Dear Louis,

Thanks so much for your help. I wanted to make sure to note that I'm requesting records even if they concern what Mr Kushner represents to be personal visits to the countries or personal communications with officials of foreign countries. Many thanks,
Aram Roston

Aram: As per our *tele con* yesterday, please see the streamlined version below. Please let me know if you are fine with it. Regards, Louis

"All State Department records, including American Embassy documents, related to the official activities of Presidential Adviser Jared Kushner for the period January 20, 2017 to the present. This request excludes press articles, press briefings, speeches, and other items already in the public domain."

This reformulation will expedite the process and should get you all the information that you have noted is of interest to you.
