Case No. 16-cv-02276-JST

**PLAINTIFFS' OPPOSITION TO
DEFENDANT'S ADMINISTRATIVE
MOTION FOR LEAVE TO FILE UNDER
SEAL JOINT DISCOVERY LETTER BRIEF**

Date: N/A
Time: N/A
Courtroom: A – 15th Floor

1 In its Administrative Motion For Leave to File Under Seal Joint Discovery Letter Brief,
 2 ECF No. 172, filed Wednesday, November 8, 2017 (“PwC Mot.”), PricewaterhouseCoopers LLP
 3 (“PwC”) fails to show good cause to seal the estimated number of potential class members
 4 (individuals over 40 years old who applied to the relevant positions and were not successful) from
 5 the parties’ Joint Discovery Letter Brief.¹ This single number (the “Applicant Figure”) is the sole
 6 focus of PwC’s motion. See Declaration of Jennifer Farmer, ECF No. 172-1 (“Farmer Decl.”)
 7 ¶ 3.

8 **I. ARGUMENT**

9 **A. PwC Has Not Satisfied Its Burden To Show Compelling Reasons To Seal the**
 10 **Applicant Figure By Showing Specific Prejudice Or Harm.**

11 PwC has the burden to show the “specific prejudice or harm [that] will result” from
 12 disclosure of this information. *Foltz v. State Farm Mut. Auto. Ins. Co.*, 331 F.3d 1122, 1130 (9th
 13 Cir. 2003). Courts interpret this standard bearing in mind the “strong presumption in favor of
 14 access” that applies to all civil discovery documents. *Kamakana v. City & Cnty. of Honolulu*, 447
 15 F.3d 1172, 1178 (9th Cir. 2006). Sealing would only be appropriate if there are “specific factual
 16 findings that outweigh the general history of access and the public policies favoring disclosure,
 17 such as the public interest in understanding the judicial process.” *Id.* at 1178-79. So, while
 18 revelation of many different types of facts about a party (especially a defendant) “might harm a
 19 litigant’s competitive standing,” *Bohannon v. Facebook, Inc.*, 12-cv-1894, 2014 WL 5598222
 20 (N.D. Cal. Nov. 3, 2014), the vast majority of such facts (e.g., evidence of discriminatory intent,
 21 evidence of the way in which a defendant discriminated, or details about a defendant’s hiring
 22 process) are still appropriately part of the public record. A party seeking to seal information must
 23 show more.

24
 25
 26 ¹ While a party must typically show “compelling reasons” to seal judicial records, see *Ctr. for*
 27 *Auto Safety v. Chrysler Grp., LLC*, 809 F.3d 1092, 1102 (9th Cir. 2016), a “good cause” standard
 28 *Id.* at 1097. Here, the size of the collective (like similar non-individualized, anonymous statistical
 data that will be submitted to the Court in upcoming briefing) is central to the issues in the case.

1 However, PwC's argument and evidence do not meet this burden to justify concealing this
2 information from public view. PwC's only argument is that the information is *inaccurate*, PwC
3 Mot. at 1 ("PwC disputes Plaintiffs' estimate, which is misleading given neither a class nor a
4 collective has been certified"), and the supporting declaration simply asserts that the document it
5 derives from was marked highly confidential. Farmer Decl." ¶ 3.² PwC's assertion does not
6 point to a specific harm. In fact, it is not even logical – Plaintiffs' estimate is of a "potential class
7 members," explicitly acknowledging that the collective has not been certified, as it is merely a
8 potentiality. ECF. No. 171 at 5.

9 PwC cannot meet its burden because there is no harm to overcome the strong presumption
10 in favor of access. The Applicant Figure is no trade secret, and has no capacity to meaningfully
11 harm PwC's business interests. It simply provides a rough sense of the scope of the case – the
12 size of the proposed ADEA collective. It is relatively meaningless to anyone other than the
13 parties to this case. In the absence of other data points, it provides no meaningful information
14 about PwC's hiring process. Because the proposed ADEA collective covers several years of
15 applications but only covers individuals over 40 years old, the Applicant Figure does not even
16 allow someone to calculate the total number of PwC applicants in any given year. In fact, the
17 public docket already reflects (a) an estimate of the total number of applicants across the relevant
18 time period (140,000, per ECF No. 150 at 2:16-17), and (b) the time period for the proposed
19 collective (46 months).³ From (a) and (b), one can already calculate the approximate average
20 number of applicants per year to the relevant positions. The Applicant Figure likewise does not
21 disclose how many people PwC ultimately hired (since it is a total number of unsuccessful
22 applicants).

23
24
25 _____
26 ² The underlying document (containing data about individual applications to the covered job
positions), has never been filed or sealed in this litigation (or, to Plaintiffs' knowledge, in any
other litigation).

27 ³ This figure is calculated as follows: the beginning of the ADEA liability period is October 18,
28 2013, ECF No. 42 at ¶ 51 (First Amended Complaint), and the date on which PwC made the
140,000-applicant estimate was August 8, 2017, ECF No. 150 at 2:16-17.

1 **B. Heath v. Google Is Distinguishable.**

2 The fact that the Applicant Figure discloses no useful information about PwC's hiring
3 process distinguishes PwC's request from *Heath v. Google Inc.*, 215 F. Supp. 3d 844, 853 (N.D.
4 Cal. 2016). Although the size of the ADEA collective in *Heath* was redacted, the order sealing
5 the information applied to entire documents that "disclose[d] confidential information about
6 Google's hiring process," see Ex. A (*Heath v. Google*, N.D. Cal. No. 15 Civ. 1824, ECF No. 105
7 (Aug. 17, 2016)), and that is the information that was discussed in the *Heath* motion for
8 conditional certification. See Ex. B (*Heath*, ECF No. 75) at 3, 6, 8, 15-16.

