

## About Us

The Alliance for Jobs and Affordable Energy (AJAE) is an organization dedicated to educating voters, employers, employees, and the general public about the negative economic impact of Congress' Cap and Trade legislation - also known as the American Clean Energy and Security Act - which is now being considered by the U.S. Senate.

AJAE is comprised of advocates committed to keeping America's economy stable and growing, while encouraging environmentally sound solutions to protect our planet for future generations. We represent individuals, families, consumers, and small business owners who consider themselves economically realistic and environmentally aware.
