Dear Mr. Boyd:

It has come to my attention that you and/or persons acting on your behalf may have inaccurately represented the involvement of the Government of Saskatchewan with regard to an irrigation-related investment opportunity that you were recently promoting in China, and that similar inaccurate representations may have appeared on some websites promoting your presentation in China.

Based on conversations that you have had with my senior staff, I understand that your response to this matter is as follows:

- that any inaccurate representations were made by individuals acting on your behalf and were unintentional, and that you took steps to correct them during your presentation by indicating that you are a former Minister of the Economy and that you were not representing the Government of Saskatchewan;
- that you will be attempting to contact everyone who attended your presentation in China to further clarify that the Government of Saskatchewan is not involved in this venture and that you are making efforts to ensure that any inaccurate representations are removed from any websites on which they appear; and,
- that no investments have been made in this venture as a result of your presentation or since.

As an MLA, it is extremely important that you be more vigilant in ensuring that the Government of Saskatchewan is never inaccurately represented. Please ensure that any future representations made by you or on your behalf do not inaccurately represent the Government of Saskatchewan in any manner.

Sincerely,

Brad Wall  
Premier