9 **C. Information Like This Is Commonly Public.**

10 Preserving public access to information about the size of the collective is in keeping with
11 the "strong presumption" in favor of access to judicial documents. *Foltz*, 331 F.3d at 1048. It is
12 also consistent with how courts have historically treated such facts in class and collective actions,
13 where they are treated more as background facts about the litigation than as proprietary trade
14 secrets. See, e.g., *Patterson v. W. Dev. Labs. Div. of Aeronutronic Ford Corp.*, No. 74 2177,
15 1976 WL 13321, at *2 (N.D. Cal. Sept. 14, 1976) (in race discrimination class action, noting that
16 5,000 applicants applied "in person" while 8,000 additional applicants applied "by mail"); *Houser*
17 *v. Pritzker*, 28 F. Supp. 3d 222, 229 (S.D.N.Y. 2014) (certifying class of 854,000 applicants
18 alleging race discrimination, from total of 3.8 million applicants); *Williams v. Boeing Co.*, 225
19 F.R.D. 626, 629 (W.D. Wash. 2005) (certifying class of 15,000 to 22,000 employees alleging race
20 discrimination); *Sondel v. NW Airlines, Inc.*, No. 92 Civ. 381, 1993 WL 559031, at *6 (D. Minn.
21 Sept. 30, 1993) (certifying class of 350 female flight attendants alleging discrimination, out of a
22 total of 802 female flight attendants); *Sandoval v. Saticoy Lemon Ass'n*, No. 88 Civ. 2257, 1990
23 WL 484150, at *1 (C.D. Cal. Apr. 27, 1990) (certifying class of 105 applicants and deterred
24 applicants alleging sex discrimination).

25 **D. Sealing Drives Up Litigation Costs, Undermining Enforcement of Civil Rights**
26 **Statutes.**

27 Sealing imposes significant burdens on the parties. It triggers the administrative motion
28 process, which drives up the cost of litigation and drains Court resources. Each administrative

1 motion filing (including the meet and confer process beforehand, the redaction process, the filing
2 itself) imposes several thousand dollars of Plaintiffs' attorney and staff time. Driving up the cost
3 of litigation chills individuals from invoking the protections of civil rights and other remedial
4 statutes, undermining Congress's goals of eliminating discrimination against and exploitation of
5 workers.

6 **E. Sealing Disproportionately Harms Individual Civil Rights Plaintiffs.**

7 Sealing also exacerbates the information asymmetry between plaintiffs and defendants.
8 Defendants facing repeat litigation for similar or overlapping claims are free to use their own
9 information again and again, even if it has been sealed in a prior action. Individual plaintiffs in
10 different actions cannot gain access to sealed information from other actions. Thus, each instance
11 of sealing of information regarding defendants' conduct in civil rights litigation like this action
12 degrades individual plaintiffs' chances of obtaining much needed discovery and, ultimately,
13 remedies.

14 **II. CONCLUSION**

15 The number of potential plaintiffs in this case is not privileged, protectable as a trade
16 secret, or otherwise entitled to legal protection. PwC has failed to satisfy the operative
17 compelling reasons standard (or even the good cause standard) by failing to make any factual
18 showing or argument justifying departure from core principles of access to information in judicial
19 proceedings. In view of the powerful public interest in resolution of disputes in open court,
20 Plaintiffs respectfully request that the Court deny PwC's motion to seal.

**UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA
SAN JOSE DIVISION**

ROBERT HEATH, et al.,
Plaintiffs,
v.
GOOGLE INC.,
Defendant.

Case No. [15-cv-01824-BLF](#)

**ORDER REGARDING SEALING
MOTIONS PERTAINING TO MOTION
FOR CONDITIONAL CERTIFICATION
BRIEFING**

[Re: ECF 74, 94, 102]

Before the Court are the parties’ administrative motions to file under seal portions of their briefing and exhibits in connection with the pending motion for conditional certification. ECF 74, 94, 102. For the reasons stated below, the motions are GRANTED IN PART and DENIED IN PART.

I. LEGAL STANDARD

“Historically, courts have recognized a ‘general right to inspect and copy public records and documents, including judicial records and documents.’” *Kamakana v. City and Cnty. of Honolulu*, 447 F.3d 1172, 1178 (9th Cir. 2006) (quoting *Nixon v. Warner Commc ’ns, Inc.*, 435 U.S. 589, 597 & n.7 (1978)). Consequently, access to motions and their attachments that are “more than tangentially related to the merits of a case” may be sealed only upon a showing of “compelling reasons” for sealing. *Ctr. for Auto Safety v. Chrysler Grp., LLC*, 809 F.3d 1092, 1101–02 (9th Cir. 2016). Filings that are only tangentially related to the merits may be sealed upon a lesser showing of “good cause.” *Id.* at 1097.

