Ship shirts to Yolanda Pollard, Entergy New Orleans, L-MAG-505, 1600 Perdido ST, New Orleans, LA 70112.

250 total shirts which means that you need to print 165 more of them (since 85 are already done and spoken for)

No prob. It's much easier and less complicated for us to deal directly with the shirt vendor.

With that said, I'm mindful of the inconvenience so I can defer the bill until I can add it to another larger invoice so you don't have to cut multiple checks.

Considering that we now have 85 shirts ordered, did you want 250 additional ordered (\$4500 at \$18/shirt) or 165 ordered so there would be 250 total(\$3300 at \$20/shirt)?

Last question, since we aren't providing 250 people, where are we distributing the remaining shirts?

Cheers

Please go w 250 shirts.

Ask your vendor if I can call them with an Amex card number. These wires and overnight checks are getting annoying and highly inconvenient
