Hello Mr. Bittner,

I received your contact information from the Office of Diversity and Civil Rights after I called the number for the FOIA Office listed on ICE's website and was unable to get ahold of anyone.

I submitted a FOIA request on August 15 and have yet to receive a response with a tracking number, which I should have received within 3-5 business days. According to the website, ICE has 20 days to respond to my request, which means that a response is due September 13. Unfortunately, I have no way of tracking the progress of my request because I have not received a tracking number. When I emailed the ICE FOIA email about this, I received the same generic response as my initial request. I would greatly appreciate a tracking number or other update as to the status of my request.

Thank you for your help.

Best,
