Media: Closed

Opening: Whoever said you can't have your cake and eat it too, doesn't know what to do with cake.

Why wouldn't you want both pro-energy and pro-environment?

Bridge: We can have both pro – look at what we've accomplished. No one does it as good as the U.S...

Celebrate Progress

Since 80's – 65% reduction in six criteria pollutants under NAAQs program

- Industry's carbon dioxide emissions down 21 %
- Nitrogen oxides cut by nearly 80% since 1990 and sulfur dioxide down by 86%.
- All while electricity use grew by 36%
- Thanks to technology: clean coal, shale

Opportunity Knocks

- Clean Power Plan
- Coal Ash Implementation
- Approve SIPS

Opportunity is knocking and new leadership in the White House and at EPA will answer...

EPA WILL ANSWER

- Restore trust, respect
- Abuse of process leads to bad outcomes
- Follow the rule of law...CO2 regulations always stayed, Tailoring struck down
- Stop practice of sue and settle
- Obama 54 FIPS, 10x the number of last three presidents combined

Cooperative Federalism: attitude and leadership; appoint regional officials who view states as partner, not advisories

Bridge: Less than a month on the job and already: WOTUS, methane ICR notice, CAFÉ, CPP coming...

- Reduction in nitrogen dioxide **concentrations:** Atlanta – 33%, Denver 9%, NYC 22%
- Thanks to technology: clean coal, natural gas

Civility/Partnership

Cities across the country have an important, but difficult responsibility

- Balancing jobs and the environment can be difficult
- Divisive issues: zoning, roads, bridges

Superfund/Brownfields are key infrastructure programs

- Only 40% achieved attainment
- EPA will work with you to achieve air quality standards attainment
- Water infrastructure
- Funding via grants, receiving funds, WIFA

Honoring the President’s Commitments

- POTUS said last week infrastructure programs are going to happen
- I’m a member of the President’s infrastructure principals team – met with him last week on the issue

Bridge: *Cities are where we raise our families and our children – leaders of our cities want clean air and water more than anyone.*

Closing: John Muir: “Everyone needs beauty as well as bread, places to play in and pray in.” – That’s what cities are supposed to be.

Hi Millan,

Sam is the manager who I work with at Tony Cheng's to coordinate logistics at the restaurant.

Leonard is attending; I have not heard back from Jonathan Bunch, so I am not sure he will attend.

We begin eating at 12:05 - 12:10, we will eat until about 12:35 - 12:40, which is when the address begins. Most of the eating is done by the time the address begins.

If he arrives at 12:30, the attendees will be eating, but most will be done when he begins speaking at about 12:40.

Can you please let me know what staff will be attending with Administrator Pruitt. We can usually accommodate 1 staff member at the head table with the speaker. It would also be very helpful to have the cell phone number of someone who will be traveling with Mr. Pruitt, could you please send me a number. My cell phone number is Personal Phone/Ex. 6

The restaurant contact you listed on the form is Sam. Who is this person please?

Will Leonard Leo or Jonathan Bunch be in attendance?

What is the format of the lunch? If he arrives at 12:30, will he sit down and then be introduced? Will you all be eating while he is speaking or after? I ask because he will be headed straight to the airport after and I want to ensure I have an

understanding of the time frame.

Millan,

Thank you for taking the time to speak to me today. Please see the attached event form.

The lunch will be held at Tony Cheng's at 619 H Street in Chinatown (on the 3rd floor and there is no elevator). The event usually begins at 12:00 noon, with lunch being served. Usually, the speaker arrives at about 11:55 a.m., is seated at the head table, and has lunch before the address. Mr. Pruitt will be introduced at about 12:45 - 50 by our D.C. Chapter President, Doug Cox, of Gibson Dunn. Mr. Pruitt's address should last about 15 - 20 minutes; the address is usually followed by informal questions from the audience. This lunch is a more casual lunch than we usually do and the venue does not have microphones for the audience. The event ends no later than 1:30 p.m.

We will begin promotion for this event, as it is coming up in the next couple of weeks. Leonard Leo described the topic to me as "Reflections on the EPA and the Administration's Regulatory Agenda."

As discussed, we will not advertise this event directly to press, but sometimes they do hear about it and ask to come. We will let all press know that this event is not open to press and is off the record.

Please let me know what guest/staff Mr. Pruitt plans to bring to the lunch, just so we can be sure to reserve a seat. Please also let me know if any of Mr. Pruitt's guests should be seated at the head table with him. I ask this only because many times our speakers will bring a staffer who does not sit at the head table with them; he is more than welcome to have one guest seated with him at the head table.

If you have any further questions or concerns, please don't hesitate to contact me; I can be reached by email or at 202-810-8652. On the day of the event, I will be the contact person and can be reached at 5 Personal Phone/Ex. 6 which is my cell.

Best,

Juli

Zach and Jerry – Per our discussion this morning, below is the media advisory we are sending to targeted media. We are having folks RSVP to receive more information on time and location. Please keep a close hold on this until further notice.

Also, a couple of other updates - the Administrator is now arriving at noon on Thursday so we are pushing things up and changing them around just a bit. Press will now be invited to get a photo spray at the beginning of the lunch in addition to the press portion of the event, so we will want to be sure there are miners in uniform participating in the lunch. Here is the updated line by line for Thursday's movements:

- 12:00 PM EST Administrator Pruitt arrives
- 12:00 – 12:30 AM EST Discussion with coal miners and media availability, open press.
 - Greeting with 75 – 100 coal miners
 - Introduction by CONSOL CEO Jimmy Brock
 - Administrator Pruitt speaks
 - Congressman Tim Murphy speaks
 - Presentation of hard hat
 - Jimmy Brock concludes remarks
- 12:30 – 1:30 PM EST Private roundtable lunch with stakeholders, press spray at beginning of the lunch.
- 1:30 – 2:00 PM EST Safety training and gear up, closed press.
- 2:00 – 3:45 PM EST Underground mine tour, closed press.
- 3:45 PM EST – Depart

Don't hesitate to give me a shout if you have questions about any of these details.

EPA ADMINISTRATOR TO VISIT PENNSYLVANIA COAL MINE, LAUNCH *BACK-TO-BASICS* AGENDA

SYCAMORE, Pa. – U.S. Environmental Protection Agency Administrator Scott Pruitt will speak with coal miners at the Harvey Mine in Sycamore, Pennsylvania on Thursday, April 13, to kick off EPA's *Back-to-Basics* agenda. The *Back-to-Basics* agenda refocuses the EPA on protecting the environment, promoting economic and job growth, and returning power to the states.

Administrator Pruitt will speak with coal miners about the President's recent [Energy Independence Executive Order](#), which directs EPA and other federal agencies to review the Clean Power Plan and revise regulatory barriers that impede energy independence, including unnecessary burdens on coal miners and coal-fired electric utilities.

“What better way to kick off the EPA's *Back-to-Basics* agenda than joining hard-working coal

miners who help power America. The coal industry was nearly devastated by years of regulatory overreach, but with new direction from President Trump, we are turning things around for these miners and for many other hard working Americans,” **said Administrator Pruitt.** “I look forward to launching my *Back-to-Basics* agenda in Pennsylvania as we work to return EPA to its originally intended mission of protecting the environment without hindering job growth.”

Members of the media who plan to attend this event must RSVP by emailing pressrsvp@epa.gov no later than 5:00 p.m. on Wednesday, April 12.

WHO: Administrator Pruitt and coal miners at the Harvey Mine – Patterson Creek Portal

WHAT: EPA kicks off *Back-to-Basics* agenda

WHEN: Thursday, April 13, 2017

And the tweet wrongly suggests the Thursday event is to "talk about Trump's proposed cuts EPA cuts to MO."

I say go now. Beltway media (Politico) is reporting the event as confirmed by EPA. No reason to wait longer.

“In addition, the agency said Pruitt would travel to the Thomas Hill Energy Center, a coal-fired power plant, in Clifton Hill, Mo. on Thursday to deliver remarks to Missouri Electric Cooperative members about his EPA agenda. He'll address two recent executive orders from President Donald Trump directing the agency to review the Obama-era Clean Power Plan and Waters of the U.S. regulation.”

Are we good to share, now not later, the Moberly Monitor article as the supporting link for our announcement on the EPA visit...or do we want to wait for more supportive press?