In addition, sealing motions filed in this district must be “narrowly tailored to seek sealing only of sealable material.” Civil L.R. 79-5(b). A party moving to seal a document in whole or in part must file a declaration establishing that the identified material is “sealable.” Civ. L.R. 79-

5(d)(1)(A). “Reference to a stipulation or protective order that allows a party to designate certain documents as confidential is not sufficient to establish that a document, or portions thereof, are sealable.” *Id.*

II. DISCUSSION

The Court has reviewed the parties’ sealing motions and respective declarations in support thereof. The Court finds the parties have articulated compelling reasons to seal certain portions of most of the submitted documents. The proposed redactions are also narrowly tailored. The Court’s rulings on the sealing request are set forth in the tables below:

A. ECF 74

Identification of Documents to be Sealed	Description of Documents	Court’s Order
Portions of Motion for Conditional Certification	References below exhibits	GRANTED for any portions referencing Exhibits 1-2, 4-5, 15-19 and DENIED for any portions referencing Exhibits 3, 8, 13-14.
Exhibits 1-2	Discloses confidential information about Google’s hiring process	GRANTED
Exhibits 4-5 and 15-19	Employment applications containing personal information	GRANTED
Exhibits 3, 8, 13-14	Designated Highly Confidential – Attorneys’ Eyes Only by Google	DENIED because supporting declaration at ECF 80 did not provide any reasons to seal.

B. ECF 94

Identification of Documents to be Sealed	Description of Documents	Court’s Order
Google’s Opposition to Plaintiff Fillekes’ Motion For Conditional Certification and Heath’s Partial Joinder	References exhibits filed in connection with Motion and below	GRANTED except for any portion referencing Exhibit 3, 8, and 13-14 to the Motion for Conditional Certification.
Declaration of Brian Ong In Support of Google’s Opposition to Plaintiff Fillekes’ Motion For Conditional Certification of Collective Action and Heath’s Partial Joinder	Contains personal information of non-party declarants	GRANTED
Exhibits 1-9	Confidential gHire records for nine separate candidates for employment positions at	GRANTED

	Google	
1 Exhibits 10-12	Confidential gHire Committee notes	GRANTED

2
3 **C. ECF 102**

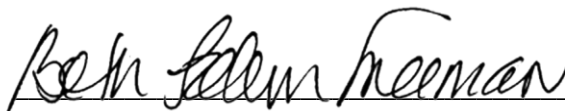

4 Identification of Documents to be Sealed	Description of Documents	Court's Order
5 Reply Brief	6 References Exhibit 1 to the Motion for Conditional Certification, which contains confidential information about Google's hiring process	GRANTED

7 **III. ORDER**

8 For the foregoing reasons, the sealing motions at ECF 74, 94, 102 are GRANTED IN
9 PART and DENIED IN PART. Under Civil Local Rule 79-5(e)(2), for any request that has been
10 denied because the party designating a document as confidential or subject to a protective order
11 has not provided sufficient reasons to seal, the submitting party must file the unredacted (or lesser
12 redacted) documents into the public record no earlier than 4 days and no later than 10 days form
13 the filing of this order.

14 **IT IS SO ORDERED.**

1 **MEMORANDUM IN SUPPORT OF MOTION FOR CONDITIONAL**
2 **CERTIFICATION**

3 Plaintiff Cheryl Fillekes (“Plaintiff”), pursuant to 29 U.S.C. § 216(b), moves
4 the Court to conditionally certify an opt-in Fair Labor Standards Act (“FLSA”)
5 collective action of certain applicants age 40 and older who allegedly were
6 discriminated against by Defendant Google, Inc. (“Google”) in violation of the Age
7 Discrimination in Employment Act (“ADEA”). This case meets the lenient standard
8 for conditional certification as Plaintiff has shown through substantial allegations
9 and declarations that the proposed class members are “similarly situated” pursuant
10 to 29 U.S.C. § 216(b) and were affected by a common policy or plan.

11 **I. PROPOSED CLASS**

12 Ms. Fillekes requests that the Court conditionally certify the following class:

13 All individuals who interviewed in-person for any Software
14 Engineer (“SWE”), Site Reliability Engineer (“SRE”), or
15 Systems Engineer (“SysEng”) position with Google in the
16 United States during the time period from August 13, 2010
17 through the present; were age 40 or older at the time of the
18 interview; and were refused employment by Google.

19 The class is objectively defined in a way that allows class members to easily determine
20 whether they are part of the class. Ms. Fillekes was a candidate for each of the positions
21 in the proposed class. The proposed class includes only candidates who participated in
22 an in-person interview. Candidates for Google positions typically participate in a
23 phone-screening interview(s) before being invited to an in-person interview, and only
24 in a phone-screening interview(s) before being invited to an in-person interview, and only

1 a subset of candidates who are interviewed by phone are invited to an in-person
2 interview.¹ Limiting the class to candidates who participated in an in-person interview
3
4 helps ensure that only highly qualified candidates are included in the proposed class.
5 Further, the class is limited to the in-person interview stage of the hiring process, *i.e.*,
6 situations where Google interviewers could observe the approximate age or life stage
7
8 of the proposed class member.

9 **II. BACKGROUND**

10 Ms. Fillekes alleges that “Google has engaged in a systematic pattern and
11 practice of discriminating against individuals (including [Ms. Fillekes]) who are age
12 40 and older in hiring, compensation, and other employment decisions with the
13 resultant effect that persons age 40 or older are systemically excluded from positions
14 for which they are well-qualified.” Am. Compl. ¶ 52 (Dkt. #18). This pattern and
15 practice includes: “(a) knowingly and intentionally, in the company’s hiring and
16 employment practices, treating adversely individuals who are 40 years old and older,
17 and treating preferentially individuals who are under 40 years old, and (b) filling a
18 disproportionately large percentage of its workforce with individuals under 40 years
19 old (such that the median workforce age is 29 years old) even when there are many
20
21
22
23
24
25
26

27 ¹ Approximately █% of all candidates considered for SWE positions are invited for
28 an on-site interview at Google. GOOG-HEATH-00004596-97 at 4596 (Ex. 1).

