Re: Wisconsin Case Relating to FBI Microscopic Hair Analysis

Dear Ms. Dreyfus:

We were provided with a list of three cases in which FBI analysts issued reports regarding microscopic hair analysis and asked to provide additional information.

The first case actually appears to be an Illinois case, although no name was provided. The excel spreadsheet states that the prosecuting agency is McHenry County, Illinois, although Vilas County, Wisconsin, was listed as the contributing agency. Regardless, I have no information on which to ascertain the identity of this case.

The second case relates to a GLENN LALE, Walworth County Circuit Court Case Number 1985-CF-100291. Mr. Lale was convicted of endangering safety based on a guilty plea on September 15, 1985. He was sentenced to five years probation. Information sheet and case summary attached.

The third case relates to a PATRICK GREER. La Crosse County Circuit Court Case Number 1995-CF-129. Mr. Greer was convicted of armed robbery after a trial at which an FBI analyst testified. He was sentenced to prison and was released on parole. Information sheet, case summary, trial transcript, and appeal decision attached.

If you need any additional information please contact me.

Sincerely,

Roy R. Korte
Assistant Attorney General
Director, Criminal Litigation Unit