Subject: ARC media social media response and monitoring plan for EPA visit

We'll be on-site and in our control suite monitoring the live activity online during the Administrator's visit on 4.20.17. Our plan will be to promote the feel-good activity and news from the event while countering any digital activity deemed worthy of a response with facts.

Current plan is as follows. (This is internal vB)

4/19 Messaging

POST 1

(T) We're honored that @EPAScottPruitt is taking the time to visit our Thomas Hill Energy center for himself, and hear from Member-Owners and employees directly.
<Insert Pruitt Images>

(T) Associated Electric Cooperative has been honored for its work to reclaim the 30,000-acre coal mine site — turning it into pristine wildlife habitat and farmland.
<Insert Wildlife Image>

POST 2

(F) We're glad that Administrator Pruitt recognizes the adverse economic impacts of harmful regulation, and look forward to working with his administration on proposals that protect our environment, maintain the reliability of our electric grid and promote a healthy economy. With the proper policy approach, we can meet all of these goals.

(F) Associated pursues an all of the above approaches to keeping the lights on.

- o 750 MW of wind
- o 478 MW of hydro
- o 2,753 MW of natural gas
- o 2,353 MW of Coal

<Insert image depicting energy mix>

POST 3

(T) Associated Electric's Thomas Hill energy center provides affordable and reliable power to more than 420,000 Missouri households

<Insert Image>

(T) Collectively, Missouri co-ops employ 3,541 people and empower 600,000 households and businesses consumers

Live-tweeting of comments and photo-ops as available.

Follow up content on Facebook the evening of 4/20/17 highlighting images and balanced press clippings from the visit.

Comment Response Plan

- ARC will monitor commentary across available social platforms for Cooperative, EPA, @EPAScottPruitt, #EPABack2Basics, and keyword monitoring and judge worthiness for a response.

- Comments that are positive will be liked and possibly shared by the AMEC page.

- Comments that are derogatory and/or abusive will be hidden from public view. Commenter receives no notification this hiding has happened. Questioning comments that remain positive will be addressed with the following themes:

COMMENT: Environmental in Nature
RESPONSE: 1. Highlight Energy Mix

2. Highlight Thomas Hill restoration

COMMENT: Economical in Nature

- RESPONSE:
1. Highlight cooperative employment
 2. Highlight taxes paid
 3. Highlight Missouri cooperative utility rate

COMMENT: Political in Nature

- RESPONSE:
1. A diverse group of Missouri's elected leaders, agriculture leaders, and Member-Owners joined us in welcoming Director Pruitt to Thomas Hill.
 2. 300,000 EPA postcards with no response, but Administrator Pruitt has/will visit Missouri's Electric Cooperatives within his first 3 months on the job.
 3. Rural Missouri Voters Overwhelmingly Supported Trump

Jay,

Good afternoon to you. Just want to ensure we are all set for tomorrow. The Administrator will arrive at roughly 12:15 and will proceed to head table to sit with the other speakers (Sen. Lankford, Rep. Cole, and of course Mrs. Freede). The staff he will have with him will include Lincoln Ferguson and Sarah Greenwalt.

At 12:30, you will get up on stage to introduce him and he will deliver 10 minutes of remarks. There will be no Q&A.

You said there will be press by invitee only. Is that still just the Oklahoman and Journal Record along with the two radio shows?

After delivering him remarks, he will depart the hotel.

Please let me know if there is anything else we should consider or expect that we have not discussed.

Thank you so much,

Millan

If a potential Pruitt visit seems real, it may be best for us to get on an initial call with eileen, Pruitt's scheduler/advance team and one of Mosaic's key on-the-ground staffers to walk through all the potential permutations we can offer them:

- Mine/dragline tour – a tour of our mining operations. We don't generally allow this, but we could probably get him on to the actual dragline as it is operating. Pretty cool experience.
- Manufacturing/concentrates tour – a driving tour through one of our manufacturing facilities (basically a large, complex chemical plant)
- Reclaimed land tour – either driving or potentially a helicopter tour of our reclaimed lands; heli is the best way to get a sense of the vastness of our landholdings
- Vendor/industry roundtable – We could easily arrange a sit-down with 10-15 of our most key vendors and they could discuss the critical significance of the phosphate industry to jobs, the local/regional economy and the important role they play in that
- Streamsong visit/stay – prime example of innovative reclamation and the economic viability of post-mined land

We can certainly get you the two and even three rooms in our block for Sunday night. Do you want to make the reservations or are you o.k with us making the reservations and letting the hotel know that payment information will be provided at check-in.

The meeting with the Executive Committee is very flexible and we can make it work for your schedule. Regarding the remarks to the Board, before lunch is fine but is there any possibility to make it 11:30 or Noon. It is not unusual for us to have a speaker address the board, leave immediately after and then we serve lunch.

Do you have a few minutes to get on the phone? It may be easier just to talk it through. I am in the office by 7:30 or if this evening is better, please feel free to call my cell – 202-731-1110. My office number is 202-463-2639.

Given our flight options and the fact that he will be coming from Tulsa, would it be possible to do the proposed meeting at maybe 10AM then he speak at 11AM before their lunch gets started? We may choose to fly him into Naples on Sunday evening so we are just thinking to maximize his time on the ground in FL. If we push everything up just a little bit, we can get him back to DC sooner.

Look forward to hearing from you! Thank you so much.

Hi Moya,

Looking at flights we might not be able to make the lunch time frame. To play it safe, would it be possible for us to speak closer to 1:30 or 2?

Thank you!

Sydney and Millan:

NMA is very pleased that EPA Administrator Pruitt will be the luncheon speaker at our spring board of directors meeting. Attached is the speaker form with the information requested except for the security contact and the cost for the lunch. Both will be

provided as soon as possible but I did not want to hold up sending you the form.

Please let me know if you have any questions, need further information, etc. Please feel free to contact me at any time. My cell is 202-731-1110.

I look forward to working with both of you.

Kevin Crutchfield, CEO of Contura Energy and NMA's Chairman will introduce Administrator Pruitt.

The attached list that I sent earlier is NMA's Executive Committee. Everyone should be at the meeting but Mr. Goldberg and Mr. McMullen who will call into the meeting.

Regarding the meeting on Sunday, April 23 at Noon for the walk-thru, we should meet in the lobby. The following individuals will be participating from the hotel:

Taylor Svoboda

Meetings and Special Events Manager

The Ritz-Carlton Golf Resort, Naples

Matthew Murphy

Loss Prevention Supervisor

The Ritz-Carlton Golf Resort, Naples

I will be at the meeting as well.

Please let me know if you have any further questions or need anything.

Thank you.

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

Millan:

The lunch will be in Tiberon #3 and the meeting with the Executive Committee will be in Anhinga. Our office will be available should you need a holding space. It is Sabal Palm. A map of the meeting room space is attached.

A list of NMA's Executive Committee is attached. If you need additional information on the companies, please let me know.

We are confirmed for a walk through on Sunday, April 23 at Noon. I will let you know where we will meet.

May we schedule a walk-through on Sunday, April 23rd at 12PM?

Traveling with him will likely be Lincoln Ferguson and JP Freire.

Do you have a phone number for Derek Burke?

The Administrator will not eat and he will probably only request coffee for the meeting with the Executive Committee. Also, could you please send me the names of those on the Exec. Committee that he should expect to meet?

Thank you so much,

Moya,

Good morning to you! I will be there a day before to advance the event with a member of his security team. He will definitely have one, maybe two staff members traveling with him.

He will arrive into Ft. Myers at 12:35PM on Monday so we have him arriving at the hotel at 1:20. Speech at 1:30PM and meeting with Executive Board members at 2:15PM. He will have to depart by 3PM for his 5PM flight back to DC. Unfortunately, I don't think there will be any extra time for additional meetings. I'm so sorry!

Moya – I'm so glad we could get this worked out!

I think that a 1:30 or 1:45 speech then meet with the Executive Committee might be a little better. If he gets in a 12:35 and it is a 30 minute drive, that would put him there just after one and I would want to add a little bit of buffer time in there as well.

On the hotel rooms, I am going to do an email intro for you to our travel coordinator. She will want to be the one to work with you to arrange the accommodations.

