Hey

I'm going to have to send something out to Spec Pops leadership directing them and their respective staff members to refer any questions about this article to Gene Acuña's group. Just wanted to give you the heads up.

Great. Thanks.

I found out Saturday. It's that crazy employee I told you about this summer. I was cleared of everything but she decided to sue the district.

I'm not liable for anything i am protected because I was already found innocent by three government agencies, but doesn't matter in the press I guess
