BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Application of Mobilitie Management, LLC for Authorization to Obtain a Certificate of Public Convenience and Necessity as a Telephone Corporation to Operate as a Provider of Limited Facilities-Based and Resold Local Exchange Service Throughout the State of California Pursuant to the Provisions of Public Utilities Code Section 1001.

Application 16-04-025
(Filed April 29, 2016)

**DECISION GRANTING MOBILITIE MANAGEMENT, LLC
A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY
IN ORDER TO PROVIDE LIMITED-FACILITIES BASED
AND RESOLD LOCAL EXCHANGE SERVICE**

Summary

Pursuant to Public Utilities Code Section 1001, we grant Mobilitie Management, LLC a Certificate of Public Convenience and Necessity to provide limited facilities-based and resold competitive local exchange services subject to the terms and conditions set forth in the Ordering Paragraphs.

1. Background

On April 29, 2016, Mobilitie Management, LLC (Mobilitie), a Delaware corporation authorized to do business in California, filed an application for a Certificate of Public Convenience and Necessity (CPCN) to provide limited facilities-based and resold competitive local exchange services throughout the service territories of Pacific Bell Telephone Company d/b/a AT&T California (AT&T), Frontier California Inc. (Frontier California), Citizens

Telecommunications Company of California, Inc. d/b/a Frontier Communications of California (Frontier Communications), and Consolidated Communications of California Company (Consolidated, formerly SureWest Telephone). Mobilitie proposes to provide services including transport, backhaul, and broadband data and other voice and data services as well as other infrastructure used by carriers, emergency responders, public safety agencies, backhaul providers and other companies. Services will be provided with a combination of fixed lines and microwave links and routed over facilities owned by other providers.

Mobilitie's principal place of business is located at:

222 University Drive
Newport Beach, CA 92660

2. Jurisdiction

Public Utilities Code (Pub. Util. Code) § 216(a) defines the term "Public utility" to include a "telephone corporation," which in turn is defined in Pub. Util. Code § 234(a) as, "every corporation or person owning, controlling, operating, or managing any telephone line for compensation within this state."

Mobilitie proposes to provide limited facilities-based and resold competitive local exchange services. Mobilitie acknowledges by its application it is a Common Carrier as defined by Section 153 of the Federal Telecommunications Act of 1996 (Act) eligible to interconnect with the public switched telephone network pursuant to Sections 251 and 252 of the Act, and that if granted a CPCN, it will operate as a telephone corporation under Pub. Util. Code Section 234(a), and obey the Code and all Commission rules, decisions, and orders applicable to telephone corporations.

3. California Environmental Quality Act

The California Environmental Quality Act (CEQA)¹ requires the Commission to act as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since Mobilitie states that it does not intend to construct any facilities, other than equipment to be installed in existing buildings or structures, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Before it can construct facilities other than equipment to be installed in existing buildings or structures, Mobilitie must file for additional authority, and submit to any necessary CEQA review.

We have previously determined that the Public Convenience and Necessity requires that competition be allowed in the provision of competitive local exchange service, Rulemaking (R.) 95-04-043/Investigation (I.) 95-04-044. Granting this application will benefit the public interest by expanding the availability of technologically advanced telecommunications services within the state.

4. Financial Qualifications

To be granted a CPCN, an applicant for authority to provide limited facilities-based and resold local exchange services must demonstrate that it has a minimum of \$100,000 cash or cash equivalent to meet the firm's start-up

¹ Public Resources Code § 21000 *et seq.*

expenses.² An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by Local Exchange Carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.³ In the application and supplemental response, Mobilitie provided documentation that \$100,000 would be available to Mobilitie for one year following certification and that anticipated deposits to underlying carriers will not be required. Since Mobilitie has provided documentation that it possesses a minimum of \$100,000 that is reasonably liquid and available and additional deposits are not anticipated, it has demonstrated that it has sufficient funds to meet its start-up expenses and has fulfilled this requirement.