Being much more familiar than we are, does that arrival time help in the planning process, I hope? My apologies for it taking a while to work out on our end.

The meeting with the Executive Committee is very flexible and we can make it work for your schedule. Regarding the remarks to the Board, before lunch is fine but is there any possibility to make it 11:30 or Noon. It is not unusual for us to have a speaker address the board, leave immediately after and then we serve lunch.

Do you have a few minutes to get on the phone? It may be easier just to talk it through. I am in the office by 7:30 or if this evening is better, please feel free to call my cell – 202-731-1110. My office number is 202-463-2639.

Given our flight options and the fact that he will be coming from Tulsa, would it be possible to do the proposed meeting at maybe 10AM then he speak at 11AM before their lunch gets started? Hi Sydney.

The setting will be casual and off the record in a private dining room at Del Friscos Grille.

Cocktails are planned for 6:30 followed by dinner at 7:00. The Administrator's remarks would follow dinner.

We have some flexibility in the evening's schedule, so please let us know if these times will be acceptable to the Administrator.

Thank you again Tyler, for your offer of assistance. We would like Administrator Pruitt to speak on Wednesday July 12 at 7:30 am during at our breakfast at the Washington court hotel. The hotel is on Capitol hill, and the specific address is 525 New Jersey Ave NW Washington, DC.

The event is the general session breakfast at our annual Leadership Conference. There will be approximately 150 turkey executives in the room. This will include the heads of several Fortune 500 companies. **This will be a friendly group who is excited to have the Administrator at EPA.**

Please let me know what other information you may need. Thank you again!

-The Vinyl Institute would love to have Samantha speak to the exec team on the 16th as well as to the full fly-in group on the 17th. They are very excited and appreciative.

-Joc O'Rourke of Mosaic would be available any time the Administrator has time. To restate, he is requesting no more than 15 minutes.

Thanks for trying to make those work, Sydney.

While I have you looking, could you check on two other dates in June:

- The Global CEO for Mosaic, Joc O'Rourke is requesting to meet with Pruitt for 15-20 min on June 20th. He is only in county & DC that day. Mosaic is involved in a number of industries, but phosphate and potash production are the primary industries they are involved in here in the U.S.

-The American Foundry Society (AFS) Fly-in is on June 21st (or 20th.) Their specialty is "Metalcasting". They're asking for Administrator Pruitt to speak at their Leadership Breakfast on 21 June. If June 21st doesn't work, they can make June 20th work.

Thank you for letting me bother you with these; talk to you soon.

Sydney:

Thanks for the note yesterday. As mentioned, the Vinyl Institute is holding it's annual fly-in meeting in May. A request for Ryan Jackson to speak to the group on May 17th was previously forwarded by the organization.

This request is for the Executive Committee of the Vinyl Institute to meet for 15 minutes with the Administrator the day before the fly-in, on May 16th at any point during that day the Administrator is available.

The executive committee represents four large chemical companies that produce products such as PVC. Names that would likely be in attendance would include:

Bob Buesinger, Senior Vice President – Vinyls, Westlake Chemical, Houston, TX

Grant Evans, Vice President and General Manager – Vinyls, Occidental Chemical Corporation, Dallas, TX

Dick Heinle, Senior VP/General Manager – Vinyls, Formosa Plastics, Livingston, NJ

Dick Mason, Corporate Secretary, Shintech Inc., Houston, TX

Dick Doyle, President and CEO, Vinyl Institute, Washington, DC

Rich Krock, Vice President Regulatory and Technical Affairs, Vinyl Institute, Washington, DC

JC Walker, Partner, Keller & Heckman, Washington, DC

Should you have any additional questions about this you know where to find me.

Also, when I met with the Administrator a couple of weeks ago an invitation was extended to speak to the Oklahoma Independent Petroleum Association (OIPA) Annual Conference during the weekend of June 3-4 at any time he would be available. The conference is in Las Colinas, TX (Dallas metro area.) He seemed interested, but non-committal. Let me know if this is something he would be interested in doing.

Call me with any questions, Sydney. I appreciate you, A.J. Ferate

Tamara, I hope all is well with you and your current endeavors.

I know before Scott's world changed, he or his staff were trying to get with me to discuss his future. Obviously, I would be a big supporter of Scott's in any pursuit, just as I have been from the early days. We never connected mostly due to me being unavailable at the right times. Of course, shortly thereafter he deservedly was nominated to his current, prestigious position at the federal level. I'm so happy for and proud of him! I'd love the opportunity to say hello to Scott at the right time. I am in D.C. a couple of times a year for my work at MidFirst Bank, so perhaps I will get the opportunity to briefly check in with him at some point.

As I think you know, I work for the Records family that owns MidFirst Bank. Specifically, I work for Jeff Records, MidFirst's Chairman and CEO. Jeff has a good friend, Paul

Tosetti, who is Los Angeles based and works for the law firm Latham and Watkins. Paul reached out to us as a London-based client of his was hoping to get Scott to address their organization, perhaps in the House of Lords, later this year. Paul forwarded us a letter (attached to this email – note the confidential treatment requested below) that the organization addressed to Scott extending him this invitation. I do not know the organization and have no idea if Scott would have any interest in accepting the invitation to speak, but I agreed to attempt to ensure Scott at least received and considered the invitation given Paul's relationship with Jeff.

Paul included this excerpt from a prior email: "It's not a lobbying exercise – a London-based non-profit for which I do some work is hoping to get him to address their annual gathering (in the House of Lords, I believe). And while there's nothing of great sensitivity in the letter, the GWPF people would appreciate if it were kept in confidence. If Scott declines the invitation, and/or doesn't wish to receive any input regarding it except through official channels, that's of course 100% OK." In addition, I included below excerpts from Paul's most recent email I received and to which he provided the attached invitation letter.

Could you be so kind as to assist me in ensuring Scott receives the invitation and has an appropriate opportunity to consider it? That's my mission, regardless of whether Scott accepts the invitation or not. Please note that Paul has requested that the invitation be letter be kept in confidence.

Also, I know you've recently reached out to me to introduce me and others at MidFirst to Matt Pinnell. We should work on a date and time to make a meet and greet with Matt happen.

I hope our paths soon cross.

Take care,

Todd

The letter is attached. I appreciate your willingness to forward it along to an appropriate recipient.

While I know that the global warming/climate change debate can be deeply contentious, I have found the GWPF folks, though fairly described as skeptics, to be civil and reasonable in their work.

And while there's nothing controversial in the letter, please keep it in confidence.

Regards, and many thanks. Paul

As a former UK Energy Secretary, in the first Thatcher government, and subsequently Margaret Thatcher's Chancellor of the Exchequer, let me start by wishing you every success and the best of luck in your new post as Administrator of the US EPA.

I am writing to you now as founding Chairman of the Global Warming Policy Foundation (www.thegwpf.org) and of its campaigning arm, The Global Warming Policy Forum (www.thegwpf.com) to invite you to deliver our 2017 Annual Lecture.

This is the most important event of our year. Past lecturers have included Vaclav Klaus, the former President of the Czech Republic, John Howard, the former Prime Minister of Australia, and Owen Paterson MP, former UK Secretary of State for Environment, Food and Rural Affairs, all of whose lectures attracted excellent media attention.

Last January we hosted Myron Ebell, former head of President Trump's EPA transition team, who spoke very highly of you.

The subject matter would be up to you – preferably, of course, your thoughts on US climate and energy policy. The lecture would be subsequently published in printed form, as well as appearing on our website. It would be held at a high quality address in Central London on a date to suit you; but it is usually in October or November, which would be ideal from our point of view. The lecture would be followed by a private dinner in your honour for some thirty to forty guests.

I very much hope that you will be able to accept this invitation. I look forward to hearing from you.

Hi Sydney,
Thank you so much for pushing to get the ethics approval for us!

As for the travel issue, thank you for being candid on the process and the timing. I think at this stage I want to move forward and hope that things work out in our favor. I have a board meeting early next week and I will bring it up there as well to see what the general consensus is. Obviously having him out of the country would be problematic and not knowing until 2 weeks before makes that trickier. Thanks for continuing to hold it and let me know as soon as you hear anything.

Thanks so much,
Libby

Here is the feedback I received: "Yes, the Administrator may attend the event, and yes, he may receive the globe. But please do ensure that they refer to him as the Honorable (as opposed to the EPA Administrator)."

