# DAPL SITREP 163

Feb. 22, 2017

**John Porter**

Chief Security Officer

## The Highlights

**No wall was ever constructed around media hill. The protestors started burning buildings, Tepees and Yurts last evening and continued through the day, claiming it was ceremonial. Many have left the camp resulting in 100-150 protestors left to be evicted. We do anticipate BAT (Bold Action Teams) in Iowa to utilize the weekend to further their efforts.**

## The Details

#### ii. Intel Update

- a. The planned construction of a wall on Media Hill in Camp 2, supported by social media posts and live feeds, indicate there are protestors, ranging from approximately 100-150, planning to stay beyond the established 1400 hrs. deadline of eviction with the understanding they will be arrested.
