Forward Looking Statements

This presentation contains forward-looking statements made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve a number of risks, uncertainties or other factors beyond the company's control, which may cause material differences in actual results, performance or other expectations. These factors include, but are not limited to, general economic conditions, competition, new development, construction and ventures, substantial leverage and debt service, fluctuations in currency exchange rates and interest rates, government regulation, tax law changes and the impact of U.S. tax reform, legalization of gaming, natural or man-made disasters, terrorist acts or war, outbreaks of infectious diseases, insurance, gaming promoters, risks relating to our gaming licenses, certificate and subconcession, infrastructure in Macao, our subsidiaries' ability to make distribution payments to us, and other factors detailed in the reports filed by Las Vegas Sands with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date thereof. Las Vegas Sands assumes no obligation to update such information.

Within this presentation, the company may make reference to certain non-GAAP financial measures including "adjusted net income," "adjusted earnings per diluted share," and "consolidated adjusted property EBITDA," which have directly comparable financial measures presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), along with "adjusted property EBITDA margin," "hold-normalized adjusted property EBITDA," "hold-normalized adjusted property EBITDA margin," "hold-normalized adjusted net income," and "hold-normalized adjusted earnings per diluted share," as well as presenting these items on a constant currency basis. The specific reasons why the company's management believes the presentation of each of these non-GAAP financial measures provides useful information to investors regarding Las Vegas Sands' financial condition, results of operations and cash flows, as well as reconciliations of the non-GAAP measures to the most directly comparable GAAP measures, are included in the company's Form 8-K dated April 25, 2018, which is available on the company's website at www.sands.com. Reconciliations also are available in the Non-GAAP Measures Reconciliations section of this presentation.

Industry's Strongest Balance Sheet and Cash Flow Create Ability to Reinvest in Current Portfolio, Return Capital to Shareholders and Preserve Ability to Make Investments in New Jurisdictions – Allows Potential Investments of \$20 Billion or More in the Future

1. Debt balances shown here exclude deferred financing costs of \$112 million.

2. Reflects only the public (non-LVS) portion of dividends paid by Sands China. Total dividends paid by Sands China in the TTM period ended March 31, 2018 were \$2.06 billion.

3. U.S. Operations include the cash and debt at the U.S. Restricted Group and adjusted property EBITDA from Las Vegas Operations and Sands Bethlehem.

4. TTM Adjusted Property EBITDA for Sands China presented here reflects Adjusted Property EBITDA from our Macao Operations.

5. TTM Adjusted Property EBITDA for U.S. Operations for covenant compliance purposes, which is adjusted primarily for the dividends and royalty fees paid by Sands China and Marina Bay Sands to the U.S. Operations, was \$2.91 billion.

6. This ratio is a simplified calculation using adjusted property EBITDA. The TTM adjusted property EBITDA amounts shown above are different from the calculation as defined per respective debt agreements for covenant compliance purposes. For Sands China, Marina Bay Sands and U.S. Operations, the leverage ratio for covenant compliance purposes was 1.6x, 1.7x and 0.4x, respectively.

3. Reflects interim dividend paid, final dividend is expected to be approximately \$1.03 billion and is expected to be paid on or around June 22, 2018.

U.S. Tax Reform Impact on LVS

IN THE FIRST QUARTER OF 2018:

- **Application of the Tax Cuts and Job Act (“the Act”) to 2018 Tax Provision**
- **Nonrecurring, non-cash benefit of \$670 million (\$0.85 per share) in reported 1Q18 results**
 - Triggered by a technical tax interpretation in our initial application of the Global Intangible Low-Taxed Income (“GILTI”) portion of the Act in 1Q18
 - The benefit may be reversed in future periods as technical corrections are made to the Act or as a result of the Internal Revenue Service issuing guidance
- **Post-Act GAAP and cash effective tax rate for 1Q18 of 10%, excluding the one-time, non-cash benefit**
- **We will continue to monitor legislative updates and rules of implementation**
 - The Act creates complexity that will likely require legislative technical corrections and implementation guidance from the Internal Revenue Service
 - These future changes will likely impact our tax return filing positions and may impact the estimates and assumptions utilized in our analyses to-date of the Act

IN THE FOURTH QUARTER OF 2017:

- **Enactment of the Act**
- **Nonrecurring, non-cash benefit of \$526 million (\$0.66 per share) in reported 4Q17 results**
 - Due to utilization of previously generated foreign tax credits to offset U.S. income tax on royalty & service income from our international operations in future periods
 - Previously the Company had recorded a full valuation allowance on these foreign tax credits
 - Benefit included the corporate rate reduction impact on U.S. net deferred taxes
 - Based on initial analysis of the Act enacted in the U.S. in December 2017 and may be adjusted in future periods as required
- **GAAP and cash effective tax rate for 4Q17 of 10%, excluding the one-time, non-cash benefit**