So, yay! It's been approved through ethics. The other hold up now is that I was told by our Chief of Staff yesterday that we could potentially be in Australia until the 13th now instead of through the 10th. I've still got the hold on the calendar with the ethics approval but to be completely candid the return date wasn't chosen for our last international trip until two weeks before. I am happy to continue holding though and we can sit tight for a bit to see if the trip is shortened. I'm sorry this has been such a process.

Thank you!

Hi Sydney,
Sure thing:

1) The event is called the ACYPL Honors Evening but the award itself doesn't have a name. In the last 5 years, it has been a globe engraved with the Honoree's name and the year that looks like the attached photo. If that's a problem, we don't have to do awards

2) We have been doing the Honors Evening since 1999. We have traditionally honored ACYPL Congressional alumni or friends, but that's only because we didn't have an alum in a Cabinet level position before. The list of past honorees is attached.

3) We will send out the attached invite (with his line changed to The Honorable Scott Pruitt (invited)) and will also be sharing it on our website under events <http://acypl.org/events/> and in emails to our alumni network

4) Yes, this is an fundraiser for ACYPL, which is a nonpartisan, non-profit 501(c)3 organization

And if you could let me know when his participation is approved, then we will remove invited from the invitation.

Thanks for your help Sydney!!
Libby

The Ethics department is asking me these questions about the event:

- 1) What is the name of the award?
- 2) How many years has this award program been in place?
- 3) Are there any communication materials about the award? (e.g., website, brochure, etc.)
- 4) Is this event a fundraiser?

Thanks Sydney, I appreciate your efforts. Do you any sense of how we can list him on the invitation, assuming everything goes through? We had asked you before if "The Honorable" was appropriate, and I wanted to double check on that.

Additionally, would we be allowed to send out the invitation with him listed as "invited" in the interim? I am just getting slightly anxious because we are about 3 months out and I would like to promote it to our alumni network.

Thanks again!

Libby

Hey Libby,

Hope you're well too! I am trying to get it nailed down. I have a hold on the calendar and I am working to get it cleared through Ethics. I'm sorry it has been a process! They are always hesitant about him receiving awards. Will keep you updated.

Hi Sydney,
Thanks for the update. Assuming it is cleared, should we list him as The Honorable?

Thanks,

Hi Libby,

Thank you! We have not yet been able to confirm with our ethics department if he is able to attend. And we have not been able to discuss fall travel yet but are hoping to this Friday. I will say though that if cleared by Ethics, he likely cannot have his title listed.

Thank you!

We haven't finalized the actual award yet, but it's usually a globe with his name engraved and it will not be a sit-down dinner, just a reception with passed appetizers. If you have any other questions, just let me know.

Hey Jahan,

It will be from 6:05 to about 6:10AM.

The address is 90 S 11th Street, Minneapolis, MN 55403. We don't have a parking lot, but there is usually plenty of parking right on the street that early in the morning.

When you get here, you'll want to go to the door off Marquette, across from the Hilton Hotel. There's a white button outside the door to buzz security.

Thanks for the opportunity, we are looking forward to having Scott on the show!

Thanks,

Bess

Yes that will work. How much time are we looking at 6:05 – 6:10 or 6:05 – 6:15a?

Then can I get the address and over the weekend I will put a backgrounder together on things we have accomplished at the EPA and why we are visiting Minnesota.

My name is Jahan Wilcox and I work for EPA Administrator Scott Pruitt.

Off-the-record, EPA Administrator Scott Pruitt will be in Minnesota next Wednesday and was curious if you/WCCO-TV would like to have him in studio to talk about some Pruitt's goals for the EPA. Specifically speaking, we will be in Minnesota to talk about repealing the Waters of the United States Rules (WOTUS), but you can also ask him other questions including regulatory rollback, why he persuaded President Trump to exit from the Paris Accord, and general environmental questions. This would be an exclusive for WCCO as we would not go in-studio for a similar event with KARE 11 or KSTP.

- **Aug. 2** (sometime between 7:45-8:30am)
 - o 15-Minute Live Segment – WIBC Radio downtown Indy (Administrator and Governor with host Tony Katz)
 - o 15-Minute sit-down interview with Hoosier Ag Today, a very friendly newspaper that targets Hoosier farmers, at the South Bend Chocolate Co. downtown Indy
 - o 2 minute walk/travel time to Governor's office

- **Aug. 2** (8:45-9:15am)
 - o 30-minute meeting at the Governor's office in the Statehouse
- **Aug. 2** (9:20-9:45am)
 - o Travel via State Police Vehicle to Mike Starkey Farms, Eagle Creek, Indianapolis
- **Aug.2** (9:45-10am)
 - o Visit Mike Starkey farms – local farmer who has extensive cover crops and is an optimal example of cover crop/water runoff protection that highlights why WOTUS was unnecessary overregulation. Mike's farm the prime example used by our Congressional delegation in our ongoing appeals to retract the rule.
- **Aug.2** (10am-11am)
 - o WOTUS Roundtable at Starkey Farm (15-20 farmers and Ag leaders including Farm Bureau, the LG/Secretary of Ag, and others)

Hi Stephen,

I think this should work. We will use this quote in a press release highlighting all the stops Administrator Pruitt makes during his visit to Texas. This quote will be included below the paragraph highlighting his tour of Toyota. Toyota previously announced it will invest \$10 billion over the next five years in the U. S., and the new headquarters is just one of those commitments to help grow American jobs.

We appreciate the opportunity to showcase our new Plano headquarters where we will soon have 4,000 team members working in a more collaborative way in order to better serve our customers."

Morning Rusty!

Since I work with Duane often (and just had him lend his signature to a letter to the General Assembly yesterday re: our strict 1mg/l Mn standard) I don't think it would be appropriate for me to attend without Duane having the opportunity. I will of course defer to you and understand the need to keep it small. I've already been given the opportunity to participate in a roundtable with the Administrator, so I'd be happy to not attend if you'd like to keep the invite list as is. Complicated, I know, but professionally I'd be stepping on toes and our working relationship.

Also, I spoke with Stefanko yesterday and looped him in so that he knows the contact is Lehigh and not Anthracite Council.

Supportive and flexible either way.

Best,

Rachel

Let's go ahead and add John Stefanko and Bill Plassio both from the PaDEP. So now the list looks like this:

1. Scott Kroh – President, Robindale Energy
2. Doug Topkis – Director, Lehigh Anthracite, LP
3. Walt Kaufman or Jerry Price, Kaufman Engineering
4. Mike Menghini – PaDEP, District Mining Manager, Pottsville office
5. Bill Reichert, Schuylkill Headwaters group
6. Jim Panaro, Executive VP, Seward Generation & Ebensburg Power
7. Jeff Specht – CFO, Lehigh Anthracite
8. Richard (Rusty) Taylor – CEO, Lehigh Anthracite
9. John Hadesty – safety director, Lehigh Anthracite
10. John Stefanko – PaDEP
11. Bill Plassio - PaDEP

As for DEP, you could extend an invite to John Stefanko the heads the Active and Abandoned Mine Program or Bill Plassio who manages the District Mining Offices. I know them both rather well. We didn't have anyone from DEP at Consol, but if you have a good relationship with Mike it could be beneficial.

5. Bill Reichert, Schuylkill Headwaters group
6. Jim Panaro, VP, Robindale Energy
7. Jeff Specht – CFO, Lehigh Anthracite
8. Richard (Rusty) Taylor – CEO, Lehigh Anthracite
9. John Hadesty – safety director, Lehigh Anthracite

I have trimmed my initial list considerably. I have not included anyone from ARIPPA, although Robindale Energy and Lehigh Anthracite are members. I have not included anyone from PA Anthracite Council (Duane Fegley). I have not included any local, State or Federal elected officials. Obviously, if either of you feel that someone should be included, let me know. Not everyone on the above list will be participating in the mine tour but will plan to join for the roundtable discussion.

Thanks for putting this together, Rusty. It looks like a strong program. Adding Millan who heads our scheduling and advance teams just for her situational awareness.

You are correct in that we would not have reporters and it would not be open to press. However, we would likely do a press release- or joint release/ statement- alongside Director Mulvaney on the backend and at the end of the day. Thanks for the intel on the outdoor footwear/ specs of the tour too.

