Dear Mr Khan,

Re: Request for Flight videos and information dated Feb. 5th, 2016

Enclosed is information, videos(in attached thumb drive), and dates of my flights in question. Also included are links to sites where I've posted pictures and videos and are listed below:

- * **YouT ube** - https://www.youtube.com/channel/UC_2vDSdWQlpXVVSNdmm127A?view_as=public
- * **SkyPixel** - <https://www.skypixel.com/user/mical-caterina/creations>
- * **CopterMobi** - <http://www.coptermobi.com/>

Please note on my website under the clients page, companies listed are **perspective** clients and that have shown interest in my aerial photography but none has ever been charged or have paid for any photos or videos. The only company listed that I supplied a picture to was the Star Tribune (the Cecil aerial picture) and that was given to them free. Feel free to contact any/or all of them. As I stated in Aug 2015 when investigated by local FAA office for flying over the Cecil memorial, I have never flown commercially or for monetary purposes ever! I've also included my response to the August 2015 FAA investigation. As I've told FAA officials, I'm going through all the steps of being able to fly commercially as a part time job. I have alot invested in my equipment, my training and my website in preparedness of getting an FAA 333 exemption.

Other Documentation:

FAA 333 exemption request - <http://www.regulations.gov/#!documentDetail;D=FAA-2015-5664-0001>

My registered "N" number - N1574M

My Hobbyist registration # - FA33MR9EMC

Feel free to contact me for any information

Sincerely yours,

Mical Caterina