1 individuals age 40 or older who are available and well-qualified for the positions at
2 issue.” *Id.* ¶ 55.

3
4 Hiring decisions at Google for SWE, SRE, and SysEng positions are made by
5 [REDACTED]. See GOOG-HEATH-00005454-5543 (Ex. 2); GOOG-
6 HEATH-00003452-54 at 3453 (Ex. 3). Candidates for these positions are often

7 [REDACTED]
8 [REDACTED]
9 [REDACTED]. See Ex. 1 at 4596; Ex. 3 at 3452-53.

10 Candidates who receive from interviewers [REDACTED]
11 [REDACTED]. See Ex. 3 at 3453. Not all
12 candidates, however, [REDACTED]

13 [REDACTED]. See, e.g., A.B. Decl. ¶14 (Jan. 28, 2016),
14 Fillekes 0008184-88 (Ex. 4); A.H. Decl. ¶¶ 7, 11, 14 (Jan. 17, 2016), Fillekes 0008189-
15 93 (Ex. 5). The [REDACTED]

16 [REDACTED], among other things, a candidate’s “Googleyness” to determine whether to
17 extend an offer to the candidate. *How We Hire*, Google, Inc.,
18 <https://www.google.com/intl/en/about/careers/lifeatgoogle/hiringprocess/> (last visited
19 June 28, 2016) (Ex. 6).

20
21 In comparison to the 29 year-old median age of Google’s workforce, the median
22 age in the United States for “computer programmers” is 42.8 years old, and for
23 “computer hardware engineers” is 41.7 years old. Am. Compl. ¶¶ 2, 5. On its website,

1 Google acknowledges that “We’re not where we want to be when it comes to
2 diversity.” *Id.* ¶ 6.

3
4 The EEOC has received multiple complaints of age discrimination by Google,
5 and is currently conducting an extensive investigation into Google’s employment
6 policies and practices. *Id.* ¶ 49; Google Answer ¶ 49 (Dkt. #21).

7
8 While Plaintiffs’ Complaint seeks recovery for age-related discrimination only
9 in hiring, Google pattern and practice of age discrimination also manifests itself in
10 discriminatory pay, promotions, performance reviews, and terminations. For instance,
11 in a prior lawsuit, *Reid v. Google, Inc.*, the California Supreme Court held that former
12 Google executive Brian Reid (formerly Google’s Director of Operations and Director
13 of Engineering) had presented sufficient evidence in alleging age discrimination to
14 warrant a trial and denial of summary judgment, including statistical evidence
15 supporting preferential performance reviews and bonuses for workers under 40 and
16 negative statements by high-level executives concerning older workers. Am. Compl.
17 ¶ 50. Mr. Reid presented evidence that executives and colleagues at Google had made
18 negative statements reflecting animus towards workers over the age of 40, including:
19 (a) that a supervisor had made age-related comments to Reid “every few weeks,”
20 including statements to Reid that his opinions and ideas were “obsolete,” and “too old
21 to matter;” (b) that other colleagues at Google had referred to Reid as an “old man,”
22 an “old guy,” and an “old fuddy-duddy,” and had told him his knowledge was ancient;
23
24
25
26
27

1 (c) that Reid alleged that in a performance evaluation he received, his supervisor stated
2 “Right or wrong, Google is simply different: Younger contributors, inexperienced first
3 line managers, and the super fast pace are just a few examples of the environment;”

4
5 (d) that Reid was told he was not a “cultural fit” as a reason for his job termination;
6 and (e) that a former Google recruiter testified that the term “cultural fit” was used in
7 company circles only to describe older workers. *Id.*; *Reid v. Google, Inc.*, 235 P.3d
8 988, 992, 993 (Cal. 2010). Google, and its employees, refer to older workers at Google
9 as “greyglers.” *See Google Diversity, Google, Inc.*,
10 <https://www.google.com/diversity/at-google.html> (last visited June 27, 2016) (Ex. 7);
11
12 GOOG-HEATH-00000441-44 at 441 (Ex. 8).
13

14
15 Plaintiff Cheryl Fillekes’ personal experience reflects age discrimination by
16 Google. Ms. Fillekes started programming as a high school student in 1976, received
17 a B.A. in engineering at Cornell University in 1982, received a Ph.D. from the
18 University of Chicago in 1990 in computational geophysics, and served as a
19 Postdoctoral Fellow at Harvard University in 1993. Am. Compl. ¶ 32. She has
20 approximately 40 years of programming experience in a variety of programming
21 languages. *Id.* Between 2007 and 2014, Google interviewed her on separate occasions
22 for four different openings, including some occasions when Google affirmatively
23 reached out to her about the opening based on her impressive qualifications. *Id.* ¶¶ 4,
24 33-42. On each occasion, she performed well during her phone interviews and was
25
26
27
28

1 invited to Google's offices for an in-person interview. *Id.* After each in-person
2 interview, and review by [REDACTED] on at least two occasions, Google
3 refused to hire Ms. Fillekes despite her highly-pertinent qualifications and
4 programming experience. *Id.*

6 In May 2010, Ms. Fillekes interviewed for a position as Software Engineer. A
7 Google recruiter told Ms. Fillekes that she needed to put her dates of graduation on
8 her resume "so the interviewers can see how old you are." Fillekes Depo. Tr. 152:3-
9 15 (Dec. 17, 2015) (Ex. 9); accord Heath-Fillekes 00005043-49 at 0005044 (Ex. 10);
10 Fillekes 0008221 (Ex. 11); Heath-Fillekes 0008181-83 at 8181 (Ex. 20). She
11 performed well at her in-person interview, but received a rejection the following week
12 stating that "[a]lthough you have an impressive background, there wasn't a strong
13 enough match to move forward at this time." Heath-Fillekes 00002118 (Ex. 12).

