Do you approve of how Republicans are  
handling the Russia investigation?

Dee, I'm absolutely appalled by how Republicans are playing politics with our national security.

- They've REFUSED to fully investigate Russia's interference in our election.
- They've undermined the investigation by releasing the CLASSIFIED, hyper-partisan Nunes memo.
- **Point blank: They've put our country in danger to serve their own biased and politically-motivated agenda. *It's truly unconscionable.***

It's clear to me that these Republicans have more loyalty to their political party than our country.

Their actions are dangerous. They're reckless. And they're disqualifying.

Thank you,

Nancy