Do you two mind shooting me a list of potential attendees once you have a chance to draft? I agree on there not being much of a need to include local elected given that we want to keep this small.

Thanks again in advance for your hard work on this.

Draft itinerary -

1 pm – arrive at Lehigh Anthracite main office, 1233 East Broad Street, Tamaqua, PA 18252

- All attendees meet in conference room, quick round of introductions,
- Anthracite 101 to provide attendees a better understanding of what they will see on tour.
- Bottled water available, recommend use of rest rooms before departing on field trip.

1:30 pm – tour begins with stop at observation area above coal processing plant

- Tour continues by traveling out main haul road to 2nd stop, observation area above active surface mining operation.

2:30 pm – group returns to Lehigh Anthracite main office for round table discussion.

Tentative topics –

- How is anthracite different than bituminous
- Uses of anthracite
- Challenges going forward
- Open discussion
- Closing remarks

Completed by 3:30 pm

The entire tour will be mostly in vehicle, very little walking, no underground mining. Attendees should wear outdoor foot ware, both stops to view coal processing plant and active surface mine will be in unpaved areas. Lehigh can provide hard hats and safety glasses.

Tate,

I have viewed several Youtube videos and read several articles of the recent trip by Administrator Pruitt to Consol in SW PA. My assumption is that this visit will consist of less PR, no reporters and a smaller group of officials? Will Administrator Pruitt want to make a public statement during this visit? Please give me as much incite as possible as to the Administrators objective for this visit so we can be prepared. Right now, I am planning for a very low-key, somewhat informal meeting and tour of our operations.

Hey Rusty! Nice speaking with you earlier today! Below is the information you requested and I look forward to receiving your tentative schedule.

The Administrator and Director Mulvaney's security details would likely do a walk through on October 1, the day prior to the event. They will want to go through the officials' agenda step by step, including the tour, seeing the boardroom and a quick view of any vehicles that may be used to transport the officials on the tour (if not theirs).

On October 2, we would look to do an afternoon tour (1 or 2ish) followed by a 45 min-1 hr roundtable to discuss issues impacting the industry.

If you can include more information on what to expect on the tour as well (lots of walking? Is any part of it underground?), that would be great!

Talk soon.

Mary,

Thank you again for this invitation. Administrator Pruitt is planning to attend, but we do have a few other conflicting engagements and need to see how things go early next week before firmly committing. Is that ok for now? We will definitely confirm as soon as possible.

Thank you and we look forward to it!

Hello Mary,

I work on Administrator Pruitt's scheduling team and Samantha Dravis passed along an invitation to the 9/20 BP BoD Dinner/NGA Event. We appreciate you extending the invitation. We are hoping to gather a few more details on this event. Could you share anything more regarding who will be there, the topic/purpose of event, if anyone is speaking and/or if you would like the Administrator to speak, etc? If it's not too much trouble, I've attached our speaker request form that includes details we typically seek for speaking events. Some of these may not be relevant to this invite, but would you mind providing as much as possible so that we are prepared?

Thank you and we look forward to responding back to you very shortly. Again, thank you for including him in this event.

Subject: Description for SIGMA On-Site Program Book

Hi Jahan,

Below is the description we would like to include in our printed conference program book that is only distributed on-site once our Annual Conference has begun. Please let me know if it is approved.

A Conversation with Scott Pruitt, Administrator, U.S. Environmental Protection Agency

In an exciting opening to the SIGMA Annual Conference, join Brad Puryear, Chairman of the SIGMA Legislative Committee, for a conversation with Scott Pruitt, Administrator of the U.S. Environmental Protection Agency. Hear Administrator Pruitt's perspective on EPA's actions to assist our industry in keeping the fuel supply flowing in the aftermath of Hurricanes Harvey and Irma. Hear his insights into the current issues surrounding our industry today, from regulatory policies to renewable energy. Don't miss this unique opportunity to hear directly from Administrator Pruitt as Brad converses with him about the state of the fuels industry, EPA's future, and SIGMA's priority issues in a unique one-on-one format.

I hope to have a sign proof for you early next week (to put in front of the ballroom where Administrator Pruitt will be speaking).

I have thought some more about on-site trade press (we do have some press registered that are there to cover our conference) and I have the following thoughts:

- If we alert them ahead of time that the session is off the record or that they may not attend, that will send up red flags – which we want to avoid
- We can do any of the following:
 - prevent them from entering the ballroom (but they will know he is speaking and could reference in their reporting that they were kept out of the room);
 - allow them to enter but declare the session off the record (also print that in the program book); or
 - allow them to cover the session.

Please advise. Happy to hop on another call to hash it out.

Neal and Kate-

Lincoln and I just updated the Administrator on the 4 media reps that are now attending as well as the plane/ billboard situation. Given these circumstances, he'd like to respectfully request that the entire format now be Q&A with two chairs on stage (and no need for a podium). I know this is different than a typical ("talk at you") speech, but we all agree it might be more informative for everyone in the audience. Can either of you run the traps and confirm this format prior to our arrival?

Here are a few additional questions for Todd to consider and thanks for your understanding!
See below:

What is your relationship with the President and what has it been like to work with him?

Earlier this week, you issued a directive to get rid of the abusive sue and settle process at the EPA in which special interests develop policy with agencies behind closed doors. Could you explain what your directive on the issue does?

The left strictly defines "environmentalism" and designate "environmentalists" as an exclusive, limited type of crowd. What is your response to this? What do you consider true environmentalism?

Regarding the “Waters of the United States” (WOTUS) rule you are working to properly define as what “navigable waters” should be under the Clean Water Act.....What are your goals as you conduct a re-evaluation?

Are you working to include a streamlined permitting process at EPA as a part of the President's infrastructure package? Should it be included?

What has it been like to run such a newsworthy agency? More difficult than you imagined?

Hi Tate,

Thanks for helping to set this up! Early morning is probably best if possible (8am would be great), although later morning can work as well if that's too early.

Location I think is flexible--midtown would probably make sense, and I can get you a specific suggestion or two once I organize the rest of the attendees, assuming that works on your end.

Looking forward!

Hi Millan,

I am sorry but I was in meetings all day yesterday. I believe there are some new updates from what I understood from Rick this morning.

We are looking into the setting up the meeting between Mr Terrab and Administrator Pruitt. Mr Terrab will most likely be in Marrakech that entire week.

Also, there was a discussion on a potential MoU being signed, could you let me know if this is still on the agenda? If so we would need a draft or basic guidelines on what subjects it would cover to submit to Rabat.

Many thanks,

Isam

- 1- Mr. Pruitt, you are travelling for the first time to Morocco as head of the Environmental Protection Agency to meet with the Moroccan officials and discuss a range of issues related to Morocco-US cooperation in the field of environment. What do you expect to take care away from these meetings?
- 2- How do you see the prospects of continued cooperation between Morocco and the US in terms of environment protection and legislation?
- 3- As you know, Morocco has made remarkable strides in the protection of the environment and in renewable energies, and is expecting to produce half of its electricity from renewable energies in the foreseeable future. What can you say about that experience?

4- The FTA between Morocco and the United States includes a chapter on the environment. Do you have the intention to discuss with the Moroccan authorities activating this chapter when you meet them?

5- How do you view the perspective of bilateral cooperation in waste management?

6. Mr. Pruitt, we know that you are a strong believer in inter-religious and inter-cultural dialogue. What do you think about Morocco's leadership in promoting a tolerant reading of Islam that rejects violence and extremism and embraces dialogue between religions?

Dear Ms. Hupp,

Thank you for your e-mail.

Please note that 2 members of my team will meet with Mr. Mc Murray this afternoon at the University Mohammed VI Polytechnic (UM6P) to go through the details of the visit.

The University is about 1 hour away from downtown Marrakech. If you leave Rabat at 12pm and consider 2-2,5 hours visits/meeting, the Administrator will be able to be in Marrakech around 6:30 (early evening, sunset is at 5:30pm). Let us know if this works.

The presentation will be a short 15/20 min overview about OCP and the UM6P strategy and development prospects.

We are looking forward to meeting you and Mr. Administrator at UM6P.