Overview of ASC 606

Revenue From Contracts With Customers

■ Background:

- Accounting Standards Codification (ASC) 606, Revenue From Contracts With Customers, was issued by the FASB on May 28, 2014 in collaboration with the IASB
- For all public entities, ASC 606 was originally effective for periods (including Interim periods) beginning after December 15, 2016
- On August 12, 2015, FASB issued an update which postponed the effective date after which adoption was mandatory for all public entities, to periods beginning after December 15, 2017
- In order to comply with all applicable standards, Las Vegas Sands adopted ASC 606 - Revenue from Contracts with Customers - on January 1, 2018

■ Primary areas in which adoption of ASC 606 applies to Las Vegas Sands:

- Promotional Allowances; Complimentary Items; Certain Commissions; Loyalty Program Costs, Breakage on Chip Liability and Automatic Gratuities. In Nevada only, fees for Wide Area Progressives are also impacted.

■ Summary financial impact:

The standard was implemented on a full retrospective basis, prior periods have been conformed to the current period presentation. The principal impact on consolidated LVSC reporting in both 2017 and 2016 is as follows:

- Reported Net Revenues decline By ~1.2% compared to reporting under the prior methodology
- Consolidated adjusted property EBITDA margin increased by ~50 bps compared to reporting under the prior methodology

- Please see the following two pages of this presentation for further detail on the primary impacts to the Company's financial statements and a comparison of LVSC Consolidated results as originally reported and as reported reflecting the new accounting standards.

- Please see the 1Q18 Earnings Call Supplemental Materials posted to the Investor Relations section of our website (www.sands.com) for a more detailed presentation of certain prior LVSC Consolidated Results and our Results by Property, to conform to the current period presentation.

Implementation of New Accounting Standard For Revenue Recognition (ASC 606)

- The following table illustrates the primary impacts of the implementation of ASC 606 to the Company's financial statements:

	Prior Treatment	New Treatment
Promotional Allowances/ Other Complimentaries	Deducted from gross revenues to arrive at net revenues	Deducted from casino revenue primarily Increases revenue category associated with the complimentary
Certain Commissions	Recorded as casino expense	Deducted from casino revenue
Loyalty Program	<ul style="list-style-type: none"> Recorded at cost Expense primarily recorded to casino expense Redemptions made with third parties recorded to casino expense 	<ul style="list-style-type: none"> Recorded at retail value Deducted from casino revenue as earned Results in revenue as points redeemed Redemptions made with third parties do not impact the income statement
Cost of Complimentaries	Reclassified out of the department providing comp into the casino department	Remains in the department providing the comp
Breakage on Chip Liability	Recorded to other revenue	Recorded to casino revenue
Automatic Gratuities	Excluded from revenue and expenses	Included in revenue and expenses
Fees for Wide Area Progressives (Nevada Only)	Deducted from casino revenue	Recorded to casino expense

1. This schedule presents hold-normalized adjusted property EBITDA based on the following methodology:

- for Macao Operations: if the quarter's rolling win percentage is outside of the 3.00%-3.30% band, then a hold adjustment is calculated by applying a rolling win percentage of 3.15% to the rolling volume for the quarter.
- for Marina Bay Sands: if the quarter's rolling win percentage is outside of the 2.70%-3.00% band, then a hold adjustment is calculated by applying a rolling win percentage of 2.85% to the rolling volume for the quarter.
- for Las Vegas Operations: if the quarter's baccarat win percentage is outside of the 18.0%-26.0% band, then a hold adjustment is calculated by applying a baccarat win percentage of 22.0%, and if the quarter's non-baccarat win percentage is outside of the 16.0%-24.0% band, then a hold adjustment is calculated by applying a non-baccarat win percentage of 20.0%.
- for Sands Bethlehem: no hold adjustment is made.
- for all properties: gaming taxes, commissions paid to third parties on incremental win, bad debt expense, discounts and other incentives are applied to determine the hold-normalized adjusted property EBITDA impact.

2. Adjusted property EBITDA presented here reflects adjusted property EBITDA from The Venetian Macao, Sands Cotai Central, The Parisian Macao, The Plaza Macao and Four Seasons Hotel Macao, Sands Macao and Ferry Operations and Other.

