

**FURNITURE SPECIFICATIONS**  
**FBI Cyber Security**  
07/03/17

**Overview:**

The following document outlines the proposal requirements for the furniture items the government intends to purchase. All furniture quoted in response to this package must be under Federal Supply Service contract and must be appropriate for commercial use. The products for this project are broken down into 6 product categories for ease of bidding;

- Open Office Workstations
- Private Office
- Seating
- Printer Stations
- Miscellaneous Items

Vendors must quote on all product categories and be able to provide every item in that category.

**Bidder Instructions**

- Review this package in detail. Determine if your product meets the requirements before expending time preparing a quote package. Contact the Contracting Officer if you have questions or are unsure that you can meet the requirements.
- Any proposed products that do not meet the salient characteristics must be identified – use the Specifications Response Checklist Excel spreadsheet for this purpose. Failure to do so will cause elimination during the bid review process.
- Conserve paper when possible – electronic submissions are preferred wherever applicable.

**Bid Response Requirements**

- Furniture installation plan/layout of full furniture package (may not re-use GSA's generic furniture CAD blocks)
- Specifications Response Checklist – each line item checked with an “X” in the YES/NO columns
- Product overview color brochures and finish cards (electronic preferred)
- Product warranty information
- Manufacturer's environmental policy/goals
- Products are Greenguard Certified (include copy of Greenguard Certificate)