Best Regards,

Hakim

What, may I ask, is the distance to Marrakech from this facility? If there is time Tuesday

evening, the Administrator would likely enjoy the opportunity to visit the medina but I want to ensure we have enough time at the University.

May I kindly request a few more details regarding the presentation?

Also, thank you so much for the generous offer to provide lunch. We plan on ensuring the Administrator and his staff eat before departing Rabat so it will not be necessary to provide a meal.

What we don't want to happen is to have the session disrupted by those who see that the Administrator is attending and want to distract from the event. If your team can take extra care to prevent that, we would appreciate it.

Hi Millan and Forrest,

This email is a bit long, so apologies in advance. I tried to get as much information in one place as possible.

First, I have attached a few things to this email (5 documents):

1. A speaker sheet for the administrator which has a room diagram and reflects many of the details that Millan and I spoke about with our producer, JoAnna, in our production call
2. A schedule of events for the Administrator
3. Two lists of attendees for the reception (titled SIGMA Board and Guests and NATSO Board)
4. The outline of the conversation with Brad Puryear for your review – please feel free to edit/craft the topics as the Administrator prefers. (it is likely longer than we have time for, but includes topics that will be brought up if time allows)

**this also includes the introduction we have mocked up for the Administrator – please edit as you see fit*

You'd asked about some bullet points on SIGMA. I've put a few here, but have also put, below my email signature, a brief "About SIGMA" for you that profiles our association and membership.

- Founded in 1958 (next year is our 60th Anniversary!)
- Approximately 260 corporate members
- Membership in both the US and Canada

- Those members control more than 50% of the petroleum retail market
- They sell approximately 80 billion gallons of motor fuel each year
- SIGMA represents the most successful, progressive, and innovative fuel marketers and chain retailers in the United States

Question for your team:

1. Brad would like to match the dress code that the Administrator prefers when he speaks – I assume the Administrator almost always appears in a jacket and tie?

Regarding the question from your ethics office, the per person dollar amount for food & beverage during the Administrator's time with SIGMA is \$6/person.

On site, I will serve as your main SIGMA contact for the meeting. Security concerns or questions can be addressed directly with the hotel contacts, as they will be much better equipped to answer your questions than I! My cell number is Personal Phone/Ex. 6 – you're welcome to call or text me as needed for the event. I will be on site in Chicago by Monday afternoon the 6th.

Forrest and I have a walkthrough scheduled for Tuesday at 1pm and will meet at Eric on the 2nd level of the hotel. We'll go through the details and can address anything on site that might come up.

If you are missing any information or have questions, please don't hesitate to reach out. Thank you so much and we're very excited about the event!

Best,
Liz.

About SIGMA

Founded in 1958 as the Society of Independent Gasoline Marketers of America (SIGMA), SIGMA has become a fixture in the motor fuel marketing industry. After nearly sixty years of leadership, SIGMA is the national trade association representing the most successful, progressive, and innovative fuel marketers and chain retailers in the United States. From the outset, the association has served to further the interests of both the branded and unbranded segment of the industry while providing information and services to members.

SIGMA's approximately 260 corporate members command more than 50 percent of the petroleum retail market, selling approximately 80 billion gallons of motor fuel each year. These member companies operate throughout the United States and Canada.

Regular membership in SIGMA is available to companies involved in motor fuel retailing or wholesaling that are not owned by a refiner. In addition, Associate membership is available to fuel supplier companies and to companies that offer financial services, fuel transport services, and fleet card services. SIGMA member companies have long been recognized, both within and outside the industry, as the most aggressive, innovative, and price competitive segment of petroleum marketers.

BRAD PURYEAR

(ends self-introductions)

...and I'm Brad Puryear, Mansfield Energy, Gainesville, GA.

Today we are thrilled to have with us a very special guest – the 14th Administrator for the Environmental Protection Agency, Scott Pruitt. Confirmed to the position on February 17th of this year, he is recognized as a national leader in the cause to restore the proper balance between the states and federal government.

Administrator Pruitt has a long career as a civil servant, serving eight years in the Oklahoma State Senate before being elected Attorney General for the State of Oklahoma, establishing the state's first federalism unit to combat unwarranted regulation and overreach by the federal government.

I would be remiss if I didn't take this opportunity to give our thanks and appreciation on behalf of our industry and the American public to the Administrator for helming the EPA's quick and decisive response to Hurricanes Harvey and Irma earlier this year. His leadership inspired the rapid action taken by the agency to issue countless waivers for our industry, ensuring the flow of product did not stop to the affected areas, keeping emergency services functioning and getting the affected states back on their feet much faster with a steady fuel supply to keep the recovery efforts moving.

SIGMA is proud to welcome to the stage Administrator for the EPA, Scott Pruitt.

General Starting Information

- We all have in our minds what we *think* the EPA does and what your role is as Administrator, but what really defines your position?
- What is the full scope of the EPA?
 - Air and water quality, various specific environmental issues
 - Regulation/deregulation
 - Policy making and ensuring fair and effective enforcement of existing federal laws
 - All forms of energy (petroleum, renewable, nuclear, etc)
 - Human health (protect from significant risk)
- What led you to decide to serve in the role?
- You have a unique perspective of the EPA, as a private citizen, a state official and now as the leader of the agency– What have you found most surprising about the role/function of the EPA?
- What is the most common misconception that the public has about the agency?
- Regarding laws and regulations (two different things)
 - First discuss the difference of federal law vs. regulation (where does each originate, who enforces, easier process vs. harder process)
 - Once a law is on the books, it's usually a broad scope – how does something like that work when it moves to the agency level? Who is responsible for the interpretation of that law into agency policy?
 - What do you see as EPA's role? Is the Agency a resource for industry, one that guides and facilitates compliance with environmental regulation? Or is the primary role to enforce environmental laws and policies?
- With each administration, different philosophies come into play at the various agencies – how much oversight does an administration have at an agency like the EPA? And do you see the courts adapting to different EPA philosophies?
- What strikes you as the biggest challenge facing the EPA? And the biggest opportunity?

Renewables

- How sensitive is the EPA to the blend wall and how does the agency measure it?
- Biodiesel, bio-gas, other bio fuels
 - Do you see a future to drive homogenization of transport fuels to lessen regional and seasonal blends? (it would lower costs and help in crises situations)
- Does the EPA have a stance on natural gas as a transport fuel? Is there thought to helping spur that into adoption as an abundant resource?
- Renewable energy
- EPA perspective on the electric vehicle
- As we draw closer to 2022, in what ways do you plan to improve the RFS program?

Agency Interaction

- State interactions
 - How does the EPA work with individual state organizations?
 - Example: How does the EPA interact with organizations like the California Air Resources Board, the Oklahoma Water Board, Texas Water Development Board, or the Virginia Air Pollution Control Board?
 - What is the historical relationship that the EPA has had with states? Do you foresee more/less latitude with those relationships under your tenure?
 - Are there other ways in which the EPA and State Agencies work collaboratively?
 - When it comes to enforcement philosophies, do you see a partnership with state agencies/policies that could relieve a bit of the process?
 - Example: New York has both federal and state inspectors for the same tanks – is there a way to make those dual inspections less of a frustration for companies?
- International
 - Global issues seem to be more top of mind in recent years – do you as EPA Administrator work with your contemporaries from other countries on issues?

Wrap Up

- The EPA will be around long after this and many more administrations – what kind of institutional knowledge would you like to leave for those future administrations?
- How can we as an industry be of assistance to the goals of the EPA?

2017 SIGMA Annual Conference
Administrator Scott Pruitt

Today we are thrilled to have with us a very special guest – the 14th Administrator for the Environmental Protection Agency, Scott Pruitt. Confirmed to the position on February 17th of this year, he is recognized as a national leader in the cause to restore the proper balance between the states and federal government.

Administrator Pruitt has a long career as a civil servant, serving eight years in the Oklahoma State Senate before being elected Attorney General for the State of Oklahoma, establishing the state's first federalism unit to combat unwarranted regulation and overreach by the federal government.

I would be remiss if I didn't take this opportunity to give our thanks and appreciation on behalf of our industry and the American public to the Administrator for helming the EPA's quick and decisive response to Hurricanes Harvey and Irma earlier this year. His leadership inspired the rapid action taken by the agency to issue countless waivers for our industry, ensuring the flow of product did not stop to the affected areas, keeping emergency services functioning and getting the affected states back on their feet much faster with a steady fuel supply to keep the recovery efforts moving. SIGMA is proud to welcome to the stage Administrator for the EPA, Scott Pruitt.

