**Re: Expedited Freedom of Information Act Request for Information Regarding the
Judge Rotenberg Educational Center, Inc./Electrical Stimulation Devices**

Dear Sir or Madam:

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C.A. § 552, and the implementing regulations under 21 C.F.R. Part 20, I hereby request a copy of all agency records, including written communications between the Food and Drug Administration and third parties and any records in the possession of the Food and Drug Administration, including internal agency documentation, related to or referring to the Judge Rotenberg Educational Center, Inc. ("JRC"), aversive therapy, aversive conditioning devices, or electrical stimulation devices ("ESD"s). This request includes, but is not limited to, e-mail, memoranda, correspondence, meeting minutes, notes, and all other forms of communication sent or received or drafted from 1994 to the date of this request.

Agency records responsive to this request may include, but are not limited to, all communications, documents and other information concerning, constituting, relating to describing, evidencing or referring to (hereinafter, collectively referred to as "concerning") the following matters:

This request does not include a request for agency records that are publicly available in docket number FDA-2014-N-0238 or docket number FDA-2016-N-1111.

Under FOIA, agencies must expedite processing whenever it is demonstrated that there is a "compelling need," which includes circumstances where failure to obtain the records on an expedited basis "could reasonably be expected to pose an imminent threat to the life or physical safety of an individual" or at the agency's discretion. 5 U.S.C.A. § 552(a)(6)(E)(v)(I); *Id.* at § 552(a)(6)(E)(i)(II) (Westlaw through P.L. 114-143); 21 C.F.R. § 20.44(a)(1). I am requesting that this FOIA request be handled on an expedited basis. The following information is in support of my request for expedited processing and I certify that it is true and correct to the best of my knowledge and belief. My child, D.P., is a patient at JRC and undergoing treatment with an ESD device.

In light of the proposed ban on these types of devices, obtaining the requested information as soon as possible is crucial to understanding whether we will need to explore other treatment options for him in light of the agency's concerns regarding the safety and efficacy of this treatment as well as in the event that FDA does decide to ban the device and ESD devices are no longer an available treatment option. My child demonstrates severe self-injurious behaviors (e.g., shoving his hand down his throat to scrape his throat and bring up blood, banging his head with such force that it has permanently damaged his ear, gouging his rectum, destroying his gums with his fingernails) which place him at severe risk for his physical safety should these behaviors not be adequately controlled. Obtaining all information regarding his ongoing therapy and the facility at which he is being treated is crucial to maintain his physical safety.

I request that all agency records and correspondence be sent to my attorney, Max D. Stern, Esq., whose contact information is as follows: Todd & Weld, LLP, One Federal Street, Boston, MA 02110, (617) 388-1151. I agree to pay all reasonable processing and photocopying fees associated with this request up to \$1,000.00. If you reach costs and fees of \$1,000.00, please contact Mr. Stern for authorization of further charges.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the requested information. If a portion of a record is exempt from disclosure, please release the remaining portion(s) of the record in accordance with 5 U.S.C.A. § 552(b).

We look forward to receiving notice of your determination whether expedited processing will be provided within the next 10 days, as required by 5 U.S.C.A. § 552(a)(6)(E)(ii)(I). We also look forward to receiving processed records in a timely manner.

If possible, I request that we receive records as they become available instead of receiving a single response once all records asked for have been identified.

Please notify us of all appeal procedures available under law.

If you have any additional questions while processing this request, please contact Mr. Stern.

Sincerely yours,

Paul Peterson/da1