5. Technical Qualifications

To be granted a CPCN for authority to provide limited facilities-based and competitive local exchange service, an applicant must make a reasonable showing of managerial and technical expertise in telecommunications or a related business.⁴ Mobilitie supplied biographical information on its management in Exhibit 5 to its application and Exhibit 3 to its supplemental response in support of the application. The biographical information demonstrates that Mobilitie has sufficient expertise and training to operate as a telecommunications provider.

² The financial requirement for Competitive Local Exchange Carriers (CLEC) is contained in Decision (D.) 95-12-056, Appendix C. The financial requirement for Non-Dominant Interexchange Carriers (NDIEC) is contained in D.91-10-041.

³ The requirement for Competitive Local Carrier (CLC) applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying Local Exchange Carriers (LEC) and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

⁴ D.95-12-056 at Appendix C, Rule 4.A.

In its application, Mobilitie acknowledged the Public Utilities Commission of Nevada on October 9, 2013 issued it an order to show cause why its CPCN should not be revoked and fines imposed for failure to file timely reports. This matter was resolved without revocation of Mobilitie's CPCN by filing of past due reports and Mobilitie has taken steps to ensure future compliance. Mobilitie has retained a third-party compliance reporting service provider to ensure it meets compliance obligations.

In its application, Mobilitie further acknowledged the Public Service Commission of Wyoming in 2013 commenced a show cause proceeding and cancelled its registration authority to provide services in Wyoming. This matter was resolved by a reapplication for and grant of Mobilitie's authority and Mobilitie has taken steps to ensure future compliance. Mobilitie has retained a third-party compliance reporting service provider to ensure it meets compliance obligations.

In its application, Mobilitie further acknowledged the Oregon Public Utilities Commission in October 2013 commenced a proceeding regarding payment of Universal Service Fund fees. This matter was resolved by payment of fees and the docket was closed.

In its application, Mobilitie further acknowledged its application in Colorado to provide radio frequency transport services to enable other carriers to provide the direct transmission of voice communications and data services was dismissed. Colorado concluded the proposed services would not be local exchange services under Colorado law and would not qualify for or require a CPCN.

In its application, Mobilitie further acknowledged the Rhode Island Public Utilities Commission on October 25, 2013 issued an order recalling and

rescinding Mobilitie's registration for failure to comply with annual reporting and fee payment requirements. This matter was resolved by Mobilitie's filing and granting of a new application for authority. Mobilitie has retained a third-party compliance reporting service provider to ensure it meets compliance obligations.

In its supplemental response, Mobilitie verified that no one associated with or employed by Mobilitie as an affiliate, officer, director, partner, or owner of more than ten percent of Mobilitie was previously associated with a telecommunications carrier that filed for bankruptcy, was sanctioned by the Federal Communications Commission, or has been found either civilly or criminally liable by a court of appropriate jurisdiction for a violation of § 17000, et seq. of the California Business and Professions Code, or for any actions which involved misrepresentations to consumers, nor is currently under investigation for similar violations. For the above reasons, we find that Mobilitie is in compliance with the requirements of D.95-12-056.

6. Tariffs

Mobilitie has requested detariffed status and may be exempt from the requirement to file tariffs provided that Mobilitie complies with the consumer protection rules identified in D.98-08-031.

7. Expected Customer Base

Mobilitie provided its estimated customer base for the first and fifth years of operation in its application. Therefore, Mobilitie has complied with this requirement.

8. Safety Considerations

With the adoption of the Safety Policy Statement of the California Public Utilities Commission (the Commission) on July 10, 2014, the Commission has,

among other things, heightened its focus on the potential safety implications of every proceeding. We have considered the potential safety implications here. We feel satisfied that Mobilitie will meet the Commission's minimum safety goals and expectations of a limited facilities-based LEC because:

(1) Mobilitie has taken steps to meet the financial requirements as set forth in this decision for a limited facilities-based Competitive Local Exchange Carrier (CLEC), and (2) Mobilitie is a public utility that is required pursuant to Pub. Util. Code § 451 to "... furnish and maintain such adequate, efficient, just and reasonable service, instrumentalities, equipment, and facilities, including telephone facilities ... as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

9. Conclusion

We conclude that the application conforms to our rules for certification as a competitive local exchange carrier. Accordingly, we grant Mobilitie a CPCN to provide limited facilities-based and resold local exchange services, subject to compliance with the terms and conditions set forth in the Ordering Paragraphs.

