ACTION REQUIRED: For Your Information**REFERENCE:** HD4A-19129, 1 June 1962

1. Project LIFEAT has been renewed for the period of 1 July 1962 through 30 June 1963 in the amount of \$99,000.00.
2. Please note that this means a cut of \$3,193.00 from the Station's original request for \$102,193.00 to \$99,000.00. WHD was allocated \$99,000.00 for this Project for FY 63.
3. This reduction was made by reducing "Miscellaneous Op Expenses" from \$4,000.00 to \$807.00.
4. KUTURE and KUDESX Staffs concurred in recommending renewal. KUDESX reiterated that the facilities of this Project could and should be used for the coverage of known or highly suspected agents of the [redacted] and [redacted]. KUDESX notes that some twenty of these agents have been documented in detailed target studies which were forwarded to the Station.

1. The LIFEAT Project was renewed on 8 September 1961.

2. LIFEAT Project was approved for \$98,973. Please note that this means a cut of \$12,700 from the Station's original request for \$111,673. The cut at Headquarters was made for several reasons: 1) to fall within the approved programed figure of \$99,000; 2) during FY 1961 only approximately \$81,000 was obligated and since no expansion was planned, an increase of almost \$30,000 could not be justified; 3) to keep the approving authority within KUDOVE.

The cuts were made in the following places:

	<u>Station request</u>	<u>Approved</u>
Equipment:		
Local purchase	\$ 2,500	\$1,800
New equipment	4,500	2,500
Other Ops expenses	15,000	5,000

3. KUTUBE and KUDSK Staffs concurred in recommending renewal. KUTUBE/D remarked that the project included coverage of highly selective KUTUBE/D interests

SUBJECT: Request for Approval of Project LIFEAT

1. It is requested that the LIFEAT Project be renewed for the period 1 July 1961 through 30 June 1962 for a total of \$98,974. This project has been programmed for \$99,000 and funds are available in WH Division for FY 1962. During the last fiscal year approximately \$81,000 was obligated.

2. No training programs for any LIFEAT personnel are anticipated for the renewal period.

3. Any number of emergency conditions could be listed which might affect the smooth running of this operation. Among them would

Government. Emergency recontact instructions have not been established for the agents of this project since it seems likely that the operation would cease in case of such conditions and the agents would be of no further value.

4. This project was the source of 128 intelligence reports during the past year, 85 of which were disseminated. The remainder were used for Headquarters background only since the information was either partially previously reported, overt, or of no interest to customer agencies. The following evaluations were received:

[REDACTED] State Department said this report was of moderate importance and that the information was new and useful.

[REDACTED] State Department said that this report was of moderate importance and that the information was new and useful.

[REDACTED] State Department said that this report was of moderate importance and useful as new information. USIA commented that the same report was of major importance.

[REDACTED] OSI reported that this dissemination was of little importance and that the information was already sufficiently known. ORR said that it was of moderate importance and more details were required.

<p>1. The LIFEAT Project was approved on 26 August 1960 for a total of \$98,901. Headquarters reduced the original request from the field to bring the total Project budget more in line with the programmed figure of \$90,000 and the actual obligations of the previous year, which were only \$73,884. The following changes were made on the field's request:</p> <table border="1"> <thead> <tr> <th></th> <th>Field Request</th> <th>Approved</th> </tr> </thead> <tbody> <tr> <td>Salaries: Ralph B. Staff comments on the Project renewal request were:</p> <p>a) KUTUBE/OPS said that the Station is to be commended on its handling of the requested Hloc coverage by LIENVOY while maintaining LIFEAT capability and limiting coverage to those lines most profitable. KUTUBE noted the increased emphasis on exploitation of operational information. In order to continue this aspect of the operation, the Station is faced with the difficult problem of selectivity in targeting and processing take from these two large projects. Every possible effort should be made to increase the efficiency of processing to maintain LIFEAT at its present high level. In KUTUBE/OPS's opinion, LIFEAT personnel and capability must be carefully maintained in face of the easier but less secure LIENVOY.</p> <p>b) KUDESK stated that this unilateral asset should be continued despite the fact that we are running a similar operation with the local government. It is hoped that the Station will soon be able to use this asset in the investigation of individuals known to be in clandestine contact with the RIS, for the purpose of determining whether or not they may be recruited.</p> <p>c) KUTUBE/D notes that the project has been of high value.</p> <p>3. 1. It is requested that the LIFPAT Project be renewed for the period 1 July 1960 through 30 June 1961 for a total of \$98,901.00. Last fiscal year the project was approved for \$123,830 of which \$73,884 was obligated. The approved programmed figure was \$90,000 for Fiscal Year 1961. The extra \$ 9,000 required would come from the following programmed projects:

