Mr. Dougherty,

In reference to the subject request, Hanscom can provide your office with the PWS on contract FA8721-14-C-0017 with the information pertaining to the work Mr. Furlong is associated with. Any other information in the contract would be extraneous information and non-pertinent to the information it appears your office would want. Will this satisfy the portion of your request requesting any email or other written communications between David Furlong and others?

Thank you.