The CPCN granted by this decision provides benefits to Mobilitie and corresponding obligations. Mobilitie receives authority to operate in the prescribed service territory; it can request interconnection with other telecommunications carriers in accordance with Section 251 of the Federal Communications Act (47 U.S.C. 251); and it receives access to public rights-of-way in California as set forth in D.98-10-058, subject to the CEQA requirements set forth in this decision. In return, Mobilitie is obligated to comply with all applicable Public Utilities Codes and Commission Rules, General Orders (GO), and decisions applicable to telecommunications carriers providing approved services. The applicable Codes, Rules, etc. include, but are not limited to,

consumer protection rules, tariffing, and reporting requirements. Moreover, Mobilitie is obligated to pay all Commission-prescribed user fees and public purpose program surcharges as set forth in the Appendix B of this decision, to comply with CEQA, and to adhere to Pub. Util. Code § 451 which states that every public utility "...shall furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities, including telephone facilities, as defined in Section 54.1 of the Civil Code, as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

11. Request to File Under Seal

Pursuant to Rule 11.4 of the Commission's Rules of Practice and Procedure, Mobilitie has filed a motion for leave to file Exhibit 4 to the application and additional financial statements in its supplemental filing, stating financial information, as confidential materials under seal. Mobilitie represents that the information is sensitive, and disclosure could place Mobilitie at an unfair business disadvantage. We have granted similar requests in the past and do so here.

12. Categorization and Need for Hearing

In Resolution ALJ 176-3377, dated May 12, 2016, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

13. Comments on Proposed Decision

This is an uncontested matter in which the decision grants the relief requested. Accordingly, pursuant to Section 311(g)(2) of the Public Utilities Code and Rule 14.6(c)(2), the otherwise applicable 30-day period for public review and comment is waived.

14. Assignment of Proceeding

Carla J. Peterman is the assigned Commissioner and Eric Wildgrube is the assigned Administrative Law Judge in this proceeding.

Findings of Fact

1. Notice of the application appeared on the Daily Calendar on May 3, 2016. No protests have been filed. A hearing is not required.
2. Mobilitie is a telephone corporation and a public utility as defined in Pub. Util. Code §§ 234(a) and 216(a).
3. Mobilitie has a minimum of \$100,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.
4. Mobilitie does not anticipate it will be required to pay deposits to other telecommunications carriers in order to provide the proposed service.
5. Mobilitie management possesses sufficient experience, knowledge, and technical expertise to provide competitive local exchange services to the public.
6. No one associated with or employed by Mobilitie as an affiliate, officer, director, partner, or owner of more than ten percent of Mobilitie was: previously associated with a telecommunications carrier that filed for bankruptcy; was sanctioned by the Federal Communications Commission; or was previously associated with any telecommunication carrier that has been found either civilly or criminally liable by a court of appropriate jurisdiction for a violation of § 17000, et seq. of the California Business and Professions Code, or for any

actions which involved misrepresentations to consumers, nor is currently under investigation for similar violations.

7. Mobilitie has previously failed to comply with a regulatory statute, rule, or order of a state regulatory agency. These matters have been resolved favorably and Mobilitie has retained a third-party compliance reporting service provider to ensure it meets compliance obligations in the future.

8. Mobilitie provided an estimate of its customer base for the first and fifth year of operation.

9. Pursuant to Rule 11.4, Mobilitie filed motions for leave to file confidential materials under seal, including Exhibit 4 to the application and additional financial statements in its supplemental filing.

Conclusions of Law

1. Mobilitie should be granted a CPCN to provide resold and limited facilities-based **competitive** local exchange telecommunications service in the service territories of AT&T, Frontier California, Frontier Communications, and Consolidated, subject to the terms and conditions set forth in the Ordering Paragraphs.

2. Mobilitie should be subject to the applicable Commission rules, decisions, GOs, and statutes that pertain to California public utilities, once granted a CPCN.

3. The motion to file under seal Exhibit 4 to the application and additional financial statements in its supplemental filing should be granted for three years.