I was wondering whether Administrator Pruitt would be willing to sit for an interview either before or after his Convention appearance? It should take about 30 minutes.

Good morning Millan,
DEPA would be honored to have Administrator Pruitt attend our 2018 Retreat in Oklahoma City, Oklahoma from January 8th-10th. We have a tentative schedule right now and would be able to work around his schedule. He is welcome to attend all three days or whatever works best with his schedule. Please see attachment for a formal invite.

I look forward to hearing back from you,
Sarah

Administrator Pruitt,

It is with great pleasure that the Domestic Energy Producers Alliance Board of Directors invite you to the 2018 board retreat in Oklahoma City, Oklahoma on Monday, January 8th to Wednesday, January 10th.

We expect to have about 40 energy, oil and gas leaders from around the country, and would like Administrator Pruitt to speak to our group.

This event will be closed to the press.

Sincerely,

Pete Regan

Kelsi,

As we discussed on the phone, we'd like to get 5-10 minutes with Administrator Pruitt after he addresses our group on Friday morning. *Living with Energy in Iowa* magazine is owned and published by the Iowa Association of Electric Cooperatives and is mailed out monthly to 58,000 rural households and businesses throughout the state. Pruitt's interview and a photo or two of him interacting with our group would appear in the January issue and we would allow you to review the article before going to print.

Here are some proposed questions we'd like to ask him:

1. What does your "back to basics" energy policy mean for Iowans?
2. Some electric cooperative members want to see more investments in renewable energy rather than relying on traditional fossil-fueled generation, such as coal. How will your plans address their concerns?
3. When it comes to electric generation, how can rural Iowans be most effective in being stewards of the environment?
4. You frequently mention changing the culture of the EPA, what does that "look like" for Iowans?
5. In reference to natural resources, you've been quoted as saying "Let's use them to feed the world. Let's use them to power the world. Let's use them to protect the world." What grade would you give Iowa in doing these things (ask for examples...)?

Let me know if any of these give you heartburn. This would be a friendly interview environment and we're keeping the conversation focused on Iowa consumers.

Thanks!

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Hi Becky,

It was nice talking with you by phone earlier this evening! I just tried you at your house number you gave me, but got the answering machine. I understand it's late so we can talk tomorrow, but I did want to get you this information as soon as possible.

As we discussed, we had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. As I know your folks will be booking flights very soon, we are hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

Ok, I will hold 2-3PM on Tues, Dec 12 for him to be at Heritage. As we get closer, we can identify staff that may be able to join as well and perhaps stay for a longer portion of the meeting. Let me know if you need anything as the date approaches.

Hello Becky,

I wanted to follow up on this. I'd be happy to schedule an hour-long session for you with Administrator Pruitt. How would Nov 7 work? 3-4PM would be a good time for us that day. Alternately, we could do Dec 12 in the afternoon.

Let me know which works best and I will hold that time.

PHOTOS: EPA Administrator Pruitt Makes Stops in Iowa

Nevada, Iowa (December 1, 2017) — Today, U.S. Environmental Protection Agency (EPA) Administrator Scott Pruitt visited Iowa and met with the Iowa Association of Electric Cooperatives (IAEC), state officials, and farmers to discuss ongoing partnerships with the Agency.

"I was encouraged by the open dialogue with members of the electric cooperatives, Governor Reynolds, and Iowa farmers," **said EPA Administrator Scott Pruitt.** "We must continue to strengthen our partnerships with state and local leaders to further our goals of bringing regulatory certainty and clarity for Iowa and across the country."

Administrator Pruitt started the day at the IAEC annual meeting where he addressed more than 500 leaders from across the state about EPA's proposal to repeal the Clean Power Plan (CPP) and proposal to rescind the 2015 "Waters of the United States" (WOTUS) rule.

"We were honored to have Administrator Pruitt address our 500 attendees during our statewide annual meeting this morning," **remarked Chuck Soderberg, executive vice president of the Iowa Association of Electric Cooperatives.** "Iowa's not-for-profit electric cooperatives are committed to providing power that is safe, reliable, affordable and environmentally responsible. Hearing from Administrator Pruitt today made us feel confident the EPA is listening to our needs and concerns. We commend him for working to provide a common-sense regulatory framework that gives electric co-ops flexibility and certainty to meet the needs of our member-owners."

Following the electric cooperatives meeting, Administrator Pruitt met with over 150 Iowa farmers at a farm in Nevada. The dialogue was focused on the WOTUS rule, long-term plans for the Renewable Fuel Standards (RFS) program, and EPA's new standards for the use of the pesticide dicamba. Governor Kim Reynolds (R-IA) and other state officials joined Administrator Pruitt for the

discussion.

Hi Millan,

I am sorry but I was in meetings all day yesterday. I believe there are some new updates from what I understood from Rick this morning.

We are looking into the setting up the meeting between Mr Terrab and Administrator Pruitt. Mr Terrab will most likely be in Marrakech that entire week.

Also, there was a discussion on a potential MoU being signed, could you let me know if this is still on the agenda? If so we would need a draft or basic guidelines on what subjects it would cover to submit to Rabat.

Many thanks,

Mr. Martella,

Good afternoon to you. Yes, we have you held on the calendar for Wednesday, October 4. We currently have a commitment that morning in DC but expect to be able to get the Administrator into Cincinnati by 1130AM. Additionally, he must travel to Colorado Springs that evening on a 4:50PM flight. Kindly let me know if a timeframe of 1230PM – 330PM might work for what you are envisioning.

Thank you so much for your consideration and I look forward to hearing from you. I have copied Hayley Ford on this email as well as she is assisting us in Scheduling and is likely with whom you will be working.

Ryan and Samantha—I hope you are both well. I am following up on the brief discussion with Administrator Pruitt regarding additive manufacturing in the

conversation regarding the ICAO aircraft standards.

Attached is an invitation for Administrator Pruitt and his team to visit GE's industry leading additive manufacturing facility in October. We are confident this will be a valuable educational opportunity and something that transforms the way manufacturing is thought about in the future.

This could be scheduled as a day trip to Cincinnati. We propose October 4 but will be flexible around the Administrator's preferences.

Please let me know if I can answer any questions. We look forward to seeing you then. Thank you -- Roger

I work on Administrator Pruitt's team with Liz Bowman. She forwarded me your below message and I wanted to touch base regarding this event. We are very much looking forward to it, but we just recently had some out-of-town travel surface that needs to happen around the time of this event. It is now looking like we will be out of town that week of Dec 11. Therefore, I was hoping that we could move the date of this event. I sincerely apologize for the inconvenience that this causes but I'm hopeful that we can still make this a great event with strong involvement.

In offering other dates that would work for us, we could do Dec 4 mid-afternoon, Dec 5, Dec 6, or Dec 7 afternoon. Would any of those dates work for you?

Please let me know. We really appreciate you working with us on this and can't wait to address the group. Thank you for understanding!

As promised, I wanted to touch base with you about Administrator Pruitt's December 13 event at the Hoover in Washington, DC office. When we talked a month or so ago we settled on the following:

- December 13, 11am-Noon
- off-the-record with no live stream
- recorded for possible future [Opening Arguments](#) podcast if your office provides permission
- invite only with approximately 40 people

Just wanted to make sure this was still agreeable. If so, Erin will be working a draft invitation to share with you for approval. We will also provide you with a list of those we intend to invite. If there is anyone on your end you want to make sure gets an invitation please send us the name, email, and affiliation.

In the meantime, if you have any questions or concerns feel free to contact me. We look forward to hosting the Administrator in December.

Hi Paige – I work for EPA Administrator Scott Pruitt and your email below was passed along by our scheduling team. I'm reaching out to see if you can share some more detail about the November Opening Arguments event. Can you tell us a about that event and the format? Would the Administrator be speaking alone at a podium, or would his remarks be part of a panel or a moderated conversation? Who will be in the

audience – and how many people would you expect? Is the event open press, or is it streamed live online? Would you plan to announce the Administrator's participation in advance of the event?

Any additional details you can share will be helpful to us as we determine what is possible in the Administrator's schedule.