LINFOR - \$2,000

LINFOR - \$1,000

LINFOR - \$6,000

2. Subsequent to the preparation by the Station of the attached Project review and renewal request for LIFPAT, the following situation

3. The Station does not anticipate any problems connected with the exploitation of leads since LINFOR has evinced no interest in this matter. In view of the lack of language capabilities by the [Redacted] and our ability to control what is passed (ostensibly from Headquarters), the Station sees no problems arising from the present arrangement.

4. The Station does not intend to cut down on independent LIFEAT operations since there are plenty of targets to keep both LIFEMOY and LIFEAT occupied.

5. The LIFEAT Project was the source of 99 positive intelligence reports, 72 of which were disseminated. Those not disseminated were considered by Headquarters to be of value for operational background or were outdated. AR made the following evaluations of LIFEAT reports:

[redacted] of value, probably true, and of importance to receive further reports.

[redacted] of value, probably true, and of importance to receive further reports.

[redacted] of little importance.

[redacted] of average value, useful as new information.

The Department of State made the following evaluations of LIFEAT reports: [redacted] of value, possibly true, and of importance to receive further reports.

[redacted] of slight value.

[redacted] of average value, useful in confirming other reports.

6. The Station used LIFEAT information in the preparation of memoranda directed to the Embassy and FBI representatives in [redacted] in reply to local requests for information. During the period July 1959 through May 1960, 151 memoranda were furnished the Embassy and 69 memoranda were furnished the FBI based on LIFEAT information.

7. WH Division feels that the positive and CK information received from LIFEAT is invaluable. Most of the information is not available from other Station assets. Reports on travel and the identification of target personalities often serve to confirm information previously received. LIFEAT assets also have been used effectively to check on recently-terminated agents to ascertain that the termination was secure. LIFEAT also has been used to check on reports by double agents that they have contacted or been contacted by their respective Soviet or Satellite contacts.

8. Information received from LIFEAT is passed to WH/4 and any operations undertaken on the basis of such information are closely coordinated with that Branch.

9. Information received from the LIPAS, LIVERI, and LIMERICK phases is supplied the EE and SR Case Officers at the Station for exploitation of leads and extracting of pertinent background information. At Headquarters there is close coordination between EE, SR and WH on the dissemination of positive reports and the operational exploitation of CE/CI leads. C/EE/C stated on 18 July 1960 that the [redacted] desk fully endorses the renewal of the LIPAT Project and that they have found the information obtained from this project to be especially useful in following the movements of persons of interest and the activity and identification of target personnel. Please see attached memoranda from EE/P and SR which express their support of this project renewal.

MEMORANDUM FOR: Chief, WH

SUBJECT : Renewal of WH Division FI/CI Projects over \$100,000

1. There is set forth below a list of WH Division FI/CI Projects, with an authorization of over \$100,000, which expire as of 30 June 1960:

<u>Project</u>	<u>Authorization</u>
LIFEAT	\$123,830

2. Possibly renewal actions are already in course of preparation for the above projects. If not, however, it is strongly urged that appropriate project action be submitted as soon as possible, and in any event not later than 15 July, so that these renewals can be submitted to DDCI for approval in timely fashion.

3. The same request applies to any other WH Division FI/CI projects, currently authorized for amounts under \$100,000, if renewal will request authorization in excess of that figure.