17 On another occasion, in 2014, Ms. Fillekes interviewed to be a Systems
18 Engineer. She received [REDACTED]. See GOOG-HEATH-
19 00000848-49 at 848 (Ex. 13). In considering her application, one Google employee
20 expressed: "[REDACTED] [.]" GOOG-HEATH-
21 00001487-98 at 1487 (Ex. 14). A few days later, an internal e-mail about bringing Ms.
22 Fillekes for an on-site interview similarly expressed: "[REDACTED]
23 [REDACTED] [.]" Ex. 13 at 848.

Other highly qualified older applicants have had similar experiences, passing phone interviews and performing well at in-person interviews, but were rejected after the in-person interview allowed screeners to judge the age of the applicant. For example:

- J.W. has interviewed with Google five or six times, beginning when she was 41. J.W. Decl. ¶¶ 4, 6 (Dec. 23, 2015), Fillekes 0008204-07 (Ex. 15). Despite performing well at in-person interviews, she was not hired. One interviewer expressed concern about a cultural fit, noting that she might not be up for the “lifestyle.” *Id.* ¶ 10. Although J.W. assured him that she was willing to work long hours, the interviewer replied that he was still worried that she was “not Googley enough.” *Id.*
- M.B. was recruited by Google, passed phone interviews, and performed well at an in-person interview in 2014. M.B. Decl. ¶¶ 4, 7-9 (Jan. 19, 2016), Fillekes 0008212-16 (Ex. 16). M.B., who was 60, was repeatedly questioned about how he would “fit into their culture” and handle “the fast pace at Google,” and the interviewers expressed skepticism. *Id.* ¶¶ 5, 9. M.B. was rejected by the hiring committee, and believes that he was rejected because of his age. *Id.* ¶¶ 11-12.
- A.B. was considered for positions in 2014 and 2015. Ex. 4 ¶¶ 4-5, 9. Despite performing well in an in-person interview in 2015, and despite receiving a

glowing recommendation, A.B. was rejected, and he believes that he “was not hired by Google because of my age.” *Id.* ¶¶ 13-16.

- A.H. has interviewed with Google three times after being contacted by a Google recruiter, starting in 2002 or 2003, when he was 41 years old. Ex. 5 ¶¶ 4-6. After an in-person interview in 2010 or 2011, he left “feeling that I had been treated unfairly because of my age,” and believes that he was not hired “because of my age.” *Id.* ¶¶ 14-15.
- A.M. interviewed with Google in 2011, when he was 51 years old, and all six of his interviewers appeared to be in their twenties. A.M. Decl. ¶¶ 11, 12 (Jan. 17, 2016), Fillekes 0008194-98 (Ex. 17). He believes that he “was not hired by Google because of my age,” and declined to pursue other opportunities at Google because he believed that it would be futile to pursue those opportunities because of his age. *Id.* ¶¶ 14-15.
- D.A. was recruited to interview with Google three times, likely based on his [REDACTED]. D.A. Decl. ¶¶ 2, 4-5 (Jan. 19, 2016), Fillekes 0008199 – Fillekes 0008203 (Ex. 18). In 2007, he was told he ranked highest in one category on a technical phone interview. *Id.* ¶¶ 7, 10. He performed well at the in-person interviews in 2007 and 2009, and was told by one interviewer that the interviewer was surprised that D.A. was not hired. *Id.* ¶ 7. D.A. believes that he “was not hired by Google because of my age.” *Id.* ¶ 15.

- K.T. performed well at in-person interviews, but was rejected from employment at Google, and was told on one occasion that it was because he was not a good “fit” for the role. K.T. Decl. ¶¶ 8-11 (Jan. 27, 2016), Fillekes 0008208-11 (Ex. 19). K.T. believes that he “was not hired by Google because of my age.” *Id.* ¶ 12.

III. LEGAL STANDARDS

Collective actions under the ADEA are authorized by 29 U.S.C. § 626(b), which expressly incorporates collective action enforcement provisions of the FLSA, 29 U.S.C. § 216(b). Under § 216(b), a collective action is appropriate if the proposed opt-in class of employees is “similarly situated”:

An action to recover the liability . . . may be maintained against any employer . . . in any Federal or State court of competent jurisdiction by any one or more employees for and in behalf of himself or themselves and other *employees similarly situated*. No employee shall be a party plaintiff to any such action unless he gives his consent in writing to become such a party and such consent is filed in the court in which such action is brought.

29 U.S.C. § 216(b) (emphasis added).

Courts take a two-step approach to determine whether plaintiffs are similarly situated. *Lewis v. Wells Fargo & Co.*, 669 F. Supp. 2d 1124, 1127 (N.D. Cal. 2009).

First, the court makes an initial, conditional “determination of whether plaintiffs are similarly situated, deciding whether a collective action should be certified for the purpose of sending notice of the action to potential class members.” *Id.* “The standard

1 for certification at this stage is a lenient one that typically results in certification.” *Id.*
 2 (citing *Wynn v. Nat’l. Broad. Co.*, 234 F. Supp. 2d 1067, 1082 (C.D. Cal. 2002)).
 3
 4 The sole consequence of conditional certification is the sending of court-approved
 5 written notice to potential class members. *Tyson Foods, Inc. v. Bouaphakeo*, 136 S.
 6 Ct. 1036, 1043 (2016).

