale of MISO Zonal Resource Credits ("ZRCs", which are fungible instruments that represent one MW of Unforced Capacity from a Planning Resource over a MISO planning year). For these deals, the capacity sold is provided by NSP's projected surplus assets.

Prop book

A deal in the prop book capacity deals column (i.e. Basin Electric capacity) is for the sale of MISO ZRCs that are backed by the purchase of a like product.

Other deals

MISO interface/scheduling

A deal in the MISO interface services & scheduling fees column (i.e. Ada energy) is for NSP providing services necessary for the counterparty to operate in the MISO market. Such services include Day Ahead load bids, FinScheds, Capacity reporting for MISO Module E, and others as specified in the individual contracts. Pricing is determined on a per MWh basis and may vary depending upon actual usage.

Energy services agreement

...PROTECTED DATA ENDS]

Pass through charges

A deal in the pass through charges column (i.e. Ada energy) is to specify that all MISO charges including transmission service, congestion & loss, and ancillary services are a pass through. NSP earns no margin on such deals.

- NSPM's proprietary book budget after joint operating agreement for 2025-2029 is targeted at \$2.1M, \$0.0M, \$0.6M, \$1.42M, and \$1.22M, respectively. This transaction is part of the proprietary budget target however we do not specifically identify the revenue and cost of the deals, therefore this information is not presented within this analysis. The margin of this transaction is not shared with Minnesota.
- All MISO charges including transmission service, congestion & loss, and ancillary services are passed through to the customer. These charges are variable on a monthly basis and are not forecasted. Due to the pass-through process, income is equal to cost and there is no incremental margin to NSP.
- These generation book partial requirements customers purchase energy at Time of Day rates and are charged either a fixed monthly scheduling fee or a fee based upon MWhs scheduled. Accordingly, the revenue and cost associated with the energy will fluctuate in accordance with market prices but will not impact the margin on the deals. The margin will always be the scheduling fee on these deals. Therefore, the revenue shown above is only the scheduling fee margin (which is shared 100% with ratepayers) and cost information is not presented.
- The cost for generation book capacity is embedded within the cost of fuel for NSP and is not specifically identified.
- The cost for MISO interface services is embedded within operating expense for NSP and is not specifically identified.
- The cost for the energy services agreement with Manitoba Hydro is embedded within operating expense for NSP and is not specifically identified.
- Both the Ada & Kasota Agreements were extended to 2027, which result in revenues for Energy Service Agreements. Gen Capacity revenues past 2021 will be priced on an annual basis.

*The contract with Makato II began in June 1, 2019

Description of Terms in Following Pages (as per DOC IR-041 in Docket No. E002/GR-12-961):

Demand Rate	Specifies the rate that is paid per unit of capacity that is purchased.
FOM Rate	Fixed Operations and Maintenance rate; defined in each contract.
Capacity Factor Adjustment	Lowers the capacity payment if the facility is producing below a capacity factor of 70% as
Fuel Inventory Rate	Defined in contracts and is fixed for the term of the agreement.
FR1	Fixed rate as defined by contract
FR2	Fixed rate as defined by contract
FR3	Fixed rate as defined by contract
AF1	Adjustment Factor-1 as defined by contract
BF1	Bonus Factor - 1 as defined by contract
CLF	Capacity Loss Factor as defined by contract
CTUP	Capacity True-Up Payment
CCTF	Committed Capacity True-up Factor based on the Tested Capacity Ratio (TCR)

Calculation Maps are included for each following page.

2025 Economic Development

Average Cost for Industrial/Commercial installation of 500KVA Txf.	\$	75,000
Annual Revenue per Customer	\$	185,245
Total Economic Development Expenses in Test Year	\$	292,834
Other Revenue Requirements Associated with Additional ED Customer	\$	24,627
Total Revenue Requirements	\$	<u>317,461</u>
Potential Customer Benefit in Year 1	\$	<u>(132,215)</u>
Potential Customer Benefit in Year 2	\$	<u>158,198</u>
Potential Cumulative Customer Benefit over Life of Investment	\$	1,684,796
