

Dave,

If you listen to the media talk about 2017, they paint a VERY different picture than what I see when I travel the country and talk to the American people.

This is dangerous. And it's why we must stay vigilant in getting the truth out to the American people.

But there is one thing they cannot lie about: our NUMBERS. We are closing out the first year of our presidency -- yes, it is OUR presidency -- and I want to be sure we report an extraordinary year.

As always, it is not about the size of your donation. It is the fact that you PROVED you care about this cause so much that you actually stepped up and made a contribution. That is why we won, and why we will keep winning.

CONTRIBUTE \$1

My resolution for 2018 is to go above and beyond to get our accomplishments heard by every single citizen of our great country. When EVERYONE tried to take us down in 2016, we prevailed. And we will win this new fight with the Fake News Media again in 2018.

I have never walked away from a fight in my entire life. I don't care what they throw at us. No matter the slur they use against me or my family, or even YOU, I will fight back ten times harder.

So let's close the FINAL FEC REPORT OF THE FIRST YEAR OF OUR PRESIDENCY with numbers so big that even the media will be forced to say that our first year in office will forever be etched into the archives of American history.

[Please make a contribution of \\$1 before the FINAL deadline of the first year of America's presidency.](#)

USA! USA! USA!

Donald J. Trump