7
 8 Plaintiff need only show “some identifiable factual or legal nexus [that] binds
 9 together the various claims of the class members in a way that hearing the claims
 10 together promotes judicial efficiency and comports with the broad remedial policies
 11 underlying the FLSA.” *Hill v. R+L Carriers, Inc.*, 690 F. Supp. 2d 1001, 1009 (N.D.
 12 Cal. 2010). Plaintiff “must simply provide ‘substantial allegations, supported by
 13 declarations or discovery.’” *Ramirez v. Ghilotti Bros. Inc.*, 941 F. Supp. 2d 1197,
 14 1203 (N.D. Cal. 2013) (quoting *Kress v. PricewaterhouseCoopers, LLP*, 263 F.R.D.
 15 623, 627 (E.D. Cal. 2009)). “And, courts *need not even consider* evidence provided
 16 by defendants at this stage.” *Id.* (citing *Kress*, 263 F.R.D. at 628). Because a motion
 17 for conditional certification comes before discovery is complete and “is made in
 18 anticipation of a later more searching review, a movant bears a *very light burden* in
 19 substantiating the allegations at this stage.” *Prentice v. Fund for Pub. Interest*
 20 *Research, Inc.*, No. C-06-7776SC, 2007 WL 2729187, at *2 (N.D. Cal. Sept. 18,
 21 2007) (emphasis added).

22
 23
 24
 25
 26
 27 “[C]ourts in this circuit overwhelmingly ‘refuse to depart from the notice stage

1 analysis prior to the close of discovery.” *Ramirez*, 941 F. Supp. 2d at 1203 (quoting
2 *Kress*, 263 F.R.D. at 629).

3
4 The second determination in the two-step process is made after the close of
5 discovery, usually on a motion for decertification by the defendant, utilizing a stricter
6 standard for “similarly situated.” *Id.*

7
8 Notably, collective actions under the FLSA are not subject to the requirements
9 of Fed. R. Civ. P. 23, and the FLSA requirements are “considerably less stringent.”
10 *Hill*, 690 F. Supp. 2d at 1009; *see also Morden v. T-Mobile USA, Inc.*, No. C05-2112,
11 2006 WL 2620320, at *1-2 (W.D. Wash. Sept. 12, 2006) (rejecting argument that
12 class representative holding one employment position could not also bring collective
13 action on behalf of a second position because the Rule 23 typicality requirement did
14 not apply).

15
16
17 Numerous courts have granted conditional certifications for collective actions
18 alleging violations of the ADEA. *See, e.g., Hoffman-La Roche Inc. v. Sperling*, 493
19 U.S. 165, 169-73 (1989) (authorizing notice to ADEA class); *Thiessen v. Gen. Elec.*
20 *Capital Corp.*, 267 F.3d 1095, 1107-08 (10th Cir. 2001) (reversing de-certification
21 of ADEA collective action); *Pines v. State Farm Gen. Ins. Co.*, No. CV 89-631, 1992
22 WL 92398, at *4, 13 (C.D. Cal. Feb. 25, 1992) (certifying ADEA class in part based
23 on statistical evidence); *Williams v. Sprint / United Mgmt. Co.*, 222 F.R.D. 483, 487
24 (D. Kan. 2004) (finding differences in positions, managers, performance ratings, etc.

between plaintiffs or class members “simply not relevant at the notice stage when plaintiff ... has set forth substantial allegations that all plaintiffs were subjected to a pattern or practice of age discrimination”).

Statistical evidence of an imbalanced workforce “is often a telltale sign of purposeful discrimination,” and can be used to establish a prima facie case of discrimination. *Int’l Bhd. of Teamsters v. United States*, 431 U.S. 324, 339 n.20 (1977); *see also Mangold v. Cal. Pub. Util. Comm’n*, 67 F.3d 1470, 1476 (9th Cir. 1995) (statistics relevant to proving pattern and practice of intentional age discrimination); *Pagliolo v. Guidant Corp.*, No. 06-943, 2007 WL 2892400, at *3 (D. Minn. Sept. 28, 2007) (conditionally certifying ADEA class where “[f]acially, plaintiffs have demonstrated a pattern based on their preliminary statistical analysis”).

IV. ARGUMENT

A. This Case Satisfies the Lenient First-Step Standard for Conditional Certification.

Plaintiff has satisfied her “very light burden” of providing substantial allegations, along with declarations or other discovery showing that class members are “similarly situated” because she and the class members will rely on common evidence to demonstrate that workers over 40 years old were similarly affected by a pattern or practice of age discrimination. *Ramirez*, 941 F. Supp. 2d at 1203; *Prentice*, 2007 WL 2729187, at *2.

1 For example, Plaintiff has made detailed allegations of statistical evidence
 2 showing a pattern of age discrimination. Statistical analysis demonstrates that the
 3 median age of workers at Google is 29 years old, compared to an average age in the
 4 U.S. workforce of 42.8 for “computer programmers” and 41.7 for “computer
 5 hardware engineers.” Am. Compl. ¶¶ 2, 5, 5 n.1.² Statistical evidence also shows that
 6 workers under 40 received preferential performance reviews and bonuses. *Id.* ¶ 50.
 7 Such statistical evidence can provide prima facie evidence of a pattern or practice of
 8 age discrimination. *Int’l Bhd. of Teamsters*, 431 U.S. at 339 n.20; *Mangold*, 67 F.3d
 9 at 1476; *Pagliolo*, 2007 WL 2892400, at *3.