Note: Prior periods presented have been updated to reflect the implementation of ASC 606, please refer to 'Adoption of The Financial Accounting Standard Board's Accounting Standard Codification 606 on Revenue from Contracts with Customers' section in 1Q18 Earnings Call Supplemental Materials for further detail.

Infrastructure: China's High-Speed Rail Connecting More of Mainland China to Macao

Guangzhou – Zhuhai Intercity Rail

- Rail line connecting Guangzhou to Zhuhai, where the Gongbei border gate to Macao is located
- Guangzhou is the largest city in Guangdong province and is a key economic and transportation hub
- Reduces travel time from Guangzhou to Zhuhai from 2+ hours by bus to as short as 60 minutes
- Zhuhai station opened in Jan 2013
- Future link to Macao Light Rail System
- 35 trains in each direction each day

Beijing – Guangzhou High-Speed Rail

- World's longest high-speed rail route
- Covers 2,298km in ~10 hours (compared to 22 hours previously)
- Provides seamless connection from Northern China to the Macao border via the Guangzhou-Zhuhai Intercity Rail
- 5-10 trains in each direction each day

Wuhan – Guangzhou High-Speed Rail

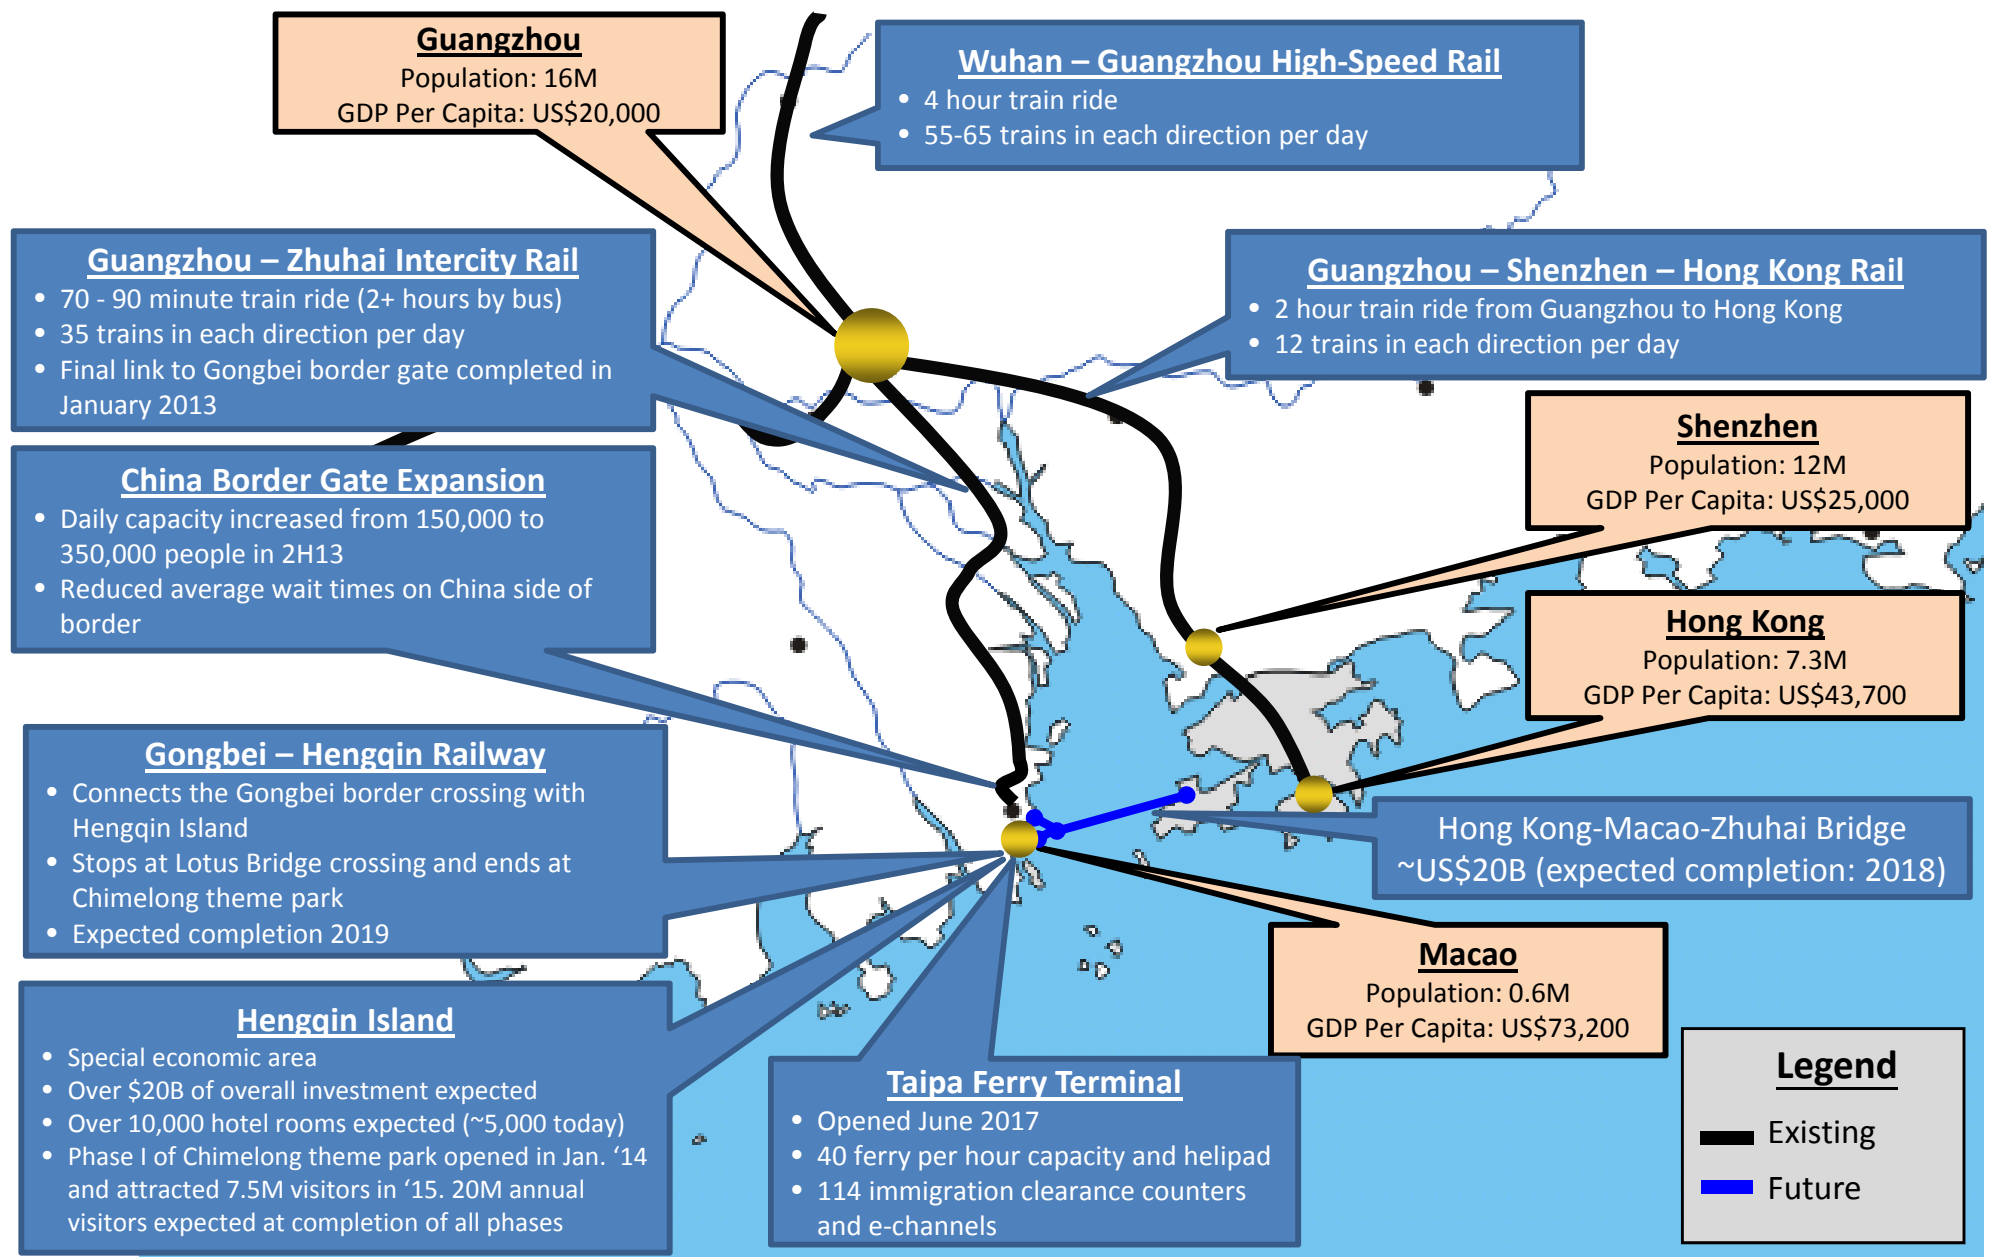

- Wuhan is the capital of Hubei Province and one of the most populous cities in Central China with ~10 million people
- Wuhan is an important economic and transportation hub in Central China
- HSR reduces travel time to Guangzhou from 11 hours by bus to under 4 hours by train
- 55-65 trains in each direction each day

