Dear Maryland ESGR committee member,

Please be aware that as an ESGR volunteer, any information you collect regarding other people, especially servicemembers, may be covered by the Federal Privacy Act. NCESGR is in the process of developing a policy governing the retention of data, such as names, addresses and phone numbers (and social security numbers, but you probably should not have those anyway). That policy will probably require State ESGR Committee volunteers to delete any Privacy Act protected data within 90 days after reporting it to NCESGR.

This policy is especially important for our ombudsmen. To ensure compliance with the Federal Privacy Act, all ombudsmen (and Committee members) are advised to immediately delete or destroy any old files you have retained but have already reported as closed to NCESGR.