13 Plaintiff has also offered evidence of how Google’s practice of intentional age
 14 discrimination was enacted. Google screens out older candidates like Ms. Fillekes at
 15 the in-person interview stage after observing and gaining other evidence of the
 16 applicant’s age. Ms. Fillekes, for example, reached the in-person interview stage of
 17 the screening process on all four occasions when she was considered for a position,
 18
 19

21 ² The complaint cites Bureau of Labor Statistics data for U.S. workforce statistics. Am.
 22 Compl. ¶ 5 n.1 (citing http://www.bls.gov/cps/occupation_age.htm). Google’s median
 23 employee age of 29 years old is reflected in data from Pay Scale. *See*
 24 <http://www.payscale.com/data-packages/employee-loyalty/full-list> (reporting median
 25 age of Google employee at 29 years old); *see also Dark Side of Social Media: Age*
 26 *Discrimination*, CBS News, available at [http://www.cbsnews.com/news/dark-side-of-](http://www.cbsnews.com/news/dark-side-of-social-media-age-discrimination/)
 27 *social-media-age-discrimination/* (“According to PayScale, which claims to have the
 world’s largest employee compensation database, the median age[] of employees at .
 . . Google [is] 31,” compared to HP and IBM, “both of which have a median employee
 age of 44.”).

1 but each time was denied employment despite performing well in the interviews. On
2 one of those occasions, a Google recruiter required Ms. Fillekes to put her dates of
3 graduation on her resume “so the interviewers can see how old you are.” Ex. 9 152:3-
4 15; accord Ex. 10 at 5044, Ex. 11; Ex. 20 at 8181 (Ex. 20). Although she performed
5 well at her in-person interview, and was told she had “an impressive background,”
6 she was rejected for not being a good “match.” Ex. 12 at 2118.
7
8

9 Plaintiff has further satisfied the requirements for conditional certification by
10 offering a variety of other detailed allegations, declarations, or discovery to support
11 her claim of a pattern or practice of age discrimination similarly affecting class
12 members. *Leuthold v. Destination Am., Inc.*, 224 F.R.D. 462, 468 (N.D. Cal. 2004)
13 (“courts usually rely only on the pleadings and [] affidavits,” and “[s]ome courts only
14 require that plaintiffs make ‘substantial allegations’ that the putative class members
15 were subject to a single illegal policy, plan or decision.”) For example, as described
16 in the Background section above, Ms. Fillekes offers the following allegations or
17 evidence:
18
19
20

- 21 • Google admitted in its answer that the EEOC has received complaints of age
22 discrimination by Google and is currently investigating Google. Google
23 Answer ¶ 49; see also Am. Compl. ¶ 49.
- 24 • As alleged in the complaint, and as reflected in evidence accepted as
25 admissible in other court proceedings, high-level Google executives and
26
27
28

1 supervisors have made negative statements concerning older workers,
2 including negative statements to former Google executive Brian Reid by his
3 supervisor “every few weeks,” such as statements that his ideas were
4 “obsolete” and “too old to matter;” that Google colleagues referred to Reid as
5 an “old man,” an “old guy,” and an “old fuddy-duddy”; that Reid was told he
6 was terminated because of a lack of “cultural fit,” which is a term that a former
7 Google recruiter testified was used in company circles only to describe older
8 workers. *Id.* ¶ 50; *Reid*, 235 P.3d at 992, 993.

- 9
- 10
- 11
- 12 • The declaration of applicant J.W. that a Google interviewer expressed concern
13 that she might not be up for the “lifestyle” and might not be “Googley
14 enough.” Ex. 15 ¶ 10.
 - 15
 - 16 • Declarations from six applicants who believe that they were not hired by
17 Google because of their age. Ex. 4 ¶ 16; Ex. 5 ¶ 15; Ex. 16 ¶ 12; Ex. 17 ¶ 15;
18 Ex. 18 ¶ 15; Ex. 19 ¶ 12.
 - 19
 - 20 • As reflected [REDACTED] on Google’s own website,
21 Google sometimes refers to older works as “greyglers.” Ex. 7; Ex. 8 at 441.
 - 22
 - 23 • Plaintiff Cheryl Fillekes’ allegations and testimony reflect that, despite her
24 impressive credentials and experience, and after passing phone interviews
25 with high scores, Plaintiff Cheryl Fillekes was repeatedly rejected for
26
- 27

1 positions at Google after interviewers met her in person and knew her
2 approximate age. Am. Compl. ¶¶ 4, 32-42; Ex. 9 12:23-13:6.

- 3
- 4 • Discovery documents reflect that Google expressed concern about Ms.
- 5 Fillekes’ age: “[REDACTED]” Ex.
- 6 14 at 1487, “[REDACTED]
- 7 [REDACTED]” Ex. 13 at 848.
- 8

9 Plaintiff’s statistical evidence, combined with the declarations and other
10 discovery evidence, are sufficient for plaintiff to meet her minimal burden of
11 establishing that conditional certification is appropriate. *Pines*, 1992 WL 92398, at *3-
12 4 (relying on statistics and other evidence of a practice of age discrimination);
13 *Pagliolo*, 2007 WL 2892400, at *3 (relying on affidavit, interrogatory answers, and
14 preliminary statistical analysis).

