Subject: Question about Toxic Taters letter to McDonald's CEO  
To: [Press@us.mcd.com](mailto:Press@us.mcd.com)

Hello,

My name is Hannah and I am with The Progressive Magazine. I am currently writing a story about McDonald's pesticide use on their potatoes. I learned that Toxic Taters and other organizations sent a letter to the McDonald's CEO asking that the company cut their pesticide use on their potatoes and want a response by September 15th. I was wondering if McDonald's is planning on responding to this letter by that date, so I can include that in my story. Please let me know!

Best,  
Hannah Johnson
