**Subject:** FW: Analytes  
**Attachments:** Reported Analytes.pdf

Bridget, I have attached the analyte list to this email. Please note Mark Strynar's comment, below, that the bottom seven analytes in this list will be reported, and that only GenX will be quantified by standardization. The other six will be included in the report with qualification.

Chris we will only be reporting on the bottom 7 if detected. However as we only have authentic standards for GenX which you correctly called out, only those values will be confirmed. Other analytes will be semi-quantitative and flagged as such.

Mark

Mark, our Information Officer has asked me for a list of the analytes that will be reported on your analysis. Is the attached list accurate? Thanks.
