

INTEROFFICE CORRESPONDENCE
Los Angeles Unified School District
Office of the Chief Financial Officer

INFORMATIVE

Date: April 26, 2018

TO: Members, Board of Education
Vivian Ekchian, Interim Superintendent

FROM: Pedro Salcido, Director, Finance Policy 

SUBJECT: STUDENT EQUITY NEEDS INDEX 2018 – SCHOOL IDENTIFICATION AND ALLOCATIONS

This correspondence serves as an update to the recently approved Equity is Justice 2.0 resolution, which allocated \$25 million to identified schools utilizing the Board approved Student Equity Needs Index 2018 (SENI 2018).

Updating the District’s Student Equity Needs Index

The District has updated the current index to incorporate indicators listed in the Equity is Justice 2.0 resolution. These updated indicators reduce the negative implication of prescribing more funding towards schools with lower academic performance. As reflected in the table below, the SENI 2018 provides significantly more weight to student demographic indicators and incoming academic status indicators, as opposed to annual student performance indicators. Attachment A provides a ranking of all schools applying the SENI 2018.

Student Equity Needs Index 2018

2018-19 SENI 2018 Investment Schools

A one-time investment of \$25 million will be distributed among 227 schools for the 2018-19 school year. Per the Equity is Justice 2.0 resolution, this will include all “Highest Need” and “High Need” schools, but will not include schools receiving Reed and/or Innovation funds.

SENI 2018 schools will receive a notification regarding the pending allocation on Monday, April 30, 2018, for their awareness and planning purposes. As with most allocations for the 2018-19 school year, the funding will be available beginning July 2018.

Please see Attachment B for the list of SENI 2018 schools and their corresponding allocations for the 2018-19 school year.

Developing Evidence-Based Menus and an Equity Index Working Group

A menu of options for utilizing the SENI 2018 funds, as well as an Equity Index Working Group, will both be formed in the coming weeks.

Evidence-Based Menu of Options:

Staff is currently updating the school-level menu of options that was made available to the 52 Innovation schools. We will convene a group of stakeholders, representing principals, teachers, parents and students, to solicit feedback on potential changes to the menu of options prior to releasing it to SENI 2018 schools.

Equity Index Working Group:

The District will convene an Equity Index Working Group to continue discussing and evaluating the District’s equity index. We expect the working group to include external experts and in-District leaders, and to connect with other existing efforts around school performance, unified enrollment, open data, and others.
