Here's a game plan that I sent out. I changed the April 2nd. Training for April 8th and notified all of the players. That was based on a recommendation from Dean, who brought some things to my attention.

I'm just trying to let you know that I'm trying to keep everything flowing.

Thanks

All Personnel:

Looks Like I got a Dream Team for this Active Shooter Exercise and SOP.

I have attached the Draft Policy that I will be submitting to the Deputy Chiefs and Chief. I understand that some of you have some experience with the SAVE program. I can appreciate that, and I know that you will add value to this project. The policy draft that I have added is close to SAVE. Let me also remind you that I've had to adapt to the "Infamous Video" and some minimal information that was passed on to me. Let me also add, that I have studied this subject and had a great appreciation to the Tactics used by industry leaders, all before SAVE was the big push.

With that being said, I ask that you review the policy, it is not to be share at this point with anyone that is not directly involved. I am counting on you to be rumor control, by not sharing this information. I've been told that there maybe some resistance. Having the word get out, before you can speak based on the training and experience may cause some confusion and unnecessary anxiety. I believe that once you get the training and complete the exercise; all of

you will be able to speak based upon training and experience.

Also, the RTF Medical OPS. (4.0) piece of the policy is being completed by EMS. It is basically the same material. I ask that EMS get that portion out to the rest of us ASAP.

Schedule Events:

March 20th: 0900-1600 is the Table Top Exercise. I request the following personnel to attend: Chief Smith, Chief McCluan, & Lt. Fernandez at the minimum. Other Chief Officers are welcome to come to the TTEEx.

April 2nd: ASI Training. Time TBA, Location TBA: All personnel, except for the Chief and A/C's need to attend. This training will be a review of the Policy, EMS Assessment and Treatment. Equipment Review and a Walk Through Scenario to put it all together.

April 12th: 2100-0400 ASI Exercise: Millenia Mall. I will coordinate with S& L for the use of 2 reserve Engines. That means I will need personnel to pick-up and return the units.

April 17th: Time TBA, Location TBA. Post Exercise Review and lessons learned. This meeting is to review everything that occurred and I expect some recommendations, not complaints.

If there are any changes or add-on, I will keep you posted.

Personnel and their expected roles:

* Lt. McDonald and Pielin: Company Officers for the Scenario

Eng. Bishop and Trammel: Engineers for the Scenario.

Lt.'s Pegues & Griffin, Ff's Marquez and Toyloy: will assume the roles of the FF's.

Chief McCluan: Initial Commander then EMS/MCI Officer

Chief Smith: Command at the UC.

Lt.'s Driscoll, Fernandez, Preston and Saunders: I would like to request to use you as our Assessors or as a back-up player.

*I chose the Junior C.O.'s (if I can call them that) to give them more Group Leader Command training.

The In House Trainers:

For the April 2nd Training: D/C McCluan, Lt Driscoll and FF Marquez should be considered the lead instructors, just a recommendation, **Ch McCluan**, please use the personnel listed to your best advantage for the upcoming training.

Ladies and gentlemen: I just want to add that I am excited to have all of you as part of this Policy/SOP. You are all producers, that's what I like and that's what OFD needs. In the mean time, once you review the policy and want some one-on-one review, please contact me and I'll come out to you.

Thank you and please feel free to contact me.