Thank you,

Amy

Dear All,

Hope you are all enjoying a somewhat quiet August. Just wanted to touch base with you again about rescheduling Director Pruitt's event at Hoover DC. Adam White suggested having the Director as an Opening Arguments guest in November 2017.

As we discussed before, we can make this more of an invite only event and closed to the general public. Let us know some dates that might work for the Director in November.

All the best,

Paige

Team –

Ryan Jackson has just issued instructions to have all AO FOIA releases reviewed by the FEAT team prior to distribution for awareness review by the political team. Please send Becky Dolph all proposed releases that are currently in the awareness review process, as well as all future proposed releases. At the conclusion of her team's review, they will forward the proposed release for the political team's awareness review. They will cc both the AO FOIA professional responsible for the request and me. At the conclusion of the awareness review period, I will sign the response letter, and we will upload the responsive documents to FOIAonline and release them to the requestor as per usual.

Jonathan –

Please communicate this guidance to the other AO FOIA professionals.

Let me know if you have any questions. Thanks.

Due to the large amount of FOIA requests we are receiving, I am concerned that we are getting flooded without a new process to address this new problem. Working with the OGC, I am issuing the memo detailing a new process within the Office of the Administrator for responding to FOIAs with attachments on Q&A, next steps for the specific offices involved, and a general description of the new process. The attachments also include a memo for you to send to your offices regarding the new process.

MEMORANDUM

FROM: Ryan Jackson, Chief of Staff

TO: Kevin Minoli, Acting General Counsel
Steve Fine, Acting Assistant Administrator, Office of Environmental Information
Samantha Dravis, Associate Administrator for Policy
Troy Lyons, Associate Administrator for OCIR
Liz Bowman, Acting Associate Administrator for Public Affairs
Brian Hope, Acting Director, Office of the Executive Secretariat

SUBJECT: Office of the Administrator FOIA Centralization Pilot Project

By this memorandum, I am asking you to implement a pilot project centralizing all incoming Freedom of Information Act requests directed to the Immediate Office of the Office of the Administrator, the Office of Public Affairs (OPA), the Office of Policy (OP) and the Office of

Congressional and Intergovernmental Relations (OCIR) consistent with the attached project description.

This pilot project is anticipated to enhance the Agency's ability to provide effective and efficient FOIA production in response to the many FOIA requests directed to these four offices. Additionally, the pilot project will generate information on the benefits of increased centralization of FOIA processing responsibilities at the EPA and the resources necessary for such centralization. This information will be used in making near-term decisions regarding the potential increased centralization of FOIA at the Agency.

While I realize that the project will take time for full implementation, I ask that your offices begin those implementation efforts immediately. I have attached a cover memo and attachments for you to use to communicate this project with your staff and ask that you disseminate this information Monday.

Thank you for your willingness to assist in our efforts aimed at enhancing the overall efficacy of the Agency's FOIA program.

Jonathan, Victor, and Ana:

Thank you so much for the meeting yesterday! It was great to sit down with all three of you and get some face time and discuss the different FOIA requests that touch upon OEX.

Just to recap what we discussed:

- You all have the spreadsheet that tracks the Transition and Post-Inauguration FOIA Requests received by the Agency. I will continue to update this, including when items are submitted to E-Discovery. I am attaching the pdf version of that spreadsheet from yesterday.

- **(b)(5) attorney-client**

- **(b)(5) attorney-client**

- For FOIA requests where another office is assigned as the lead office (such as OPA), the lead office will issue a records search task to you, so please process the records, upload the records, and close out the task. The lead office will issue the disclosure to the requester. Please let us know when you have completed the task so that we can work with the lead office to coordinate an awareness review and disclose the records.

Thank you all so much for your hard work. I know it goes without saying, but as the lead office for your requests, please keep completing your administrative responsibilities, such as issuing ten-day letters, or unusual circumstance letters, managing the clock, and assisting in maintaining the administrative record. This is one of the largest FOIA projects at the agency, with now nearly over 400 requests. Your work and your assistance is invaluable, and helping us to shoulder this burden is greatly appreciated.

Subject: Recap of Yesterday's Meeting

Jonathan, Victor, and Ana:

Thank you so much for the meeting yesterday! It was great to sit down with all three of you and get some face time and discuss the different FOIA requests that touch upon OEX.

Just to recap what we discussed:

- You all have the spreadsheet that tracks the Transition and Post-Inauguration FOIA Requests received by the Agency. I will continue to update this, including when items are submitted to E-Discovery. I am attaching the pdf version of that spreadsheet from yesterday.

- **(b)(5) attorney-client**
[Redacted]

- **(b)(5) attorney-client**
[Redacted]

- For FOIA requests where another office is assigned as the lead office (such as OPA), the lead office will issue a records search task to you, so please process the records, upload the records, and close out the task. The lead office will issue the disclosure to the requester. Please let us know when you have completed the task so that we can work with the lead office to coordinate an awareness review and disclose the records.

Thank you all so much for your hard work. I know it goes without saying, but as the lead office for your requests, please keep completing your administrative responsibilities, such as issuing ten-day letters, or unusual circumstance letters, managing the clock, and assisting in maintaining the administrative record. This is one of the largest FOIA projects at the agency, with now nearly over 400 requests. Your work and your assistance is invaluable, and helping us to shoulder this burden is greatly appreciated.

Ryan- We investigated this and I wanted to report out what we learned. Bottom line: this was the result of an error by an employee in OW who uploaded them to a section of FOIAonline that was publicly available rather than the internal section of FOIAonline where we have historically uploaded documents that were undergoing the final awareness review. We have historically uploaded them to an internal section of FOIAonline as an efficiency because that could be done while the final review was occurring, and changes could still be made before the documents were published to the public side. My understanding is that the employee was Acting for his manager and may not have been very familiar with FOIAonline. To ensure this scenario will not happen again in the context of a FEAT FOIA, we will change our process so that nothing is uploaded at all until we have the final set of documents and their production has been authorized. As this was an inadvertent release, the documents were taken down yesterday. **(b)(5) deliberative**

Becky, thank you. Very helpful.

Liz and Becky, Larry is going to start treating everything on Becky's weekly list as of interest to the AO until he receives Liz's list of what she's actually interested in. That will further reduce the chance that something slips through without notification. I'll work on setting up a meeting for us next week to discuss other refinements to the process.

Larry Gottesman is the National FOIA Officer – he is in OEI under Steve. FOIA requests for HQ come into Larry's office and his office then assigns them to a program office for response. It is from this system (as well as the requests that come in directly to the Regional Offices) that I review and pull the selected requests that are in the report that I send around on Fridays. If I don't hear from Liz by Tuesday, I send her a reminder to let me know of the ones she would like to see and she gets back to me promptly. I then distribute that list to Brian Hope (OEX) and to Larry Gottesman. FOIAs assigned to AO are OEX's responsibility (now in conjunction with the FEAT). If the requests marked by Liz are not assigned to the AO or are not otherwise being managed by the FEAT, Larry is responsible for letting the assigned office know of the need for awareness review prior to release.

The response was completed before that request was tagged in the system for attention.

Timeline:

Mon 7/24: Request received

Fri 7/28: Becky sent weekly list of requests that could be of interest

Tue 8/1: Liz told Becky the ones for which she'd like advance notice

Wed 8/2: Becky relayed that information to the National FOIA Office and ORD releases response

Two suggestions:

- 1) In the short-term, Liz also sends list of those of interest directly to Larry Gottesman
- 2) When Becky is back from leave, she, Liz, Larry, and I meet to make the process a little more robust without adding much complexity. (e.g., how avoid additional delays when people are on leave)

Team –

Ryan Jackson has just issued instructions to have all AO FOIA releases reviewed by the FEAT team prior to distribution for awareness review by the political team. Please send Becky Dolph all proposed releases that are currently in the awareness review process, as well as all future proposed releases. At the conclusion of her team's review, they will forward the proposed release for the political team's awareness review. They will cc both the AO FOIA professional responsible for the request and me. At the conclusion of the awareness review period, I will sign the response letter, and we will upload the responsive documents to FOIAonline and release them to the requestor as per usual.

Jonathan –

Please communicate this guidance to the other AO FOIA professionals.

Let me know if you have any questions. Thanks.