The Chinese Premier Has Pledged to Continue Heavy Investment in the High Speed Rail System – Approximately US\$130 billion per year for the 2016-2020 Period

The Hong Kong-Macao-Zhuhai Bridge \$20 Billion Bridge Linking the Pearl River Delta

- Prior to project completion, no roads directly connect Zhuhai and Macao with Hong Kong. Automobile traffic must currently detour via the Humen Bridge - a 200km journey of approximately four hours
- The bridge will cut travel time between Hong Kong and Macao from approximately three hours (via train/car and ferry) to approximately 30 – 45 minutes
- The bridge is expected to open in 2018
- The main structure was completed on July 7, 2017
- Access to Macao will be provided via an artificial island which will connect to the Macao peninsula
- The main structure measures 29.6 kilometers, consisting of a 22.9-km bridge section and 6.7-km underground tunnel
- When completed, it will be one of the longest bridges in the world, equivalent to more than 15 Golden Gate Bridges lined end to end

The Greater Bay Area

Promoting the Economic and Social Integration of the Pearl River Delta

- The Greater Bay Area (“GBA”) initiative was officially presented during the 12th National Peoples Congress in March 2017
- The GBA initiative promotes the development of the Pearl River Delta region via economic and social integration of 11 cities, including Hong Kong, Macao and nine major cities of Guangdong Province (the most affluent and populous province in China)
- The Guangdong-Hong Kong-Macao Greater Bay Area is geared to replicate the success stories of the world's three leading bay areas - in New York, San Francisco and Tokyo

Greater Bay Area

- A 56,500 sq. km area encompassing 11 cities
- US\$1.36 trillion GDP in 2016, with an estimated population of 66.7 million
- Two key railways: Beijing-Guangzhou and Beijing-Kowloon lines
- 2 of China’s 4 busiest airports: Hong Kong International Airport (2nd in China, 8th globally) and Baiyun Airport of Guangzhou (4th in China, 15th globally)
- Connected by the Hong Kong-Macao-Zhuhai bridge (expected completion in 2018)

The Greater Bay Area Initiative Accounted for 5% of China’s Population and ~12% of China’s GDP in 2016

1. Adjustment reflects the impact of the Tax Cuts and Jobs Act enacted in the U.S. in December 2017 (the "Act" or "tax reform") on the valuation allowance related to certain of the company's tax attributes. This adjustment includes estimates and assumptions based on the company's initial analysis of the Act in applying it to the 2018 income tax provision and may be adjusted in future periods as required. The Act creates complexity that will likely require implementation guidance from the Internal Revenue Service and could impact the company's tax return filing positions, which may impact the estimates and assumptions utilized in the initial analysis.

2. The income tax impact for each adjustment is derived by applying the effective tax rate, including current and deferred income tax expense, based upon the jurisdiction and the nature of the adjustment.

1. This schedule presents hold-normalized adjusted property EBITDA based on the following methodology:

- for Macao Operations : if the quarter's rolling win percentage is outside of the 3.00%-3.30% band, then a hold adjustment is calculated by applying a rolling win percentage of 3.15% to the rolling volume for the quarter
- for Marina Bay Sands: if the quarter's rolling win percentage is outside of the 2.70%-3.00% band, then a hold adjustment is calculated by applying a rolling win percentage of 2.85% to the rolling volume for the quarter
- for Las Vegas Operations: if the quarter's baccarat win percentage is outside of the 18.0%-26.0% band, then a hold adjustment is calculated by applying a baccarat win percentage of 22.0%, and if the quarter's non-baccarat win percentage is outside of the 16.0%-24.0% band, then a hold adjustment is calculated by applying a non-baccarat win percentage of 20.0%
- for Sands Bethlehem: no hold adjustment is made
- for all properties: gaming taxes, commissions paid to third parties on incremental win, bad debt expense, discounts and other incentives are applied to determine the hold-normalized adjusted property EBITDA impact

2. Adjusted property EBITDA presented here reflects adjusted property EBITDA from The Venetian Macao, Sands Cotai Central, The Parisian Macao, The Plaza Macao and Four Seasons Hotel Macao, Sands Macao and Ferry Operations and Other.
