Sheriff Clarke Tells Judge Kremers to Stop Whining

Milwaukee, WI – Milwaukee County Sheriff David Clarke issued the following statement today in response to Circuit Court Judge Kremers calling Clarke a liar regarding inmates brought back into custody from GPS monitoring:

“Kremers should stop his whining about convicted criminals being brought back into custody to serve their sentence. They have already been shown leniency with watered down sentences for serious offenses. This soft-on-crime criminal advocate should display the same concern for law-abiding people and victims of crime that he does for violent criminals. Milwaukee County residents deserve judges that will protect law-abiding people, not career criminals.”