17 The fact that Plaintiff is seeking to certify three (3) different types of positions
18 – Software Engineer (“SWE”) positions, Site Reliability Engineer (“SRE”) positions,
19 and Systems Engineer (“SysEng”) positions – for discrimination in hiring and
20 employment is immaterial to the “similarly situated” analysis in this case, as they were
21 subjected to the same pattern or practice of age discrimination. *See, e.g., Tyson Foods*,
22 136 S. Ct. at 1045-50 (affirming verdict for plaintiffs in FLSA collective action
23 involving multiple jobs with varying amounts of time required for donning and doffing
24 protective gear); *Pagliolo*, 2007 WL 2892400, at *2 (granting conditional certification
25
26
27

1 despite “different job duties, . . . [and] different supervisors, . . . ages and lengths of
2 service”); *Church v. Consol. Freightways, Inc.*, 137 F.R.D. 294, 298 (N.D. Cal. 1991)
3
4 (notice appropriate in ADEA action even though class members “were employed at
5 112 different locations in 74 different jobs and left employment on 103 different dates”
6 and defendants argued that decision-making was “highly decentralized”).
7

8 Similarly, any argument offered by Google attacking the merits of Plaintiff’s
9 claims is premature, as “[t]he initial ‘notice stage’ is not the appropriate time for a
10 court to evaluate the merits of plaintiffs’ . . . claims.” *Shaia v. Harvest Mgmt. Sub LLC*,
11 306 F.R.D. 268, 272 (N.D. Cal. 2015); *see also Harris v. Vector Mktg. Corp.*, 716 F.
12 Supp. 2d 835, 838 (N.D. Cal. 2010) (“The fact that a defendant submits competing
13 declarations will not as a general rule preclude conditional certification.”).
14
15

16 In sum, Plaintiff has offered enough evidence of Google’s pattern and practice
17 of age discrimination to meet the lenient standard for conditional certification.
18

19 **B. Class Notice Should Be Authorized.**

20 The only consequence of conditional certification is the sending of court-
21 approved written notice to potential class members, who join the collective action only
22 if they file written consent with the court. *Tyson Foods*, 136 S. Ct. at 1043. Court
23 approval and facilitation of written notice serves the goals of “avoiding a multiplicity
24 of duplicative suits and setting cutoff dates to expedite disposition of the action.”
25 *Hoffmann-La Roche*, 493 U.S. at 172.
26
27

1 Plaintiff has attached a proposed notice and consent form as Exhibit 21.
2 Plaintiff proposes a 90-day opt-in period, consistent with what other courts have
3 approved for large potential classes. *Woods v. Vector Mktg. Corp.*, No. C-14-0264,
4 2015 WL 1198593, at *4 (N.D. Cal. Mar. 16, 2015) (citing *Adams v. Inter-Con Sec.*
5 *Sys., Inc.*, 242 F.R.D. 530, 542 (N.D. Cal. 2007)).
6
7

8 Plaintiff proposes that notice be given as follows: notice will be delivered to all
9 potential class members by e-mail; an official case web page will be created where
10 potential collective action members can review the official notice and submit an opt-
11 in form; and depending on the number of undeliverable e-mails, Plaintiff will be
12 permitted, but not required, to send a follow-up postcard notice via U.S. mail to
13 potential class members whose email notice was returned as undeliverable, and the
14 postcard will direct them to the official case web page. Collective action members will
15 be permitted to submit opt-in claim forms on the official case web page using online
16 signatures, and may be permitted to submit claim forms via e-mail if they are incapable
17 of submitting their claim online.
18
19
20

21 When, as here, “[t]he potential class members [are technology workers, they]
22 are likely to be particularly comfortable communicating by email and thus this form
23 of communication is just as, if not more, likely to effectuate notice than first class
24 mail.” *Lewis*, 669 F. Supp. 2d at 1128-29. Courts have often approved notice via e-
25 mail. *Otey v. CrowdFlower, Inc.*, No. 12-cv-05524, 2013 WL 4552493, at *5 (N.D.
26
27
28

1 Cal. Aug. 27, 2013) (approving notice by email as “the most appropriate method for
2 effectuating notice in this case”); *Guy v. Casal Inst. of Nev., LLC*, No. 2:13-cv-02263,
3 2014 WL 1899006, at *7 (D. Nev. May 12, 2014) (authorizing notice by email and/or
4 first class mail).
5

6 Courts have authorized the use of an official case website and submission of
7 online claim forms through the case website using electronic signatures. *Woods*, 2015
8 WL 1198593, at *4, 6.
9

10 Plaintiff requests that the Court approve the proposed notice and consent form.
11

12 **C. Google Should Be Ordered to Produce Names and Contact Information of**
13 **Potential Class Members.**

14 Google should be ordered to provide, within 15 days, the names and contact
15 information for potential class members, *i.e.*, every applicant who interviewed for any
16 SWE, SRE, or SysEng position and was, based on date of birth (if known) or college
17 graduation date, was 40 years of age or older at the time of application. *See Hoffmann-*
18 *La Roche*, 493 U.S. at 170 (“The District Court was correct to permit discovery of the
19 names and addresses of the discharged employees.”). This contact information should
20 be provided in electronic format in an excel spreadsheet, and should include: position
21 applied for; dates of employment interview(s) for SRE, SWE, or SysEng positions,
22 along with their: name, e-mail address, mailing address, telephone number, college
23 and (if applicable) graduate school graduation date(s), and date of birth (if known).
24

25 Courts have approved discovery of such information. *See, e.g., Lewis*, 669 F. Supp. 2d
26

1 at 1129-30.

2
3 **V. CONCLUSION**

4 For the foregoing reasons, Plaintiff respectfully requests that the Court
5 conditionally certify the proposed class, authorize notice, and require production of
6 the names and contact information of potential class members.
7
