

How to use this site

Use it to find out more about chargeable services:

- Follow these links or click on the tabs at the top for: assents & consents, DAS, evidence, NNR, stewardship, external training, water companies, wildlife licencing, other areas
- Each page has links to case studies, information & guidance, and space for discussions.

Why are we charging?

- Income is an increasingly important contribution to our finances as an alternative to grant-in-aid.
- Charging helps us deliver better customer service and environmental outcomes, through early engagement in projects.
- Customer demand and feedback shows that our customers want and value our services. Income from charges enables us to invest in a greater capacity to deliver than would be possible from grant-in-aid alone.

What can we charge for now?

- Discretionary Advice Service (DAS) and Pre-Submission Screening Service (PSS) for advice related to planning, wildlife licensing and SSSI assent work
- All external training
- Other advisory services e.g. partnership agreements with water companies
- Products and services from our NNR estate

Why do we charge £110 per hour?

- see intranet article for explanation of our charge rate

Our progress so far

2015 / 2016 income £1.43 million (out of £1.5 million target)

We achieved £1.43 million towards our 15 / 16 target of £1.5 million (not including NNR income). This is more than double our income the year before.
