

Dear D,

**In order to secure conservative victories, we must all come together to help elect strong, conservative candidates.**

SarahPAC and our supporters have done just that and we're sharing this movie, ["Building America's Future"](#) with you that details the impact Governor Palin and SarahPAC have made across America, and none of this would have been possible without you.

Founded in 2009, SarahPAC supports real, conservative candidates who are leading the fight to restore America. With SarahPAC, Governor Palin helped jump start the momentum behind Joni Ernst's U.S. Senate campaign ultimately allowing Republicans to take back control of the Senate. [Ted Cruz himself said that he would have been elected to the U.S. Senate if it were not for Sarah Palin and her leadership with SarahPAC.](#)

We've gathered these stories—of races that have changed the political landscape and swung our country back into the red—into a new documentary: ["Building America's Future"](#).

Regards,

SarahPAC
