#### Draft Agenda

- What are the voluntary measures being taken to capture the byproduct GenX?
- Modifications needed for the NPDES permit and/or renewal application?
- What is the timing on the vinyl ether production schedule?
- Are wastewater discharges from Kuraray still going to the Chemours NPDES outfall?  
Counties continue to hear concerns that Kuraray wastewater includes GenX.
- Who are customers using GenX from Chemours? Question is coming from a standpoint of potential sampling needs in other areas of the state where GenX is being used.
- Chemours willing to issue letter to EPA TSCA to allow DEQ and DHHS staff to see CBI material?
- Future sampling concepts.
