

*Marketplace* did a random price check of 21 baby products available online and in stores on both sides of the border. The U.S. price of each product was converted to Canadian dollars and then compared with the price of the same product sold in Canada. Seventeen of the products (81 per cent) were more expensive in Canada; only four were cheaper north of the border.

*(Items in order of Highest price discrepancy to Lowest)*

<b>Item</b>	<b>U.S. Price</b>	<b>Canadian Price</b>	<b>Percentage</b> (accounting for conversion based on 1.29 exchange rate on Nov. 1, 2017)
