# DAPL SITREP 011#

September 22, 2016

***INFORMATION CONTAINED IN THIS REPORT IS PROPRIETARY AND SENSITIVE.***

***DO NOT RELEASE OUTSIDE OF AUTHORIZED AND APPROVED RECIPIENTS.***

## The Highlights

## The Details

### 1. SITUATIONAL UPDATE

#### A. Significant Events – Last 24 Hours

- i. North Dakota (ND) Fusion Center
  - Conducted Archeological survey of top soiled area from just west of Hwy 1806 wet for approximately 2 miles (Operation Point Break 4)
    - 38 total SHPO, Staff Archeologist, LEO, Security, and DAPL personnel moved to, conducted survey and recovered without incident, accident or emergency.
  - Conducted over flight of same area with SHPO Archeologist (1), Staff Archeologist (1), and security cameraman
  - Williston area (spread 9) security remains in place - NSTR
  - Mandan/Bismarck area (spreads 6, 7) daily operations along the ROW supported.

#### SITUATION

Vehicles from the Standing Rock Spirit Camp continue to patrol HWY 1806 at high rates of speed, actively searching for DAPL employees. Beginning 19 January social media tapered off; currently information from within the camp remains limited. On 20 September 2016, at approximately 1500 hours, a demonstration was held at the Mandan City Hall. The protest was attended by approximately 150 personnel, to include members of the Standing Rock Tribe, Red Warrior Security Elements of the Pine Ridge Sioux, American Indian Movement (AIM), Polynesian protestors, and Palestinian protestors. The protest provided DAPL security and local law enforcement an opportunity to identify several individuals and vehicles being used by the protestors.

- 21 September – Scout vehicles for the Standing Rock Sioux Tribe are actively patrolling HWY 1806 at speeds in excess of 100 miles per hour.
- 21 September – Dissention among protestors within the Spirit Camp is increasing. Non-vetted sources state that protestors are not included in the planning of future protests and are often only notified hours before departure of location and time. Planning and execution of protests is primarily controlled by the Red Warrior Security Elements of the Pine Ridge Sioux and facilitated by [REDACTED].

INFORMATION CONTAINED IN THIS REPORT IS PROPRIETARY AND SENSITIVE  
DO NOT RELEASE OUTSIDE OF AUTHORIZED AND APPROVED RECIPIENTS

- 21 September – Red Warrior tribal security continued to conduct training events in preparation for security operations.
- 21 September – [REDACTED], and active AIM member, was extradited back to Nebraska to face federal charges. [REDACTED] was being held in the Morton County jail awaiting extradition, and was the subject of the protest at the Mandan City Hall on 20 September from 1500 to 1700 hours.
- 21 September – A handful of protestors interrupted the oil industry meeting in Minot, North Dakota. Police escorted protestors off site; no arrests were made.
- 20 September – Protestors departed Standing Rock Spirit Camp at approximately 1445 hours in a convoy of roughly 40 vehicles. An additional convoy of 20 vehicles departed from the Standing Rock Reservation nearly simultaneously.
- 20 September – The Red Warrior security apparatus controlled over 200 protestors as they moved from the Morton County Jail to the Mandan City Hall. The methods used, such as three tier security, use of concealed radios, and crowd control suggests military or law enforcement training. Currently there are several former military personnel residing within the camp. The extent of the Red Warrior training or who provides the expertise for the training events is currently unknown; however, a non-vetted source, with first-hand knowledge stated that [REDACTED] leads the security force training events from within the Red Warrior Camp.
- 20 September – [REDACTED] a Palestinian activist from Austin, TX, attended the protest in Mandan with three additional Palestinians from California who are allegedly associated with the Palestinian Youth Movement.

### Summary

- Social media continues to give little indication or warning of planned protests or locations. The protestor security is actively patrolling local highways and pipeline work areas in search of DAPL employees. Yesterday's protest in support of [REDACTED], the AIM member incarcerated in the Morton County Jail, was a controlled event. The security for the protestors was provided by the Red Warrior Tribal security forces, who demonstrated military and law enforcement tactics. As the protestor security gains additional knowledge of security tactics and operations, the ability to gather information about planned protests will diminish. Information control within the camp, despite causing dissention, makes any internal source information difficult to acquire. Furthermore, the presence of additional Palestinians in the camp, and the movement's involvement with Islamic individuals is a dynamic that requires further examination. Currently there is no information to

suggest terrorist type tactics or operations; however, with the current limitation on information flow out of the camp, it cannot be ruled out.

- ii. Iowa (IA) Fusion Center
  - Actions yesterday, by ██████ (Founder of BOLD IOWA) and his entourage are assessed to be reconnaissance for potential avenues of approach and target selection of DAPL work sites. ██████ posted photos, video and a write-up on his action on his site, ██████. He describes the actions as a new tactic he is calling "BAT"s or Bold Action Teams. The goal of the BATs is for small teams to stop work whenever and wherever they can. ██████ sees yesterday's events as a success and will likely continue this new tactic Webster, Boone and Story counties. Boone County Sheriff's office was notified about ██████'s post. Boone County Sheriff's office said that they would investigate, and if legal action was possible, they would take it because of the undue burden ██████ and his members have put on the sheriff's office due to the fact that they have to continue to respond to our calls of his harassing the customer's pipeline workers.
- iii. Illinois (IL) Fusion Center
  - NSTR
- iv. Houston DSOC
  - NSTR

## **Anticipated Significant Events—Next 24 Hours**

- i. North Dakota (ND) Fusion Center
  - Working on the administrative requirements regarding manning and accountability for both security and construction, expect to have that completed and fully operational by end of the week.
  - Preparations to begin construction operations in the "contested" area as soon as the TRO is lifted.
  - Planning for re-entry/construction
- ii. Iowa (IA) Fusion Center
  - Protesters staging 1.26 miles almost due N of the drill site. All points are marked on the TS platform. All three sites (to include the protest training site) start with "9-22-16".
  - CCI and Bold Alliance continue to post information pertaining to the protest on 22 SEP 2016 in Boone County (Midwest Mobilization). Weather may affect the outcome and participation metrics due to a 60 percent or higher chance of rainfall in Boone County. Expect to see more social media activity regarding the anticipated protest in the next 24 hours prior to the demonstration. Des Moines Catholic Workers is assessed to be a major nexus of support for Anti-DAPL operations. A number of Bold Iowa and CCI moved into camping/staging areas around Pilot Mound as of 1300 CST 21 September. Detective 1 has identified at least three of these individuals by

name. Meskwaki and Saskatoon tribal members have been reported at these camps, however this is not yet confirmed

iii. Illinois (IL) Fusion Center

- NSTR

iv. **Intelligence**

**Update**

1. Currently working development of IO campaign with Apex Intel team and [REDACTED].
2. Continue seeking out positive, pro-DAPL propaganda and media
3. IR 1 009 026 16 – SUMMARY [REDACTED] may be more inclined to encourage other protesters to commit sabotage than do it himself.
