

ONE OF THE MANY

Confession of a Male Christmas Shopper.

Experiences in Buying Presents for the Family.

Like All Men, He Knew It All—At First.

Made a Beautiful Collection of "Gold Bricks."

Swindled All Around and Wholly Forgot His Wife.

My sympathies go out to the man who is obliged to do the Christmas family shopping. The undertaking was not of my kind, it was thrust upon me. Never mind the reason.

Heretofore I had, however like, criticized the shop and business manner in which women follow their Christmas shopping. After my own experience in this factor, and hereby agree to hold my tongue forever on that subject. There's nothing like giving one a dose of his or her own medicine, after all.

Big Demand for Flowers.

Dealers Keep Busy Filling Numerous Orders—Roses, Carnations, Violets and Lilies of the Valley Popular with All.

Despite the fact that, according to the florists, the demand for flowers is not so great as it was yesterday, the flower shops yesterday presented a gay and busy appearance. All day long, in and out of the doors of the principal florists flowed a steady stream of customers.

Mark for the Auctioneer.

Encouraged at my first purchase, I went for a half-dozen cups and saucers to be put up. The auctioneer said that they never cost less than 50 cents apiece in Japan. Then he explained that the freight had to be paid on them.

Conservatory of Music Girls Have a Merry Time.

The annual "corn stringing" party of the conservatory of music students was held last evening in the general manager's office. It was a jolly gathering.

Forget His Wife.

My wife is in bed and propping for me. I have had a very successful day in my shopping. I have bought a number of nice presents for the family.

THE BOSTON GLOBE

THE 20TH CENTURY.

Continued from the Fourth Page.

What Our Street Transportation Will Come To.

Fred William A. Hancock is one of the men who believe that the growth and welfare of Boston depends as much upon the improvement of our harbor as upon any other single factor.

Smoko, Dust and Noise Must Go.

Dr. Samuel H. Dugan, chairman of the Boston board of health, when questioned as to probable future progress along the lines in which he is interested, said: "I am so much absorbed in the problems of public health that I cannot give you a definite answer."

Industrial Education Will Progress.

There are many thoughtful people who believe that the most serious problem confronting Boston is the industrial education of the new generation.

Letters Will Come by Tube.

Speaking of the probable future development of the pneumatic tube system, George A. Hibbard said: "I believe that the coming century will witness a marked extension of the pneumatic tube system."

Boston to Portland in an Hour.

According to the ideals of general manager W. H. Chamberlain of the New York, New Haven and Hartford railroad, the time to come not only will be a more rapid mode of travel, but it will also be a more comfortable one.

Our Harbor Will Marvelously Expand.

Rec. E. C. Preston of the Boston chamber of commerce, when asked to describe the port of Boston in the year 2000, as it appeared in his prophetic vision, said: "This subject is of course, a very speculative one, but I will present to you a few ideas."

DA OF IMPORT TO MILFORD PARISH.

Thirty Years Ago First Mass Was Celebrated in St Mary's Church.

St Mary's Church.

St. Mary's parish has an additional significance to its great importance in the church, for on that day mass was first celebrated in the auditorium of the newly completed, massive granite church, almost a cathedral in its proportions.

Summer and Winter Steamships.

Capt. Ernest W. Kinney of the steamship Prince Arthur, plying between Boston and Yarmouth, N. S., said: "What we need is the development of a constant winter steamer service between Boston and Yarmouth."

Salvation Army Wedding.

Woburn, Dec. 21—The novelty of a wedding attracted a crowd at the hall of the Salvation Army this evening. An arch of evergreen and holly, with flowers at intervals, had been erected on the platform.

Our Weather Will Still Be With Us.

There is one thing which The Globe, in its 20th century canvass, has been obliged to "pick up" and that is the subject of Boston weather in the coming period of progress.

Base Ball May Be Played at Night.

There are those who believe that the Boston baseball club will be obliged to play at night as well as by day, inasmuch as the illuminating power of the city is so important.

\$30,000,000 Grude Rubber Company.

TRENTON, N. J., Dec. 21—The International crude rubber company, with an authorized capital of \$30,000,000, was incorporated here today to manufacture and distribute in this country.
